Elections System Revision—

At long last action is being taken by the Southwestern Elections Commission to correct the abuses of the elections system at this college. Concrete proposals were laid before the Commission at its first meeting with newly-elected members. The gist of these proposals, which, if enacted, will do much to purify Southwestern elections, is as follows:

1. Combines are to be defined so as to permit the prosecution of organizations only.

2. The definition of combines will make evasion much more difficult than under the present system.

3. The ballot is to be made absolutely secret as far as individuals are concerned. However, so that the functions of the Commission may be fulfilled, a board of tellers will review the ballots.

4. Members of the Commission will be permitted to view no ballots except those cast by their own group, unless the board of tellers charges a combine, in which case the entire election will be thrown open to the entire Commission.

These four proposals embody the principal changes which circumstances have shown to be necessary. In addition it has been suggested that

A Question of Honor—

The coming of exams brings around the same old question of—will the honor system work? Perhaps the honor council is just pessimistic in anticipating the possibility of someone's forgetting they signed a pledge swearing not to give or receive information on exams. Or perhaps, their reminding does some good. They have worked hard at it this year, and as far as is known there have been no cases of violations. They deserve a hand.

However, the year isn't over, and won't be until these exams are over. It would be a shame to ruin this year's record, but it would be even a worse shame for someone to forget their own honor. Furthermore, there are the circumstances which might follow to be considered. This would be the wrong psychological time of year to for-

get about the honor system. A conviction now wouldn't do one much good as far as public reputation is concerned. This may sound like shotgun coercion, but those are the facts. Let's remember not to forget.

the Elections Commission supervise elections in organizations. This has as its purpose the prevention of combines among the members of the organization. If combines are to be prevented at all, the supervisory powers of the Elections Commission must be extended to those bodies which are now beyond its reach.

No action can be taken until the beginning of the next school year. There is ample time for discussion of these proposals in the interim. In the interests of clean elections, the Sou'wester submits its program, which has been laid before the Elections Commission, to the Student Body of Southwestern.

Campus Quips - - -

There comes a time in the life of every college fellow when he hopes to graduate. And despite the sensational interruptions that have reared their ugly heads into this year's curriculum, there are as many with that hope springing in their human breast this year as there were last. Enough in fact, to rate one of the time's most noted novelists as commencement speaker. We are honored.

* * *

And those interruptions have been sensational. They were all built around that three-letter word which is the expression of earthly hell—WAR. Incidentally, this year's Sou'wester staff has had the honor of serving on the first war issue of the old rag. We are honored.

* * *

This week has seen more uniforms on the campus. You've got to hand it to the army and the navy; they know their psychology. As soon as Uncle Sam mops up somewhere like in the Coral Sea, up pops a couple of Recruiting Officers for V-1, or V-5, or V-7, or V-etc. We are honored.

* * *

The year would not be complete without some attempted quip at the women concerning their attempt to usurp the man's place by wearing his britches. But you can't improve on Ogden Nash, and here's how he puts it:

Sure, deck yourself in sloppy pants,
The limbs are yours, my sweeting;
You look divine when you advance,
Have you seen yourself retreating?

But at least the women think the men are worth copying. We are honored.

THE RING-TUM PHI

For final dances this year Washington and Lee prom chairmen have signed Hal McIntyre and his orchestra. The dances will not be as elaborate or last as many days this year because of the war.

TULANE HULLABALOO

In another of their polls Tulane and Newcomb students sought to determine the campus attitude on kissing on the first date. One Tulane comment was, "Definitely not on the first date, but the girl should give him a little encouragement." Another was: "Sure, kiss her on the first one, it's a way to get a second date." Typical was: "I'm willing if she is."

The girls were not so willing. Several said, "Usually no, but there are exceptions to all rules." Others said: "Tease him a little and make him wait." Best comment of all was that of a Newcomb girl: "Kiss 'em on the first date? Yeah boy! Men are getting scarce."

ORANGE AND WHITE

Thought for exam week:
They parted at the doorstep,
She whispered with a sigh . . .
"I'll be home tomorrow night."
He answered, "So will I."

NEWS by the CASE

Rather than wait for the last issue to try to apologize for my many blunders in this column, I will do so at this time. The column in the last issue of this paper was without a doubt the most offensive of any that I have written. I am indeed sorry for all the personal remarks of bad taste that I have included from time to time.

The new Elections Commission has been sworn into office. Plans are being drafted at the present that should eliminate many of the bad features that have characterized campus elections in the past. We believe that the Commission, under the leadership of Roland Jones, will faithfully execute its sworn duty, and that there should be fewer complaints in the future about the elections set up. Incidentally, now that the elections are over many friendships, strained by the political struggles, will be mended promptly. (This remark is our first and last attempt to copy the usual style of Lynx Chat.)

The attacks by Senator McKellar upon the Tennessee Valley Authority, that have been so strong of late are no doubt due to a slipping of the Senator's patronage grip on the organization.

This week the President, by his signature has made into law, a bill providing for the construction of over one hundred submarines. This country has always been behind other major powers in the building of the vital "Pig boats." These boats are one of the most effective of all naval offensive weapons and the good sense of our naval authorities in ordering the construction of numerous new units is to be highly commended.

Also of interest is the bill which has passed the House of Representatives, which is designed to increase the pay of privates in the armed forces to fifty dollars a month. In view of the immense sacrifices that these men have to make, and the fact that many of them need more than they have been receiving to care for their dependents, this pay hike should be contested by no patriotic citizens.

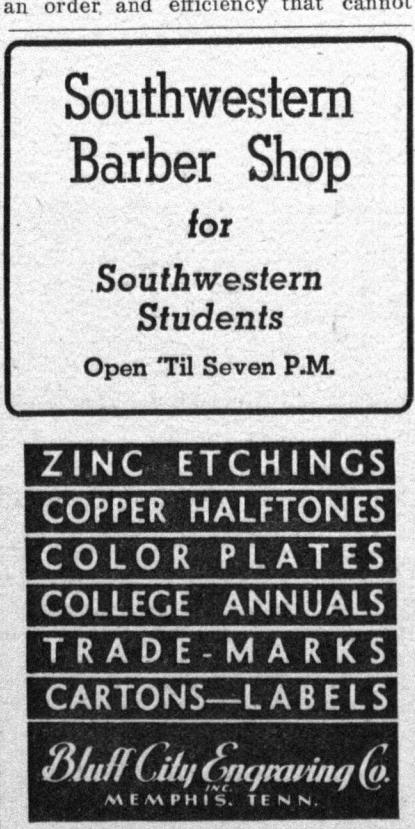

It is much to be regretted that the Smith bill has been withdrawn from the House. Most certainly it is essential that some definite and drastic regulations should be drafted to control the labor forces of this nation in a time of such grave peril. There must be no stoppages or slowdowns in the production of the materials that are vital to the war effort. It most unfortunate that certain forces in the administration have seen fit to sacrifice vital legislation in order to mollify the voting power of organized labor.

The speech of Prime Minister Winston Churchill on Sunday, was without any exception, one of the finest interpretations of the allied position in regard to the measures that can and will be used to defeat the totalitarians. At the same time the power of our naval units was shown by the brilliant victory in the South Pacific. When our ships can engage the Japanese in open battle their superiority in men and power is most clearly shown.

The term of Commissioner Fly of the Federal Communications Commission is almost up. He has made many enemies both within and without the administration. However he will most probably be re-elected, for from the chaos that prevailed in this division before his appointment he has created an order and efficiency that cannot

RANDOMONIUM

By DAVID RUFFIN

I was home last week end for Mother's Day . . . a day full of reason in a year without reason.

Had just sprawled on the bed in my old room to begin these lines when our chatty neighbor, prospective grandmother T., hurried in with two hand-made baby caps for me to see. They were for her son's unborn "son" . . . beautiful, delicate things of soft material and lace and ribbon to be worn by a tiny head that someday will be a big head with all the troubles that big heads have to think about.

"They're beautiful," I said. "I can hardly believe you made them!" And then she was gone . . . quite thrilled with her needle work.

Alone in my room, I selected a Lucky and lit it impatiently . . . was thinking something far too evasive to be put down on paper: something about Maeterlinck's pathetic description in "The Betrothal" of that beautiful land of unborn babies who dread birth horribly . . . something about a verse recalled from Longfellow:

Here at the portal thou dost stand
And with thy little hand
Thou openest the mysterious gate
Into the future's undiscovered land.

Whatever the thought was, it suggested a familiar page in my ninth-grade history book that for so long now has remained unmoved on the shelf beside my bed. Taking it down, I blew off the quiet, helpless dust and thumbed to a certain illustration: lines and lines and lines of soldiers. . . . These are the soldiers that died in the World War. Let us stand on the curbstone and watch them march by. Tramp . . . tramp . . . not getting tired, are you? Why, they have been marching only five or six hours. Tramp . . . tramp . . . ten in a row . . . two seconds apart . . . why, you look actually faint . . . stand up . . . the first day hasn't passed yet. Tramp . . . tramp . . . ten in a row . . . two seconds apart . . . for 1 day . . . for 10 days . . . for 20 days . . . for 40 days . . . for 46 days! THESE ARE THE SOLDIERS DEAD IN THE WAR. (Bruce Barton).

Do you know now what I was thinking about? That's right—another history book twenty years from today be ignored. The President seems to realize this and will probably dislodge any efforts made to openly oppose his re-appointment.

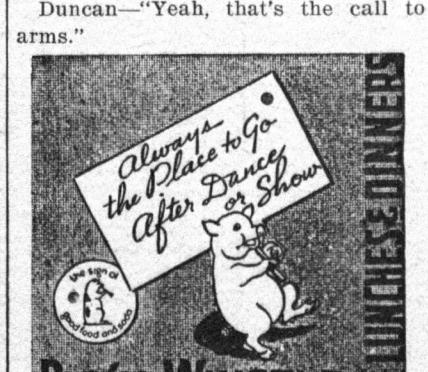

While Price Administrator Leon Henderson is busily engaged in trying to patch up certain leaks that have appeared in the price ceilings that have been set, he has disavowed his intention to deal with another vital field under his scope. In a statement to a House committee he declared that he was opposed to any measure to set a ceiling upon wages of workers. Yet if his program is to be effective and fair, some provision must be made to set such ceilings very quickly to prevent any more drifting toward inflation.

. . . rows and rows of soldiers . . . rows and rows of pregnant women this year who will fill every gap in these future ranks . . . Mother's Day! Lots of beautiful red roses and cheer!

And indirectly connected with the train of thought were lines that once wrote to a familiar embryo that you've all seen on the third floor of Southwestern's Science Building:

Sad, imperfect little vestige
Forever crouched as though in thought,
To me you are a symbol
Of all the men whom war directs
In a path alien to their natures.
Little abortive child of sin,
Who knows how perfect you might have been?

Fullington writes: "After four and a half years service on various fronts, Sassoon realized the emptiness of nationalistic slogans and the lie of 'glory'; the poet's passion was spent, not in attempting to glorify, or even justify, the madness of war, but in communicating his loathing for the butchery which upholds 'prestige,' the nightmare of the trenches, the pride of the 'system,' and the inhumanity of the whole military machine." From Sassoon's "Counter-attack and Other Poems" comes "Does It Matter?" . . .

Does it matter?—losing your leg?
For people will always be kind,
And you need not show that you mind
When the others come in after hunting
To gobble their muffins and eggs.
Does it matter?—losing your sight?
There's such splendid work for the blind;
And people will always be kind,
As you sit on the terrace remembering
And turning your face to the light.
Do they matter?—those dreams from the pit?
You can drink and forget and be glad,
And people won't say that you're mad;
For they'll know that you've fought for your country,
And no one will worry a bit.

Tramp—"Could you give a poor fellow a bite?"

Housewife—"I don't bite my self, but I'll call the dog."

College-bred refers to something which requires a fearful amount of dough, is seldom self-rising and usually proves to nothing more or less than a four-year loaf.

Pussy's back, being the most patriotic animal and staying on defense all night. Took last week off with the rest but returned catty as ever in a flurry of last-minute notes before exams.

Seen around too much are O'Kelly and Beasley, for instance on the dorm steps one night from 6:30 to 11:00—could it be that Springtime's settling down?—These are certainly happy days" for Clairebaby, and nights too when she can get out—Orchids to Simonton from Spain for A.O.P.I Saturday night, and still well preserved in class Monday and Tuesday. We quote M.A. as saying: "My life began when I put my hair up." Inspiration for floral tendencies—McCulloch seen often in Evergreen social room curled up on divan, shoes off, napping while he waits for Meredith Hope he doesn't fall victim to the same fate as Seidentopf—Rosie's latest honor being clept "Loviest Dove" at Y.W. Curling Iron Banquet—the object of her affections being "Cham my Lamb, the Tornado from Tunica."

With the strains of the "Chattanooga Choo Choo" ringing freshly in her ears, P. Hughes has decided that Manny was a pretty cute little number to hang on to after all—this fickle femininity—Incidentally, tears were shed by a lot of the gals over this latest draftee—Seen at the Peabody S Club party—some new dishes! Cupid is strictly getting his arrows all hot for you again next time—crossed these days. (Beaux, too!) Aloha.

Johnny Iles with "Angel" Seay—this gal gets more and more amazin'—Billy McClure appeared for the first time this year with a dame we all know—none other than "Butch" Boswell. Everybody gasped when Lard Lewis walked in with a Blonde Blitzkrieg on his arm—Also spied Lard and Marianne Woodson in deep converse. Justine's luncheon date t'other day was Adam Jett.

Wonder what was so important that Seagle threw A.O.P.I and all the other dates here over last week end to go to the Tennessee Spring Formal? However it didn't seem to hurt her popularity any—imagine any sucker rising at 6 bells to meet a train. That's what "Doc" Moore did—well, maybe he's still trying to reduce.

Looks like Hugh "Never give-up" Black is still batting away with M. Ragsdale. Even an engagement doesn't stop this boy. But all's fair in love and war and this is both, so may the best man win!—Hear that Banning is giving up a month's vacation and June week at Annapolis just to go to summer school. It couldn't be Hugh Murray's prolonging of his school year has anything to do with it, could it, Mary Ann?

Time's up and so are exams. Don't study too hard, all you rats and ratters, but give your undivided attention to your work, because I'll take care of all the dirt and dish it up crossed these days. (Beaux, too!) Aloha.

DON'T QUIT COLLEGE
if you are 17 thru 19 and want to
become a Naval Officer!

**You can serve your country best by
acting on this new Navy Plan now!**

YOU WANT to fight for your country! Are you willing to work for it? To toughen yourself physically? To train yourself mentally for a real job in the United States Navy? If you are, the Navy wants you to enlist now. You don't have to quit college. You can stay in college, continue your studies to prepare for active duty in the air or on the sea.

And your college will help you do it! In cooperation with the Navy, it offers all freshmen and sophomores who are seventeen and not yet twenty, special training that may win for you the coveted Wings of Gold or a Naval Aviation Officer or a commission as a Deck or Engineering Officer.

How to Become an Officer

To get this special Navy training, you enlist now as an Apprentice Seaman. Then you may continue in college, but you will include special courses stressing physical development, mathematics and physics. After you successfully complete 1½ calendar years in college, you will be given a classification test.

Aviation Officers

Those who qualify in the classification test and do not volunteer

may volunteer to become a Naval Aviation Officer. In this case, you will be permitted to finish the second calendar year of college work before you start your training to become a Flying Officer.

However, at any time during this two-year period, you may have the option to take immediately the prescribed examination for Aviation Officer...and, if successful, be assigned for Aviation training. Students who fail in their college courses or who withdraw from college will also have the privilege of taking the Aviation examination. Applicants who fail in this test will be ordered to active duty as an Apprentice Seaman.

Deck or Engineering Officers

INTRAMURALS

Intramural softball winds up the year's program this week, as the Sigma Nu's battle the SAE's for the championship.

In the last three games of the regular season, the PIKA's distinguished themselves by losing three straight contests to the Sigma Nu's, KA's, and SAE's. On Monday afternoon in the first feature Holland turned them back with 2 hits and 3 runs while his teammates were gathering 10 hits and 9 runs from Wyatt to win 9 to 3. The Pikes were held hitless and scoreless the last three innings.

In the nightcap the Lee boys won 9 to 2, Maybry yielding 6 hits as his boys collected 10 from Wyatt.

Tuesday afternoon the powerful SAE machine trounced the Pikes 8 to 1, Howie being the winning pitcher. The Lions had 4 hits, the Pikes, 4. McKinney was the losing pitcher.

In the first game of the 2 out of 3 championship series last Wednesday afternoon the Sig Alph's went down in defeat before the blasting bats of the SN's. Score, 6 to 1. Howie yielded 8 hits, as Holland allowed only 4.

In an intra-college game with the Memphis State Tigers Wednesday afternoon, the Lynx intramural team were the victors, 7 to 6. Holland (P), Hinson, McClure, Speros, Freeman, McKinney, Wyatt, Maybry, Frank, and Romine played for Southwestern.

SPORTSMEN'S CORNER . . .

By CHEVES LIGON

You'll recall from several issues back how this corner PLAYED UP THE LYNX NETMEN, and on this day we're happy to congratulate two of our stars, Jimmy Collier and Mac Hinson for winning the State Double's Championship. These two stars fared very well in single's competition aussi. Hinson battled the new State champ, Art Jersey the Swainee No. 1 player, for three sets in the semis before losing a nip-and-tucker, and Collier suffered an off-day to lose in the final round to this same feller. The team lived up to all expectations, and proved themselves one of the standouts on the Courts in the South. Many congrats to all of them for a very successful season . . . The State Tennis Tourney was played off at Cookeville last Saturday, and at the same time a trio of our Lynx tracksters were distinguishing themselves in the State-wide track meet. Lewis Wellford took first place in the Pole Vault, Ray Bearden threw the Javelin for the longest distance, and Billy Dowdle set the track on fire as he took first place in both the quarter and the half-mile. That shows that the boys were right in the thick of the fight, and we're proud of their fine work!

Tuesday morning's issue of the Commercial-Appeal informed us of Coach Nemeck's appointment as Head Coach at Tech. We've never heard anything but the finest kind of com-

pliments spoken about Coach Nemec. All we can say is that Tech is getting one of the best coaches and one of the finest persons we've ever known. Coach, we want you to know you'll be greatly missed, and at the same time we wish you all the luck that can come to a coach.

This week's column is purposely short, because there's a little matter of exams staring us in the face. We hope all of you can smash out a home-run on your's; just don't spot any of them two strikes. JUST A FEW BRIEF COMMENTS on the Nation-wide events of the past week. The best job in the sport's world was turned in by pitcher Junior Thompson of the Reds, who pitched a one-hit, shut-out victory over the Brooklyn Dodgers. Shut Out took the Kentucky Derby in record time over a field of 15. Warmerdam was all that he's been cracked up to be, as he vaulted over a pole raised so high that Fournier couldn't set it up with a 10 ft. rake. Outstanding at the Cotton Carnival Meet were Charles Hlad, Roy Cochran, and Campbell Kane—along with Warmerdam. And as the week closes, the Memphis Chicks are just a mite out of first place.

We've a heavy week ahead, but probably not in the Sport's Dept. Billy Horn may even be forced to desert the Courts for an afternoon or two. S'long and Good Luck.

Now . . .

We Need Every College Man In Officers' Training

★ To Man the Mightiest Air Army in the World ★

**Make Your Choice This
Week For Present or Future
Officers' Training**

IF your blood boils at the very thought of an enslaved world . . .

If Jap treachery and Nazi savagery make you see red and itch for a gun—calm yourself with the promise that we shall pay them back with compound interest!

We shall—and you as a college man now have the opportunity of serving as a Flying Officer—a Bomber, Navigator or Pilot—with that branch of service which will do that paying back in person—the U. S. Army Air Forces!

Under the new Army Air Force Reserve Plan—if you are a Senior or wish to leave school—apply now for your Aviation Cadet training.

You and your friends can share together the work and fun of flight training, and after approximately 8 months—earn the right to be flying officers in the U. S. Army Air Forces!

On the other hand, if you are a Freshman, Sophomore or Junior—you can, if you like, continue your studies under the Deferred Service Plan of the Army Air Forces—and become better prepared for Officers' Training later.

New Simplified Requirements

To qualify you must be 18 to 26 (inclusive), physically fit—and pass a new, simplified mental test which college men find easy.

When you are ready—and facilities are ready—you begin as an

**THREE ENLISTMENT PLANS
FOR COLLEGE MEN**

**Juniors—Sophomores—Freshmen
May Continue Their Education**

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standing.

**All College Men May Enlist
for Immediate Service**

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Aviation Cadet training.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities
