COURSE DESCRIPTION AND OBJECTIVES

This course explores the creative process and the principles and tools of design as they apply to costume design. Emphasis will be on script analysis, period and conceptual research, and rendering techniques, utilizing classroom discussion, design evaluation, practical exercises and projects.

COURSE POLICIES

ATTENDANCE

- You are allowed **three absences** without penalty, regardless of the reasons for the absences. Each subsequent absence will reduce your final grade by 1/3 of a letter.
- Three instances of tardiness (arriving after roll call and class has begun) will count as one absence.

GRADING

If you

- Attend, are prepared **and** participate in all classes
- Attend **all** required performances
- Have all projects and writing assignments completed on time

you will be doing **satisfactory** work for this course.

If you

- Accomplish **ALL** the above
- Make an honest commitment to challenge yourself
- Exhibit active engagement with the subject matter

you will be doing **good** work for this course.

As published in the college catalogue:

"In official recording of academic work, the following symbols are employed: A, excellent; B, good; C, satisfactory; D, passing; ...F, failure...." (p. 76)

COURSEWORK

<u>Class Participation:</u> Worth up to 20% of your final grade, participation is an essential part of this course. Class discussions, exercises, presentations, general attitude, general involvement, initiative, preparedness, etc., contribute to the class participation grade.

Design Projects: During the course of the semester, you are required to present three designs of assigned plays.

Guidelines for the projects will be discussed in class. Each design is worth a potential 20% for a total of 60% of your final grade. Although projects are weighted equally, expectations increase with each project, culminating in the final project.

Final Project: The Final Project is the capstone experience for the course, and is worth a potential 20% of your final grade. As is the case with the design projects, guidelines for the Final Project will be discussed in class.

Thus:	Class Participation	20%
	Design 1	20%
	Design 2	20%
	Design 3	20%
	Final Design	20%
