Statement of Understanding Regarding The Use Of Information Gathered For HEDS

The Higher Education Data Sharing (HEDS) Consortium is a voluntary not-for-profit organization that assists member institutions in their planning, management, and institutional research, by assembling and sharing a mutually agreed upon and regularly updated set of information, and by providing other services as directed by the Board.

HEDS members have an interest in assuring appropriate confidentiality for the data they provide through Consortium activities. They also have a proprietary interest in that information, since they are assuming the internal costs of compiling it and paying the HEDS Office for its collection, analysis, and distribution. HEDS has an interest in assuring that this information is not made available to third parties without appropriate permission and compensation, and HEDS members conduct their activities with the following understandings:

1. HEDS members agree that they will use data from other institutions received through HEDS only for their own internal planning and management, and not for external publication. For instance, it is appropriate to use such data in presentations to senior administrators or a board, but not for admissions publications or news releases. Even within the institution, HEDS members shall use discretion in how data for other institutions are used. It is usually appropriate to share data fully with senior administrators and trustees, but it may not be appropriate to provide hard copy to faculty committees, and is almost certainly advisable to share data with students only when institutional identities are masked. The HEDS representatives at each institution must assure that anyone to whom data are given understands their confidential character and the ground rules governing their use.
2. Under the "fair play" ground rule, a HEDS institution is entitled to receive information from other members only in those areas and for those years for which it has provided comparable information.
3. While HEDS surveys and reports usually identify data with the institutions from which they came, some HEDS reports will, by request of HEDS members, provide data only in a masked or aggregated form. In those cases, HEDS shall maintain the confidentiality of the institutional data except where specific permission for release is granted by the participating institutions.
4. HEDS explicitly recognizes the value of research and publication in higher education. Accordingly, any HEDS member may undertake and publish studies using HEDS data in professional associations and publications so long as appropriate confidentiality is preserved. At a minimum, participating institutions may not be identified by name without their permission; data shall not be identified by name without specific institutional permission; and HEDS may not be identified as the source of the information without permission of the HEDS Board.

Although the material in this report is based on public information, we remind you that it is available in this format only to member institutions, and, therefore, should be distributed only with the established Consortium guidelines listed above. While HEDS strives for accuracy, we obviously cannot guarantee the accuracy of survey responses nor be responsible for consequential damages resulting from the use of HEDS data.

Executive Summary

This report summarizes information that was collected by the Higher Education Data Sharing Consortium (HEDS) for the fall of 2005. Eighty-four HEDS member institutions (63.6%) participated in the HEDS Undergraduate Admissions Study.

Introduction

This report summarizes information that was collected by the Higher Education Data Sharing Consortium (HEDS) during the fall of 2005. The report contains data from 84 institutions received by HEDS through December 13, 2005. Data are based on all students entering the institution's undergraduate programs as freshmen, for the first time on a full-time basis.

Purpose

HEDS conducts the Undergraduate Admissions Study at the direction of the HEDS Board of Directors and the HEDS Research Advisory Committee (RAC). The primary purposes of this study are:

- To accurately describe institutions' relevant characteristics for first-time students;
- To provide each participating institution a comparative basis for judging the magnitude of its admissions indicators;
- To reflect changes in the trends of admissions indicators over time.

Disclaimer

Although this material is based on public information, we remind you that it is available in this format only to member institutions, and, therefore, should be distributed only with the established Consortium guidelines. While HEDS strives for accuracy, we obviously cannot guarantee the accuracy of survey responses nor be responsible for consequential damages resulting from the use of HEDS data.

Methodology

Participants

Eighty-four HEDS members submitted data on the Fall 2005 Undergraduate Admissions Questionnaire for inclusion in this study. Participants included 69 Baccalaureate-Liberal Arts institutions, 12 Master's I institutions, 2 Schools of Business and Management, and 1 Doctoral/Research-Intensive institution.

Data

Members of the HEDS Consortium were invited to participate in this study by submitting their data to HEDS on the Fall 2005 HEDS Undergraduate Admissions Questionnaire. The data are based on *all* students who participated in an institution's first-time, full-time student admissions process in anticipation of Fall 2005 enrollment. Students entering both liberal arts and sciences, vocational professional or other non-liberal arts programs such as engineering, education, business, communications or music, and those whose degree program intention was not known at the time of admission were included. Members had the option to complete the electronic template, the 4-page paper survey or to provide an electronic data file containing unit-record level data for admitted and matriculated students.

Analysis

This year's UG Admissions Report utilizes various ratios to provide comparative information for participating institutions.

APPENDIX B: NOTES

Institution	Question	Comment
Alma College	8	International Students
Babson College	8	TOEFL Takers
Bates College	8	Standardized test scores are optional for admission at Bates College.
Bowdoin College	8	Non-submitters are not included - SAT scores are not required for admission to Bowdoin.
Dickinson College	8	Test scores are optional for admission into Dickinson. Scores are reported only for those who submitted test scores for admission.
Earlham College	8	Transfer students, special non-degree seeking students, and first year students with TOEFL or ACT only.
Franklin and Marshall College	8	Students using the no-SAT option
Goucher College	8	Data excludes pure ACT score senders only
Grinnell College	8	Scores for all entering first-year students were included.
Guilford College	13	Early Action and then rolling admissions
Hartwick College	8	Students who chose to not submit scores as a part of the application process.
Juniata College	8	Conditional Admits
	13	Early Action reinstituted for 2005-06 recruiting year.
Macalester College	8	Applicants whose primary language is not English who submit a TOEFL are excluded from SAT Verbal calculations.
Pitzer College	8	Exams are optional for Pitzer college and the SAT numbers are only for those who submitted them.
Wellesley College	13	Early Evaluation
Wheaton College (MA)	8	Submission of SAT scores is optional: All means and percentiles are based on students who chose to have their scores considered as part of their application. "Unknown" are students who chose not to submit scores or did not have SAT scores.
	13	Two early decision plans; deadlines are 11/15 and 1/15.

APPENDIX C: BLANK SURVEY

HEDS UNDERGRADUATE ADMISSIONS QUESTIONNAIRE, FALL 2005

General Instructions and Definitions

Under the direction of the Research Advisory Committee (RAC) the HEDS Undergraduate Admissions survey was revised for Fall 2004. These revisions have continued for Fall 2005.

Part A - Only the total number of applications (using the CDS definition of applicants, also commonly referred to as "actionable applicants") should be reported.

Part B - No Changes

Part C - Number of students graduating from public and non-public secondary schools has been omitted from the survey

Part D - Ethnicity categories have been expanded to include "Other/Multi-racial" and "Unknown or Unreported". The SAT Score by Ethnic Group for Matriculating Students has been omitted from the survey.

Part E - ACT survey data is requested in question 12. Ethnicity categories have been expanded to include "Other/Multi-racial" and "Unknown or Unreported". Question 13 has been expanded to include "N/A rolling admissions".

Part F - Entire section has been omitted from the survey.

Who should be included:

Regardless of whether your institution submits the hardcopy 4-page questionnaire or the electronic file and 1-page questionnaire, please provide data for all students who participated in your institution's first-time, full-time student admissions process in anticipation of Fall 2004 enrollment.

Include both liberal arts & sciences students, and those students entering vocational, professional or other non-liberal arts programs such as engineering, education, business, communications or music.

Include students whose degree program intention is not known at the time of admission.

Definitions:

Total Institution: All first-time, full-time freshmen, regardless of school or department within an institution.

Actionable Applicants: Applicants should include only those students who fulfilled the requirements for consideration for admission (i.e., who completed actionable applications) and who have been notified of one of the following actions: admission, non-admission, placement on waiting list, or application withdrawn (by applicant or institution).

Acceptees: Individuals who were sent letters of acceptance by the institution, including students initially placed on a waiting list and then accepted.

Students sending deposits: Students who responded to the acceptance letter by sending a required deposit.

Matriculating students: Students who enrolled in the Fall 2004 semester, excluding deferred matriculants.

Pre-normal notification candidates: All individuals whose admissions process was expedited through early decision, early action, early notification, or other procedures resulting in the individual's knowing his/her admissions status before "normal" notification time.

- **Early Decision:** Pre-normal notification program for those applicants who decide your college is their first choice and who are certain they will attend if accepted. If admitted, an applicant is required to withdraw all other college applications from further consideration and may not initiate any new applications.
- **Early Action:** Pre-normal notification program in which an admission decision is made prior to the Common Notification Date. If admitted, an applicant is not bound to attending your institution. A student applies for this program, as opposed to early notification which is at the discretion of the institution.
- **Early Notification:** Pre-normal notification decision, at the institution's discretion, prior to Common Notification Date. If admitted, an applicant is not bound to attending your institution. Early notification is frequently used by an institution to entice the "best" applicants to matriculate.
