Robertson Topp Esq

Dear Sir - We will deliver to you at the Memphis Wharf one hundred or more of Terra Cotta Brackets similar to the pattern this day shown us by McGregor & Rankin at three dollars and fifty cents a piece -

We send you by Messrs McGregor & Rankin a few samples of our work, which we would like to have tested by any of your Mechanics or Architects. As we think we cannot be beat in style or durability of our work, and are anxious to introduce it in your City - one of us intend to visit Memphis in the month of February & exhibit to you specimens of Statuary as well as different articles of building material in Terra Cotta.

Respectfully &c
Foye & Giannini
