Memphians were shocked Tuesday morning when they learned a Negro prisoner, Arthur Eugene Fisher, 24, of 1698 S. Parkway East, had been whipped, beaten and kicked by three policemen at Armour Center on Monday night.

A reporter for the Commercial Appeal, Kenneth Starck, said he witnessed the beating at the police station.

Chief Macdonald promised a thorough investigation into charges that the prisoner had been beaten.

Mrs. Maxine Smith, executive secretary of the Memphis Branch NAACP, said a meeting was being called Tuesday to take some action against this type of police brutality.

Other aroused organizations and individuals were planning meetings to draw up strong protests to city officials.

Said one prominent citizen: "This is more like days of slavery. It smacks of Hitler and Mussolini."

Macdonald said there will be no whitewash.

The beaten prisoner was one of three arrested and accused of shoplifting at Katz' Drug Store at the Lamar Shopping Center.

Starck saw the prisoner being beaten and whipped by officers by looking through a transparent glass of a rather small window in the room. He said he got a good view of the officer swinging the strap.

He said the officers involved did not deny the attack but

claimed the prisoner had resisted arrest.

Chief Macdonald said officers involved are Desk Sgt. R. M. Henderson, and Patrolmen M. S. Willis and S. H. Weir.

Fisher said the three men beat him, that one used his fist, one used a billy club and the other used a strap. He said one kicked him in the groin and another attempted to stomp him on the head.

The officers involved told the chief it was just a scuffle.

## Inside Memphis

THEY CLIPPED GEORGE LEE'S POLITICAL WINGS at the polls last Fall but they didn't shut him up and neither did they kill off his spirit to do battle in a political arena. The fallen hero threw off his robe of silence this week and announced to all who care to listen that the big Republican Dinner at the Peabody last week would have gone off without Negroes in attendance if it had not been for pressure from the Republican National Headquarters in Washington.

THE \$5-A-PLATE DINNER WAS INTEGRATED with 50 or more Negroes scattered throughout the dining area of the once lily-white Peabody, making it rather hard to determine just what was what before the Republicans gathered for the evening meal.

IT IS TRUE, HOWEVER, THAT THE DINNER was delayed or postponed from Jan. 17 to Jan. 23, with the announcement that the speaker, William Miller, the party's national chairman, had "the flu." This, some say, is when pressure came from national headquarters and forced the New Guard group, sponsors of the dinner, to straighten up and fly right on the race issue.

DAN KUYKENDALL, chairman of the Republican forces that defeated George Lee and almost unseated Cliff Davis, the veteran Democrat in the U. S. House, denies Mr. Lee's charges. "This has happened before," he said. "Mr. Lee tells his people to stay away and then they charge that it is segregated."

BUT, MR. LEE CONTENDS HE HAS "unquestionable proof" that the dinner was closed to Negroes until pressure came from Washington. "This new (Republican) faction is definitely lily white and founded by disgruntled Democrats and Republicans who do not represent the philosophy on which the party was built," he declared.

SO, LET THIS BE FAIR WARNING! Lieut. George Lee has not surrendered. He's ready to do political battle at the drop of a hat.

## MARY MARTEL

### Mary Offers Advice To Two Women Who Have Awfully Big Problems

Dear Mary:  
My husband is the biggest liar in the state. He lies about everything no matter how small. I have come to the conclusion that he cannot help himself. For example, he will declare he has paid the telephone bill, then a few days later the service will be discontinued for non-payment.  
I am fed up. I feel the truth is not in him. What should I do?  
—Duped.

Dear Mary:  
I have had seven children in the 10 years I have been married. I asked the doctor at the clinic who delivered my last child to do something for me, but he refused saying I was a "breeding woman." Isn't there any place where I can get help with my problem?  
—Mother

Yes, there is a place where you can get help. Go to the Birth Control Center in your home town or if one is not available then see a private physician and tell him your story. If he cannot help you, he will be able to tell you where such information is available.

## Desegregation Suit Is Filed

MONTGOMERY, Ala. — (UPI) — Macon County Negroes filed suit in U.S. Middle District Court Monday asking for immediate desegregation of the Macon County, Ala., school system.

The plaintiffs — 16 school children acting through their parents — seek a permanent injunction prohibiting Macon County School Superintendent C. A. Pruitt and the Board of Education from operating a segregated school system and assigning students and teachers on the basis of race.

Representing the plaintiffs are Fred Gray, a Negro attorney from Montgomery and Constance Baker Motley of New York, an attorney for the National Association for the Advancement of Colored People who represented Negro James H. Meredith in the desegregation of the University of Mississippi.

Macon County, home of famed Tuskegee Institute, has a Negro-white population ratio of 7 to 1.

## Boycott

KAMPALA — (ANP)—The newly formed Uganda National Farmers' and Traders' Movement is planning a boycott of all non-African businesses in Kampala, according to Augustine Kanya, leader of the movement. The plan is that African farmers do not sell their crops to non-African buyers and consumers do not buy goods from non-African shops. **MANASSAS IS IN THE NEWS THIS WEEK**  
 Mr. L. B. Hobson Heads Heart Fund Drive  
 Kick - Off Dinner Held At Sarah Brown YWCA  
 Mr. L. B. Hobson, Principal of Manassas High School and civic leader, will head the Negro Heart Fund Drive for '63. The Memphis educator, who feels a great responsibility to our community, agreed to head the drive, this year after serving last year as chairman of school and college sections raising the largest amount in the Negro Division.  
 The Kick - Off Dinner on Sunday, that started the drive in Memphis, was given at the beautiful new modernistic Sarah Brown Branch YWCA with Mr. Hobson serving as host to his committee members to several prominent citizens and to Heart Fund officials.  
 Mr. Omar Robinson, Director of Music at Douglas High School gave several musical selections and accompanied Joshua Ware, a student at Douglas, who beautifully sang two numbers, during the dinner.

**HEART OFFICIALS SPEAK**  
 In his usual elegant manner Mr. Hobson, spoke, giving the aim of the drive and placing emphasis on citizens giving. After which he presented guests of the evening. First to be presented were Dr. James Culbertson, President of the Memphis Heart Association, Professor of Medicine at the University of Tennessee and a practicing Cardiologist. Dr. Thomas Stern, practicing Cardiologist and President - Elect of the Memphis Heart Association. Mr. Thomas H. Durham, Jr. Executive Director of the Memphis Heart Association and Mrs. Dee Watkins Program and Fund Raising Director of the Memphis Heart Association all who spoke.  Mr. Hobson, who has been active in a number of charity drives and is a member of the Board of the Memphis Heart Fund, is working hard from the very beginning to do a big job and to make the 1963 drive a momentous one. As others have been, he later presented a group of loyal enthusiastic and hard workers present. They were Mr. A. C. Williams, Radio Consultant at Radio Station WDLA who is in charge of Special Events. Mr. W. F. Nabors, Housing Authority who is chairman of local businesses. Mr. W. C. ## SAD NEWS

The sad news of the sudden death of MR. LLOYD JAMES of St. Louis reached Memphis Sunday morning. Mr. James, a former Memphian, was the son of the late Mrs. Lee James and Mr. James of Memphis. He was well known here and was a star in football at Le-Moyne and at Howard University during the early 30's. During the 30's Mr. James was also a member of the popular "Varsity Club," and was well known and liked among a large circle of friends. He was married to a former Memphian Mrs. Ernestine James. Mr. James is survived by his devoted wife, his father, a brother - Inlaw and sister, Mr. and Mrs. Thos Perkins who still lives in Memphis and three other sisters and members of their families. Mrs. Mabel James Weaver of Berkeley Calif., Mrs. Ruby Reed of Cleveland and Mrs. Alberta Flowers of Chicago. The James family lived for years on East McLemore where their home house still stands.

Another shock to Memphians was the passing last week of MR. P. PRESWOOD, veteran Insurance Executive of Dallas, Texas. Mr. Preswood, a past President of Excellor Life Insurance Co. (recently bought by the University Life of Memphis) was no stranger in Memphis. He often visited the city on business and his charming wife makes frequent visits here and is always guest of Mr. and Mrs. Harry Cash, close friends at their South Park-way residence. Mrs. Cash and her mother, Mrs. O. B. Braithwaite went to Dallas last week for the last rites. Mr. Preswood had been ill for some time, but everyone had been hopeful he would regain his health.

Memphians were also saddened and shocked over the passing of MRS. ALONZO (HENRIETTA) WRIGHT of Cleveland, Mr. and Mrs. Wright, a popular and prominent millionaire couple, have often visited Dr. and Mrs. Leland Atkins here and were affectionately remembered by many Memphians. The couple lived for a number of years in a mansion on a 450 acre estate at Chesterland, Ohio just out of Cleveland where they have operated (for years) the years the Majestic Hotel and a number of other enterprises including a Real Estate empire. It was Mr. Wright who started the practice of free services of windshield wiping and battery, oil and water checking. This has been copied all over the United States with his chain of 11 service stations and some 100 employees. The Wrights now have Wright's Enterprise, a Real Estate Investment firm with holdings that include their hotel, a rest home for the aged large apartment buildings and many smaller pieces of property scattered over the city of Cleveland. The Wrights have traveled around the world more than once and were always seen together. Incidentally Mr. Wright is a native of Tennessee. Both were shy when called millionaires even though several magazines and papers have carried success stories on the couple who are loved by all who know them.

Sympathy is also extended to Prof. Wm. FLEMMINGS and members of the Fleming family whose devoted mother passed here last week. The packed Church on Park Ave., in Orange Mound and the many flowers attested to the high esteem in which she was held by all who knew her and her devoted sons. Prof. Flemming, professor at Carnes School, is a familiar figure in Memphis and friendliness and kindness are virtues that he inherited from his late mother who was indeed a beautiful character.

# DOUGLASS HIGH SCHOOL

By BARBARA J. TOWNSEND  
 Hello gang, this is Barbara again bringing you the latest news from station D-O-U-G-L-A-S-S.  
**SPOTLIGHT:**  
 This week's spotlight will fall on all the social clubs around the big "D." The major functions of these clubs are to teach our younger generation loyalty, leadership, scholarship, law - making, and honesty. Outside of these things the clubs give different charity dances, visit good - will homes and have fun among themselves.  
 Listed below are the social clubs and advisors.  
 The House of Elites - Mrs. E. T. Johnson and Mrs. R. E. Brown.  
 The Royal Gents - Mr. O. R. Robinson Jr. and Mr. N. Jackson.  
 The Daughters of Douglass - Mrs. F. Johnson and Mrs. M. Briscoe.  
 The Sons of Douglass - Mr. D. Ward and Mr. F. Gray.  
 The Gracious Diamonds - Mrs. K. Baker and Mrs. S. Murphy.  
 To the young people at Douglass who aren't in any social organizations on campus, help build a larger and better Douglass and join any club you wish.

**"OPERATION EXAMS" -**  
 Peace, peace, we want peace. That's the statement that so many young people cried last week. Now that the exams are over we realize that it wasn't such a hard thing to do and that if we didn't like it we would have to stick it-out any way. Most of the kids around Douglass said that they only had trouble with Mr. McFall's English and Mr. Robinson's General Music, but everything else was alright.  
**"MY ADVICE TO" -**  
 William Fleming: Decide what you're going to do before you do what you want to do.  
 Shirley Hicks: You're using the wrong technique for a person like Sidney Brown.  
 Shirley Walker: Stand up and be seen and not heard. It's later than you think.  
 Anita Jackson: It's not how much you got, it's what you do with what you got.  
 John Jordan: Don't try to be another James Naves, because it isn't healthy.  
 Richard Phillips: In times of the war of trouble, sympathy, love understanding, and kindness are the best weapons.  
**"GOSSIPING" -**  
 McArthur Henderson hangs on to D. R.'s shirttail just like he's a three - year old child. Harvey Tharp had better go with someone else because his popularity is wearing off. Andrew Hall is a big bully (Personally counts, Speedy). John Jordan (Les) happens to be the No. 1 man in a certain Douglass's heart. Anita Jackson (Man)'s still has that crush on Johnny Martin. Waverly Hobson, what happened to you and M. C. (Man). Robert Worsham, I heard that a certain chick at Carver really misses you. Herbert Boyd wouldn't it be a wise thing to go with E. H. Although you all are just good friends. Verle Worsham, that king size crush on star quarterback has been your shot hasn't it? (First on Walter Winfrey (Doug). Then Charles Wright (Les). Charles Thomas, they told me your nose was wide open for Margaret Nunnally. Willie Nunnally, what happened to you and your favorite girl?

The Strong Men Of A Generation

Current history has seen what in the years to come will stand out uniquely in American history. In the air-conditioning of this section pursuant to order of the court to desegregate the schools, at the graduate level, two young men came to judgment and offered themselves up on the sacrificial altar of registration in the University of Mississippi and Clemson College in South Carolina.

While the placement of James H. Meredith caused a terrific commotion, that of Harvey Gantt at Clemson was hardly a purr upon the waters.

Whether South Carolina learned its lesson from the recent case, between the state and federal governments in the Meredith case, is beside the point as far as this approach goes. What is sought for development here is the contrast of the two cases and the ultimate success of both.

The Meredith situation has already cost four and a half million dollars—indeed a high price to pay for a war won in 1865. Harvey Gantt just walked up and registered as another student, save what ordinarily would happen in a sudden change and a little precaution exerted on the part of the state. In the Meredith case, the governor of the state set himself as the official registrar at the Mississippi University, in bold defiance of the court's order and the laws governing matriculation in accredited schools.

Everyone may know by now the Meredith story. Meredith was subjected to humiliation, abuse, threats, and all sorts of hardships in his effort to study and make passing grades at the university. Here the physical, mental and intellectual man was tested.

Meredith stood all this as a bold giant against a stormy sky. He lived through it all and as of now, he is quoted as saying he will stay the "Ole Miss" job through.

To Meredith's credit it must be said he did not let those who in the first place sponsored him. He did not let his country down as he withstood all sorts of abuse and inhumanity as he sought to feed his intellectual man. Neither did he let down that long line of Negro boys, born and unborn, waiting to come after him. A strong man; a man of steel.

Even so devout a person and impartial arbiter as Attorney General Robert Kennedy went on record as expressing a desire that Meredith remain.

The prayers of the world were placed behind Meredith and his fine judgment and that bold spirit in his bosom fared him on to pursue his course. Whether Meredith ever graduates from Ole Miss or not, it will be said of him that his courage and devotion have a new meaning to loyalty and courage.

Young men, take up this torch.

Let it be said of him as an old poet sung of the ill-fated Earl Kitchener in another war: "Let the music of his triumph be the feet of marching men; let his heart a thousandfold take the field again."

We Need More Educational Opportunities

Congress and the nation should give serious consideration to President Kennedy's recently submitted education program. At this time of competition with threatening ideologies, and recognizing our own shortcomings in schools and youth, nothing surmounts such timely consideration.

The President said in his special message to the Congress that he was proposing a 24-point "comprehensive, balanced program to enlarge the federal government's investment in the education of its citizens." He declared that the program was "aimed at increasing the educational opportunities of potentially every American, regardless of age, race, religion, income and educational achievement."

The single omnibus bill would provide education from the elementary through the post-graduate level, two major parts of the program costing \$2.5 billion over a four-year period. There would be \$1.5 billion in grants to states for public elementary and secondary school construction and teacher salary increases, and \$1 billion for federal loans for construction of college academic facilities.

Although billions of dollars are involved, this is certainly not the time to haggle over expenditures for the future of our youth. Such financial outlays are common in terms of material national defense. Our youth are our emergency now and until they emerge into productive and useful adults. Our problems of delinquency can be tied directly to our schools and homes.

It is to be hoped that hearings of the House Committee on Education and Labor will not bog down with political hypocrisy. Our youth need us now and future generations depend on what we do to plan their way and provide the most efficient and proper guidance.

Again The Filibuster Given Right Of Way

What is getting to be a running sore is the fact that every time a new Congress takes off, valuable time is wasted on the rules around the elimination of the filibuster.

A regular pattern, many southerners look forward to this, a gesture they want sent back home. The filibuster is still in bad company, having seen most of its services in the fight on civil rights and common justice to the Negro element of the country.

Senator Richard B. Russell, who apparently has title to the filibuster franchise, is always ready and looked upon as the high pole-march to take the lead once the tide is ticked off and triggered toward the "enemy."

The Democratic majority is well up against a challenge if the Right on Filibusters is in earnest. The Democratic President has a majority of Democrats in the Congress and it does seem that the President should be able to better marshal his forces in the direction of the principles for which the Democratic platform promised.

It seems that with a working majority of Democrats and a Democratic President that a challenge is rightly being thrust, placing the responsibility in no uncertain place.

Fear Anti-Bias Move Will Kill School Measure

WASHINGTON (UPI) — Anthony J. Celebrezze, the administration's spokesman for aid-to-education Tuesday opposed any anti-discrimination provisions in legislation to help train physicians and dentists.

Celebrezze head of the Department of Health, Education and Welfare, told a House committee the administration was being realistic because any such provisions would mean defeat of the bill.

He said he believed in improving opportunities for all citizens as well as in improving medical training. But he added that to tie anti-discrimination feature to the bill would "defeat both ends."

Celebrezze appeared before the House Commerce Committee on behalf of a proposed construction and student loan program. Under the measure, the government would spend \$813 million over a 10 year period.

Of the total, \$755 million would be for grants to aid in the construction of schools of medicine, dentistry, pharmacy, optometry, podiatry, nursing, osteopathy and public health.

The remainder would be for student loans. These would be limited, however, to those attending medical and dental schools.

Committee Chairman Oren Harris, D-Ark., who introduced the bill, took Celebrezze by surprise at the close of the hearing when he suggested that the construction program be cut from 10 to three years "so we'll have a chance to see how it works."

Harris, asked later why he did not include this provisions when he introduced the bill, said it occurred to him only recently. He said at the hearing that he was concerned about long term programs in general and in particular about those in the fields of health.

mit Meredith, a Negro, to the University of Mississippi. They demanded that the charge of civil contempt be changed to criminal contempt to put the case before a federal district court jury rather than a panel of judges in the Louisiana city.

31-PAGE BRIEF

The charges against Barnett and Johnson should be changed from civil contempt to criminal contempt, a 31-page brief filed with the high court said.

"All present proceedings should be dismissed in this court for lack of jurisdiction, lack of prerequisite of grand jury indictment and lack of procedural power to summon and proceed without a constitutional jury," the brief said.

Barnett's attorneys cited the U. S. Constitution's guarantee that citizens of each state should have equal rights and immunities under the law.

This right, they said, guarantees the two Mississippi officials a trial by jury.

The charges against the two should be criminal contempt and should be tried in Mississippi, the brief said.

Barnett and Johnson were under orders by the 5th Circuit Court to admit Meredith to the school.

DENIES MEREDITH ADMITTANCE Barnett was held in contempt for refusing to permit Meredith to enter the office of the University of Mississippi board of trustees last Sept. 25.

Johnson was held in contempt when, acting under orders from Barnett, refused to let Meredith on the campus Sept. 26.

Meredith's enrollment at the school touched off rioting that left two persons dead and dozens injured. More than 100 persons were arrested during the rioting as U. S. marshals and federal troops poured onto the Ole Miss campus at Oxford to protect Meredith.

SEEING and SAYING

By WILLIAM A. FOWLES Managing Editor, Atlanta Daily World

Let's Get History Straight!

THE GREAT EMPHASIS this month of February is on Negro history and the most often overlooked contributions of American Negroes to the progress of the United States. The week of February 10-16 will be Negro History Week, coming during and near the birthdays of the Great Liberator - Emancipator Abraham Lincoln and Frederick Douglass, a peer of his time.

IT IS NOTWORTHY that a news release from the District of Columbia revealed last week that a curriculum committee is at work, the objective being to teach students more about the Negro's heritage. As the committee found, "only two or three references to the Negro, usually in regard to the slave era or the Reconstruction debacle", are in the accepted high school history books.

A new project would be to help white students get "a different image" of the Negro American with the facts of history in their proper perspective. Negro students would be aided to appreciate their heritage, in short, that they are somebody with high standing in the Master's records.

THIS IS COMMENDABLE, for most young people have not had the opportunity of knowing about the Negro heroes of the Revolutionary War, the Civil War and the other periods of struggle and peace on the American continent. There have been hundreds of heroic contributions of black men to the history of the United States. There have been hundreds of advancements in the industrial and social welfare history of the nation accounted for by men of color.

Historians, too long have overlooked these references of fact, leaving them to be dug up in recent years by research stalwarts, such as Carter G. Woodson. In later years, other historical writers are adding their bit to the true record. More writing along this line should be done.

COURT DECISIONS must be accompanied by an improvement of the image of America's neighbors among themselves, if real implementation is to take place. Some thinking has been entirely guided by misconceptions of the past. This is as wrong today as it was a hundred years ago.

More Top Jobs At Labor Department

WASHINGTON (NNPA)—The Labor Department, founded in 1913, is celebrating "50 Years of Progress" in advancing "the dignity of labor in a free society."

As of last June 30, 1,460 of Labor's 8,288 classified employees were colored. There were broken down as follows: 888 in GS-1 thru 4, 514 in GS-5 thru 11, and 48 in GS-12 thru 18.

While the number of colored persons holding jobs in grades GS-12 thru 18 is smaller than the figures given out by the larger government agencies, it should be remembered that Labor's payroll is much smaller.

Percentage-wise, more colored persons held good jobs at Labor (24 per cent in GS-12-18) than in any other government department, including Dr. Robert C. Weaver's Housing and Home Finance Agency (21 per cent).

AGENCY TAKES LEAD Because its business is labor, the agency has taken the lead in fostering equal job opportunity. Secretary of Labor W. Willard Wirtz is vice chairman of the President's Committee on Equal Employment Opportunity. Most of the members of that committee, incidentally, are carried on the Labor Department payroll.

The department did not know Friday the exact number of colored employees it had in each grade. GS-12 thru 15, but said there were four in super-grade jobs (above GS-15, \$14,565 annually).

The super-grades are George L. P. Weaver, Assistant Secretary of Labor for International Affairs (GS-18, \$20,000); Francis A. Gregory, assistant director for manpower development in the Office of Manpower, Automation, and Training (GS-18); Edward C. Sylvester, assistant to Mr. Weaver (GS-16, \$16,000); and Howard Jenkins, deputy director of the Bureau of Labor Management Reports (GS-10).

In a sense, Labor could also claim the three super-grades on the President's Committee: Hobart Taylor, Jr., executive vice chairman (GS-18); and two GS-16's, John Hope, assistant to the executive director for government employment, and Percy Williams, assistant to the executive director for contract employment.

If it did this (and could get away with it), Labor would rank second in super-grade personnel only to the Agency for International Development (AID), which has 10.

Tshombe Says He's Sick; To Enter Hospital

ELISABETHVILLE, Katanga, The Congo — (UPI) — Katanga President Moïse Tshombe said Tuesday he is in constant pain and probably will leave Wednesday for medical treatment in Northern Rhodesia.

During his absence the provincial government will be headed by Foreign Minister Evariste Kimba. Tshombe was wearing dark glasses when he met the press. Asked what was wrong, he said "principally my eyes." But he refused to elaborate. Asked how long he would be away, Tshombe replied: "Perhaps days, perhaps weeks—that is for the doctors to decide."

Premier Sir Roy Welensky of the Central African Federation said recently he would grant political asylum to Tshombe if he asked for it. Tshombe conferred with Welensky in Northern Rhodesia shortly after the United Nations launched the offensive last December that resulted in his capitulation to central Congo government authority.

Tshombe outlined progress that has been made in the re-integration of mineral-rich Katanga Province with the Congo since he gave up the fight for independence and agreed to the unification plan drawn up by U. N. Secretary General Thant.

"Since we handed over Kolwezi," he said, "I have done my part. It is now up to the three governments who guaranteed the implementation of the Thant plan."

Desegregation In Dade County, Fla. Proceeds Quietly

MIAMI — Quietly and unobtrusively, school integration in one of the most effective and encouraging manners, proceeds without incident at this City's Dade County Junior College.

Of the 6,000 students attending at least 250 are Negroes. All pursue the same academic studies, which, along with active participation as members of the Florida Junior College Athletic Conference, include mutual participation in basketball, baseball, golf, tennis, track gymnastics and swimming.

Situated on a 238 acre tract awarded as a Government grant, the College is currently on a building and beautification program, which in July, 1963 will locate its new building in an area measuring 194,000 square feet. By the Fall of 1964, a new Library will be dedicated.

Operating under the jurisdiction of the Dade County School System, Dade County Junior College is financed by local taxes, tuition fees and State grants. With registration expected to leap from its current 6,000 to 8,000 next Semester, the outlook for 1967 is generally anticipated to reach 10,000.

Constantly planning for the future, a full scholarship program is being offered to Negroes on the same level as white students. Along with their student activities, mutual attendance in cafeterias, browsing together through the same college book store, students at Dade County Junior College are finding that education in the South is, indeed, no longer a far-fetched possibility, but an actual fact.

Alabama Cancels Course After Negro Applies

HUNTSVILLE, Ala. — (ANP) — The University of Alabama canceled an extension course offered here after a Negro woman applied for admission.

Officials at the university's Huntsville center said they acted because they were unable to get speakers needed for the course, a six-week seminar on current affairs.

However, integration leaders are pretty sure that the cancellation was because Mrs. Joan Cashin, wife of a local dentist, applied.

They point out that officials stopped all admissions to the university at Tuscaloosa for next semester after Negroes applied there. There have been no Negro students in any branch of the university since Autherine Lucy was admitted briefly seven years ago.

Mrs. Cashin filed her application for the course in person on December 19. The seminar was to start Feb. 15, required no previous scholastic record and would result in no credit.

A white friend applied later so that university officials would not be able to say Mrs. Cashin was refused admission because she applied too late. All applicants for the course have now been advised that the seminar will not be held.

It was noted that the university center has many students from the Redstone Arsenal near here, which is operated by the Federal Government, regular college-credit courses are offered in such fields as engineering, and many employees at the Arsenal enroll to improve their qualifications for higher job levels and higher pay.

Civil rights leaders here point out that listings of such courses are regularly posted at the Arsenal as an incentive for employees to enroll, although Alabama State policies deny Negro Arsenal employees the right to attend the university extension.

Mrs. Cashin herself has been active in breaking down the barriers here. Last spring she spent several days in jail after she and six others were arrested for sitting in at a drug store counter.

Her husband, Dr. John L. Cashin, Jr., has also been active in opposing various forms of segregation.

MY WEEKLY SERMON By REV. BLAIR T. HUNT, PASTOR, MISSISSIPPI BLVD. CHRISTIAN CHURCH

THE ART OF GETTING ALONG WITH PEOPLE EX: "If It Be Possible, As Much As In You Lie, Be At Peace With All Men." Romans 12:18

The secret of a happy life is in knowing how to live with one's self and with others. In other words how to get along with people. We can't be a person alone. "None of us liveth to himself and none dieth to himself." We are all woven into one fabric or society. We depend upon each other for life for sustenance, for comfort. We cannot isolate ourselves and live. Really live. We can't be a person alone.

First, we must learn to live with ourselves. This is the first law of happiness. Truly did Shakespeare write: "To thine own self be true, and it must follow as the night the day thou cannot then be false to any man." The blessed book declares "As one Thinketh within himself — so is he." In other words we create our own climate.

If we live at peace with ourselves, we can arise each morning and looking up we can say "It is all right between God and us." Yes, we must learn to live with ourselves. Equally difficult is living with others. To live happily with others we must cultivate a cheerful disposition. People are never attracted to a grouchy, fault finder, a complainer. Most people have enough troubles, worries, pains and aches of their own. Let us not thrust ours upon them. They have as much as we can bear.

Don't be boastful; most sensible people think boasters are liars. "Be not wise in your own conceit." Stop using "I" and "me" and "mine" so much, people don't like it. Be interested in the welfare of others. People like when they know you are interested in their welfare. Don't be over sensitive. Be tolerant. Don't carry a chip on your shoulder. Don't get mad; get smart. Don't lose your head. When you lose your head you lose everything. Don't get angry because people differ with you in religion, in love, in politics. Let this be your slogan: "In essentials unity, in opinions liberality; in all things love."

Be a good listener. Lastly shut your ash-pan. Watch your words. Many years ago on the Southern Railroad there was a long wooden bridge. On either end of the bridge were signs: "Shut the Ash-Pan." These signs were paced at either end of the bridge to warn the firemen that they must prevent the dropping of hot coals and cinders upon the wooden timbers while the train was crossing. This is a good sign for us who talk too much. "Shut the Ash-Pan." Let no hot words fall that might burn the tender feelings of anyone. It is not good always to say what we think. Think twice before you speak. Keep your temper, nobody wants it. A word fitly spoken is like apples of gold in pictures of silver. Jesus is our example. "All wondered at the gracious words which came from the mouth of Jesus." His words fell gently as leaves from the pine. Even on the cross through parched lips and with tongue swollen, he murmured "Father—Forgive Them—For They Know Not What They Do." "He was oppressed, and he was afflicted, yet he opened not his mouth." Let us learn from Jesus and we shall find rest with ourselves and with others.

Gore Hails Press At NNPA Meeting

MIAMI (Special) — "No other social force can carry the message to our people as effectively as the Negro press," Dr. George W. Gore, Jr., president of Florida A. and M. University, declared last week.

Speaking at the public meeting of the annual Mid-Winter Workshop of the National Newspaper Publishers Association, the eminent educator addressed his audience of eminent publishers and editors and citizens from the community from the subject, "The Journalist's Opportunity."

A highlight of the public meeting was the association's presentation of Dr. Gore "in recognition of his pioneering efforts in the field of journalism education." The presentation was made by Dr. Carlton B. Godlett, publisher of The Sun - Reporter of San Francisco.

Dr. Gore, according to available records, was the first Negro in America to earn a bachelor's degree in journalism, having graduated from DePauw University in 1923. During the ensuing years as a teacher of journalism, he taught many individuals who later became some of the best known personalities in the field — including Carl Rowan, recently named U. S. Ambassador to Finland.

He termed "amazing" the extent of the social influences of the Negro press on the American scene. "Persons high in governmental and political life have had to pay attention to the sentiment being molded by our newspapers. Devotion to a cause has been the motivating influence of our educators and publishers. If you had not been in love with your work, truly, you would have quit long ago."

Another significant contribution made by the Negro press has been its continuous efforts to interpret the Negro to America and to the world. He pointed out that the Negro press has done much to combat the stereotype Negro concepts with which the general media have saturated the public. "The stereotype of the Negro has been derogatory. But the Negro press has put the shoe on the other foot," Dr. Gore emphasized.

### Lincoln-Douglass Centennial Committee Sets Feb. 12 Fete

How long can we be denied? This is a question that is being asked throughout the nation. How long can we be denied full citizenship and human rights. The Lincoln-Douglass Centennial Committee in Washington, D.C. on February 12th will highlight this question. A group of associations, organizations and key individuals will gather at the Lincoln Memorial to commemorate the birthday of Abraham Lincoln, the Great Emancipator. Leaders from government, industry, labor, sports and the theatre will be present.

Following the wreath laying ceremonies at Lincoln Memorial there will be a meeting at the Commerce Department Auditorium where Freedom In A World Society and the need for setting new goals will be the main topic for discussion. Leaders will attest to the achievements that have been made in the last hundred years and set the stage for Americans in the future.

#### PARADE PLANNED

The parade will start at the Capitol and proceed to the Lincoln Memorial where the Lincoln-Douglass Centennial Committee in cooperation with the Emancipation Centennial Commission of the Dis-

trict of Columbia, the U S Civil Rights Commission, the U S Department of Labor, the U S Department of Interior, the National Association of Colored Women's Clubs, the National Newspaper Publishers Association, the Military Order of the Loyal Legion, the Washington Parks Department, the Washington Convention Bureau, the American Negro Centennial Authority, the Negro American Labor Council, the Odd Fellows and many churches and organizations will join in the salute to Abraham Lincoln and Frederick Douglass.

Negroes and Whites alike are expected from many states.

### Sunday School Lesson

#### CHRIST NEEDS WORKERS

International Sunday School Lesson for February 10, 1963

MEMORY SELECTION: "Truly, truly, I say to you, he who believes in me will also do the works that I do; and greater works than these will he do, because I go to the Father."

— (John 14:12)

LESSON TEXT: Mark 6.

The purpose of our lesson today is to show how Jesus met physical and spiritual needs and to learn how we can carry on this ministry.

Standing at the center of this chapter is the story of Jesus sending his disciples to extend his work. And we are told that as they went they were endowed with power to do wonders. What was this disciple group? What was their task? Does this group and this task continue into our time? These questions, and their answers, are important for our understanding of a significant aspect of Jesus' ministry.

The disciple group is uniquely identified with Jesus Christ. It is called to share his work and his mission. And this call for disciples is still to be heard. Christ continues to invite men into this grand company of his followers. And he gives to those who respond even today a distinctive task. They are to express the meaning of the Kingdom through their lives. But what is this meaning? What are the disciples to make known? The Kingdom is expressed when modern disciples exhibit the character of Jesus. This means that the Christian is called to be a servant of all men, among other things. And every man we meet is our neighbor, and the next man we meet is our neighbor. The Christian can no more discriminate than can God. He must give himself to everyone, and to each individual

— for this is the way in which God has given himself.

The Christian as neighbor is illustrated in the parable of the good Samaritan (Luke 10:29-37). But notice the twist to the story. The man who was left for dead was passed by a priest, and then by a Levite. He obtained no help until a Samaritan came to his aid. To Jesus' question, "Who was the neighbor?" the expected answer would be: the man who was helped. But Jesus replied that the Samaritan was the neighbor.

Does not this mean that we are to answer first of all for ourselves? The neighbor is the one who helps. We are to be neighbors. We are not to hesitate and ask "Is that my neighbor? Am I responsible for that person?" The Christian's first question must be: "Am I a neighbor?" It has, indeed, been truly said: "Love does not seek out its equal, love creates its equal."

In calling attention to the fact that Christian love must be universal and yet be centered upon each person, we must remember also that it is often easier to love people in general than it is to love people individually. The crucial test of our Christian concern comes when we face a person to whom it is difficult to be a neighbor. Perhaps he is unappreciative or hostile or amused at our concern. Yet, to him, more than any other, we must be neighborly.

The Christian life is one of becoming conformed to Jesus Christ. That is, we are to mature by growing more like him. This challenge stands before us. But where is the power or the motive to fulfill this challenge? This is a gift of God. We are not able in our own strength to do these things. For our strength is weakened by our wills. And we do not will to be like Christ. Our wills need to be changed. Our love needs to be redirected from ourselves to God and to others. This change of will comes about when we are captured by Jesus Christ. When we have responded to his claim upon us, then we are able to respond to his love. We are able to be obedient, and

### Californian Is Named To Equal Opportunity Post

WASHINGTON, D. C. — Appointment of George J. Seros of Los Angeles as information consultant to the President's Committee on Equal Employment Opportunity was announced today by Robert Taylor, Jr., Committee executive vice chairman.

Mr. Seros, a former Federal government official who is now a public relations counselor in Los Angeles, will assist in development and promotion of equal employment opportunity programs on the West Coast, Mr. Taylor said.

Mr. Seros' last government service was as director of Price Stabilization for Southern California, from 1951 to 1953. Earlier he served as special assistant to the OPA administrator in Washington in 1943-44, a position he left to enter the Navy where he was a gunnery officer. He was appointed by President Truman to the President's Highway Safety Conference where he served with Dr. George Gallup on the Committee on Accident Statistics.

From 1946 to 1949, Mr. Seros operated a public opinion survey institute in Detroit and Los Angeles and from 1948 to 1951 was research director of Executive Research, Inc. in Los Angeles. Prior to World War II he was director of administrative management with the Michigan Highway Department. He is a charter member of the American Association for Public Opinion Research and a member of the Greater Los Angeles Press Club.

A native of Memphis, Tennessee, Mr. Seros attended Detroit public schools and Wayne State University in Detroit.

### Mansfield Praises Progress In Ncr'n Carolina Relations

WASHINGTON — (NNPA) — Sen. Mike Mansfield (D.-Mont.), the majority leader, told his colleagues on the Senate floor February 1st, that "North Carolina has long been in the forefront of the movement to improve opportunities of all its citizens."

He said Gov. Terry Sanford is carrying out a program first given "great impetus" by former Gov. Luther Hodges, now Secretary of Commerce.

Mansfield requested that a statement is used by Gov. Sanford on Jan. 18 be inserted in the "Congressional Record."

The statement said, among other things, that Gov. Sanford had formed the North Carolina Good Neighbor Council, which would eventually consist of 24 "outstanding citizens." It added that the Governor would name later an additional advisory committee "to reach more sections of the economy and the state."

### Wife May Not Visit Jailed African Leader

JOHANNESBURG — (NNPA) — A court order has been issued which denies Mrs. Mandela, wife of the African leader Nelson Mandela, the privilege of seeing him in Pretoria prison, where he is serving five years for organizing demonstrations.

The order served on her last week confines Mrs. Mandela to the Johannesburg area for five years and bars her attendance at meetings or gatherings, including any communication with her husband.

### Discount Conflict Between African And U. S. Students

XENIA, Ohio — (ANP) — Reports of a conflict between American and African students on the campus of Central State college here were discounted last week by school authorities including Dr. Charles Wesley, the president.

Dr. Wesley said that reports that African students were being harassed were greatly exaggerated and resulted largely from their unfamiliarity with the tendency of American students to indulge in pranks.

The reports, according to Walter Sellers, assistant director of public relations for the school, stemmed from a written complaint made last December by the school's eleven African students that they had been subjected to some harassment including the firing of a shot an anonymous threatening note slipped under the door of one of the African students and the exploding of fire crackers.

Dr. Wesley said that reports that African students were being harassed were greatly exaggerated and resulted largely from their unfamiliarity with the tendency of American students to indulge in pranks.

### Pennsylvania Chief Warns Party Not To Harbor Jim Crow

HARRISBURG, Pa. — William Scranton, Pennsylvania's newly elected Republican Governor, has gone on record with a strongly worded warning to his Party not to become the haven of segregationists.

In a major speech January 30th in New York City, Governor Scranton said:

"We (the Republican Party) must avoid at all costs falling into the trap of clasp to our bosom those who use the phrase 'states rights' only as a cloak to deny Negroes or any other groups their human and civil rights."

"I have no sympathy for those who refuse on the State level to guarantee those rights and then cry states rights, states rights" when the National Government moves to correct the injustice. Those states have abdicated their responsibility and with it their corresponding rights.

"The party of Abraham Lincoln should not become the party of segregationists. I do not welcome as a Republican a man whose only reason for joining us is his hope of leaving his Negro neighbors outside. The Democrat Party has historically been the have of segregationists. I see no reason to let it off the hook now."

More than 94,000 church congregations throughout the nation will participate during special services to be held on Sunday, March 24, in most instances. The 1963 appeal will be the fifteenth annual drive to raise funds for overseas relief.

### Lawrence Sworn In As Housing Chairman

WASHINGTON — (NNPA) — Former Gov. David Lawrence of Pennsylvania was sworn in Feb. 1 as chairman of President Kennedy's Committee on Equal Opportunity in Housing.

The committee was established under the executive order banning discrimination in federally-assisted housing which was signed by the President last Nov. 20.

At a ceremony held in the White House at noon, Mr. Kennedy said Lawrence was taking over a "most important" job which would make use of his "great experience" as an administrator.

The President jokingly told Lawrence that the committee chairmanship was perhaps not the best way to show his appreciation for the Governor's support, because it was a "most difficult" assignment.

Lawrence replied that he felt "every American was entitled to good housing" and that he would do his best to carry out the job in a "satisfactory manner."

Besides Mrs. Lawrence and their son, Jerry, others attending the swearing in of Gov. Lawrence included: Secretary of Agriculture Orville Freeman; Jack Conway, deputy administrator of the Housing and Home Finance Agency; John S. ## Republicans Offer Civil Rights Bill

WASHINGTON (UPI)—Nine Republican members of the House Judiciary Committee on Jan. 31 offered a civil rights bill they said was "designed to pass" as contrasted to Democratic "public relations" efforts.

Rep. John Lindsay, R-N.Y., told reporters the Kennedy administration had broken all of its civil rights promises. The Republicans intended to deliver on their 1960 platform promises with the new legislation, he said.

Then Lindsay and about a dozen other Republicans attacked the administration's civil rights record in floor speeches. One, Rep. Charles M. Mathias Jr., R-Md., said the GOP bill, among other things was "directed to voting frauds in Chicago as well as Chattanooga" and was not confined to Southern problems.

Two GOP senators, meanwhile, sponsored legislation to empower the attorney general to take federal court action in public school segregation cases, as now may be done to protect voting rights.

The bill would provide for filing to federal civil suits upon sworn allegations that a person or group is suffering from racial discrimination in a public school. It was introduced by Sens. Gordon Allott, R-Colo. and John S. Cooper, R-Ky.

The House GOP group, led by ranking Republican committee member William M. McCulloch of Ohio, proposed legislation that would:

- Make the Civil Rights Commission a permanent agency with power to investigate election frauds.
- Set up an independent federal commission on equality of opportunity in employment to police government contracts and make sure that neither labor nor management is discriminating.

—Give the attorney general power to take action on behalf of citizens denied admission to segregated public schools. At present, the federal government cannot directly institute such suits.

—Permit the federal government to help states and localities that want to desegregate their schools.

—Create a legal presumption of literacy for any citizen who has finished six grades of an accredited school.

The bill also would direct the Census Bureau to compile statistics for Congress to help determine whether potential Negro voters were being denied the right to vote and whether, under the 14th Amendment, a state's congressional delegation should be reduced as a result.

As she reached the backyard, she was blinded by a beam of light, apparently from the helicopter, tripped and fell, breaking her arm.

## Former Officer Is Convicted Of Bribery

ATLANTA, Ga. (AP)—A former City of Atlanta detective was convicted by a Fulton Superior Court jury of bribery charges Monday, and the jury recommended a three to five-year sentence.

C. E. Harvey, who resigned his job last November when the bribery charges were lodged against him, will be sentenced formally on Monday, Feb. 11. Harvey was a 12-year veteran on the police force.

Former unknown policeman, Charles Tucker will stand trial on bribery charges next week.

The two former policemen were charged with bribing Mrs. Lillian Luke, 170 Webster St., of \$50 in a \$200 payoff for allegedly withholding charges against her husband.

Both men have consistently denied their guilt in the bribery charges.

## Contempt Charge Sought Against Miss. Registrar

NEW ORLEANS (UPI)—Mississippi Gov. Ross Barnett and Lt. Gov. Paul B. Johnson, Jr., Feb. 1 asked the U.S. Fifth Circuit Court of Appeals to drop criminal contempt charges pending against them.

Within hours after the action was filed, Dewey Roosevelt Greene, Jr. went into Federal District Court at Jackson, Miss., and asked that a contempt of court charge be drawn against University of Mississippi Registrar Robert Ellis.

Barnett and Johnson were cited for criminal contempt for attempting to bar Negro James H. Meredith from the school last fall.

Greene asked that Ellis be cited for refusing to admit him when he turned up to register at the school Thursday. Greene appeared on campus about the same time Meredith was signing up for his second term. U. S. District Judge Sidney Mize scheduled a hearing on Greene's motions Monday in Hattiesburg, Miss.

Attorneys representing Barnett and Johnson Friday called for dismissal of the contempt charges on grounds there was no valid service of the appeals court's temporary restraining order of Sept. 25, 1962. That order directed university and state officials not to interfere with Meredith's admission in any way.

In requesting the dismissal, the state also contended there had been of appeals court jurisdiction, lack of grand jury presentation and indictment, and lack of jurisdiction to summon a jury.

The state attorneys simultaneously filed motions for Barnett and Johnson asking for separate trials and trials by jury in the event the criminal contempt proceedings are not dismissed.

Under existing rules if the court ruled the charges constituted a felony, a jury trial would be required, but if tried as a misdemeanor the cases would be handled by judges.

The Justice Department also filed briefs in the case late Friday. They disputed the state's claims and said, "The only issue for the determination of the court is whether there was a willful disobedience of the orders of this court."

The government briefs, filed by special prosecutor Leon Jaworski of Houston, Tex., said the U. S. Supreme Court had ruled in 1958 that criminal contempts were not subject to jury trials as a matter of constitutional rights.

Ellis said Greene's application had been turned down twice previously.

## Ike Pushes A Limit For Congressmen

WASHINGTON (UPI)—Former President Dwight D. Eisenhower has joined the debate about remodeling Congress with a proposal as unwelcome to most lawmakers as an election defeat.

Writing in the current "Saturday Evening Post," he suggests a 12-year limit on the tenure of senators and congressmen.

"... We would no longer have the unhappy spectacle of elderly senators and congressmen perpetuating themselves in powerful official positions, handling legislative matters of the utmost importance to the entire nation," he says.

"They have been able to do this simply because they represent 'safe' districts that habitually return them to Congress—where, by reason of more longevity they become chairman of legislative committees."

Eisenhower thinks a constitutional amendment to fill the limit would be a good idea. Rep. Thomas B. Curtis, R-Mo., introduced a proposed amendment on Monday to limit service to 12 years and made this comment:

"This proposal... has often appeared in lists of legislation least likely to succeed. And, to that conclusion, I must sadly agree."

He meant that he saw no likelihood that the necessary two-thirds of the House and Senate would approve the proposed amendment.

## STUDENT SAYS DENIAL WAS ON RACIAL BASIS

By KEITH GLATZER (United Press International)

HATTIESBURG, Miss. (UPI)—Dewey Roosevelt Greene Jr., seeking to follow the trail blazed by James H. Meredith — told a federal court here Monday that he was denied admission to the University of Mississippi because he is a Negro.

Registrar Robert Ellis contradicted Greene's testimony and said the 22-year-old would-be transfer student was turned down because he is not qualified to enter "Ole Miss."

"Race has no bearing in this matter," Ellis said.

The testimony was given before U. S. District Judge Sidney Mize about the time that Meredith was beginning his second semester at the school.

Greene's attorneys asked that he be admitted immediately.

"They said he should not sit and fester" while the courts decide his case.

The attorneys also asked for a contempt of court citation against Ellis. They claim that in rejecting Greene, Ellis violated an injunction against discrimination issued in the Meredith case.

Mize refused to request that Ellis be taken into custody immediately.

Ellis later testified that Greene was refused admission because he was attempting to transfer from a non-accredited school, Mississippi Vocational College for Negroes.

Ellis said a policy against such transfers was adopted at "Ole Miss" two years ago and since then about 200 applicants have been rejected under the policy.

The registrar, who was a defendant in Meredith's suit, said he does not discriminate. "I am under a court order that is very specific in this matter," said Ellis.

Greene is 22 years old of age and comes from Greenwood, Miss. He is a graduate of Broad Street High School of Greenwood and is a Navy veteran.

University officials told Greene in his first attempt to apply that "the limited level of achievement indicated by your school record and the fact that applicants for transfer are accepted only from fully accredited colleges makes it necessary to deny your application at this time."

The student's record is said to have met all necessary requirements. Officials later wrote Greene that his character references did not come from responsible citizens in the community, but he did not receive a reply when he forwarded another set of references.

Last week, he again sought ad-

This is an organization which stands for dignity and the higher principles of youth—and Adell certainly tries to exemplify all of these traits. Adell is the son of Mr. and Mrs. A. E. Smith and he resides at 479 N. Fifth St. Around the school, Manassas, he is the president of the Ole Timers Club, vice president of the Senior Class, a member of the Physics Club, and chairman of finances and administrations for Boy's State—to which he was a delegate. In religious life he is a member of First Baptist church, Chelsea, pastored by Rev. P. L. Rowe.

In the future Adell hopes to be an electrical engineer. But no matter what field he enters, it is certain that he will be a great success.

**CBB TEEN-AGE NEWS REPORT (CITY-WIDE EDITION)**  
Emily Watson and Betty Laster are squaring off for the big battle over Aubrey Yates. But the fact is that Aubrey doesn't care which one of them wins. Flori Fleming is going to be a candidate for Mrs. W.D.C.C. (She is now Mrs. Flora Carter). Robert Davidson and Dorothy Graham are tight. (And a more "rough" combination is hard to find). Theodore Pickett is interested in Beverly Bland of Melrose. James Kincaid also has interest in that neighborhood. Alvin Floyd and Christine Daniels are a cute combination. James Spencer is interested in starting a collection of young ladies.

Tea-cookie and Roy Lewis are tight. (But tea-cookie should let the other columnists say it for her). Eugene Lee is Barbara Duncan's campaign manager. Charles Diggs is almost (if not as) popular as his brother. (And that isn't easy). Danny Peele and Brenda Rice find that they were made for each other. Barbara Townsend won't leave well enough alone. Eddie Walsh is now the mascot of the Cubs and obviously the best liked guy in the club. Troy King (B.T.W.) has a chick who claims his heart at Manassas. Simone McAnulty still refers to Ronald Ester as "My Man" popularly by a great margin.

James Sandridge and Lydia Campbell are now in the groove. Mary Lynn Morris has an interest at B.T.W. (T.M.) Lorenzo Childress has a girlfriend at BTW and the word is that she is fine. Eddie Walsh refers to Preston Peyton as "that child" and says he is not even in the league as far as Cordelia is concerned. Archie Scroggs is forming a "Down With Archie Scroggs Club" at Manassas. Stanley Beale takes Joyce Cooltrane home from school in a hurry so he can take Helen Prudent home later. Lewis Hines has put his mark on Marilyn Duncan of the Duncan Hines Cake Food Company. Virginia Harris is on the prowl. Father Bertrand's Senior Class is pairing off.

# Benedict Will Test LeMoyne Here Friday Night In Bruce Hall

## Melrose Almost Topples Lester In Wild Battle!

Ira Spillers' tall and muscular Lester High athletes, a fine selection of football players in basketball uniforms, managed to hold their grip on first place in the Prep Cage Loop this past Monday evening by outlasting Melrose's Golden Wildcats, 64-61.

Each second of the battle, and that's what it was, offered a thrill with players hitting the deck flat on their backs on frequent occasions. It was war, and it was rough, and in the final seconds screaming fans witnessed a distasteful act of unsportsmanlike conduct when a Melrose player was kicked while sprawled on the floor.

Melrose had come into the Lester Lions' gym to win this one. They figured they could do it, and they almost did. But, almost was not enough. Sharing in their disappointment was their tall, usually quiet coach, William Collins.

It was the type of game that brought coaches to their feet, even the quiet Mr. Collins. But, he could not match the excitable Mr. Spillers who was perpetual motion itself, prancing, waving his arms and shouting instructions.

It is hard to say what beat Melrose. It could have been Lester's elongated pivot man, Richard Jones, who climbs into the air snatches the ball and aims for the basket and another sure two points.

Lester was out front, 22-18, at the end of the first quarter, and continued to hold a four-point lead at halftime, 36-22. Melrose moved to the front, 48-47, at the end of the third quarter and was trailing by only one point, 62-61, when a foul was called on the Wildcats with but three seconds to go. The Lions made both gift shots.

Jones of Lester was high man

of the night with 24 points, but was pushed by Melrose's high-scoring star James Sandridge, who came up with 23. Bobby Smith of Melrose had 16, and Lester's Winfrey deposited 14.

While Melrose and Lester were fighting it out, the Douglass Devils were playing their second game of the day. In an afternoon league game, Bill Little's Douglassites defeated Hamilton High's Wildcats, 67-51, and Monday night they trounced Geeter of Shelby County, 53-46.

Swift and Winfrey got 16 each for Douglass in the afternoon tilt, and Anderson of Hamilton turned in 16. Hardaway of Geeter was high scorer in the night contest with 16.

In prep league games last week, Booker T. Washington turned back Manassas, 69-44; Father Bertrand stopped Carver, 56-44, and Washington outlasted Douglas, 63-51. Wesley Mitchell of Manassas was top man in three games with 30 points.

Douglas took on Woodstock on the county loop and won 62-50, and Melrose ran over Geeter of the county, 117-65, with Sandridge scoring 69 points.

How they stand:

	W	L	Pct.
Lester	5	1	.835
Washington	8	3	.738
Melrose	6	3	.667
Douglas	7	4	.637
Carver	4	5	.444
Bertrand	3	5	.375
Manassas	8	8	.500
Hamilton	0	6	.000

## Of all the Englishmen who drink gin... how many drink Gordon's?

Most of them. And it's been that way for 100 years. To be blunt about it, Gordon's is England's biggest selling gin—as it is America's and the world's. Why? Probably because we have always refused to tamper with a good thing. Gordon's still harks back to Alexander Gordon's original formula—conceived in London 193 years ago—so its distinctive dryness and flavour remain unchanged and unchallenged to this day. Ask for Gordon's by name at your favourite tavern and package store.

## Round 'n Round With Golfing

By PRESTON JONES

Since the weather has cleared up we feel that every golfer is in need of practice, so, make it your business to go to some golf course within a few days and get started. There will be golf tournaments here soon and you are expected to participate.

Remember, good golfing depends upon the way you drive a ball and how far you can drive a ball, and most important, is your putting. If your driving is good and your putting is bad, you are not doing a good golfing job.

Sam Sneed says it's what you put into golfing that makes you a professional.

From Palm Springs, Calif., way comes the AP story of Feb. 3 that South Africa's Gary Player, as tenacious as a bulldog, overhauled Jack Nicklaus, coming from five strokes behind in the fifth and final round to force the U. S. Open champion into an 8-hole playoff in the \$60,000 Palm Springs Golf classic.

In a finish that was as torrid as the 90-degree weather, it was Nicklaus who actually had to come from behind on the last hole of the 90-hole attraction to get the tie. Player, finishing just ahead of Nicklaus had to duplicate the birdie to pull even.

As thousands jammed around the picturesque, rock-bound 18th, Nicklaus cut loose with a tremendous drive and his iron shot reached the green.

Nicklaus went for an eagle three which would have won \$9,000 winner's purse, narrowly missed and then was confronted with a three-foot putt back to the hole.

It is a tricky green, but Nicklaus holed out.

The setting was the 66,700-yard par 36-35-71 Indian Wells Country Club Course. Player finished with a 67 and a total score of 245, and Nicklaus had 72 for the same total.

Back on the local scene, Dr. LaFlore says golfing is his hobby and he will be back on the course in a few days. Oscar Hood says he will soon be one the course to show the fellows what golf is really all about. Alton Coleman also says he will be back soon. Ike White is getting in shape, also, but waiting on the weather to break. Keep reading the "World." Your name may be in the next issue.

### GET HIP

Julie Saville is not the little girl she pretends to be. Henry Smith is a lovable character. Larry Johnson is waiting for Marva Bolden.

Alfred Bolden goes with Cathy Graham. The N. D. C. sponsors are getting on the ball. James Carpenter is real shy. (smile, giggle, laugh) Virginia Harris is really back in circulation, because she and Mr. Peyton are no more. Sallye Ross isn't standing around waiting for Amos Miller.

### THE SECRET EYE

The secret eye knows all. Each week juicy tid-bits will be put in this section. Watch out, the eye sees you P. S. You never know who the secret eye is - you can only guess.

1. Cotis Woods took Patricia Hooks out. did you know that Bevlon?

2. Robbie Herron wanted to get ahead of Pat Hooks but the joke may fly back.

3. Ted McDaniel would like to go with Lora Greene but she says "No, Nay."

4. Maudette Brownlee has been trying to get Ernest Batten's attention - but he's a good boy.

5. Dorothy Thompson likes all of the fellows in her Advanced Math class.

Hope you profited from this week's news and that your report cards were not too patriotic.

## Wilma's School Gets \$10,000 Italian Award

NASHVILLE - Finally, after nearly two years of deliberation, the \$10,000-plus 1961 Christopher Columbus Award of Genoa came home to Tennessee State University during the half-time ceremonies at the Big Blue-Gannon basketball game Wednesday, Jan. 30.

The standing-room-only crowd cheered wildly as the darling of the 1960 Rome - staged Olympics, Wilma Rudolph, concluded, "I wish to express my gratitude to the Society of Genoa and the Italian people for naming me for this award. It shall serve as a lasting reminder of those wonderful days in Rome. Thanks to Coach Ed Temple, my teammates and the University for the long hours of patience and consideration that made this night possible."

Representing the Italian Ambassador, Dr. Roberto Cerchione, Italian Consul General, made the presentation of the award - a foot and a half - high abstract design of a sailing ship made of gold and chipped diamonds on a base of rare marble - to Joe Carr, Secretary of State, who represented Governor Frank G. Clement. Consul General Cerchione said, "On behalf of the Italian Ambassador to the United States, I have the honor to present the 1961 Christopher Columbus Award of the City of Genoa to Wilma Rudolph for her outstanding performance in the 1960 Rome Olympics. I have the pleasure of presenting it in person and offering my congratulations. I hope this will always remind you (Wilma) of your many victories in the Olympics. Let me express my wish that next year in Tokyo you repeat."

Miss Rudolph, the first American to win the Award, join - Vladimir Kutz, Soviet athlete - 1958; the International Olympic Committee of Genoa - 1959; the Organizing Committee of the Rome Olympics - 1960 as the Society of Genoa's world's outstanding sports personality of the year.

Due to the high value of the award, the question as to whether Miss Rudolph could accept it without jeopardizing her amateur standing had to be clarified through the AAU. The AAU decided that Miss Rudolph could designate a recipient and she chose her school. For the time being, Tennessee State will act as custodian of the award which was made to Miss Rudolph.

## Gregory Announces Food Drive For Mississippians

CHICAGO (UPI) - Comedian Dick Gregory Thursday announced plans for a food drive for 20,000 Negroes in two Mississippi counties where federal food surpluses have been discontinued.

The drive is sponsored by the Chicago area friends of the Student Non-Violent Coordinating Committee - SNCC which conducts voter education projects. SNCC spokesmen said food supplies were withdrawn in Sunflower and LeFlore counties as a result of efforts to register Negro voters. "I would like to see Chicago and the nation get behind us," Gregory told a news conference Luvagh Brown, Jackson, Miss., a field secretary of SNCC said Negroes in the two counties are facing starvation conditions. He said federal food surpluses were cut off by local county officials as a direct reprisal and another form of pressure to keep the Negro from registering to vote.

Brown said SNCC began a voter registration drive in May and that 40 Negroes in Sunflower County and 50 in LeFlore registered.

### NAMES PUBLISHED

He said the registrants' names were published "and many were thrown off the plantations as a result."

Brown said most of the Negroes are employed in cotton harvesting but must rely on federal surpluses to feed them during the winter months when they are unemployed.

"There hasn't been any food since November," he said.

## Magicians Take On Fisk U. Bulldogs Monday Night In Annual Homecoming Battle

LeMoyne College's amazing Magicians are racing to the wire with their eyes set on a berth in the annual Southern Intercollegiate Athletic Conference basketball tournament at Tuskegee later this month. The top 10 of the 16-team conference will compete in the tourney. On the weekend LeMoyne was tied for third place in the SIAC race with Florida and Benedict.

Benedict will be here this Friday night, Feb. 8, to test the strength of the LeMoymites in Bruce Hall. It should be one of the top games of the season for the Columbia, S. C. boys are no slouches.

LeMoyne's homecoming is scheduled for next Monday night, Feb. 11, and this is the night the Fisk Bulldogs from Nashville will be here and they'll be mean and evil too because they were beaten, 96-91, by Jerry Johnson's charges in the Bulldog gym on Dec. 1.

The Md. Maricians will entertain Philander Smith at Little Rock Feb. 9, and the Arkansas team will face LeMoyne here on Feb. 14 to close out the local season.

LeMoyne took a step closer to tournament berth last Friday night when the Magicians shakkled the invading Alabama A&M outfit 79-69. This was sweet revenge for Jerry Johnson's crew who suffered a 91-73 licking at the hands of A&M in Huntsville on Dec. 3.

Alabama A&M had just about everything, including a tight defense and steady goalmen, but this wasn't enough to subdue the Magicians who committed several boners and appeared off the beam at times.

The invaders managed to slow up the clever twosome of Monroe Curran and Richard Dumas but not enough to keep the crowd from applauding them. At times they looked like the champs they really are.

It was David Gaines' first appearance this season before a home crowd and he made the best of it, entertaining them with several circus-like shots.

Playing perhaps his best game of the year was James Gordon, the sophomore forward from Louisville. He shone brilliantly on defense and his backboard work was tops.

Willie Herenton, the senior, and Jerome Wright, the freshman, came in for applause for their defensive efforts.

Robert Hambric, the junior guard from Chicago, proved again he is one of the best ball-handlers on the team and was quite valuable in the final four minutes when LeMoyne switched to control ball and a semi-freeze.

### Liberian Citizenship

MONROVIA - (ANP) - On the subject of white citizenship in Liberia, President William V. S. Tubman said recently: "Liberians are Africans. When Liberia was founded, the colonial onslaught was at its peak. When the immigrants came here, they wrote that in the constitution and they knew that if colonists did not gain control by force, they would seek to be so by purchase. Hence, did prevent this, the Constitution allowed for none but of African descent to become citizens of Liberia."

University here, said federal surpluses were distributed by the Agriculture Department at the request of local and state authorities who must pay "a small amount."

County Commissioners in LeFlore and Sunflower counties said in December that they would not request the surplus food "because they didn't have enough money," Hamilton said.

He said the combined counties would have to pay "about \$5,000 a year for the food."

Hamilton said "the only white segment of the community that's doing anything is the local Catholic church, which distributes food, some clothing and occasionally pays a gas or light bill."

VERTIES SALLS

GOOD ACTION - Verties Salls, a junior of Memphis, is one of the most dependable substitutes on LeMoyne's varsity basketball team. He is an accurate scorer and a good playmaker.

ther tough one for the Magicians. This time it was the stubborn Hillman College machine from Tuskegee. The Hillman lads got off to a seven point lead before LeMoyne scored the first point but soon yielded to the Magicians' strategy. Final score: LeMoyne 86, Hillman 70.

Gordon, the big man from Louisville, was the mighty man defensively for LeMoyne, while Curran, Dumas, Gaines and Hambric starred in the scoring department. Stillman's concert band and a girl dance team gave the audience an excellent halftime show.

Curran had 19 against Stillman, followed by Gordon and Gaines, each with 18; Hambric, 16; Dumas, 9; Herenton, 4, and Wright, 2.

## "All-White" Real Estate Boards Banned In Calif.

SACRAMENTO — (NNPA) — California's Attorney General Stanley Mosk recently ruled that an "all-white" membership policy of real estate boards is barred by the state's public policy.

"A local realty board," Mosk declared "may not exclude from membership a licensed and otherwise qualified applicant solely on the grounds of color, race, religion, ancestry or national origin. The Attorney General added: "In view of the impact on those excluded, both economically and professionally, and the fact that discriminatory practices bear no relation to the legitimate ends and purposes for which realty boards are organized, discriminatory practices may be prohibited by the court even in the absence of express legislation."

## AGGREY ACCOMPANIES WILLIAMS TO AFRICA

WASHINGTON — (NNPA) — O. Rudolph Aggrey, 38, deputy public affairs adviser for the State Department, is among a small group of aides accompanying G. Mennen Williams, Assistant Secretary of State for African Affairs, on a three-week trip to seven African countries.

The party departed from Washington Feb. 1, and will visit Algeria, Nigeria, Republic of Congo (Leopoldville), Northern and Southern Rhodesia, Nyasaland, and the United Arab Republic.

Aggrey, who launched his government career with an assignment as public affairs assistant at Lagos, Nigeria, in 1951, will assist the former Michigan Governor in his discussions with government and political leaders.

Before joining the State Department, Aggrey served in turn as a newspaper correspondent, public relations assistant for the United Negro College Fund, and public relations director at Bennett College, Greensboro, N. C. He is a graduate of Hampton Institute and holds a master's degree from Syracuse University.

## Senate And Party Leaders Blamed For Senate Impasse

NEW YORK — The Senate vote to sidetrack a move which would have made it easier to halt filibusters was denounced here this week by NAACP Executive Secretary Roy Wilkins as a "surrender... to the single-minded obstinacy of the southern minority."

Mr. Wilkins' sharply worded statement was issued following a 53 to 42 vote in the Senate, Jan. 31, to table a proposal which would have cleared the way for adoption of a new cloture rule. The NAACP backed a proposal, endorsed by liberals of both parties, making it possible to shut off debate by a majority vote rather than the two-thirds now required. Senate leaders of both parties, as well as President John F. Kennedy and Vice President Lyndon B. Johnson, share the blame for the impasse reached in the Senate, the NAACP leader charged.

STATEMENT

The full text of Mr. Wilkins' statement follows:

"The disgraceful exhibition of shadow-boxing in the Senate is apparently moving to the conclusion made inevitable by the surrender of its leadership to the single-minded obstinacy of the Southern minority. At a period when it had no business of importance before it, the Senate has shown itself incapable of reaching a decision even on the question of whether it had a right to make a decision to curb filibusters."

"A large part of the blame for this situation rests with Vice-President Lyndon Johnson, who ruled that it was up to the Senate to determine whether or not it could change its rules by a simple majority vote at the start of a new Congress, but who then refused the ruling which would have made a determining vote possible. The essence of the pro-filibuster position is that the Senate is a "continuing body," and that its old rules are automatically in force when a new Congress convenes. Under these rules, a motion to change the rules is itself subject to filibuster, which would not be the case if ordinary parliamentary law prevailed. The Vice-President's action while ostensibly leaving this question up to the Senate, in effect sustained the "continuing body" theory and thus made sure that filibusters could not be curbed without first having a filibuster."

"This is in sharp contrast to the position of former Vice-President Richard Nixon on the same issue four years ago.

"By their motion to table, Majority Leader Mansfield and Minority Leader Dirksen share with Vice President Johnson responsibility for undercutting an effort to remove the chief roadblock to meaningful civil rights legislation. (Senators who customarily profess concern for civil rights but who joined Senators Mansfield and Dirksen in voting to table know quite well that their vote today was a vote against civil rights, and they should not protest when the public draws the obvious conclusion from the record.

"It is unfortunate that President Kennedy, who moved so vigorously in the effort to liberalize the Rules Committee in the House, did not see fit to speak out on behalf of liberalization of the filibuster rule in the Senate. For it remains true today, as in the past, that the filibuster and the threat of filibuster threatens not only civil rights legislation but all legislation including those measures allegedly outranking civil rights in importance to the national welfare."

## Urges Belligerent Pupils Be Expelled

WASHINGTON — (NNPA)

School Superintendent Carl F. Hansen said Friday that D. C. schools should send belligerent pupils home to their parents and let them stay there until they learn to behave.

A citizens' committee report issued Jan. 8 blamed a lack of discipline in the schools as a key factor in triggering the Thanks Giving Day riots at the D. C. Stadium.

Commenting on the report, Hansen told a press conference that he feels a serious discipline problem is created by students who think they can "get away with anything" and that "a teacher dare not lay hands on them."

## D. C. Desegregation Of Neighborhoods Campaigned

WASHINGTON — (NNPA) — A quiet campaign is underway in Washington to racially integrate presently all-white, upper-middle-class residential neighborhoods.

The American Friends Service Committee, a Philadelphia-based Quaker group, disclosed Thursday that it is sending Oregon sociologist Merlin A. Myers, 39, to the Nation's Capital to head the program.

Three months ago, Miss Helen E. Baker was engaged by the organization to establish preliminary contacts with white and colored community groups.

Under the program, lists of white homeowners willing to sell to Negroes will be established. A special appeal will be made to white persons who for various reasons, appear "scared" by the prospect of non-whites moving next door to them.

A spokesman for the Friend Committee said there is no reason why the program should not be successful here. He pointed to workable programs in Chicago, San Francisco and its suburbs, Cambridge, Mass., and Burlington County, N. J., a Philadelphia suburb.

## School Issue Necessitates "Give-Take," Cook Announces

COLUMBUS — (SNS) — Attorney General Eugene Cook traced a 3-point program here this week on the school segregation issue as it involves federally impacted areas.

In announcing that there is going to have to be some "give-and-take" in the area of schools and social welfare, but I must willingly concede that along the way we conservatives must recognize the necessity of giving in a graceful way to balance the conflicting issues."

Cook cited the three following points for consideration of persons in Muegge County and other places where school boards are under federal orders to integrate school systems, or lose federal aid.

1. Decision to integrate the school systems or fight any federal suit filed against school boards will be made by the school boards themselves.

2. The state legal department will only enter such case at the invitation of the school boards.

3. The department will not fight any case it feels does not have sound legal basis.

Atty. Gen. Cook urged the people to "urgently consider the possible acceptance of token integration" which would leave control of school systems in the hands of local officials.

The alternative he pointed out was for courts to issue an injunction which would then put direction of the schools in the hand of the courts.
