Your favor of 24<sup>th</sup> ult. came duly  
to hand. we expect to forward the balance of your  
order say "wringing machine coils &c" in a few days  
the engine does not require any "condenser." the  
exhaust steam should be carried from the cylinder  
to the heater that heats the feed water to boilers  
and thence into the open air -

As to the tools they belong to us now as they have  
not been paid for please tell M<sup>r</sup> Apperly to please  
send in the money for them the payment was guaranteed  
by M<sup>r</sup> Hatcher. The coupons of City of Memphis  
came duly to hand thirty of thirty doll ea  
= Twelve Thousand Dollars with which we  
are perfectly satisfied and would be  
willing to have the whole payment made  
in that way rather than you should be put  
to expense of buying exchange

Respectfully  
M<sup>r</sup> Wm Tapp

we send tools at once by Express
