PROFS DECIDE TO LET GREEKS HANDLE PLANS

Incoming 'Pan' to Solve Fall System

MAYBE OLD PLAN

Delayed Season Goes on Discard File

"The faculty's attitude toward fraternity rushing for the future is strictly hands-off. The sooner rushing is completed, the better the faculty will be pleased."

Dr. R. P. Strickler, faculty adviser on the Men's Panhellenic Council at Southwestern, in speaking thus for the faculty has created a stir in fraternity circles on the campus.

Moore Moore, president of the retiring Council, said that "the Council was highly pleased with the faculty's decision." The present group will not attempt to formulate rushing rules for next fall. The incoming Council will work out the new plan.

Altho fraternity leaders are non-committal on the "new plan" it is the consensus among campus Greeks that this is a veritable declaration of "cut throat" rushing.

DELAYED IS FAILURE

During the past two years the plan of delayed rushing has been experimented with at Southwestern. It has proved a failure fraternity men say, and will be abandoned in the future. Pledging to fraternities during the past season was delayed until the Thanksgiving holidays. Under the "new plan" fraternities will start rushing the minute freshmen pay their matriculation fees on the first day of college next fall.

The term "cutthroat" has been aptly named because of the tactics used by rival groups in inveigling a newcomer to see particular merit in the contesting fraternities. The methods used in promoting such insight, and in belittling the so-called merits of others, justifies the pirate term.

Intramural Cinder Meet Is Announced

Fraternity, non-fraternity and class groups will participate in an intramural track meet to be held on Fargason Field the afternoon of April 20.

The Southwestern Athletic Association is offering a silver cup to the class making the highest point total in the regular events, and also a cup to the class amassing the largest total among the four groups.

Varsity men will enter with both their class and fraternity teams, as only one intercollegiate meet has been scheduled, and this will not interfere with the plans made by the athletic committee.

W. C. Rasberry is in charge of the intramural meet.

Track candidates have been issued their new uniforms, consisting of black satin trunks and red jerseys.

Honor Chi Alphas

Dr. C. L. Baker, father of Miss Rachel Baker, was host to the Chi Alpha sorority at his home, 767 Center Drive, Hein Park, Wednesday night at a dance. Music for the evening was furnished by a negro orchestra.

Initiate Five

Phi chapter of Kappa Sigma has given the final initiation rites to Pledges Joe McKinnon, Bowman Hall, Robert Darden, William Puryear and Garland Boyd.

Ritchie To Nashville

Malcolm Ritchie, winner of the Robert G. Lee oratorical medal, will represent Southwestern at Nashville Friday night in the Tennessee State Oratorical contests.

PEEPING About G

A CO-ED IS A GIRL WHO CAN STAND UNDER MISTLETOE AND NEVER GET A THRILL.

Have you ever been pinched for going too fast?
No, but I've been slapped.

"Do you know where I can get hold of Mary?"
"Don't try any rough stuff, bub."

Prof. Davis—"This lecture is apt to prove embarrassing. If any co-ed care to leave, they may."

Chi Omega—"Sir, will you wait just a minute while I round up some of my sisters."

Co-ed—"And does that nice little cow give milk?"

Silas—"Not exactly; you sorta have to take it away from her."

WHILE IT IS TRUE THAT WE CAN NOT CHOOSE OUR FACE, WE CAN STILL PICK OUR TEETH.

Jim—"Let's me have some dye, please sah."

Druggist—"What color do you want?"

Jim—"Ah jes' don't know. The doctah done told mah wife she had stummick trouble and to diet."

Waiter—"What will you have, sir?"

Vern—"A toasted cheese sandwich."

Waiter—"On toast?"

Vern—"No; bring it in on horse-back."

kappa—"doesn't she walk funny?"

alpha—"That's the new feministic movement."

VICTORY

"Ah wins."

"What you got?"

"Three aces."

"No, you don't, Ah wins."

"What you got?"

"Two nines and a razor."

"You sho do. How cum you so lucky?"

"Any part of the city for fifty cents!" yelled the taxi driver.

"You can't sting me again," retorted "City Slicker" Thomason. "I bought the city hall last year and they wouldn't give it to me."

SHE WAS ONLY A MINER'S DAUGHTER, BUT OH WHAT NATURAL RESOURCES!

Pig (awaking)—"Sis, are you frozen to death?"

Sis (asleep)—"Uh huh!"

Pig—"Then give me the covers."

Beck is suffering from a sore back (cause unknown). She told Dr. Drake she hurt it riding in a rumble seat going to Senatobia.

Have you seen Colleen Moore's "Wings"?

Nope, but I saw her hips in "Gray Skies."

Paul Caldwell was telling a certain co-ed that he was going to take down his shades now that bushes have been placed outside his window. She deplored the announcement vehemently. "Wal," quoth Paul, in his own way, "Adam got along with a fig leaf. I reckon I can get by with three bushes."

About Things In General

The out-going Student Council has announced a radical policy in the coming spring elections. The Council has agreed that politics are detrimental to the harmony between different groups on the campus, as well as an impediment, oftentimes, to the selection of the best candidates for the respective offices.

Whether or not students will follow the lead set by the Council remains problematical. We who have gone thru three political seasons do not welcome another one. The younger bloods, especially those who are now sophomores and have only tasted political strife but once, cannot be reasoned with to any appreciable extent, and some of their number are clamoring for cliques. But we hope that the better judgment of their elders will prevail upon them, and they will fall into line without undue coaxing.

As yet we have not witnessed, or heard of, any political scheming between groups. The elections are just two weeks off, and if the present spirit survives, the out-going Student Council can boast of an effort well worth the applause of the entire campus.

Captain "Bud" Hickey is donator of the shrubs which have been planted around the east sides of Robb and Calvin halls. Captain Hickey has always been an active worker among Southwestern students, always promoting their interests as his own, and always dependable when good, sane counsel is needed. His gift to the college is just another expression of his interest. The institution and student body are fortunate in having such a friend.

We are surprised at the number of embryonic athletes who have blossomed out since Mr. Don Fuller has been with us. Since his arrival the men and women have both organized basketball loops, and the gym is always occupied by students who formerly never saw its interior. Now the men and women of the college are planning intramural class meets, and the men have organized interclass indoor baseball teams. With the freshmen and Bobcat baseball teams on the diamond, and the track men on the gridiron, and the rest of the student body playing ball, the campus has come to life, it seems, and the dead days of the past are really past.

"And the blend can't be copied!"

No visitor to Normandy ever considered his tour complete until he had made the pilgrimage to Mont St. Michel and the Inn of the Famous Omelet—Chez Madame Poulard, l'Incomparable, la Fameuse Omelette.

The Madame is since gone, but not until just before she died did she reveal the secret of her famous omelets. No doubt hundreds have tried—and struggled in vain—to use the precious information, but as a writer has put

it, the Inn without Madame is "like Tara's hall without the harp!"

The making of a great cigarette, too, is a secret to be guarded. The artistry lies in how the tobaccos are blended—and from our own private formula comes the rich fruity flavor that you get in your Chesterfield.

Suffice it to say that our blend can't be copied—nor for mildness with flavor can you duplicate the rare Chesterfield goodness.

Staf-O-Life Hold Lynx To 1-1 Count

Big Mac Stumbles Near Home to Lose Run

After battling 10 innings until darkness, the Lynx and the Staf-O-Life, independent team, wound up with the score standing 1 to 1 last Friday. Johnson "Lefty" Garrott hurled for the Lynx and did some fine twirling to enable his team to keep the count even.

The tilt was scheduled to go seven innings, but a last minute rally knotted the count in the final inning and kept the game going three extra periods. The Staf-O-Life scored their counter in the second inning on a two bagger by Smith, followed by a triple by Tate.

The Lynx should have won the game in the seventh. T. M. Garrott slapped out a single. Johnson Garrott and Pittman were outs. McGivaren went in to bat for Bowen and dropped a hit over first. Porter pinch hit for Alexander and crashed out another single, Parnell, running for Garrott, scoring. Big Mac was due to score the winning run but stumbled on the way in home and was tagged out.

The game was one of the best played here in some time.

Bottles 'Chart' Currents

LONDON—(IP)—Great Britain has found an effective way to chart the currents of the ocean.

Some 500 whisky bottles have been thrown overboard, each having enclosed a small paper issued by the meteorological office of the British Air ministry. The finder is asked to forward the contents of the bottle to London.

Many of the papers have come back. Each slip records the position of the vessel from which the bottle was cast into the waves.

Thomas Wins Opener; Dodds Goes Under

The Bobcats broke even in a pair of games with Tupelo Military Institute Friday and Saturday on the Southwestern diamond. The Bobcats took the opener 3 to 2, and dropped the second by the same score in a 10-inning battle the following day.

Jimmy Thomas, the southpaw hurler, turned in a nice game in the opener. The Bobcats got to Duke-manner in the opening inning for three runs but were unable to tally from then on. Thomas weakened in the sixth when the Cadets pushed two tallies over the plate, but held the visitors the rest of the game.

Dodds worked in the box the second game and pitched well, but his teammates could not hit behind him. McGarity and Clark pitched for the Cadets and were tight in the pinches.

ANSWER NO. 17

The possession of gifts

(4) Printed page and well wrought argument are good, but after all most men are swayed by the spoken appeal when presented with conviction and fire.

The ability to speak may be God's gift by which he would draw you into the ministry.

Community Benefactors

The railroads, because they are permanently located, naturally desire to be known as good citizens and good neighbors in every community along their lines. They achieve that end in three ways: first, by rendering an essential service in supplying satisfactory transportation; second, by carrying out their ordinary civic obligations, such as paying taxes; third, by contributing in a special manner toward agricultural and industrial advancement. In the latter effort they display good business judgment, for whatever enriches a railroad's territory eventually redounds to the benefit of the railroad itself.

The railroad is one of the foremost allies of local civic, agricultural and industrial groups in promoting community progress. Its organization commonly includes experts in both industry and agriculture, who travel over the railroad's territory seeking opportunities to improve local producing and manufacturing conditions.

Farmers are aided through group meetings, illustrated lectures, soil surveys, arrangements for trains of fertilizer, promotion of dairy campaigns, field instruction in vegetable raising, the encouragement of poultry raising, the running of special trains with educational exhibits, and so on, each railroad's contribution being governed by the particular requirements of its territory.

To aid in the advantageous location of industries, a railroad will ordinarily have on file surveys of communities along its lines covering population, transportation lines, availability of raw materials, electric and water power service, rates on gas and electricity, water supply, labor and housing conditions, taxes, resources and deposits of banks, fire protection, schools, churches, recreation facilities, available sites and industries already located.

Constructive criticism and suggestions are invited.
