About Chatterbox

Chatterbox Audio Theater was created in 2007 by four friends with a lot of creativity and ambition but very little money. Based in Memphis, Tennessee, with additional productions created in Kansas City, Missouri, Chatterbox creates fully soundscaped audio works for free streaming or download. With rare exceptions, Chatterbox shows are recorded live, with manual sound effects and as little post-production editing as possible.

Mission Statement

Chatterbox Audio Theater is a non-profit web-based community theater that advances the exchange of ideas by channeling creativity and artistic collaboration into recorded audio works that enlighten, entertain and inspire.

We are grateful to the Neely Mallory family for the endowment gift of The Noreen Cathey Mallory Theatrical Fund, which will underwrite one production a year.

The McCoy Theatre infrared hearing system is the gift of the Menke Foundation in honor of Edwin Howard.

The McCoy Theatre is the producing component of the academic program of the Department of Theatre. In order to continue producing plays, our production costs must be met through gifts and subscriptions, as well as single ticket sales. Through your financial support and your intellectual curiosity, you are literally giving life to this important developmental stage of an incredibly valuable art form. We extend our deepest thanks to our supporters and hope that others will consider becoming a Producer, Benefactor or Patron-level donor.
