Miss. Legislators Asked To Reject Robert G. Clark

JACKSON, Miss. - An effort is underway to keep Robert G. Clark from taking his seat in the State Legislature next month.

Attorneys for veteran State Representative J. P. Love, defeated in the Nov. 7 general elections by Mr. Clark, filed a challenge Monday which would call on the legislators to refuse to seat the Negro winner.

Clark's election was challenged on grounds he filed his petition for a place on the ballot as an independent only with Holmes County officials while his seat is part of a congressional district including both Holmes and Yazoo

The challenge also charged Clark falled to meet a number of other legal requirements for independent candidates, including payment of qualifying fee and signatures of his petitioners.

Clark, a 37-year-old athletic di-rector at Saints Junior College, bested Representative Love of Tchula by 116 votes in the election to become the first Negro in this century to win election in the Mississippi Legislature.

"We're operating on legal grounds and race is not involved," an attorney said, "J. U. Love ran in the Democratic primary and put a lot of time and money into the election. We don't feel like an independent whose petition was not proper is entitled to the seat."

Under the state Constitution, the House is the judge of its own membership, Should the House refuse to seat Clark, Love apparently would be seated instead.

u. s. bonds is entomed in tralian marble mausoleum saturday

When a Hindu thinks of death, his thought is to travel if possible to the holy city of Benares and if he can bathe in the sacred river Ganges, he feels that he will be freed of his sin If he cannot travel, friends gather for the burning of the body of a ghat or waterfront stairway and the ashes are thrown into the river.

But, we often heard Mr. Bonds speak of the Catacombs (tombs in underground rooms) and sometimes built with a dome as is one of the most famous, the most beautiful and costly in the world, the Taj Mahal in Agra, just out of New Delhi, India. The first questions that he asked me when I returned from Europe and Asia was did I see the Catacombs of Rome

and the Taj Mahal He later went to Europe and he was much impressed with the Catacombs that he had always wanted to see. Mr. Bonds, a nationally known

J-U-G-S INSTALL CHAPTERS IN DETROIT AND BALTIMORE Two more chapters have been added to the rapidly expanding charity, group, J-U-G-S, Inc.

Two weeks ago it was Detroit where 12 loyely matrons were installed Saturder, November 18th. by Miss Bradford, National president dent of J.U.G.S.

Making the trek to the "Motor City" from Memphis were Jose-phine Bridges one of the founders of J-U-G-S; Nedra Smith nation al vice-president; Gerri Little, national historian and Joan Johnson who were all guests at the Shera-

The Memphis matrons were joined in Detroit by five members of the Washington, D. C. Chapter and they were Erslyn Holland, Jan Barrow, Barbara Meyers. Wan-da Washington and Claudette Johnson, The two groups arrived at the Washington airport only minutes apart and were welcomed with a large bouquet of red roses, courtesy of the Detroit's mayor.

A whirlwind of activities ensued starting with the Playboy Club Friday night. From there they were whisked to the beautiful home of Eloise Carter for a "Get-Acquaint ance" party, followed by breakfast at the home of a former Memphian Bonnie Kirk.

Saturday morning the group were guests from Bruanch at the home of Vickie Butler who is a popular restauranteur in Detroit. Brunch Vickie passed out samples of her Barbecued Ribs for which she is so famous. She also sent the members bottles of her barbecue sauce which she manufactures under her own label.

The beautiful new Manua Loa was the setting for a late lunch followed by a short tour of the city. Saturday evening all visiting

for passage of any tax measure, closely questioned three administration officials, including Treasury Secretary Henry H. Fowler, about a \$4.1 billion spending reduction as a concession for a 10 per cent income tax surcharge. President Johnson claims it is necessary to head off inflation and help pay for rising war costs.

Mills told Fowler and Budget Director Charles Schultze that they should increase their budget cuts by \$2 billion to \$3 billion. QUESTIONED ABOUT

ECONOMY

He then questioned Fowler, Schultze and William McChesney Martin, chairman of the Federal Reserve Board, about the state of the economy. He drew from Martin a concession that it was not booming but nevertheless needed controlling.

Martin also said an increase was needed to sustain worldwide confidence in the dollar.

A Top Political Issue

We have stated before and we repeat it here again. The ndidates and officials are not the only persons who can MAKE political issues. The ordinary voters can also make political issues. they must show the intelligence to organize and units themserves if they are to get satisfactory results after raising an issue.

Well, it looks like the grass roots are going to do just that put the procedure for electing the governor in the state of

Gargia.

The debacte which resulted in the 1966 election for government of every voter in this state. Under nor must be fresh in the minds of every voter in this state. Under present provisions in the State Constitution there is a requirement that in the event no candidate for governor receives a majority of the votes cast in the November election, then the legislature shall have the right to elect the governor when it meets the following January. This is what happened this past Janu-And politics being what they are, and the state legislature ag what it is, the latter body chose the candidate who got 3,000 fewer votes than did another candidate. This simply is not government by the voters. There are many reasons why a change is in order.

However, the main point of this comment is to recognize with gratification that during the past two weeks there has been heard strong demands in two different political organizations that a change be made so the people only will have the right to elect a governor hereafter.

During week before last the Westside Voters League's Executive Committee named a special committee to seek a constitutional amendment to abolish the provision for the legislature to elect the governor under any circumstances.

The Republican Club leaders expressed a similar opinion in their neeting last Thursday night. So it appears there will soon develop strong and determined action to get government by the people in our state.

If these groups will simply continue to hammer away against the present procedure for the election of governor, they will soon have the great mass of voters aware of the injustice of the present plan and the legislators will have to provide the proper present procedure and select a new and satisfactory plan. More power to both these organizations in their noble fight.

Be Careful With Fires

"Their bodies found at kitchen door; firemen too late" was sad news headline matter this week on the front page of a Norfolk, Va., newspaper. The children of a farmer were found dead after their bodies had been burned in one of the first farm House fire tragedies of the season.

According to the news item, the tots had been left at home alone watching television. The three girls and two boys, ranging opinion between two strong contenders within the Democrat in ages from 2 to 7, were all lined up at the back kitchen door party. here they apparently strove in vain for freedom.

Here is a tragedy in all its gruesome horror. The house was nearly destroyed when the fire was detected.

Thusly, runs a story of fate that will long linger across the lintels of sorrow and devastation. This sort of drama is not unaround a little blaze trying to keep warm.

Parents should be careful about these open fire-place fires and see to it that little children are not let exposed to open fireplaces with no adults around.

Vietnam Casualties

The war in Vietnam continues to exact its tall of U. S dead and 1967 has proven to be the most costly year of fighting so far. But many have an exaggerated idea of the death rate as compared to other wars.

This is partly because the fighting in Vietnam has dragged off for so long-for five years-and threatens to drag on for additland years. It is also a result of the sharp rise in casualties , and fatalities) which has occurred this year.

The Korean War, which lasted three years, cost the United States over 33,000 dead and more than 100,000 wounded. In five years of fighting in Vietnam American deaths have totaled under 15,000. Thus fatalities are less than half the number sustained in the Korean War.

Casualties (wounded) are running close to 90,000 in the Vietnam fighting and this figure is approaching the Korean War total. Most of the casualties, or wounds, are miner, however, and soldiers are often fully recovered in a short time.

One should not dismiss lightly or statistically the loss of 15,000 lives in Vietnam. The figures simply provide the reader facts upon which he can formulate a sound perspective.

Farm Prosperity Needed

Not long ago an economic expert declared that "agricul- ON STANDBY ture supports one-fifth of the population and on it rests the nation's economic structure." This was not the parochial statement of a farmer of an official of an agricultural association.

This fact is very often overlooked by the leaders of business heart. and industry and, more unfortunately, by the leaders of many towns and cities situated in the heart of agricultural sections.

In view of the importance of agriculture, as an economic oundation of the nation, it becomes the business of everyone to nake farming an attractive economic enterprise, with the probability of an income that will be reasonable certain and labor and social conditions that make agriculture an attractive pro-

Their comments, also included in the magazine, revealed these four significant feelings the teenagers held in common; (1) parents should exert more authority over their children; (2) youth is not so conabout being considered young adults as it is with being recognized as mature teenagers: (3) TV commercials by older people trying to talk like teenagers leave them cold; and (4) youth is bombarded with warnings that drugs and alcohol are dangerous, but they are not given enough specific information about WHY.

In an article, "Acid Is Not As Advertised," Dr. Allan Y. Cohen, formerly a student of Timothy Leary at Harvard University and a participant in approved drug research there, tells of his personal experience as a "tripper' on LSD. "As I look back, note how LSD

inflates egos," states. "Psychedelilc drugs can, fake out the most intelligent and sincere people, creating a very subtle self-delusion. Then there is dependency. The LSD epic says you cannot be high unless you take a chemical. That is not freedom or fun; it's psychological slavery."

Your professional beautician knows the answer...

Why does some hair break off when combing?

Your hair is precious and oclicate... and none of us like to see It break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently breaks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softened before combing. Otherwise, unnecessary irritation to the scalp and damage to the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticians rely on Clairol® Hair-So-New® spray-on creme rinse. For combing ease and for beautifying your hair in many other ways, trained beauticians stock a complete family of fine Clairol products for your specific needs.

Visit your expert hairdresser, who cares about your hair care and your comfort. Whatever the nature of your hair problems. only your professional beautician knows the answer for sure.

Albany State's public relation of fice has sent to the Extra Point Club some interesting an inspiring information about the members of ten man squard that will be seen both nights at the 14th Ann-GIT. Here follows a brief of the information now on file. Four of Coach Bob Rainey's

1966-67 six starters will return for the coming season. They include Mack Daughtry, 6'3" senior from Nashville, Georgia who pumped in of 21.9 points per game and lead the team to a 26-5 season record. He was the Southeastern conference MVP and became the second Negro performer to be named to the Atlanta Journal's

All - Georgia College team.
Another big gun is Melvin Jones
a 69" senior from McChee, Arkansas. His rebounding last season for 600 rebounds for an average of 19.4 points per game gave him a rank of fourth among the nation's leaders.

Mel Jones has a brother Wilber a 6'8" junior who popped the cords for 512 points averaging 16.7 per game and is considered one of the finest prospects in the school's

Talladega Cagers Open '67 Season

TALLADEGA, Ala. - The Talladega College Tornadoes met the Morehouse College Maroon Tigers in a basketball game at Cobb Ave High School gymnasium Friday night, Dec. 8.

The Tornadoes opened 1967-68 basketball schedule last Saturday night against Morris Brown College in Atlanta, Ga.

The Tornadoes downed Paine College in Augusta, Ga. 118 to 109 on Nov. 25. The team had a 17-4 record last year and bids to do better this year.

Coach Charles L. Isbell has a Cleveland's offense got back in 22 game schedule and a tourna consists of a senior, four juniors and seven freshmen. The senior is William (Red Dog) Harley who was a member of the U.S. State Department's squad which participated in several tournaments in Europe during the summer. Juniors are Charles (Chuck) Elliott, among the nation's 10 high scorers last year among small colleges Bennett Webb, Howard Littleton and Joe Maffett, who with Harles is co-captain.

Freshmen include Randall High of Chattanooga, Tenn., one of two ethnic players to make all-state in Tennessee last year. High scored 36 points against Paine in his first game. Melvin Stewart, tallest player (6 ft. 5 in.), Jerome Silvels and Larry Hicks also come from Chattanooga. Cornell Calhoun and Jason Patterson, both of Cleveland Ohio, and Lenard Mayweather of Baton Rouge, La. complete the

Other home games for the Tornadoes include:

Dec. 9, Allen University; Dec. 11 Tuskegee Institute; Dec. 14, Miles Jan. 13, Paine College; Feb. 3, Stillman College; Feb. 5, Claflin College; Feb. 7, Mississippi Industrial College; and Alabama A&M College on Feb. 17.

but the Tigers' 80 points were just enough to hold off Purdue which garnered 75, despite showing an 0-1 record.

Boston College, which has not opened its season, fell two notches to the ninth spot with 69 points 14 less than Bob Cousy's Eagles received in the preseason balloting. TENNESSEE GAINS EDGE

Tennessee, which had been tied or ninth with Vanderbilt, moved slightly ahead of the Commodores by polling 55 points to 49 fcr Vandy. The Volunteers opened their season by clubbing Richmond 93-45 and Vanderbilt also had s 1-0 mark after just getting by SMU, 88-84.

Davidson's 30 points were six less than the Wildcats polled a week ago, but they still held the 12th spot, although not by much 20 with 26 points. Cincinnati drop-ped back one notch to 14th. St. John's an easy victory over

Virginia broke last week's way the for 15th place by taking sole possession of the spot with 20 points. Indiana fell all the way from 11th to 16th, the higgest drop by any school in the pre-season

Clark College is developing a practice area on land acquired under the urban renewal program and can now flex its muscles.

This is a tremendous break-through for Coach Epps, who is an exceptional tutor under any cir-cumstances and who has the car-ny knack of getting the most pre-ductive efforts from his athletes. There are few colleges with ath-letes who possess the blood, sweat and guts that stand out with such

scintillating productivity as Clark College athletic team. Behind all of this is the drive for excellence ignited by Coach Epps The new land will make him even

more effulgent in his clamor to conquest.

The announcement was made by Administrator of Veterans Affairs William J. Driver. who himself held the number two spot in the Federal Government's third largest agency from February 1951 until his appointment as Administrator in December 1964.

Stratton succeeds Cyril F. Brickfield who resigned as Deputy Admilstrator Sept. 15 to enter private

Before his appointment as Deputy Administrator of the VA. Stratton, 46, had been chief benefits director of the VA. He was named in February 1965 to head the VA's huge Department of Veterans Benefits which operates:

-A compensation and pension program providing payments totaling more than \$4.5 billion annually to nearly 4.5 million veterans and dependents of deceased veterans.

-The largest program of adult education ever undertaken in this country. The VA has underwritten G. I. Bill and vocational rehabilitation education and training for some 11 million veterans.

-One of the largest life insurance, policies with a face value of \$40 billion. The VA also supervises 3.6 million Servicemen's Group Life Insurance policies (face value \$36 billion) issued by commercial insurance companies

-Loan programs which have provided home, farm and business loans totaling more than \$68 billion to more than seven million veterans

Named by Driver to succeed Straton as chief benefits director is Art W. Farmer, who was deputy chief benefits director. Elevated to formerly director of Compensation. Pension and Education Service in the Department of Veterans Dene-
