Vote For Progress

We Recommend These Candidates August 4th

What decisions will Memphians make when they go to the polls Thursday? What does one person have to offer? How different will he act from his opposition if he is elected to office? Will he, ifelected, be willing to make an honest effort to represent all the citizens of the community? How sincere are his reasons for wanting to hold of-

fice in government? These are some of the questions votes should ask themselves before casting their vote in the Memphis and Shelby County election Thurs-

The Memphis World has already endorsed the four Negro candidates seeking office, because we feel that better government is ralized when individuals of all rases have a part in government.

We further feel that we owe our readers the benefit of knowing our endorsement of other candidates in the August 4th election. WE RECOMMEND SHERIFF

Vet Trainees Urged To File Applications

Veterans planning to train under the Korean GI Bill this coming fall were urged Friday by the Veterans Administration to get their applications in now, rather than wait until the last minute.

This same advice holds true for young men and women who intend to start school in the fall under the War Orphans Education program.

By filing an application now, early in the summer, all processing can be completed long before classes start, the VA pointed out. Any snags or special problems can be ironed out with time to spare. But waiting until the last minute — when VA regional offices may be swamped with applications — may risk delay.

Some veterans' widows receiving dependency and indemnity compen-sation may be emitted to receive higher payments as the results of a recently enacted law, the Veterans Administration said recently.

The amount of dependency and indemnity compensation is now based in part on the rank of the deceased veteran at the time of his separation from service, Harry G. Phillips, Officer - in - Charge of y's Office in Memphis, said

The new law, known as Public Law 86-492, allows the widow to receive payments based on a higher rank, provided the veteran satis-factorily held the higher rank for at least six months and was holding it within 120 days of the date of his death or separation from the service.

The VA lacks the necessary information to identify these eligible widows. Widows whose husbands at one time held a rank higher than their rank at separation, under the above conditions, should contact the Memphis VA Office, Phillips advised.

Demos, GOP Platforms Now Before the Nation

The major political parties, now that the nominating conventions are over, must now submit records and platforms to the nation. A plank-by-plank comparison of the issues projected by the parties and candidates reveals awareness of both sides as to pressing world and domestic problems. There is basic disagreement on how these problems should be approached and the diplomatic skill in which they should be handled.

The Democratic Party meeting in Los Angeles blueprinted a sweeping program which called for new frontiers in statesmanship, civil rights, defense, agriculture, labor, health, education, urban affairs, conservation, immigration, as well as fiscal and economic problems.

The Republican Party with the yardstick of a 14-point agreement between nominee Richard M. Nixon and Nelson Rockefeller, thas enlarged the role of the Grand Old Party into a broad international concept as well as a forward-looking national role.

Senator John Kennedy, the Democratic nominee, and his running mate, Senator Lyndon Johnson, have vowed to campaign for extension of the welfare state and unlimited defense spending.

Far-reaching goals have been expressed in the field of civil rights by both parties. The language often differs, but the intent is often boldly stated,

Unquestionably, both parties are committed to reshape our national policies, revamping our alobal relations, and to cement his universe into a one-world, so it boils down to which candidate has the experience, understanding and influence to get the job done.

Nixon as an ambastador of goodwill for the Eisenhower administration certainly would seem to be the most able man the field regardless of the appeal of the Kennedy-Johnson ricket.

Mr. Nixon, GOP Standard Bearer

Richard M. Nixon, who more than any Vice President in our nation's history, has been an active factor in crusading for and determining both domestic and foreign policies, has been nominated as the Republican candidate for the Presidency of the United States of America.

The Republican Party, except for minor moves by Louisiana and Arizona delegations, has handed the man who so ably assisted President Eisenhower in his crusade for peace, the nomination with no opposition which could have possibly taken more than a state from him.

This was a combination of brilliant maneuvering and public deciloration for the 47-year-old man Republicans expect to continue the work of the GOP. It was more effective than the fast moving actions of his apponent, John F. Kennedy, of Massachusetts. Kennedy was unable in his campaign to completely gain the good word of all conflicting areas of the nation, Nixon achieved this end, which may be an insight into the results of me campaign in November.

Charge Five Men Cut Off Fingers For Insurance

BURLINGTON, N. C. - (UPI)-Police arrested five Negroes Friday and charged them with an insurance fraud in which three of the men allowed companions to cut off four fingers of their left hands

Burlington police said George Bryson, 28, took out two \$1,250 insurance policies and one for \$500 on the use of his hands. They said Bryson's brother, James, 19, then severed the digits with a power saw. Bryson collected on the policies, authorities said, by telling the insurance comapnies he lost his fingers in a gardening accident.

Police said Thomas Tate and Walter Rogers heard of Bryson's "windfall" and allowed James Bryson to remove four fingers from their left hands. They, too, had taken out insurance policies, according to police.

Back in 1950, Dr. Ochs recalls, he noted that a chemical called aceric acid, was effective against all the various organisms that cause swimmer's ear!
