RHODES VISION

Rhodes College aspires to graduate students with a life-long passion for learning, a compassion for others, and the ability to translate academic study and personal concern into effective leadership and action in their communities and the world. We will achieve our aspiration through four strategic imperatives:

1. Student Access

To attract and retain a talented, diverse student body and engage these students in a challenging, inclusive and culturally-broadening college experience.

2. Student Learning

To ensure our faculty and staff have the talent, the time and the resources to inspire and involve our students in meaningful study, research and service.

3. Student Engagement

To enhance student opportunities for learning in Memphis.

4. Student Inspiration

To provide a residential place of learning that inspires integrity and high achievement through its beauty, its emphasis on values, its Presbyterian history, and its heritage as a leader in the liberal arts and sciences.

RHODES COLLEGE'S COMMITMENT TO DIVERSITY

A diverse learning community is a necessary element of a residential liberal arts education. We, the members of the Rhodes College community, are committed to creating a community where diversity is valued and welcomed. To that end, Rhodes College does not discriminate on the basis of race, gender, color, age, religion, disability, sexual orientation, and national or ethnic origin and will not tolerate harassment or discrimination on those bases.

We are committed to providing an open learning environment. Freedom of thought, a healthy exchange of ideas, and an appreciation of diverse perspectives are fundamental characteristics of a community of scholars. To promote such an academic and social environment we expect integrity and honesty in our relationships with each other and openness to learning about and experiencing cultural diversity. We believe that these qualities are crucial to fostering social and intellectual maturity.

Intellectual maturity also requires individual struggle with unfamiliar ideas. We recognize that our views and convictions will be challenged, and we expect this challenge to take place in a climate of tolerance and mutual respect.

ACCREDITATION AND GENERAL POLICIES

Rhodes College is a fully accredited four-year college of liberal arts and sciences. With an endowment of \$246 million and a physical plant valued at \$292 million, the College has one of the largest investments per student (\$325,000) in the nation.

Rhodes is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, GA, 30033-4097; telephone number 404-679-4501) to award the Bachelor of Arts and Bachelor of Science degrees and the Master of Science in Accountancy degree.

Attendance at Rhodes, a privately endowed college, is a privilege which may be forfeited at any time by any student who refuses or fails to conform to the

regulations and standards of the College, or who is unwilling to adjust to the College's traditions and environment. Among these traditions are the Honor System and the Social Regulations Council which that are administered by students and are described elsewhere in the catalogue. Certain offenses and violations of College rules are considered serious enough to merit suspension or expulsion. Additionally, the College reserves the right to suspend or expel any student, if, in the sole discretion of the administration, such suspension or expulsion is necessary to protect the best interests or welfare of the College, including the health and well-being of other students, faculty, or staff.

Rhodes welcomes applications for admission from all persons and does not discriminate on the basis of gender, race, color, age, religion, disability, sexual orientation, or national and ethnic origin in its admissions policies, loan programs, or other college educational programs, policies and activities. In compliance with section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, Rhodes will make every reasonable effort to accommodate the needs of its students with disabilities.

The information, policies, and procedures listed in this catalogue are current and up-to-date as of March 1, 2007. Policies stated in this catalogue are expected to be in effect through the academic year 2007-2008 but are subject to revision. Normally, policy revisions are implemented in the next academic year, following notice thereof and are effective for all students who graduate in or after that academic year. However, occasionally a policy must be changed and implemented in the same academic year. In such cases, written notification of the revision will be mailed to all students currently enrolled.

The faculty of Rhodes College has the authority and the responsibility for establishing and maintaining those policies and procedures governing the academic standing of students at the College. Any deviation from the policies and procedures stated in this catalogue relating to academic standing requires the prior formal approval of the faculty.

A compendium of all current policies and procedures in regard to the College is maintained in the office of the President.

ADMISSIONS

APPLICATION PROCEDURE

A student who wishes to apply for admission to Rhodes may do so anytime after the end of his/her junior year in high school. The Rhodes Application (both Parts I and II) may be completed online and can be accessed at apply.rhodes.edu. Rhodes also accepts the Common Application (paper and on-line) in lieu of its own form and gives equal consideration to both. No application fee is required for students who use Rhodes' online application or the Common App Online.

A paper version of the Rhodes Part I application may be obtained by writing or calling the Admissions Office. Part II of the application will be mailed to the applicant upon receipt of Part I. A non-refundable application fee of \$45 must be submitted with either Part I or Part II of the Rhodes paper application.

In addition to the application for admission, first-year students must submit an official high school transcript, standardized test scores (SAT or ACT) from the testing agency, a counselor and a teacher recommendation, and a senior year progress report. Transfer students must submit an application for admission, an official high school transcript containing his/her standardized test scores, an official college transcript, a college professor recommendation, and a personal letter explaining the reason (s) for wanting to transfer to Rhodes. In addition to submitting the same application supporting documents as all other students, home-schooled students must submit the results of two SAT-II Subject Tests from areas other than English or mathematics.

The deadline for submitting the application for admission and all supporting documents for the fall semester is January 15. Students who apply for fall admission by January 15 will be notified of the admission decision by April 1. The application deadline for spring semester admission is November 1 with decision notification by December 1. For Early Decision deadlines, see "Early Decision Plan" below. Please note that all accepted students are automatically considered for competitive scholarships.

Transcripts and other documents required for admission become part of the permanent file of an enrolled student and cannot be returned or legally copied for the student or parent.

The College is a member of the National Association for College Admission Counseling (NACAC) and endorses the principles contained in the Association's Statement of Principles of Good Practice.

ADMISSION SELECTION PROCESS

Academic Record. A student's academic record is of primary importance in the admission selection process. Applicants must complete in high school sixteen or more academic units, including at least four years of English, two years of the same foreign language (classical or modern), two years of laboratory science and two years of history or social science. Furthermore, applicants are expected to have completed the mathematics course sequence Algebra I, Geometry, and Algebra II or their equivalent. A fourth year of high school mathematics, including trigonometry and advanced algebra is especially important for students who plan to study mathematics, natural science, computer science, economics or business administration. Students with slightly different high school curricula may be considered only if their records in other respects clearly indicate readiness for Rhodes' program of study. Applicants are expected to have a high school diploma or G.E.D.

Special note is taken in the decision making process of honors, advanced placement, International Baccalaureate, accelerated or enriched courses. Students

who have taken college-level courses and wish to receive credit at Rhodes for those courses should refer to “Transfer Credit for Enrolled Students” in the Requirements for a Degree section of this catalogue.

Standardized Test Scores. All applicants for admission to the entering class are required to take either the Scholastic Assessment Test (SAT) of the College Board or the American College Test (ACT). It is advisable for the student to take the test in the junior year as a means of adjusting to this type of examination or for Early Decision or Early Admission purposes. Any student applying for Regular Decision should take the test no later than December of the senior year so that their scores will be available to the admissions staff by January 15. If the secondary school record does not include the student’s scores from the SAT or ACT, the student must have the scores sent to the Admissions Office from the testing agency.

Test application forms may be obtained from high schools, or by writing directly to the testing services, as follows: (1) The College Board, 45 Columbus Avenue, SAT Department, New York, New York 10023-6992 (2) ACT Registration Department, P.O. Box 414, Iowa City, Iowa 52243. Students may register for these standardized tests online at collegeboard.com (SAT) or act.org (ACT).

Supporting Documents. Additional supporting documents will be considered when deciding on a student’s admissibility to the College. These documents include a listing of extracurricular involvements, leadership positions or summer experiences, short-answer questions, an application essay, a counselor’s report and a teacher’s recommendation.

Student Interest. A visit to the Rhodes campus (in addition to other demonstrations of interest) can be a deciding factor in making an admission decision between two similar candidates. Interest may also be demonstrated by talking with an admission officer at your high school or at a college fair, personally corresponding with the admission office, or sending standardized test scores to the College. A student’s ability to pay may be a deciding factor when considering applicants who rank within the lowest range of admissible students.

The Faculty Standards and Standing Committee and/or the Dean of Admissions and Financial Aid have the discretion to deny any student admission to Rhodes College.

Students who wish to appeal their admission decision may do so by writing to the Dean of Admissions and Financial Aid requesting reconsideration.

CAMPUS VISIT AND INTERVIEW

A campus visit is the best way to experience life at Rhodes. Students are encouraged to visit between Monday and Friday so that, in addition to an interview or information session, they may attend a class and meet faculty. High school seniors and transfer students may also arrange, through the Admissions Office, to spend one night in a residence hall. Overnight accommodations are available Sunday evening through Thursday evening.

While on campus, students may participate in an information session or have a personal interview with an admissions officer. Appointments may be scheduled between 9:00 a.m. and 4:00 p.m. (Central Time), Monday through Friday, and during the academic year on Saturdays from 9:00 a.m. until noon. Interviews are limited to Mondays, Fridays and Saturdays in the months of January and February due to the admission staff’s heavy involvement in reading applications.

The Admissions Office is open year round, and appointments may be made by calling the Admissions Office at least two weeks in advance of the date of the visit. To arrange a campus visit, students may call one of our Campus Visit Coordinators at 1-800-844-5969 or, locally, 843-3700. Students may also arrange a campus visit online at rhodes.edu/campusvisit.

EARLY DECISION PLAN

Students who are certain they want to attend Rhodes may wish to take advantage of the Early Decision Plan. Under this plan, the student must submit a completed application for admission, high school transcript (including grades for the first marking period of the senior year), letters of recommendation, standardized test scores and the Early Decision Agreement form by November 1 for Early Decision I or by January 1 for Early Decision II. The student may apply to other colleges, but not under any other Early Decision Plan. If accepted, the applicant agrees to withdraw all applications submitted to other institutions, file no additional applications, and enroll at Rhodes.

Early decision candidates who wish to be considered for need-based financial aid must complete and submit the College Scholarship Service's PROFILE to the Financial Aid Office by November 1 for Early Decision I or by January 1 for Early Decision II in order to determine estimated eligibility for financial assistance. The financial aid package offered under Early Decision must be verified by filing the Free Application for Federal Student Aid (FAFSA) by March 1.

Under the Early Decision Plan, the College agrees to render a decision on admission by December 1 for Early Decision I or by February 1 for Early Decision II. Accepted students who are applying for need-based financial aid and have submitted the PROFILE will be contacted by the Financial Aid Office concerning their request by December 10 for Early Decision I or by February 10 for Early Decision II. If accepted under the Early Decision Plan (and provided with financial assistance to fulfill the student's demonstrated need), the applicant is expected to submit the required deposit (as explained under Enrollment Deposit) by December 15 for Early Decision I or by February 15 for Early Decision II. Offers of admission and financial aid to students who do not enroll at the college will be rescinded.

If a decision on the student's application cannot be reached, the student will be notified that the application will be deferred and guaranteed unbiased consideration under Regular Decision.

EARLY ADMISSION PLAN

High school students who wish to enroll at Rhodes as a degree-seeking student prior to completion of their secondary schooling may apply under the Early Admission Plan. This option is provided for those students who have demonstrated exceptional ability and motivation in secondary school and are ready to experience the challenges of a college education earlier than normal.

To be eligible for consideration, a student must submit a completed application for admission, a high school transcript including grades for five semesters of course work, a teacher's and a counselor's recommendation form, SAT or ACT test scores, and have a personal interview with an admissions officer. Successful candidates will have satisfied Rhodes' normal admissions requirements, including the academic units requirements outlined under "Admission Selection Process" above. Normally it will be necessary for an Early Admission student to enroll at a local college or university in the summer prior to their enrollment at Rhodes in order to fulfill the College's English units requirement.

Early Admission students must normally have the support of their secondary school counselor and of their parents in order to be considered for admission under the plan.

DEFERRED ENROLLMENT

Students who have been accepted for admission and wish to delay their enrollment at Rhodes for a semester or a year may request Deferred Enrollment by writing the Dean of Admissions and Financial Aid. The letter requesting Deferred

Enrollment must indicate the length of time requested for deferral, the reason for requesting the deferral, and the proposed actions of the student during the time of the deferral. The Dean of Admissions and Financial Aid will respond to the deferral request in writing. If deferred enrollment is granted, the student must submit a nonrefundable \$400.00 enrollment deposit to the Office of Admissions.

Accepted students requesting deferral who have been awarded one of the College's competitive scholarships or fellowships may retain the award as long as its value is one-half Rhodes tuition or less. Scholarships or fellowships granted to accepted, deferred students that are valued at over one-half Rhodes tuition will not be retained by the students. In these cases, the students will be reconsidered for competitive scholarships/fellowships during the semester prior to their enrollment at the College.

Deferred students may not enroll in additional high school course work or in more than two college courses for credit in any one semester/term during their time of deferral. Doing so nullifies their admission and scholarship offers and requires new admission and scholarship decisions to be rendered.

ADMISSION OF TRANSFER STUDENTS

Rhodes welcomes applications from students who wish to transfer from other accredited colleges or universities. Students who have enrolled in more than two courses in any one semester or term at another college or university are considered transfer students. Students who have not graduated from high school, but have taken college course work, are not considered transfer students.

An applicant for admission as a transfer student should write or call the Office of Admissions for an application or may go to apply.rhodes.edu to access Rhodes' online application. The student should have official transcripts from his or her secondary school and all postsecondary institutions attended sent directly to the Office of Admissions. If the secondary school transcript does not include the student's scores on the SAT or ACT, the student must have these sent to the Admissions Office from the testing agency. Transfer applicants applying for January entrance must also submit a Mid-Semester Grade Report (available from the admissions office) containing grade estimates from their professors. Admission and scholarship decisions are made in the context of both the secondary and post-secondary academic record. Prior college work is evaluated in light of Rhodes' established degree requirements. Transfer students whose prior work is not compatible with a Rhodes degree program may find it necessary to extend their college career in order to complete all requirements for a degree.

Rhodes' admissions policy is to only consider applications for transfer from students who are in good standing at the last institution attended. Students under academic or disciplinary suspension are not encouraged to apply to Rhodes until eligible for readmission to the suspending institution.

Transfer from an unaccredited college requires a more thorough analysis of academic credentials. If accepted, the student will be placed on probationary status for one academic year and is expected to maintain a record satisfactory to the Faculty Standards and Standing Committee. Transfer students coming from colleges not accredited by a regional accrediting agency may find the acceptance of transfer credit to be very limited.

For more information regarding the transfer of credit, see "Transfer Credit for Enrolled Students" in the Requirements for a Degree section of this catalogue.

ADMISSION OF INTERNATIONAL STUDENTS

Rhodes encourages international students living both abroad and in the United States to apply for admission. International students are those individuals who are

not citizens or permanent residents (resident alien status) of the United States.

In addition to those documents required of all first-year or transfer students, international applicants must have the official results of the Test Of English As a Foreign Language (TOEFL) forwarded to the Office of Admissions from the appropriate testing agency. The TOEFL exam is not required for native English-speaking students. All applications must be accompanied by a passport-size photograph of the applicant. International students who have studied at other colleges or universities must have official transcripts from those institutions sent to Rhodes. All transcripts must include a certified English translation.

All international applicants, whether applying for financial assistance or not, must submit the College Board's International Student Certification of Finances. A limited amount of financial assistance is available to international students with financial need. International student applicants are eligible for the competitive scholarships offered by the College. However, due to the requirement of being interviewed on campus and the distances involved, students living abroad are normally not considered for the Bellingrath Fellowships or the CODA Fine Arts Fellowships.

ADMISSION OF SPECIAL STUDENTS (NON-DEGREE CANDIDATES)

Applicants who give evidence of sufficient academic ability may be admitted as special students to a course of study not leading directly to a degree, but allowing them to pursue that work for which they are best prepared and/or which they particularly need. Special students may enroll in no more than two classes, or for no more than eight credits per semester. Special students who wish to audit classes are limited to taking one course per semester.

Special students are not eligible to live in the residence halls or to participate in intercollegiate athletics, fraternity or sorority membership, or other extracurricular activities. In addition, special students are not eligible for any Rhodes or federal financial aid funds. Directed Inquiries are not ordinarily available to special students. Should the special student subsequently become a degree candidate, credits earned while a special student are applicable towards the degree sought.

The deadline for submission of a special student application along with a \$45.00 nonrefundable application fee and most recent transcript is two weeks prior to the beginning of a new semester/term. Applicants who have not been enrolled in any institution of higher education are required to have an official copy of their high school record sent to the Office of Admissions.

Special student admission material is submitted only once. Students who have attended Rhodes as a special student and wish to continue their studies as a special student should report directly to the Registrar's Office and register for classes during the first three days of a new semester/term.

Special students who have enrolled in two or more courses at another institution must reapply for special student status through the Office of Admissions. A student seeking readmission as a special student will normally be held to the same academic standards as full-time, degree-seeking students at Rhodes.

Special students are held to the same standards of academic progress regarding academic probation and suspension as degree students.

READMISSION OF STUDENTS

Students who have voluntarily withdrawn from the College and have taken two courses or less in any one term at another institution, and students who have been academically suspended from Rhodes and wish to return, must apply for readmission through the Faculty Standards and Standing Committee.

Returning students must complete an Application for Readmission (obtained

from the Registrar's Office) which requests current information about the student, including an account of activities and educational experiences during the absence from Rhodes. In many cases interviews with the Dean of the College and the Dean of Students will be necessary to complete the readmission process. Students seeking to be readmitted must initiate their requests at least two months prior to the beginning of a new semester.

Students who have voluntarily withdrawn from Rhodes and have taken more than two courses in any one term or semester at another institution are considered transfer students. These students must apply for readmission to Rhodes through the Office of Admissions submitting the college's application or the Common Application and the required supporting documents.

RHODES HIGH SCHOOL SCHOLARS PROGRAM

Rhodes allows high school students who have demonstrated exceptional ability and motivation to begin their college work while completing their secondary school course of study. Such a student may enroll in up to two courses per semester at Rhodes.

To be eligible for the Rhodes High School Scholars Program, a student must complete an admission application; have scored at least 1140 on the Scholastic Assessment Test (SAT) or 25 on the American College Test (ACT); rank in the upper one-fifth of his or her class; have a positive high school recommendation; and have a personal interview with an admission officer.

Course fees per credit hour are the same as Special Student tuition (see "Special Fees and Deposits" in the Expenses section). Financial aid is normally not available for students participating in the program. Participation in the High School Scholars Program will require coordination of the student's college and high school course schedules. Rhodes' Admissions Office will gladly assist the students, teachers, and counselors with these arrangements.

ADVANCED PLACEMENT

Rhodes will normally grant advanced placement and course credit to entering students who score either 4 or 5 on a College Board Advanced Placement Examination. Students who score 3 on an Advanced Placement Examination may enroll in advanced course work if the relevant department recommends it. A maximum of thirty-two (32) credits may be earned through Advanced Placement examinations. A maximum combined total of thirty-two (32) credits may be earned through Advanced Placement and International Baccalaureate examinations.

A student who wishes to take courses for credit after receiving Advanced Placement or International Baccalaureate credit for those courses is required to waive Advanced Placement credit for those courses.

THE INTERNATIONAL BACCALAUREATE DEGREE PROGRAM

Rhodes recognizes the International Baccalaureate academic program and welcomes for review the submission of IB examination scores. Course credit is normally granted for each Higher Level Examination area passed with a score of 5, 6 or 7. A score of 4 may qualify a student for advanced course work, subject to review by the appropriate academic department. A maximum combined total of thirty-two (32) credits may be earned through Advanced Placement and International Baccalaureate examinations.

A student who has successfully completed advanced secondary school education, including the British Advanced Level Examinations, the French Baccalaureate, the German Abitur, or the equivalent, may receive some advanced standing or transfer credit at Rhodes for that work. Such credit is not granted, however, until the

student has been admitted and has enrolled at Rhodes, at which time his or her credentials will be reviewed by the Registrar and the academic departments in which the credit(s) will be applied.

ENROLLMENT DEPOSIT

In order to reserve a place in the class, all accepted students must submit a non-refundable \$400.00 enrollment deposit to the College. Deposits must be postmarked no later than our deadline of May 1 (December 15 for Early Decision I and February 15 for Early Decision II.) The deposit is not an extra charge but is credited to the student's account and deducted from other expenses. The balance of the first tuition, fees, room and board payment is due in early-August. The College cannot guarantee that a residence hall room will be available unless this balance is paid at that time.

ORIENTATION AND REGISTRATION REQUIREMENTS

All new students are expected to attend the summer orientation/registration program "Open Rhodes" during the summer prior to enrollment and to be present for Orientation Week, which immediately precedes the opening of the College. The orientation period is designed to acquaint new students with the traditions, ideals, academic expectations and regulations of Rhodes and to give them an opportunity to plan their courses of study in consultation with members of the faculty. During orientation week the new students will also meet with the representatives of various student organizations, take placement tests, receive instruction in the use of the library, participate in social events and attend discussions with administrative officers of the College. The dates of the orientation period are listed in the college calendar at the beginning of this catalogue.

A complete medical examination and provision of immunization records are required of all full-time new students. This medical examination should take place within six months prior to enrollment. The results of the examination along with immunization records, recorded on a form provided by the College, must be on file in the College Student Health Center before registration. Failure to provide the form may result in not being permitted to register and not being provided medical services until the form has been received. In the case of insufficient or missing medical data, the student may be granted provisional registration.

Proof of health insurance is required of all students. A copy of your insurance card will be requested with the completed Health Form. Failure to provide proof of insurance may result in not being permitted to register and will result in not being provided medical services.

EXPENSES

The cost of an education at Rhodes is of concern to students, their families, and to the College. Rhodes has been able to hold charges for tuition, room, and board to about 75% of the total cost of a student's education. The College's success in annual fundraising and the substantial income derived from the endowment have enabled Rhodes to hold costs below those at many comparable colleges. The tuition charge includes some services in the College Health Services Center, admission to athletic events, and a wide range of activities sponsored by academic departments or the College at large. The student activity fee supports student publications and student organizations, as well as many College-sponsored social activities which are held throughout the year. A summary of costs for the 2007-2008 academic year is listed below; students should bear in mind that charges for textbooks and supplies are not included.

		Semester	Year
Tuition (Students first enrolled in Fall 2005 semester or later)		\$15,171.00	\$30,342.00
Tuition (Students enrolled during Spring 2005 semester or earlier)		14,116.00	28,232.00
Activity Fee		155.00	310.00
Room & Board			
Room Type	Meals per Week

The regular college plan provides for payment of tuition, room and board in two installments. The payment for the Fall Semester is due August 9th, and the payment for the Spring Semester is due November 22nd. Students are billed less deposits already made.

If monthly payments are preferred by parents and/or guardians, Rhodes allows such payments through one agency: Key Education Resources (1-800-KEY-LEND). Information on the various plans offered by Key will be mailed to all parents well before the first payment is due. If a monthly plan is chosen, arrangements should be made prior to the date the first payment is due. The College has made arrangements with A.W.G. Dewar, Inc. to offer a tuition refund plan to Rhodes parents that will provide a refund in case of illness or accident causing the student to withdraw before the semester is completed. Information concerning the tuition refund plan will be mailed along with the first tuition bill in July that details the protection provided and cost of this coverage.

REGULATIONS REGARDING PAYMENT

A bill for the tuition charge, together with applicable room and board charges, will be mailed to all students before each due date. Unless prior arrangements acceptable to the Bursar of the College are made, a student's account not paid in

full at the due date will be regarded as delinquent. A student whose account is delinquent will be denied the privileges of registration, attending classes, obtaining academic transcripts, using College facilities, being certified for initiation into a fraternity or sorority, or being admitted to graduation.

Students may enroll in courses totaling eighteen credits in each semester. The student desiring to take more than a normal academic load during a semester should consult the section of the catalogue on "Registration" appearing under "Academic Regulations." A student who enrolls in more than eighteen credits in a semester must pay the extra hour fee even if the student eventually withdraws from the overload credit.

First-year students and sophomores are required to live on campus the full academic year.

Once a student moves into a residence hall room, room and board charges for the full semester are due and payable on the student's account. Even if the student moves out of the room during the semester, the full room and board charges for that semester remain due on the student's account. Because of the high demand for College housing, the student who is not withdrawing from Rhodes and is a resident only in the Fall Semester will be fined \$500 if he/she is not moved out of the room by the day after the last final examination of the Fall Semester.

Students living in the residence halls are required to choose either the 15 meals per week dining plan or the 21 meals per week dining plan. Students living in the East Village resident hall also have the option of choosing the 7 meals per week dining plan. There are no exceptions to this policy. Meals may be taken in either the Burrow Refectory or with a cash equivalency in the Lynx Lair. Students will be given the opportunity to choose the board plan they prefer prior to the start of the school year. Students may change their board option by contacting the Bursar's Office prior to the beginning of the next semester. Once the board plan has begun for a semester, no further changes may be made. Non-resident students may also purchase one of the meal plan options by contacting the Bursar's Office prior to the beginning of the semester.

All students living in the residence hall must pay the full comprehensive tuition, regardless of the number of credit hours taken in the semester.

If at some point it becomes necessary to turn the student account over for collection, the student will be required to pay all collection and attorney fees associated with the collection of the debt.

WITHDRAWAL POLICY

All requests for withdrawal must be initiated by the student through the Student Affairs office. The official date of withdrawal will be the date when approval was obtained from the Student Affairs office. When the completed withdrawal forms are submitted to the Bursar, the financial accounts of the student will be settled based upon the policies below. Involuntary withdrawals (i.e. suspensions or expulsions) are handled the same as voluntary withdrawals in that tuition and other fees remain due for the semester in which the suspension or expulsion occurs.

Tuition. If a student has attended classes, the full semester's tuition is due and payable to the College regardless of the date of withdrawal, unless the student withdraws due to protracted illness or injury. Should this illness be certified by a physician, psychologist, or other qualified professional that it prevents the completion of the semester's academic work, a pro-rata charge for tuition will be made on the following basis ("days" is defined as days when classes are scheduled, i.e. five days per week).

Withdrawal Date	Pro-rata Semester Tuition Due (for medical reasons only)
First 10 days of semester	25%
11th through 25th day	50%
26th through 35th day	75%
After 35th day of semester	100%

Financial Aid. Rhodes financial aid remains credited to the account on the same basis as the charge for tuition above. When a student leaves the college, however, federal, state, and/or institutional financial aid funds may need to be returned to the entity providing the funding. The Bursar's Office will determine the amount of "unearned financial aid" received by the student. The return of those funds may create a balance due to the college, and it is the student's responsibility to pay that balance.

Room and Board. The full room and board charges for the semester remain due and payable for any semester the student occupies a residence hall room. The charges remain due regardless of the date or reason for withdrawal. There are no pro-rata refunds of room and board charges.

Activity Fee. The full activity fee charge for the semester remains due and payable for any semester the student attends classes, regardless of the date or reason for withdrawal.

SPECIAL FEES AND DEPOSITS

Application Fee. \$45.00

Enrollment Deposit. \$400.00. Applies to incoming students only. The deposit, due by May 1, is non-refundable.

Part-time Tuition (Non-resident degree candidates taking 11 credits or less who were first enrolled at Rhodes in the fall 2005 semester or later). \$1,275.00 per credit.

Part-time Tuition (Non-resident degree candidates taking 11 credits or less who were enrolled at Rhodes during the spring 2005 semester or earlier). \$1,180.00 per credit.

Special Student Tuition (Students not seeking a degree at Rhodes). \$720.00 per credit.

Summer Session, 2007. \$360.00 per credit (Due at registration). All students earning Rhodes credit during the Summer Session must pay Summer Session tuition in order to receive the credit. Directed Inquiries and Internships, both on- and off-campus, are included in this category.

Special Student Audit Fees. \$360.00 per credit hour plus \$45.00 application fee.

Extra Course Fee. \$470.00 per credit. This fee is charged of degree-seeking students enrolling in more than eighteen (18) credits in a semester.

Music Fees. Students who have not declared majors in Music wishing to add the study of applied music to their regular academic program will be charged an additional fee of \$350.00 per credit per semester for private lessons. After the first applied music lesson, this additional fee is nonrefundable. Declared music majors are not subject to this fee. If a student does not graduate as a music major, the fees for lessons taken free of charge will be added to the student's account. Music majors are responsible for the fee for the Advanced Composition course. Music majors taking more than 16 credits of applied music will be charged the music fee for these credits above sixteen.

Late Payment of Bill. \$25.00

Late Registration Fee. \$50.00

Graduation Fee. \$180.00 Payment due by the beginning of a student's last semester in attendance.

Student ID card replacement. \$10.00

Key Fob replacement. \$25.00

FINANCIAL AID

Rhodes invests substantial funds in financial assistance to help make it possible for students who are admitted to the College to attend. Currently, over 80 percent of Rhodes students receive some form of federal, state, institutional, or outside financial assistance, with total assistance amounting to over \$24 million.

Most aid awarded by the College is offered as a combination of grant, loan and student employment. Rhodes takes full advantage of the available federal and state financial assistance programs when awarding financial aid to students. Additionally, through the generosity of loyal alumni and other friends of the College, Rhodes students benefit from a generous competitive scholarship program.

DEFINITIONS

COA: Cost of Attendance (tuition, fees, room, and board, estimated cost of books, estimated personal/living costs and estimated transportation costs). The term "Direct COA" only includes tuition, fees, and estimated costs for books and supplies.

EFC: Expected Family Contribution: the minimum amount a family is expected to contribute for the student's education for a given academic year. The EFC is calculated by the FAFSA and the CSS PROFILE and assumes families will finance education utilizing current income, past savings, room and board (if living on campus), and student and/or parental borrowing.

Demonstrated Need: The difference between the COA and the EFC.

FAFSA: Free Application for Federal Student Aid; used in awarding federal and state grants and scholarships as well as loans and work study.

CSS PROFILE: A financial aid application that Rhodes uses to award Rhodes Grant funding. The CSS PROFILE is a product of The College Board.

SAP: Satisfactory Academic Progress: federal requirement that students must consistently progress toward completion of degree requirements; Includes GPA and earned hours measured at the end of each academic year.

FINANCIAL AID APPLICATION PROCEDURES FOR PROSPECTIVE STUDENTS

- Submit the CSS PROFILE (<https://profileonline.collegeboard.com/>): Early Decision I applicants should complete the CSS PROFILE by November 1; Early Decision II by January 1; and Regular Decision by March 1. The code for Rhodes to receive the CSS PROFILE results is 1730.
- Submit the FAFSA (www.fafsa.ed.gov) between February 1 and March 1. The Title IV Code for Rhodes to receive the FAFSA results is 003519. All prospective students who want consideration for financial assistance, including Early Decision applicants, must complete the FAFSA as well as the CSS PROFILE. Early decision applicants who received a tentative financial aid award package based on the CSS PROFILE must complete the FAFSA in February to confirm the tentative package.
- Notification of financial aid awards for admitted Early Decision I applicants will occur by December 10, with admitted Early Decision II applicants receiving financial aid awards by February 10 and admitted Regular Decision applicants by April 10.
- The deadline for replying to the financial aid offer from Rhodes is December 15 (postmark) for Early Decision I applicants, February 15 (postmark) for Early Decision II applicants, and May 1 (postmark) for Regular Decision applicants.

FINANCIAL AID APPLICATION PROCEDURES FOR CURRENTLY ENROLLED/ RETURNING STUDENTS

Currently enrolled/returning students who wish to continue eligibility for need-based financial aid (and for the Tennessee Education Lottery Scholarships for Tennessee residents) must complete the FAFSA each year. Rhodes encourages students to complete the Renewal FAFSA between February 1 and March 1.

The Department of Education will send renewal notices to students between November and December of each year, mainly via email. Returning students who are reapplying for financial aid do not need to complete the CSS PROFILE unless the student is asking for reevaluation of aid eligibility based on special financial circumstances; otherwise, the CSS PROFILE is required of first-time financial aid applicants only.

FINANCIAL AID TO MEET NEED

If the results of the FAFSA and the CSS PROFILE reveal that a student has a financial need, Rhodes will normally offer the student a financial aid package that consists of gift-aid (grants and/or scholarships) and self-help (loans and student employment). Rhodes funds, federal funds, state funds and funds provided to the student through outside organizations are all considered a part of the need-based financial aid package and are applied to need first, per federal regulations. The need-based programs commonly available at Rhodes are described on the following pages.

GRANTS

Rhodes Grant: Students may receive a Rhodes Grant along with other forms of assistance such as competitive scholarships, student loans, and work study. Rhodes Grants are not always need-based. Rhodes uses this funding to meet need and/or to offer assistance based on the overall characteristics of students who show promise of success at Rhodes and who show the ability and desire to take full advantage of all Rhodes has to offer.

Federal Pell Grant: The federal government provides direct assistance to eligible students through the Federal Pell Grant Program. Eligibility for the Federal Pell Grant is determined by the results of the FAFSA.

Federal Supplemental Educational Opportunity Grant (SEOG): Federal Supplemental Educational Opportunity Grants are awarded by Rhodes to students with exceptional financial need, defined as those students who are eligible for Pell Grant. SEOG funds are limited.

Tennessee Student Assistance Award (TSAA): Students who are residents of Tennessee apply for the TSAA via the FAFSA. To be eligible, a student must have graduated from a Tennessee high school, have been a continuous resident of Tennessee for the twelve month period preceding the start of the academic year for which the grant is made, and have an EFC of \$2,100 or less. Further information may be obtained from the Tennessee Student Assistance Corporation, Suite 1950, Parkway Towers, 404 James Robertson Parkway, Nashville, TN 37243-0820. The phone number is (800) 342-1663 or (615) 741-1346. The web site is www.collegepaystn.com/.

Ministerial Grant: As a church-related college, Rhodes will assist children of Presbyterian Church (U.S.A.) ministers with a \$1,000 ministerial grant above any Rhodes grant or scholarship previously awarded. Dependents of PCUSA ministers should indicate their interest in the Ministerial Grant on Part I of the Rhodes application for admission or on the Common Application Supplement.

Tennessee Education Lottery Scholarship Program (TELS): The state of Tennessee offers scholarships of up to \$5,300 for Tennessee residents who attend

an approved college or university in Tennessee. The FAFSA is the application for the TELS funding and must be completed by state-established deadlines, as indicated on the FAFSA. Information on all requirements for the TELS may be found at www.collegepaystn.com.

LOANS

Federal Perkins Loan: Rhodes awards Federal Perkins Loans to students who demonstrate exceptional financial need. The Perkins Loan is a 5% interest loan on which no interest is charged and no payments are made as long as the student is enrolled at Rhodes at least 6 credits. Repayment begins nine months after the student ceases being at least a half-time student. Repayment of the Perkins Loan may extend over a 10-year period. Perkins funds are limited.

Federal Stafford Student Loan Program: Beginning July 1, 2007, loans up to \$3,500 are available to first-year undergraduate students. Upon earning 27 credits, students may obtain a loan up to \$4,500 for the sophomore year and, upon earning at least 55 credit hours, a student may obtain a loan of up to \$5,500 per year for the remaining years of undergraduate study. (NOTE: The number of credits required to move from one classification to another will change with the new Foundations Curriculum, and the college will post requirements on the web page.)

Federal Stafford Loans are either subsidized or unsubsidized. In the case of a subsidized loan, the federal government pays the interest while the student is enrolled in an eligible institution on at least a half-time basis. In the case of an unsubsidized loan, the student is responsible for interest payment while enrolled at least half-time. Repayment begins six months after the student graduates or ceases to be enrolled at least half-time. The maximum repayment period is ten years, and the interest rate currently is fixed at 6.8%.

Student Loan of the Presbyterian Church (U.S.A.): Up to \$1,000 annually may be borrowed from the Student Loan Fund administered by the General Mission Board on behalf of the Presbyterian Church. The student must have been a member of the denomination continuously for at least one year immediately preceding the date of application. Evidence of financial need is required. Students interested in this loan should address all communications to:

Presbyterian Church (U. S. A.)
Office of Financial Aid for Studies
100 Witherspoon Street
Louisville, KY 40202-1396
Telephone: (888) 728-7228
<http://www.pcusa.org/financialaid/>

STUDENT EMPLOYMENT

Student employment programs at Rhodes include the Federal Work-Study Program (FWSP) and the Rhodes Work-Study Program (RWSP). When an offer of student employment of any type is extended by the College and accepted by the student, this offer does not guarantee that the student will earn the full amount of the award. The student will be paid only for the hours worked, and the award amount represents maximum gross wages a student may earn. Earnings are paid directly to the student; they are not credited to the student's account in the Bursar's Office. To receive a pay check, a student employee must have an I-9 form on file in the Financial Aid Office and a current W-4 form on file in the Accounting Office.

Federal Work-Study Program (FWSP): Through the Federal Work-Study Program, part-time employment is offered to students to help them meet their financial need. A student may work for no less than the prevailing minimum wage rate for

as many as forty (40) hours per week during the summer and for an average of ten (10) to twelve (12) hours per week while enrolled as a regular student during the academic year.

Rhodes Work-Study Program (RWSP): Employment on the campus may be offered through the Rhodes Work-Study Program to students who do not demonstrate financial need. In these cases, employment will be offered only after those commitments made to students eligible for the FWSP Program (described above) are honored. Students in this category (no demonstrated need) who desire employment on campus should contact the Financial Aid Office. A student may work for no less than the prevailing minimum wage rate for as many as forty (40) hours per week during the summer and for an average of ten (10) to twelve (12) hours per week while enrolled as a regular student during the academic year.

WITHDRAWAL FROM RHODES AND RETURN OF FEDERAL TITLE IV STUDENT AID

When a student who has federal Title IV student aid withdraws from the College or does not return from an approved leave of absence, or takes an approved leave of absence for longer than 180 calendar days (including summer), the unearned portion of those funds must be returned to the federal student aid programs. Federal Title IV funds that may have to be returned include the Federal Pell Grant, the Federal Stafford Loan, the Federal Parent Loan for Undergraduate Students (PLUS), the Federal Perkins Loan, the Federal Supplemental Educational Opportunity Grant (SEOG) and the Federal Leveraging Educational Assistance Partnership (funds the TSAA grants). The unearned portion of federal Title IV funds is determined by dividing the number of days in the term that have passed as of the date of withdrawal by the total number of days in the term. If the withdrawal occurs after 60% of the term has elapsed, no return of Title IV funds is required. The Bursar's Office calculates the Return of Title IV funds amount and informs the Financial Aid Office and the student of the results of the calculation.

Federal regulations require funds be returned to federal programs in the following order: Unsubsidized Federal Stafford Loans, Subsidized Federal Stafford Loans, Federal Perkins Loans, Federal PLUS Loans. If funds remain after repaying all loan amounts, the remaining funds are repaid to Federal Pell Grants, Federal Supplemental Educational Opportunity Grants and Federal Leveraging Educational Assistance Partnership program (TSAA).

Students and parents should be aware that the requirement to return federal Title IV assistance might result in a balance due to Rhodes College; the student and/or student's family is responsible for paying any balance resulting from the return of Title IV aid.

COMPETITIVE SCHOLARSHIPS

Competitive scholarships for incoming students are based solely on merit; financial need is not a consideration. Federal regulations, however, do require that any assistance, including competitive scholarships, first apply towards the demonstrated need when awarding need-based aid. Selection is based on the candidate's academic record, leadership, character, and personal achievements. Competitive scholarships may be renewed for a maximum of three renewals provided the student meets the financial aid satisfactory academic progress standards and the GPA requirements of the scholarships. In addition, the student must maintain full-time student status (at least 12 credits) through the extended drop period of each semester. The total amount of Rhodes-funded scholarships and grants may not exceed tuition, fees, room, and board.

Rhodes' competitive scholarships are awarded only to entering students. Returning students not initially offered a competitive scholarship will not be

considered for a competitive scholarship at a later time. Returning students who have been awarded a competitive scholarship will not be considered for scholarships of greater value as they progress through Rhodes.

All qualified applicants are automatically considered for Rhodes' competitive scholarships. An application for admission and all supporting documents must be submitted by January 15 for preferential consideration.

Morse, Cambridge, University, and Presidential Scholarships Rhodes Awards: Scholarships are awarded to entering students based on the candidate's academic record, leadership, character, and personal achievements.

Ralph C. Hon Scholarships: Hon Scholarships are awarded to entering students based on the candidate's academic record, character, and interest in economics, business, international studies, pre-med, and pre-ministry.

Dean's Scholarships: Dean's Scholarships are awarded to outstanding entering students of color.

Spencer Scholarships in Greek and Roman Studies: Spencer Scholarships are awarded each year to first-year students who have distinguished themselves in the study of Latin, ancient Greek or the civilizations of ancient Greece and Rome.

Rhodes College-Sponsored National Merit Scholarships: Awards sponsored by Rhodes may be offered to first-year students who are designated as finalists in the National Merit Scholarship competition and who have designated Rhodes as their first choice. Recipients may not receive other National Merit Scholarships. The minimum value of the scholarship is \$500. However, if the candidate has financial need, as demonstrated on the FAFSA and CSS PROFILE, the value of the award can be a maximum of \$2,000. The awards are renewable for three years provided the student meets the financial aid satisfactory academic progress standards and other criteria as established by the National Merit Scholarship Corporation.

FELLOWSHIPS

At Rhodes, we have taken traditional scholarships a step further by allowing students to invest in themselves through professional internships, community service, research or other requirements in exchange for financial assistance. In addition to funding, recipients of fellowships receive real-world experience that puts their education into action. Fellowships are awarded to students based on special talent and provide service, research, or internship opportunities to recipients.

Fellowships may be renewed for a maximum of three renewals provided the student meets the financial aid satisfactory academic progress standards, the GPA requirements of the fellowship, and the service, internship, research, or other requirements of the fellowship. The student must maintain full-time student status (at least 12 credits) through the extended drop period of each semester to continue to receive the fellowship. The total amount of Rhodes-funded fellowships, scholarships, and grants may not exceed tuition, fees, room, and board.

Walter D. Bellingrath Fellowships: Normally, three (3) Bellingrath Fellowships, each with a stipend equal to the full cost of tuition, fees, room and board at Rhodes, are awarded to the College's most outstanding first-year students. Bellingrath Fellowships cover the cost of on-campus room and board calculated at the standard double occupancy rate and may be applied only toward on-campus housing. Bellingrath Fellowship award amounts are adjusted to the recipients actual charges three weeks into each term.

A student who is interested in one of these fellowships must submit an application for admission and all necessary supporting documents by January 15. Due to the requisite of being interviewed on campus and the distances involved, students living abroad are normally not considered for the Bellingrath Fellowships.

Fine Arts Fellowships: Fine Arts Fellowships are made each year to entering students who have demonstrated outstanding achievement in the areas of art, music and theater. Auditions are required in music and theatre, and art requires the submission of slides. The Fine Arts Fellowships are valued at \$12,500 per year. If a student qualifies for a Fine Arts Fellowship and another competitive scholarship or fellowship, only one scholarship or fellowship (whichever is greater) will be awarded. Winners of these fellowships are required to major or minor in a Fine Arts discipline while at Rhodes.

CODA Fine Arts Fellowships: CODA (Center for Outreach in the Development of the Arts) Fine Arts Fellowships are awarded to students who demonstrate an interest and potential for personal leadership in the Fine Arts. Award recipients participate in the CODA Fine Arts Leadership Program at Rhodes, requiring 10 hours of weekly mentored leadership development and practical internship in a Fine Arts project as well as the maintenance of an archival portfolio documenting their arts experiences while at Rhodes. Unique in the world of undergraduate education, the CODA Fellowship is valued at \$12,500 per year.

Jack H. Taylor Fellowship in Physics: The Taylor Fellowship in Physics recognizes talented high school physics students and encourages their continued college development in physics. The Fellowship is valued up to \$15,000 per year based on the qualifications of the recipient and is in addition to any other Rhodes grant or scholarship the student may receive. At least one Fellowship will be awarded to a first-year student each year.

Bonner Scholarships: The Bonner Scholarships are for students who have demonstrated an exceptional record of leadership and service participation in their communities and who wish to become effective leaders who promote positive change in the world. The Bonner Scholarships are awarded on a competitive basis and support fifteen first-year students who rank in the top 15% of their high school class, have an SAT composite score (Critical Reading and Math) of 1220 or higher OR ACT composite score of 26 or higher, and demonstrate an outstanding record of leadership, community service and/or social justice work.

To be eligible, the student's family must have an Expected Family Contribution (EFC) below \$7,500 (with a few exceptions made for outstanding candidates) and the CSS PROFILE (later followed by the FAFSA) must be filed with Rhodes by January 15. Scholarships are valued at \$12,100 and are in addition to any Rhodes grant or scholarship the student may receive. Bonner Scholars are also awarded funding for two summer service projects, access to a community fund to support service projects, and up to \$1,600 for the purpose of reducing total educational loan indebtedness upon graduation from Rhodes.

OTHER SCHOLARSHIPS AND AWARDS

The Presbyterian Partnership: Because Rhodes shares an important relationship with the Presbyterian Church (U.S.A.), a special scholarship program, called the Presbyterian Partnership, has been established. Through this program Rhodes seeks to strengthen its ties with the Church and to help students obtain the distinctive and high quality education available at Rhodes. In the program, the Session of a Presbyterian church may nominate a student to receive a Partnership grant of \$1,000, \$2,000 or \$4,000. The church contributes one-half of the Partnership grant to Rhodes, and the College supplies the other half and applies the total to the student's account. Any institutional grant or scholarship previously awarded the recipient by Rhodes will be used to match the Church's portion of the scholarship (i.e. no additional grant or scholarship aid will be awarded). Eligibility requirements for a Partnership Scholarship are:

- The student must be nominated by the Session of a local Presbyterian Church

(U.S.A.).

- Only first-year students and transfer students are eligible for an initial Partnership Scholarship.
- The recipient must meet all requirements for admission to Rhodes as a full-time student and maintain satisfactory academic progress at all times.

Interested students should contact their pastor or Clerk of Session to see if their church is willing to enter into a Partnership agreement with Rhodes. For further information about the Presbyterian Partnership Program, contact the Financial Aid Office.

National Presbyterian College Scholarships: Rhodes participates in the National Presbyterian College Scholarship Program by co-sponsoring one award each year to an entering first-year student. This award, based on financial need and ranging in value from \$700 to \$1,400, is renewable for up to three additional years provided the student meets the financial aid satisfactory academic progress standards.

The National Presbyterian College Scholarship Selection Committee will determine the winner from those applicants who indicate on the application that Rhodes is their first choice among the participating Presbyterian Colleges. Application forms may be obtained from and must be returned to:

National Presbyterian College Scholarships
Presbyterian Church (U.S.A.)
Financial Aid for Studies
100 Witherspoon Street Mezzanine
Louisville, KY 40202-1396
<http://www.pcusa.org/financialaid/>

American Field Service Returnee Scholarships: Rhodes will provide up to five (5) AFS Returnee Scholarships valued at \$500 per year and renewable for up to three additional years provided the student meets the financial aid satisfactory academic progress standards. The scholarships are available to any AFS returnee who is offered admission to the College. The student should indicate on page two of the Rhodes Part I Application for Admission or on the Common Application Supplement that he/she wants to be considered for the AFS Returnee Scholarship.

HOBY Scholarships: These scholarships are available to any participant in a HOBY seminar who is offered admission to the College. The scholarship is valued at \$500 per year and is renewable for three years provided the student meets the financial aid satisfactory academic progress standards. Students should indicate on page two of the Rhodes Part I Application for Admission or on the Common Application Supplement their desire to be considered for a HOBY Scholarship. A maximum of five (5) HOBY Scholarships will be awarded each year.

Youth for Understanding Scholarships: Rhodes will provide up to five (5) YFU Scholarships per year valued at \$500 and renewable for three additional years provided the student meets the financial aid satisfactory academic progress standards. The scholarships are available to any YFU participant who is offered admission to the College. The student should indicate on page two of the Rhodes Part I Application for Admission or on the Common Application Supplement that he/she wants to be considered for the Youth For Understanding Scholarship.

Army ROTC Scholarships: Rhodes students may compete for Army ROTC scholarships providing college tuition and educational fees up to \$20,000 annually (estimated). Awardees also receive a book allowance of \$450 per semester and a stipend varying from \$300 - \$500 per month from the Army (estimated).

Students awarded a \$20,000 Army ROTC scholarship may receive up to a \$4,000 Rhodes Grant. The Rhodes Grant will be awarded unless the student has already received a Rhodes College scholarship or grant equal to or greater than the

indicated grant amount. Rhodes Grants are renewable for three years as long as the student retains his/her ROTC Scholarship and meets the satisfactory academic progress standards for financial aid. Information about Army ROTC Scholarships may be obtained by writing to Army ROTC, The University of Memphis, Memphis, TN 38152, or by calling Army ROTC at (901) 678-2933. The information above is subject to change, per the Army ROTC program.

Air Force ROTC Scholarships: Through an agreement between Rhodes and the United States Air Force, Rhodes students may participate fully in the AFROTC program based at the University of Memphis and can compete for AFROTC scholarships. Incoming freshman can compete for four and certain cases five year scholarships by applying for an AFROTC College Scholarship (CSP) online at www.afrotc.com. Applicants must apply no later than 1 Dec of the year prior to entering college as a freshman. Scholarships awarded through the CSP program include: (1) full-tuition and fees (Type 1); (2) up to \$15,000 per year towards tuition and fees (Type 2); and (3) up to \$9,000 per year towards tuition and fees (Type 7). Students not selected for a CSP scholarship, if eligible, can compete for a scholarship through the In College Scholarship Program (ICSP) once they are enrolled at Rhodes and in AFROTC. These scholarships include: (1) up to \$3,000 towards tuition and fees (Type 6); (2) up to \$9,000 towards tuition and fees (Type 3) and the Type 2 scholarship. Students who receive the Type 2 scholarships through CSP or ISCP are eligible to compete to upgrade to 80 percent of tuition and fees. All AFROTC scholarship programs include a \$600 per year book allowance. Scholarship awardees who receive the Type 1 scholarship are also eligible to receive up to a \$5,000 Rhodes grant. Those students who are awarded the Type 2 scholarship may receive up to a \$3,000 Rhodes grant. The Rhodes grant will be awarded unless the student has already received a Rhodes College scholarship equal to or greater than the indicated grant amount. Rhodes grants are renewable for up to three years as long as the student retains his/her ROTC Scholarship and meets the satisfactory academic progress standards for financial aid. Please note that if a Type I recipient chooses to live at home or with relatives, the amount of the Rhodes grant plus the Air Force Type I scholarship cannot go above Rhodes' cost of attendance for a commuter student living with relatives. Students on scholarship and/or in the two-year Professional Officer Course (POC), a junior/senior or a graduate student, receive a tax-free stipend. The stipend for freshman is \$250 per month. Sophomore is \$300. Students in the POC course receive a stipend of \$350 for the first year and \$400 for the second year. For details regarding the AFROTC program or scholarships contact the Unit Admissions Officer, Air Force ROTC Detachment at (901) 678-2681 or visit the AFROTC Det 785 website at www.afrotc.memphis.edu. The information above is subject to change, per the Air Force ROTC program.

Memphis Scholars Program: The goal of the Memphis Scholars Program is to strengthen the connection between Rhodes and the Memphis community and to keep the best and brightest Memphians in Memphis. Qualified applicants will be offered admission to the College and awarded a full tuition scholarship. The scholarship is renewable for three years provided the student maintains a 2.50 grade point average and meets the satisfactory academic progress standards for financial aid. If the student receives federal or state grants that, when added to the scholarship, totals more than the direct cost of attending Rhodes, the scholarship will be reduced accordingly.

EdScholar Scholarships: Normally two EdScholar Scholarships are awarded annually to first-year students who are Tennessee residents. Selection of scholarship recipients is based on the student's community service/leadership record, academic achievements and financial need. The Edscholar Scholarship has a stipend of \$7,000 per year for four years and will be renewed yearly as long as the

recipient remains a full-time student at Rhodes and maintains a 2.50 grade point average. The scholarship is funded by Edfinancial located in Knoxville, TN.

Outside Scholarships: Scholarships from other organizations may also be available to students who attend Rhodes. Some of these awards are administered through high schools. However, in most cases, the student applies directly to a club or association. Interested students should work with their high school counselors to learn of those scholarships available in their area. Please note that outside scholarships, like the above aid, become part of the financial aid package and assist in meeting demonstrated financial need. Students must notify the Rhodes Financial Aid Office of any outside funding he or she receives.

TUITION EXCHANGE PROGRAMS

Associated Colleges of the South: Children of employees of ACS participating institutions are eligible to be considered for the ACS Tuition Exchange.

Rhodes' agreement with ACS indicates that for any given academic year, ACS "imports" (students attending Rhodes as an ACS Tuition Exchange student) will not exceed "exports" (children of Rhodes employees attending another ACS college under the agreement) by more than three students.

Each ACS Tuition Exchange recipient pays a participation fee of \$1,500 per academic year. The ACS Tuition Exchange benefit is equivalent to full tuition at Rhodes and is renewable for three years provided the student meets the financial aid satisfactory academic progress standards and meets the eligibility requirements indicated above. Participants must be full-time degree candidates. Recipients may be required to live in a residence hall at the College's discretion.

ACS Tuition Exchange benefits may be used for one of the following Rhodes study abroad programs: European Studies or Rhodes Exchange. All other study abroad programs are ineligible programs for ACS Tuition Exchange benefits.

Interested students must specify that admission is being sought under the ACS Tuition Exchange program, apply for all state and/or federal aid for which he or she may be eligible, and submit an ACS Tuition Exchange certification form completed by the appropriate official at their home institution and certifying their eligibility for the exchange. Eligible students must meet Rhodes' normal admission requirements.

Association of Presbyterian Colleges and Universities (APCU): Students who are the dependent children and spouses of full-time faculty and staff in APCU colleges which have endorsed the Plan are eligible to be considered. Eligible students must meet Rhodes' normal admission requirements to be considered.

Rhodes' agreement with APCU indicates that for any given academic year, APCU "imports" (students attending Rhodes as an APCU Tuition Exchange student) will not exceed "exports" (children of Rhodes employees attending another APCU college under the agreement) by more than one student.

The APCU Tuition Exchange benefit is equivalent to full tuition at Rhodes and is renewable for three years provided the student meets the financial aid satisfactory academic progress standards and meets the eligibility requirements indicated above. Recipients may be required to live in a residence hall at the College's discretion.

APCU Tuition Exchange benefits may be used for one of the following Rhodes study abroad programs: European Studies or Rhodes Exchange. All other study abroad programs are ineligible programs for APCU Tuition Exchange benefits.

Interested students must specify that admission is being sought under the APCU Tuition Exchange Agreement and submit a letter to the Office of Admissions from the president of his/her home institution certifying eligibility for the program.

Rhodes College Tuition Remission: As a benefit to employees of the college,

Rhodes offers tuition remission to dependents of certain Rhodes employees, regardless of the course load of the student (i.e. full-time enrollment is not required to receive this benefit). Complete information about this benefit may be obtained from the Rhodes College Human Resources Office.

SATISFACTORY ACADEMIC PROGRESS (SAP) FOR RENEWAL OF RHODES-FUNDED FINANCIAL AID AND COMPETITIVE SCHOLARSHIPS

Normally, all forms of institutional financial aid offered by Rhodes are awarded for eight (8) semesters as long as the student meets the SAP standards for renewal of financial aid and, for competitive scholarships and fellowships, maintains the required GPA.

Rhodes scholarships and grants may only be used for study at Rhodes or for study in the Rhodes European Studies and Exchange programs.

Funds are not available for summer terms or for studies at or through other institutions. Rhodes funds are not available to students enrolled less than full-time (at least 12 credits) unless an exception is formally approved by the Disability Support Committee (see Students with Disabilities).

STUDENTS WITH DISABILITIES

Students with disabilities who are taking a reduced course load and who have received approval of full-time status will not be denied consideration for Rhodes financial aid. The amount of aid awarded, however, will be reduced to the proportionate amount that corresponds with the student's course load. For example, a minimum of 12 credits per semester is required to receive Rhodes-funded student aid as a full-time student. If a student has received approval from the Disability Support Committee to be considered a full-time student for a course load of 8 credits in a given semester, the Rhodes-funded aid will be reduced to 2/3 of the amount it would have been if the student were taking 12 or more credits. A course load of 6 credits will always be considered to be half-time. No Rhodes-funded aid will be available to any student who is enrolled less than half-time. Additionally, students with disabilities will be eligible to receive Rhodes-funded aid for a maximum of 12 semesters or 150% of the standard time required for completion of a Bachelor's degree; the total Rhodes-funded aid will be limited to the amount the student would have received for 8 semesters taking standard course loads.

SATISFACTORY ACADEMIC PROGRESS (SAP) FOR RENEWAL OF FINANCIAL AID Renewal of federal (Title IV), state, and institutional aid, including Federal PLUS (Parent Loan for Undergraduate Students)

A student will have financial aid renewed in succeeding years if the student meets the following requirements based on the year of graduation.

1. For the Class of 2011
 - attains a total cumulative grade point average of at least 2.00 in all course work at Rhodes
 - has earned at least 28 credits of course work by the beginning of his/her second academic year of study at Rhodes;
 - has earned at least 60 credits of course work by the beginning of his/her third academic year of study at Rhodes;
 - has earned at least 92 credits of course work by the beginning of his/her fourth academic year of study at Rhodes
2. For the Class of 2010
 - attains a total cumulative grade point average of at least 2.00 in all course work at Rhodes

- has earned at least 22 credits of course work by the beginning of his/her second academic year of study at Rhodes;
 - has earned at least 54 credits of course work by the beginning of his/her third academic year of study at Rhodes;
 - has earned at least 89 credits of course work by the beginning of his/her fourth academic year of study at Rhodes
3. For the Class of 2009
- attains a total cumulative grade point average of at least 2.00 in all course work at Rhodes
 - has earned at least 22 credits of course work by the beginning of his/her second academic year of study at Rhodes;
 - has earned at least 52 credits of course work by the beginning of his/her third academic year of study at Rhodes;
 - has earned at least 86 credits of course work by the beginning of his/her fourth academic year of study at Rhodes
4. For the Class of 2008
- attains a total cumulative grade point average of at least 2.00 in all course work at Rhodes
 - has earned at least 22 credits of course work by the beginning of his/her second academic year of study at Rhodes;
 - has earned at least 52 credits of course work by the beginning of his/her third academic year of study at Rhodes;
 - has earned at least 80 credits of course work by the beginning of his/her fourth academic year of study at Rhodes

** NOTE: These standards apply to satisfactory academic progress for financial aid only and do not establish class standing. If changes to the policy above occur prior to the next publication of the Catalogue, the online version of the Catalogue will be updated while awaiting the next publication date for the bound Catalogue.*

Additional requirements for renewal of federal (Title IV), state, and institutional aid, including Federal PLUS

- Students must be enrolled at least half-time (6 credits) in order to be eligible for any Title IV (except Pell Grant) or state assistance. Rhodes Grants requires full-time enrollment (at least 12 credits).
- For federal and state aid, the maximum time frame in which a student can complete a degree is six (6) years, and the minimum number of credits to be completed at the end of any one of the six years is one-sixth of the total number of credits required for a degree (see Graduation Requirements). For any Rhodes-funded aid, the maximum time frame is four (4) years or eight (8) semesters.

Grades and cumulative earned credits are reviewed at the end of each academic year for all students, unless stated otherwise by the director of financial aid.

All students must maintain a minimum cumulative grade point average at Rhodes of 2.00. Should a student's aid eligibility be revoked due to the student not meeting the above minimum standards, the student may appeal for a variance from the satisfactory academic progress requirements. The appeal should be submitted to the director of financial aid in writing by email or by letter. If the variance request is approved, the student's aid will be reinstated based on the conditions and length of the approval as stated by the director of financial aid.

Definitions and regulations concerning full-time student status, course schedule changes, unauthorized withdrawal from class, and removal of conditional grades are stated in other sections of the *College Catalogue*.

RENEWAL OF COMPETITIVE SCHOLARSHIPS

Morse and Cambridge Scholarships may be renewed for three years as long as the student maintains a grade point average of 3.25 or better and meets the minimum satisfactory academic progress standards for renewal of financial aid described previously.

University and Hon Scholarships may be renewed for three years as long as the recipient maintains a grade point average of 2.75 or better and meets the minimum satisfactory academic progress standards for renewal of financial aid described previously.

Dean's Scholarships, Presidential Scholarships, Rhodes Awards and Memphis Scholars may be renewed for three years as long as the recipient maintains a grade point average of 2.50 or better and meets the minimum satisfactory academic progress standards for renewal of financial aid described previously.

Spencer Scholarships in Greek and Roman Studies may be renewed for three years as long as the recipient maintains a grade point average of 2.75 or better, meets the minimum satisfactory academic progress standards for renewal of financial aid described previously, and has declared, or is making satisfactory progress toward, a major or minor in Greek and Roman Studies.

RENEWAL OF FELLOWSHIPS

Bellingrath Fellowships may be renewed for three years as long as the student maintains a grade point average of 3.25 or better, meets the minimum satisfactory academic progress standards for renewal of financial aid described previously, and provides five hours per week of service to the admissions office.

Fine Arts Fellowships may be renewed for three years as long as the student has declared, or is making satisfactory progress toward, a major or minor in either music, theatre or art. The student must also maintain a grade point average of 2.75 or better and meet the minimum satisfactory academic progress standards for renewal of financial aid previously described.

C.O.D.A. Fine Arts Fellowships may be renewed for three years as long as the recipient maintains a grade point average of 2.75 or better, meets the minimum satisfactory academic progress standards for renewal of financial aid described previously, and participates in a mentored fine arts research and leadership project that will involve approximately ten hours per week.

Taylor Fellowships may be renewed for three years as long as the student maintains a grade point average of 3.00 or better, meets the minimum satisfactory academic progress standards for financial aid as described previously, is making satisfactory progress toward a major or minor in physics (as determined by the Physics Department), and provides five hours per week of service to the Physics Department.

Bonner Scholarships may be renewed for three years as long as the recipient meets the minimum satisfactory academic progress standards for renewal of financial aid described previously, maintains a 2.50 grade point average, is involved in community service and leadership programs for an average of ten hours per week, completes two summers of full-time community service for a total of 280 hours over at least a seven-week period, participates in the College's Leadership Program, and participates in the Bonner Scholars service trip at the end of the student's first year at Rhodes.

REVISION OF FINANCIAL AID AWARDS

Financial aid is dynamic and may change as new information becomes available to the Rhodes Financial Aid Office. Any financial aid package is subject to revision (even during the academic year) for any of the following reasons:

- In the process of verifying the information the student/parent reported on the need analysis form(s) (FAFSA and/or CSS PROFILE), an error is discovered which, when corrected, changes the student's eligibility.
- A change in regulations governing federal or state programs occurs and requires an adjustment to be made.
- Funding levels in federal or state programs are reduced.
- The student receives additional financial assistance, including, but not limited to, outside scholarships, from a source not listed on the most recent award notification or on the BannerWeb.
- The student fails to meet satisfactory academic progress standards for renewal of financial aid.
- The Financial Aid Office discovers any error, clerical or other, on your award.
- The student fails to complete required financial aid applications for need based federal, state and institutional aid, including any documents required for verification of FAFSA information.

Please note that any aid reduced based on the above will not be replaced by Rhodes-funded Grant.

FINANCIAL AID FOR STUDY ABROAD

Rhodes students enrolled in study abroad programs administered (sponsored) by Rhodes (European Studies and Rhodes exchange programs) are eligible for merit-based and need-based financial aid from Rhodes on the following basis:

- The total cost of such a program will be defined as tuition, participation fee (if any), an allowance for round trip airfare, a reasonable allowance for ground transportation in the foreign country, an allowance for room and board, books and required supplies and an allowance for incidental personal expenses. The student must report these costs to the Financial Aid Office.
- The expected family contribution will be calculated using the results of the FAFSA.
- All forms of financial aid for which the student would normally qualify will be applicable, including Rhodes grants and scholarships, campus-based Title IV and other Title IV funds, as well as any outside loans or scholarships the student might have. However, the sum of Rhodes need-based grant and merit-based scholarship awarded for the term of the program may not exceed the tuition charge at Rhodes for one semester. Work-study income will be replaced by additional loan, if requested, and need in excess of the cost of attending Rhodes will be met by loan or by the student's family.
- In cases where the total cost of the study abroad program is less than the total cost of a semester at Rhodes (as a resident student), the financial aid package will be based on the cost of the study abroad program.
- Rhodes students receiving financial assistance from the College who choose to participate in one of Rhodes' exchange programs are considered to be Rhodes students. The financial aid awarded to the student to meet the costs of the exchange program are considered expended for the original length of the program. In other words, a student who elects to participate in a one year exchange program is considered to have been awarded two semesters of aid. If the student decides not to complete the full year of the program, the student should realize that two semesters of aid have been used, even though the entire program was not completed.

For students electing to participate in programs, other than European Studies or Rhodes Exchange, and if Rhodes is to be the degree-granting institution accepting credits from the program, Rhodes will assist the student in obtaining any Title IV

funds and state funds for which the student may qualify. However, no Rhodes funds will be available. This policy also applies to off-campus study programs based in the United States (e.g., Washington Semester).

Students will not be eligible for either Rhodes need-based financial aid or for Rhodes competitive scholarship/fellowship aid for more than one study abroad program during their time at Rhodes.

The above policies apply to study abroad programs that occur during the fall and spring semesters of the academic year. Summer study abroad programs are excluded, as no Rhodes need-based aid or competitive scholarship/fellowship is available for summer study abroad.

TRANSFER STUDENTS

A student transferring to Rhodes who is seeking financial assistance must submit the CSS PROFILE (<https://profileonline.collegeboard.com>) by March 1 and an accurately completed FAFSA (www.fafsa.ed.gov) by March 1 in order to determine financial need for the upcoming year.

A transfer student shall be eligible for all forms of financial aid (except Bellingrath Fellowships and Bonner Service Scholarships) provided:

a.) the student's previous college academic record is commensurate with the requirements for the award (a 3.50 minimum grade point average is required for a University Scholarship and a 3.75 minimum grade point average is required for any scholarships of greater value) and;

b.) had the student entered Rhodes during the first year in college, such an award would have been awarded.

NOTE: The number of semesters for which a transfer student may receive Rhodes-funded aid is based on the classification of the student upon enrollment. For example, if a transfer student enrolls at Rhodes as a sophomore, that student may receive Rhodes-funded aid for a total of six semesters. A student enrolling as a junior may receive Rhodes-funded aid for a total of four semesters, and so forth.

ALTERNATIVE FINANCING

For families who prefer to pay college costs in interest-free monthly installments, Rhodes suggests Key Education Resources, 745 Atlantic Avenue, Boston, MA 02111. or by phone at (800)KEY-LEND or by the internet at www.key.com/educate. Arrangements must be made with this agency prior to the due date of the first tuition payment. The Bursar's Office is the primary on-campus contact for this program.

Through the Federal Parent Loan for Undergraduate Students (PLUS) program, the parent of an undergraduate student may be eligible to borrow the cost of education at Rhodes less any financial assistance the student receives each year for educational expenses. The interest rate is variable but has a ceiling of 9%. PLUS applicants are subject to credit approval.

There are a number of alternative (private) loan programs available for interested students and their families. Please refer to the financial aid website at www.rhodes.edu/financialaid for more information.

ADDITIONAL POLICIES

- The total amount of Rhodes-funded gift aid (grants and/or scholarships) a student is eligible to receive may not exceed Rhodes' direct cost of attendance (tuition, fees, room, and board). If the total amount of Rhodes-funded gift aid exceeds the direct cost of attendance, a portion of the Rhodes gift aid will be reduced accordingly.
- A student may not receive gift aid (grants and/or scholarships) from all sources (Rhodes, federal, state, private) in excess of the total cost of attendance at

Rhodes (tuition, fees, room, board as well as an estimated allowance for books, transportation, and personal/living expenses). If the total amount of gift aid from all sources exceeds Rhodes' total cost of attendance, Rhodes gift aid (grants and/or scholarships) will be reduced accordingly.

- All outside financial assistance or scholarships received by a student attending Rhodes must be reported to the Financial Aid Office. Rhodes reserves the right to make adjustments in the financial aid package offered to students who receive assistance from other sources.
- When calculating Rhodes scholarships or grants based on tuition, fees, room and board, the amount used for room is the average amount charged by the College for a student at the multiple occupancy rate for that dorm; the amount used for board is the current on-campus 21 meal plan rate.
- Rhodes scholarships and grants are based on a normal course load (12 - 17 credits under the old curriculum; 12 - 18 credits under the Foundations Curriculum). Additional costs incurred by a student taking an overload will be incurred at that student's expense.
- Rhodes scholarships and grants are provided only to students enrolled full-time (at least 12 credits) as of the last day of the extended drop period. Seniors who need less than twelve (12) credits to graduate in their final semester are NOT exempt from this policy.
- Institutional funds will be awarded for each classification year (i.e. first-year, sophomore, etc.) only once. A maximum of two semesters of assistance will be awarded for any classification. Exceptions to this may be made by formal approval of the Disability Support Committee (see "Satisfactory Academic Progress for Renewal of Financial Aid and Competitive Scholarships" for the policy exceptions for students with disabilities).
- Students who graduate early because of overloads, summer course work, etc., forfeit aid for the semester(s) not enrolled. In other words, if a student graduates a semester early, that student cannot have all of the year's aid in the last semester of enrollment.
- In most cases, financial aid is not available for summer terms.
- Recipients of the Tennessee Education Lottery Scholarship(s) must maintain full-time status throughout the semester to continue receiving this award. Exceptions to this rule must be approved by the director of financial aid prior to the student's dropping below full-time. Only medical and family emergency issues are considered for exceptions. More information may be found at: www.collegepaystn.com. Recipients of the Tennessee Education Lottery Scholarship(s) must complete the FAFSA every year by the state-established deadline as printed on the FAFSA.
 - Students who accept/decline financial aid awards via BannerWeb are electronically signing their award and agree to the terms of the financial aid package as listed in the Rhodes College Catalogue, in other Rhodes publications, and on the Rhodes website.

Following are the definitions for enrollment status for financial aid, including Rhodes scholarships and grants:

Full Time: 12 credits or greater

3/4 Time: 9 - 11.99 credits

1/2 Time: 6 - 8.99 credits

Less than 1/2 time: less than 6 credits

STUDENT LIFE

STUDENT HOUSING

Residency Requirement. Living on campus is a vital part of the college experience and aids the student's adjustment to college. Therefore, all first-time first year students at Rhodes must live on campus for their first two full academic years. Transfer students must live in College housing until they have completed two full academic years; previous enrollment at other institutions counts toward fulfilling this requirement. Exchange students must reside in College housing for the duration of their enrollment at Rhodes.

All rising sophomore resident students are expected to participate in the housing lottery process to comply with the residency requirement. In the event that a student does not participate in housing lottery, a space will be selected for the student by the Director of Residence Life. The student will be notified of the room and meal plan assignment in writing.

New Students. Applicants to Rhodes will indicate their desire to live on campus or to commute (within the terms of the residency requirement). All new students must submit a deposit of \$400, and students will be asked to reiterate their housing intentions at that time. Students who pay their enrollment deposit by May 1 and return their housing contract and questionnaire by June 15 will receive their housing assignments by July 15.

Returning Students. To participate in housing selection for the next academic year, a student must complete an online registration by February 10. Students who register on time will receive a lottery number to use in selection of an apartment or room during the housing selection process. Students who register for housing after February 10 will select from available upperclass housing spaces after housing selection.

By registering for housing selection, students agree to the housing cancellation policy.

By contacting the Director of Residence Life, a student may cancel the registration or housing assignment.

1. If a student cancels prior to the last working day before housing selection, the student will incur no cancellation fee.
2. If a student cancels between the last working day before housing selection and May 15, a cancellation fee of \$200 will be placed on the student's account.
3. Students who cancel between May 16 and June 30 will incur a \$300 cancellation fee.
4. After June 30, the cancellation fee is \$500.

If a student registers for housing, and then decides to participate in a study abroad program during fall semester, the registration will be deferred to the spring semester, and no cancellation fee will be incurred.

BRYAN CAMPUS LIFE CENTER

The Bryan Campus Life Center is the hub of athletics and recreation at Rhodes. It houses the varsity basketball/volleyball gymnasium, a three-court recreational gymnasium, three racquetball and two squash courts, indoor jogging track, and a 6,900 square foot fitness room equipped with free weights, resistive equipment, and cardiovascular equipment. The Lynx Lair, a pub-style grill, provides students with a dining alternative on campus, and is the site of many student activities such as concerts, comedians, and "open microphone" nights. In the 5,400 square foot McCallum Ballroom students attend lectures, dances, dinners, and receptions.

STUDENT GOVERNMENT

The main purpose of the Rhodes Student Government is to provide an organization to represent the needs and concerns of the Rhodes student body to the faculty and

administration. The Student Government is the primary vehicle for student participation in the governance process of Rhodes. The members of Student Government seek to keep the group effectively involved in many areas of campus life. All meetings are open to the entire campus, and students are strongly encouraged to attend.

The Student Government oversees the allocation of the Student Activity Fund; nominates students for appointment to serve on Board of Trustees, faculty, and administrative committees; directs the Student Government Committees; and generally entertains any matters of student interest or concern at meetings and campus-wide forums.

Elections are held in the Spring for all positions except the First-Year Representatives, which are elected in the Fall.

HONOR SOCIETIES

The Rhodes College Chapter of **Phi Beta Kappa**, Gamma Chapter of Tennessee, was established at the College in 1949. For over two hundred years, election to Phi Beta Kappa has been a recognition of exceptional academic achievement in the liberal arts and sciences. Rhodes students are elected to Phi Beta Kappa by the members of the chapter chiefly on the basis of outstanding academic achievement in the study of liberal subjects.

Omicron Delta Kappa, Phi Circle, was established at the College in 1927. The purpose of this national organization is to recognize leadership in college activities and to undertake various activities for the good of the College. Student members are chosen from the junior and senior classes, and not more than three per cent of the student body may be elected to membership. Members must have distinguished themselves in such activities as scholarship, athletics, and publications.

Sigma Tau Delta, national English honor society, was established at Rhodes in 1984. The purpose of this society is to promote the study of literature in English and to recognize outstanding achievement in this area.

Mortar Board, a national honor society for seniors, was established at Rhodes April 17, 1964, for the purpose of recognizing excellence in scholarship, leadership, and service.

The **Pi Kappa Lambda** honorary academic music fraternity was established in the spring of 1949. It recognizes outstanding achievement in music and may elect not over twenty per cent of those members of the senior class majoring in music.

Eta Sigma Phi, honorary society for students of classical language, was established at Rhodes in 1952. The purpose of this society is to promote interest in all aspects of ancient Greek and Roman culture. Those who have at least a B average in advanced courses in either Greek or Latin are eligible for membership.

The Rhodes chapter of **Sigma Pi Sigma**, the national physics honor society, was established May 27, 1963. The chapter receives into membership physics students and a limited number from closely related fields when such students attain high standards of scholarship, professional merit, and academic distinction.

Omicron Delta Epsilon is one of the world's largest academic honor societies. The objectives of Omicron Delta Epsilon are recognition of scholastic attainment and the honoring of outstanding achievements in economics; the establishment of closer ties between students and faculty in economics within colleges and universities, and among colleges and universities; the publication of its official journal, *The American Economist*, and sponsoring of panels at professional meetings as well as the Irving Fisher and Frank W. Taussig competitions. The minimum requirements for admission for undergraduates are completion of 12 semester hours economics courses and attainment of at least a 3.50 in economics courses and an overall 3.50 in all classes. Students do not have to be economics majors, but must have a genuine interest in economics in addition to meeting the above requirements.

Theta Chapter of **Sigma Iota Rho**, a national honor society in International Studies, is a charter chapter that was founded at Rhodes in 1986. The purpose of Sigma Iota Rho is to recognize academic excellence and to promote information about and study of contemporary international issues. Students are eligible for membership beginning in their junior year, and must have a 3.2 cumulative grade point average and a 3.3 within the major.

Psi Chi, the national honorary society in Psychology, was reactivated at Rhodes in 1987 for the purpose of encouraging, stimulating, and maintaining excellence in scholarship and advancing the science of Psychology as a profession. Membership in this society, which is affiliated with the American Psychological Association and which is a member of the Association of College Honor Societies, is by invitation and limited to Psychology majors.

Theta Nu chapter of the **National Order of Omega** was chartered in the spring of 1987. It serves to recognize outstanding members of the fraternities and sororities on the basis of scholarship and leadership. A grade point average equal to or above the all-Greek average is required for consideration for membership. Applications for members are extended each year to eligible rising juniors and seniors.

The Alpha Epsilon Delta Chapter of **Phi Alpha Theta**, international honor society in History, was established at Rhodes in 1990. Phi Alpha Theta brings students, teachers, and writers of history together both intellectually and socially, and it encourages and assists historical research and publication by its members. Students who have completed the required number of history hours at the 3.3 level and maintain at least a 3.2 overall grade point average are eligible for membership. Student members host informational gatherings for first-year students, hold career workshops, sponsor speakers, and publish an annual journal of exemplary student papers.

Beta Beta Beta is an honorary and professional society for students of the biological sciences. The Mu Rho Chapter of this national society was founded at Rhodes College in 1992. It seeks to encourage scholarly attainment in this field of learning by reserving its regular membership for those who achieve superior academic records and who indicate special aptitude for and major interest in the life sciences.

Pi Delta Phi is an honorary society for students of French language, literature, and culture. The Nu Nu chapter of this national society was founded at Rhodes in 2004. The purpose of the society is to recognize outstanding scholarship in the French language and its literatures, increase the knowledge and appreciation of Americans for the cultural contributions of the French-speaking world, and to stimulate and encourage French and francophone cultural activities.

Iota Iota Iota is a national honor society that recognizes academic excellence in the field of women's studies while striving to maintain the feminist values central to women's studies: egalitarianism, inclusiveness, and a celebration of the diversity of women's experiences. Iota Iota Iota works to promote an interest in women's studies and research in social problems affecting all women. The Chi Chapter of Iota Iota Iota was chartered at Rhodes College in 2004.

Dobro Slovo, the National Slavic Honor Society, is an honorary organization for talented undergraduate and graduate students in the Slavic languages. It serves as a means for the recognition of academic excellence in the study of Slavic languages, literature, and history, and provides incentive for scholarly interest in Slavic life and culture. The Rhodes Chapter of the society was established in 2003.

Sigma Delta Pi is the national collegiate honorary society for students who distinguish themselves in the study of Hispanic language, literature and culture. The society was founded in 1919 at The University of California, and the Phi Epsilon chapter was established at Rhodes in 2005.

CHAPLAIN AND COMMUNITY MINISTRY - RELIGIOUS LIFE

The chaplain and community ministry programs at Rhodes provide opportunities for worship, community service, and spiritual growth. As a college that is related to the Presbyterian Church (USA), Rhodes employs a full time chaplain and staff who reach out to students of all faiths. The Presbyterian tradition has a long history of encouraging diversity of thought and respect for religious differences, while remaining deeply rooted in the biblical witness and Christian commitment to service. The staff in the Chaplain's office is ready to help all students make connections with campus religious programs, nearby congregations, and with social ministries in Memphis.

Student-led religious organizations of many faiths and denominations are active on campus. Student groups currently include: All Souls (Unitarian), Catholic Student Association, Canterbury (Episcopal), Fellowship of Christian Athletes, Greek Fellowship, Jewish Student Organization (Hillel), Muslim Student Association, Rhodes Christian Fellowship (InterVarsity), and Westminster Fellowship. Pastoral care and counseling, retreats and mission trips, social justice ministries, interfaith dialogue, and servant leader programs are all part of the college's holistic and inclusive approach to student ministry.

Students considering church-related professions or any faith-based vocations may participate in the preparation for ministry program (pre-ministry), which includes internships in youth ministry, hospital chaplaincy, social services, and short-term missions. Seminaries, theological schools, Peace Corps, Teach for America and global mission recruiters frequently visit the campus.

The Chaplain's office also serves as the campus-wide community service center and central resource for all faith-based services. The chaplaincy sponsors the Kinney Program and an extensive range of volunteer services, a student-operated soup kitchen near downtown Memphis, and the Rhodes chapter of Habitat for Humanity. As part of its multifaith ministry and peacemaking programs, the chaplaincy supports community partnerships with the M. K. Gandhi Institute for Nonviolence, Muslims in Memphis, the India Cultural Center and Temple, Hillel Foundation for Jewish Campus Life, Micah 6 Ministries, and a variety of church partnerships for urban ministry in Memphis.

THE LAURENCE F. KINNEY PROGRAM - COMMUNITY SERVICE

The Kinney Program is an integral part of life and learning at Rhodes, and has been recognized regionally and nationally for outstanding initiatives in community service. Through the Kinney Program and its projects, hundreds of Rhodes students make weekly commitments to serve with critical needs in Memphis. Coordinated by a council of student leaders and the Chaplain/Community Service staff, the purposes of the Kinney Program are: (1) engage students in meaningful service to the community, (2) develop Memphis partnerships and service sites with nonprofit agencies, churches and public services; (3) help students become aware of community issues and integrating service with learning; and (4) nurture a lifelong commitment to serve with neighbors in need. Students serve voluntarily throughout the city in nearby hospitals, soup kitchens, crisis centers, environmental programs, public schools, transitional housing programs, and church-based social ministries. Students may also participate in community-based research, strategic planning and community organizing with nearby nonprofits and neighborhood associations.

Initiated by a grant from the Danforth Foundation in 1956, the Kinney Program was named in memory of a beloved Rhodes Professor of Religion. It is perpetuated by a gift from the estate of John D. Buckman, and supported by generous gifts from the Corella and Bertram F. Bonner Foundation, local churches and alumni. Over its long history, the volunteer program has grown to include a large majority of the student body and has worked with faculty to develop service-learning courses in the academic curriculum.

Rhodes now offers work-study jobs in community service and a four-year service scholarship through the Bonner Service Scholarship Program.

Some of the strongest service initiatives among Rhodes students are Souper Contact (a student-operated soup kitchen), Habitat for Humanity, Snowden Adopt-a-Friend tutoring and mentoring program, Tex-Mex (spring break service trip), Micah 6 urban ministry projects, ESL tutoring and Latino neighborhood services, HIV/AIDS services with Friends for Life, and the VECA and Hollywood – Springdale community development projects near campus.

Students are invited to drop by the Chaplain's office anytime to talk with Kinney Program leaders, share new ideas, and to learn how to get started serving in the Memphis community.

BONNER RHODES SERVICE SCHOLARSHIP PROGRAM

The Rhodes Vision aims "to graduate students with a life-long passion for learning, a compassion for others, and the ability to translate academic study and personal concern into effective leadership and action in their communities and world." For Bonner Service Scholars, this means enhancing leadership skills, developing social commitment, studying social issues and developing a strong sense of self. Specifically, program participants learn about themselves and their personal values and beliefs. They spend time in the study of leadership, understanding the efforts and challenges that other leaders in service have encountered. And they strive to connect their academic lives, personal beliefs, knowledge of leadership, philosophies of service, and their futures.

Students who are selected for the program must make a four-year commitment, maintain a cumulative grade point average of 2.67, complete 10 hours per week of community service and leadership activities, and place community service and leadership development among their highest priorities at Rhodes.

THE SOCIAL FRATERNITIES AND SORORITIES

Membership in fraternities and sororities places an emphasis on volunteer service, academic achievement, and leadership. Such opportunities are available through any of Rhodes' 14 nationally-affiliated Greek letter organizations. Seven organizations for men currently hold charters at Rhodes. These groups include Alpha Tau Omega, Kappa Alpha Order, Kappa Alpha Psi, Kappa Sigma, Pi Kappa Alpha, Sigma Alpha Epsilon, and Sigma Nu. The seven sororities currently holding chapters at Rhodes include Alpha Kappa Alpha, Alpha Omicron Pi, Chi Omega, Delta Delta Delta, Kappa Delta, Delta Sigma Theta, and Sigma Gamma Rho.

Each NIC fraternity chapter is represented on the Interfraternity Council (IFC). Sororities are represented on the Panhellenic Council (PAN). Historically black fraternities and sororities are represented by the National Pan-Hellenic Council (NPHC). PAN, NPHC, and IFC, in cooperation with the Director of Student Involvement, work together to host educational programs, recruit new members, set system policy, and regulate group activity.

To join a Greek-letter organization, students participate in a membership recruitment program, complete a period of pledgship, and if eligible, are initiated into full membership. To be eligible for initiation, a student, during his or her pledgship, must have a minimum grade point average of 2.0 or higher as set by each individual organization. Written certification by both the Registrar and the Bursar is required in order to verify that the student has met the academic requirements and has settled all college accounts prior to initiation.

MUSICAL ACTIVITIES

The Rhodes Department of Music provides students with a number of

opportunities to perform in musical ensembles. Large ensembles include Rhodes Singers, Rhodes Women's Chorus, Rhodes MasterSingers Chorale, Rhodes Orchestra and Rhodes Wind Ensemble. Medium and small ensembles include Flute Ensemble, Brass Ensemble, String Quartet, Woodwind Quintet, and other ensembles depending upon interest. Many students take advantage of private vocal and instrumental instruction. Ensembles are open to students from all academic disciplines. An audition is required, as well as an interview with the ensemble director.

Music students, under the guidance of the music faculty, may participate in the activities of such professional groups as the National Association of Teachers of Singing, the American Choral Directors Association, the American Guild of Organists, Pi Kappa Lambda, and various local organizations such as Opera Memphis and other performing ensembles. Hassell Hall houses practice rooms, studios, faculty offices, a music library and theory laboratory, listening stations, classrooms, and the Tuthill Performance Hall. Additional performance and rehearsal spaces include Hardie Auditorium, the McCallum Ballroom, and the sanctuary of Evergreen Presbyterian Church.

Large Ensembles. Rhodes Singers is an auditioned choral ensemble that performs SATB music with an emphasis on the smaller unaccompanied choral works. Singers tour in the United States each spring, and travel abroad every three years.

Rhodes Women's Chorus is an auditioned ensemble of female singers who perform a variety of musical genres several times each semester, both on and off campus.

Rhodes MasterSingers Chorale is an auditioned choral ensemble of Rhodes students, faculty and staff, and community singers. This ensemble performs four concerts each year in various regional churches, presenting larger choral works with orchestral accompaniment.

Rhodes Orchestra is the concert orchestra for the Rhodes Department of Music and the surrounding community. The Orchestra performs classical symphonic orchestral literature and is open to any Rhodes College student, staff, faculty, or community member with previous experience in band or orchestra. The Rhodes Orchestra is a member of the American Symphony League. Rhodes Wind Ensemble performs both as a part of the Rhodes Orchestra and as a separate group performing classic literature for wind ensemble.

Additional small ensembles include the Jazz Band, Jazz Combo, Pop/Rock Ensemble, Guitar Ensemble, Flute Choir, and a variety of chamber ensembles.

THEATRE ACTIVITIES

The performance studies program at McCoy Theatre provides numerous opportunities for student involvement. Students participate in a variety of activities in the production areas of acting, stage management, set crews, costume crews, running crews, and properties management. There are also many opportunities for involvement in what are called front of house areas of box office management, house management, public relations, McCoy publications editor, press management, marketing and advertising. The McCoy Theatre offers low rates for student subscription memberships. Since opening its first season in 1982, the McCoy Theatre has produced plays that are consistently chosen as outstanding by the Memphis press, Memphis Arts Council, and public. Musical productions have included *Candide*, *Sweeney Todd*, *Chicago*, *Pippin*, *Assassins*, *Blood Brothers*, *Into the Woods* and the opera, *Gianni Schicchi*. Plays have included *Brecht On Brecht*, *A Midsummer Night's Dream*, *Marriage of Figaro*, *Richard III*, *Nicholas Nickleby*, *J.B.*, and *Escape from Happiness*.

STUDENT PUBLICATIONS

All student publications are governed by the Publications Board, which is chaired by the Publications Commissioner and is composed of editors and elected representatives. The Publications Board appoints editors and business managers of the various

publications who are responsible to the Board, not only in all financial matters, but also for the proper conduct of the publications. Publications include: *The Sou'wester*, the weekly student newspaper; the *Lynx*, the college yearbook; and the *Southwestern Review*, the college literary magazine. These official student publications have been established as forums for student expression, as voices of free and open discussion of issues, and as an educational setting in which students learn proper journalistic practice. No publications of these organizations are reviewed by College administrators prior to distribution or withheld from distribution. The College assumes no liability for the content of an official student publication and urges all student journalists to recognize that with editorial control comes responsibility, including the responsibility to follow professional journalism standards.

BLACK STUDENT ASSOCIATION

The Black Student Association (BSA) operates to promote unity within the African-American community, and to create harmonious relationships among people of different cultures and backgrounds. In its effort to fulfill this purpose, BSA sponsors and co-sponsors a variety of African-American cultural events at Rhodes, and participates in numerous campus events. BSA is an organization for anyone who aspires to help with its ideas of promoting activities of the Black community while promoting diversity among people of all cultures and backgrounds. Membership is open to all students at Rhodes.

OTHER ORGANIZATIONS

Participation in co-curricular organizations provides students the opportunities to explore new interests, develop skills, enhance an academic program, and become involved in campus and community leadership and service. There are currently over 80 campus organizations that offer religious, political, service, cultural, academic, social, recreational, governmental, and athletic involvement.

ATHLETICS

The Department of Athletics administers extensive intercollegiate sports, intramurals, club sports, and fitness and recreational programs.

Intercollegiate Sports: Rhodes sponsors teams in ten varsity sports for men (football, basketball, baseball, soccer, swimming, golf, tennis, indoor track, outdoor track, and cross country) and eleven varsity sports for women (softball, golf, field hockey, volleyball, basketball, tennis, soccer, indoor track, outdoor track, swimming and cross country). The intercollegiate athletic program is an integral part of the total educational process and a substantial percentage (approximately 25%) of the student body participates in the program.

Rhodes is a member of the NCAA and competes at the Division III level. As such, all financial aid awarded to athletes is either based upon the family's financial need or is part of the merit scholarship program. Financial Aid for all students is the responsibility of the Director of Financial Aid and the Committee on Admissions and Financial Aid.

Varsity teams compete in the Southern Collegiate Athletic Conference (SCAC), whose members are Rhodes, University of the South (Sewanee), Austin College, Colorado College, Southwestern University, Depauw University, Centre College, Millsaps College, Oglethorpe University, Hendrix College and Trinity University (Texas).

Intramurals: A large percentage of Rhodes men and women participate in the popular intramural program. Teams are organized by a wide variety of groups. Intramural teams compete in flag football, volleyball, basketball, ultimate frisbee, and soccer. There is squash, racquetball and tennis competition. The emphasis is on full participation, and many faculty and staff compete.

Club Sports: Rhodes currently offers nine club sports: cheerleading, dance team, outdoor organization, ultimate frisbee, equestrian, rugby, fencing, crew and

lacrosse. Student initiated, these clubs offer an opportunity for competition against club teams from neighboring colleges and universities.

Physical Education: Classes are offered in many areas. The specific courses are listed in the Physical Education section of the Courses of Instruction. Three half-semester of Physical Education are required for graduation. Emphasis in the courses is placed upon the individual student's growth in competence and appreciation for the particular sport or activity. The majority of the courses are in areas that can be continued on an individual basis after graduation.

Facilities include the Bryan Campus Life Center, Fargason Football Field, Alburty Swimming Complex, Stauffer Baseball Field, Dunavant Tennis Center (ten lighted tennis courts), a new polyurethane 8-lane track, a varsity soccer field, and numerous practice and recreational fields.

STUDENT SERVICES

CAREER SERVICES

The staff of Career Services assists students in making career plans and achieving professional goals. Comprehensive services are available to assist students in self-assessment, career exploration and career decision-making. Featured services include the CareerQuest Program, Career Tracks, the Sophomore Career Success Seminar, an academic internship program, a career library, and job postings from around the world.

The CareerQuest Program provides students a venue to explore career-related values, interests, skills, and personality traits. Through a series of four inventories/tests students will develop a better understanding of how they relate to the world of work. Discover, a computerized guidance system housed in the Rhodes Career Library, also assists students in researching potential career options and provides important career information such as job descriptions, potential income, educational requirements, and employment outlook.

All first-year students are encouraged to participate in Career Tracks, a career orientation program scheduled just prior to the beginning of spring term. Career Tracks includes individualized career assessments and speakers who discuss the world of work. All students who participate will receive a copy of *The Starting Line*, a Career Services publication providing information on resume writing, interviewing skills, and career exploration tips.

The Sophomore Career Success Seminar is a six-week, non-credit course addressing topics such as resume writing, interviewing, internships, and graduate school preparation. Sophomores are also encouraged to participate in the Shadow Program, which provides opportunities to observe the day-to-day routine of professionals and to take part in workshops and programs.

During the junior year, students are eligible to participate in the Rhodes Internship Program. More than 150 opportunities exist in a variety of settings. Most academic departments award three credits for a semester-long internship. *Compass*, a guide to professional employment and advanced education, is made available to all juniors and seniors to provide assistance in making career choices.

During the senior year, students are encouraged to establish files with Career Services and participate in the On-campus Recruiting Program and Referral Service to make contacts with potential employers. A Graduate School Expo and a Career Fair Expo are held each year. These events draw representatives who are interested in recruiting Rhodes' students.

Career Services provides many additional resources to help students make informed decisions about graduate school and the world of work. The Rhodes Career Library contains many up-to-date resources covering the topics of majors, careers, graduate schools, internships, employer directories, and job announcements for full-time, part-time, and summer employment.

COUNSELING CENTER

The Counseling and Student Development Center provides confidential, short-term counseling services to all students. In addition to individual counseling, the Counseling Center provides support groups, crisis intervention, and referrals to local psychiatrists. The Counseling center also conducts workshops and outreach programs on topics such as stress, depression, eating disorders, substance abuse, and other issues of concern to students. All services provided by Counseling Center staff are free of charge and confidential.

MEDICAL SERVICES

Students may be treated for most ordinary illnesses at the Moore Moore Student Health Center on campus. University of Tennessee Internal Medicine residents, along with their attending physicians, are retained five afternoons a week by the College to provide health care to students. In instances when specialists are needed or if a physician is not available when a serious need arises, the student is referred off campus and is responsible for the charges incurred. On-campus visits to the physician, and any laboratory or other fees which relate to on campus visits, will be billed to the student's health insurance by the University of Tennessee Internal Medicine Group. All co-pays, deductibles, and any fees not paid by insurance are the financial responsibility of the student.

A complete medical examination and immunization history is required of all students. The College also requires each student to have a minimum of accident, sickness and hospitalization insurance coverage throughout enrollment. Students may be covered under a family policy or a private carrier. International students must enroll in an insurance policy negotiated through the College.

SERVICES FOR STUDENTS WITH DISABILITIES

Rhodes is committed to ensuring that educational programs are accessible to all qualified students in accordance with the provisions of Section 504 of the Rehabilitation Act of 1973 and expanded by Title III of the Americans with Disabilities Act (ADA). To guard against discrimination on the basis of disability, reasonable and appropriate accommodations, academic adjustments, and/or auxiliary aids are determined on a case-by-case basis for students who have a demonstrated need for these services. It is the student's responsibility to initiate any request for accommodation due to a qualifying disability. Prospective students with questions about special needs or accommodations should contact the Office of Admissions.

Once students are enrolled, the Coordinator of Student Disability Services is the point of contact for students with physical, psychological, learning and attentional disabilities. The Coordinator of Student Disability Services confers with students on an individual basis, then together with the Disability Support Committee, determines appropriate accommodations and identifies needed resources. Accommodations are designed to meet the student's needs without fundamentally altering the nature of the College's instructional programs and are determined on an individual basis. Since arrangements for reasonable accommodations may require several weeks of preparation, students who have been admitted to the College and who wish to request special services should contact the Coordinator of Student Disability Services as soon as possible after admission.

Students with disabilities who seek accommodations from Rhodes must present current, comprehensive documentation from a qualified professional. For documentation requirements or additional information on services provided by the College to enrolled students with disabilities, please contact the Office of Student Disability Services or visit www.rhodes.edu/disability.

ADVISING AND ACADEMIC SUPPORT

ACADEMIC ADVISING

Academic advising is integral to the individualized experience at Rhodes. Advisers assist students in making responsible, informed, and timely decisions about courses and schedules based on student interests and career/life goals.

Each entering student is assigned to an academic adviser until the student selects a major, which must be done by the end of the sophomore year. At that time, a faculty adviser from the major department is assigned to or selected by each new major.

CAREER ADVISING

Rhodes graduates have prominence in their chosen professional fields. The top occupational classifications for graduates are Business, Education (on all levels), Law, Medicine and Health Sciences, and Public Relations and Writing.

In addition to the programs and services offered by Career Services, students can seek pre-professional advisement from designated faculty advisers.

The academic program at Rhodes offers a variety of courses that may be used as preparation for graduate study or as preparation for particular professional careers. The prerequisites for professional courses of study vary greatly, not only among the various professions but also among individual institutions preparing students for the professions. Therefore, the faculty adviser should be consulted as soon as a student has decided upon aims for the future, in order that the best course of study may be planned according to individual purposes and needs.

In some cases very specific recommendations for pre-professional courses have been developed: Medicine and the Health Sciences, Business Administration, and Law. The advisers named below have this information and should be consulted early in one's undergraduate work.

PREPARATION FOR GRADUATE STUDY

A student who plans to do graduate work leading to one of the advanced academic degrees should confer with the faculty adviser during the student's first year if possible, and certainly before entering the junior year. The student's undergraduate program should be planned in such a way as to include a maximum of study in the chosen major field and in related fields without lessening general knowledge of other fields. Since most graduate schools require a reading knowledge of at least one foreign language for all advanced degrees, the faculty adviser of the prospective graduate student should be consulted regarding the most appropriate foreign language(s) as early as possible in the college career.

The prospective graduate student should consider applying for the Honors Program. The Honors Program provides an opportunity to do more independent, intensive, and individual work than can be done in the regular degree programs. The honors work offers an excellent introduction to graduate study as it employs the full resources of library and laboratory, and encourages independent research and study. The Honors Program is more fully described in the section on Opportunities for Individualized Study.

ACADEMIC SUPPORT

Academic support services are available to all students through the academic advising system, the Counseling Center, individual meetings with faculty members, workshops, and peer tutoring programs. Many of these services are provided or coordinated by the Office of Student Academic Support. Students who find themselves in academic difficulty may receive assistance from a wide variety of programs in such areas as study skills and time management as well as personal academic counseling and assistance to achieve greater academic success.

STUDENT CONDUCT AND CAMPUS REGULATIONS

The College expects all students to conduct themselves as responsible citizens of an academic community. Persistent or extreme departures from this standard will lead to restrictions and may result in suspension or expulsion. Rhodes reserves the right to exclude at any time persons whose conduct is undesirable. In such cases, no refunds of tuition, fees, or room and board will be made, and the College, its students, faculty, administrative judicial committees and officers shall not be under any liability.

The administration of rules pertaining to student behavior is chiefly the responsibility of the Honor Council, the Social Regulations Council, the Dean of Students, and designees of the Dean of Students.

This section of the College Catalogue, which summarizes regulations especially applicable to students, is intended only to provide a broad overview. The Student Handbook, available on the College's web site, contains all policies pertinent to students.

THE HONOR COUNCIL AND SOCIAL REGULATIONS COUNCIL

The students of Rhodes assume responsibility for the honorable conduct of campus life. They elect an Honor Council and a Social Regulations Council. Each Council is composed of elected representatives from each of the four classes. The Councils investigate alleged infractions of the Honor Code and Social Regulations Code, and enforce regulations with sanctions up to and including expulsion. The decision may be appealed to a specially designated appeals committee. This committee may, at its discretion, remand the case to the Council for reconsideration, and if so, the second decision is the final decision to be rendered by the Council in the case. The Councils also serve as liaison between students and faculty/administration, and they educate students about honor and integrity. Every entering student is expected at the time of matriculation to sign a pledge promising to uphold the Diversity Statement, the Honor Code, and the Social Regulations Code.

VOLUNTARY WITHDRAWAL OR REMOVAL FROM CAMPUS

The College occasionally faces the problem of students who pose a threat to themselves or others, who are unable to cope, or who create a pattern of extreme disruption. If such behavior constitutes a violation of College rules and regulations, the case will be referred to the Dean of Students for action.

If the student's behavior occurs without such violation, if the student does not respond to the charges against him or her, or if the student did not know the nature or quality of the conduct in question at the time of occurrence, the Dean of Students will investigate the situation and the effect or the potential effect of the behavior on the student and the College community. The Dean may require a personal interview with the student and/or an evaluation of the student by a qualified professional. The Dean may require an interim removal of the student from campus pending resolution of the investigation.

If, as a result of this investigation, the Dean of Students determines that the student's behavior indicates substantial risk of threat to self or others, or that the individual is otherwise unable to fulfill the expectations of a student at Rhodes, the pursuit of professional care or a withdrawal from the College may be recommended. The student will be provided with the option of voluntarily taking a leave of absence. If the student refuses to do so, the Dean of Students will consult with the Associate Dean of Students or other members of the student

affairs staff as deemed appropriate. They will recommend to the Dean of Students a course of action, which may include removal of the student from the College with conditions for readmission. If the student withdraws, he or she may be referred to an appropriate facility for additional assistance. The parents will be notified as soon as possible and must assume responsibility for the student's care.

Students who leave campus under the above conditions, either voluntarily or involuntarily, may be readmitted to the College only after being cleared by the Dean of Admissions and Financial Aid with concurrence of the Dean of Students. Permission for readmission will typically be based on the student's demonstrating a period of responsible behavior outside the College and may require a statement from a physician, psychologist, or other qualified professional that the student is ready to return and cope with college life. Follow-up assessment or services may be required as part of the readmission decision.

Removal of a student from the College will be undertaken only as a last resort. Every effort should be made to help students understand the consequences of their behavior, make responsible decisions, and develop skills that will allow them to remain and function in the Rhodes community.

Students who have voluntarily withdrawn or who have been removed from campus are not allowed to attend class and have no access to the campus or College sanctioned or sponsored events.

STATEMENT ON ALCOHOL USE

A complete description of the Rhodes College Alcohol Policy can be found in the Student Handbook available on the College web site. The Rhodes policy has been established in an effort to promote a balance between the interests of the individual and those of the Rhodes community, and to encourage responsible decisions about alcohol. This policy recognizes and is guided by the following principles:

All members of the Rhodes community, as adults, are ultimately responsible for their choices and behavior regarding alcohol. We are committed to the ongoing development of a community based on respect for the individual and compliance with the policies of the college and the laws of the city, state, and nation. Within this community, the College will take all reasonable steps to insure that no illegal consumption of alcohol occurs on its property or at its institutionally-sponsored activities.

The College is subject to the laws of the State of Tennessee and the City of Memphis regulating the use of alcoholic beverages. Every member of the collegiate community has a personal responsibility in regard to these laws, and no member can assume Rhodes provides a sanctuary for the misuse of alcohol or other drugs. Information concerning responsible use, indications of abuse or addiction, and resources for assistance are available in the Counseling Center.

The regulations contained within this policy apply to all students, employees, alumni and visitors or guests of the College. These regulations are to be observed:

- At all times on the property of Rhodes College.
- At all property leased for official purposes by Rhodes College.
- At all institutionally-sponsored activities of the College that occur off campus.

(Note: An institutionally-sponsored activity refers to a specific activity of a College funded organization or College sponsored program.)

Rhodes is committed to providing the members of its community with factual information about alcohol as well as confidential referrals for professional assistance in the event that it is needed. An awareness of the positive and negative effects of alcohol consumption may assist in efforts to make safe and responsible

choices about alcohol. Educational programs are organized and conducted annually to promote continued awareness and encourage an attitude of genuine concern and care for others.

STATEMENT ON DRUG USE

The possession, use, sale or distribution of illegal drugs, the misuse or abuse of medications or other legal drugs on the Rhodes campus is prohibited. Such conduct:

- Violates the law;
- Violates one's physical and mental health; and,
- Violates the fabric of the community with serious security risks resulting from dealing with individuals operating outside the law.

The students, faculty and staff of Rhodes, as citizens, are responsible for knowing and complying with all applicable state and local laws that make it a crime to possess, sell, deliver or manufacture those drugs considered to be "controlled substances" by the state of Tennessee. Any member of the Rhodes community who violates the law is subject to both prosecution and punishment by civil authorities and to disciplinary proceedings by the College.

Students, faculty, or staff at Rhodes are subject to disciplinary action for the possession, manufacture, use, sale, or distribution (by either sale or gift) of any quantity of any prescription drug or controlled substance or for being under the influence of any prescription drug or controlled substance, except for the appropriate use of an over-the-counter medication or for the prescribed use of medication in accordance with the instructions of a licensed physician. Controlled substances include, but are not limited to, marijuana, cocaine, cocaine derivatives, heroin, amphetamines, barbiturates, LSD, PCP, and substances typically known as "designer drugs" such as "ecstasy" or "eve." Possession of paraphernalia associated with the use, possession or manufacture of a prescription drug or controlled substance is also prohibited. Students, faculty or staff also are subject to disciplinary action for the misuse or abuse of non-controlled substances (e.g. amyl nitrate, ephedrine, etc.).

The penalties to be imposed by the College may range from probation to suspension or expulsion from one's place of residence, to expulsion from enrollment or termination from employment.

SEXUAL HARASSMENT AND ASSAULT POLICY

Rhodes College is committed to providing a working, educational, social, and residential environment for all members of our College community, including all faculty, staff, and students, that is free from sexual harassment. Sexual harassment or assault in any form is unacceptable behavior and will not be tolerated. It is a form of misconduct that undermines the institutional mission of the College. The complete sexual harassment and assault policy may be found in the Student Handbook and the College Handbook.

FRATERNIZATION POLICY

Rhodes College prohibits romantic, sexual, and exploitative relationships between college employees and students. In the event that any such relationship is reported and confirmed the college employee is subject to employee disciplinary procedures up to and including termination in the case of administrators and staff members, or dismissal for cause in the case of faculty members. There are exceptional circumstances in which the spouse or partner of a college employee is a student at the College. This policy does not apply in such circumstances. The Dean of the College, in consultation with the Director of Human Resources, is

the administrative officer who determines whether an exceptional circumstance applies. The complete fraternization policy and employee discipline policy are available in the College Handbook.

SMOKING POLICY

Certain public areas of the campus are designated as “smoke-free.” Classified as “No Smoking” areas are all interior spaces of all buildings and the exterior space within forty (40) feet of the entrances to all buildings.

In order for Rhodes to have an environment that is relatively free of pollutants or other substances that may be hazardous to one’s health, members of the campus community are encouraged to direct those who choose to smoke to areas not designated as “smoke-free.”

Campus areas in which smoking will be permitted are South Hall (Neely) of the Refectory, the patio of the Bryan Campus Life Center, the north porch of the Briggs Student Center and all exterior space at least forty (40) feet away from the buildings.

All residence halls are smoke-free. This includes student rooms and apartments, bathrooms, hallways, stairwells and social rooms. Students who smoke in “smoke-free” spaces are subject to disciplinary action.

RESIDENCE HALLS AND CAMPUS PROPERTY

All residence hall regulations are administered and enforced by the Dean of Students and Residence Life Offices. A complete description of all regulations appears in the Student Handbook.

It is absolutely prohibited for any student to have weapons (including knives, pellet guns, BB guns and bows-and-arrows) on the Rhodes campus. Violators are subject to suspension, expulsion, termination, criminal prosecution, or any combination of sanctions appropriate.

Authorized personnel of Rhodes have the right to enter student rooms at any time for purposes of maintenance and repair, inspection of health and safety conditions, and investigation of violation of College regulations. This right will be exercised with restraint. College furniture may not be removed from a room at any time. Any College items of furniture found missing from a residence hall room will be charged to the residents of that room. Students are responsible for all damages in their rooms. Cost of damage to common areas of residence halls will be prorated among the residents. It is an Honor Code violation to remove any furniture from a residence hall social room. Any College furniture found missing from a residence hall room will be charged to the residents of that room.

A student’s personal belongings are not covered by College insurance. In deciding what to bring to college, students should discuss with their parents whether they want their comprehensive policy to include coverage of their belongings on campus.

CAMPUS COMMUNICATION

There are three official means of communication on the Rhodes campus: campus mail, e-mail using Rhodes’ accounts, and campus voice-mail. All students, faculty, and staff have a personal e-mail address on the Rhodes e-mail system, and students are expected to check this account on a regular basis.

Communication about severe weather or similar campus-wide issues, as well as other official communication, may take place over the campus voice-mail. Due to these factors, all residential students are expected to activate, and regularly check, for voice-mail messages.

Most official notices to individuals and to the campus community are sent via

e-mail, and such correspondence is considered official. In addition to e-mail, some official notices, communication, and information are sent via campus mail. For this reason, all students are required to maintain a mailbox in the mailroom located in the Briggs Student Center Building.

OFFICIAL RECESSES

Residence halls, the Refectory, and the Lynx Lair will be closed for the official College recesses that occur at Fall Recess, Thanksgiving, between the Fall Semester and the Spring Semester, Easter Recess and Spring Break. Certain students may be allowed to remain in residence during these recesses; but in that event, they may be subject to temporary reassignment to other residence halls. Exceptions may be granted in extenuating circumstances by contacting the Director of Residence Life at least two weeks before the vacation period. After any vacation period, students may not re-enter any residence hall before the date and time determined by the Director of Residence Life.

AUTOMOBILES

A student may not keep a car on campus without registering it with the Campus Safety Office. Car registration can be obtained through the Campus Safety Office anytime during the year.

USE OF CAMPUS FACILITIES

Campus facilities are for the use of the Rhodes College community, including alumni and trustees, as well as Meeman Center clients. All requests for use of campus facilities, excluding social rooms in residence halls, may be requested through the room reservation system, Facilities Management, on the Rhodes web site (<http://calendar.rhodes.edu>). This web site provides access to instructions for reserving space and information such as spaces that require special permission, multimedia smart classrooms, and a calendar of events.

Requests for the use of campus facilities for personal events or by off-campus groups and any request for use of facilities during the summer should be sent to the Conference and Event Services Manager, Meeman Center for Lifelong Learning, 843-3965.

THE EDUCATIONAL PROGRAM

REQUIREMENTS FOR A DEGREE

Rhodes College offers a four-year program of study in the liberal arts and sciences leading to the Bachelor of Arts or the Bachelor of Science degree. Candidates for either degree must complete the general degree requirements or the Foundation Requirements depending upon their date of enrollment. Students majoring in a science may earn the Bachelor of Science degree. Rhodes also offers a Master of Science degree in Accounting.

Students entering the College in the 2007-2008 academic year will pursue their entire undergraduate education within the framework of the Foundations Curriculum. Students currently enrolled prior to 2007 will go through a period of transition that will affect their graduation requirements.

THE BACHELOR'S DEGREE

The Bachelor's degree is granted to students who have completed the required number of credits (depending on the transition curriculum requirements), and the appropriate degree requirements. The degree requirements under the Foundations Curriculum include at least thirteen courses (52 credits) and as many as sixteen courses (64 credits) as described below. Although 52 total credits are required, several of these credits will be satisfied by courses taken in a particular major. Moreover, the total number of credits required to satisfy the writing and language requirements may vary because the foreign language requirement may be satisfied by successful completion of a proficiency exam. In addition, some courses satisfy more than one foundation requirement, effectively decreasing the number of required courses. Thus, the number of credits available for electives is dependent upon several factors: the major, whether the degree is the Bachelor of Arts or the Bachelor of Science, how many courses a student must take to satisfy the writing and language requirements, and how many courses outside the major a student must take to satisfy the foundation requirements.

Some currently enrolled students may pursue a degree using the general degree requirements. The General Degree Requirements include the writing and language requirements, a basic humanities requirement (twelve credits), distribution requirements in four different areas (at least 33 credits), a major, and three non-credit course units in Physical Education. The number of courses and credits required in this case vary in the same way as the foundations curriculum.

Once the degree is conferred, no additional course work may be taken and applied to that degree. Additional course work may be applied toward a second degree or taken in a non-degree seeking status, however.

Bachelor of Arts. The Bachelor of Arts degree is awarded to those students who complete the degree requirements as stated above and more fully described below, including the completion of the requirements for a major as outlined in the appropriate section of this catalog.

Bachelor of Science. The Bachelor of Science degree may be earned by students who complete the appropriate requirements for a degree with a major in Biology, Biochemistry and Molecular Biology, Chemistry, Computer Science, Mathematics, or Physics.

Although the College, through various advising methods, assists a student in planning and following a program of study which will lead to a degree, the student is ultimately responsible for keeping track of progress toward a degree, for knowing and fulfilling all degree and major requirements, and for arranging a course of study accordingly.

TOTAL CREDITS FOR THE DEGREE

The credits required for the degree are as follows based on the number of academic years the student is in attendance under the four-course system:

Class of 2008	(entered Fall, 2004)	116
Class of 2009	(entered Fall, 2005)	120
Class of 2010	(entered Fall, 2006)	124
Class of 2011	(entered Fall, 2007)	128

A student must earn at least 50 percent of these credits at Rhodes. The senior year, defined as the last 25 percent of the total credits required, must be spent in residence. No more than eight (8) of these credits may be transfer credits.

A student must earn a cumulative grade point average of no less than 2.000 (C) to qualify for the degree. A student may apply toward a degree a maximum of eight (8) credits in internships.

A maximum combined total of credits equaling 25 percent of the degree requirement may be earned through Advanced Placement and International Baccalaureate examinations. A student earning both transfer credits and Advanced Placement and/or International Baccalaureate credits may apply those credits to a Rhodes degree up to a maximum combined total of fifty percent of the total credits required for a degree.

THE FOUNDATIONS CURRICULUM

In the Fall of 2007, the Foundations Curriculum, an academic curriculum that establishes a new approach to the study of the liberal arts and sciences at the College, will be fully implemented. Students entering the College in the 2007-2008 academic year will pursue their entire undergraduate education within this new framework.

The Foundations Curriculum was adopted by the Faculty in order to achieve several goals:

1. To assist students to understand the goals of a liberal arts education and to take greater responsibility for their education. The curriculum gives students greater freedom to follow their academic interests and aspirations within a framework of Foundation requirements that are fundamental to the study of the liberal arts;
2. To provide a more transparent and streamlined curriculum by framing the general degree requirements in terms of skills and content areas;
3. To bring greater focus to the courses students take and to recognize that their activities inside and outside the classroom should be mutually informative and energizing;
4. To create the opportunity to offer more courses reflective of the scholarly interests of the faculty and to develop innovative courses that respond to the developing currents in contemporary thought; and,
5. To establish four courses as the standard load per semester in order to allow for a more focused educational experience for all of our students.

The Foundations curriculum enhances the way in which the four components of the Rhodes education work together: the Foundation requirements (commonly referred to as "F1", "F2", etc.), the Concentration in a Major, the choice of elective courses, and participation in co-curricular activities.

THE FOUNDATION OF THE LIBERAL ARTS REQUIREMENTS

The Foundation requirements establish a framework for liberal education and life long learning. Unless mentioned otherwise in the description, Foundation requirements will be met by taking one course specified as meeting that requirement, and most requirements will have courses in several different departments that do so.

Upon completion of the requirements and the attainment of a Bachelor's degree from Rhodes, each graduate of the College should be able to:

1. **Critically examine questions of meaning and value.** Questions about

the meaning and purpose of life are central to human existence. Every area of the Rhodes curriculum touches in some way upon such problems and questions, whether directly as in moral philosophy, epic poetry, and political thought, or indirectly as in studies of the history of medieval Europe, economic theory, and the physical structure of the universe. This requirement is to be satisfied with three courses, either the Search sequence or the Life sequence.

2. **Develop excellence in written communication.** The ability to express concise and methodical arguments in clear and precise prose is essential to success in most courses at Rhodes and in most of the vocations Rhodes graduates pursue. This requirement will be satisfied by one writing seminar (taken in the first year) and two writing intensive courses, one of which will be in Search or Life.
3. **Understand how historical forces have shaped human cultures.** Investigating the responses of individuals and societies to forces of change helps us understand the processes of transformation that affect all human cultures. It also provides new perspectives on the present.
4. **Read and interpret literary texts.** Literary texts provide challenging and influential representations of human experience in its individual, social, and cultural dimensions. Critical and sensitive reading of significant works refines analytical skills and develops an awareness of the power of language.
5. **Participate in the analysis of artistic expression or in the performance or production of art.** Humans powerfully express their observations, questions, and emotions in artistic ways. These expressions take various aural, visual, and literary forms including art, theater, music, and film. Creation and analysis are the most effective method of learning to understand and interpret art.
6. **Gain facility with mathematical reasoning and expression.** Some human experiences are most effectively expressed in mathematical language, and important areas of intellectual inquiry rely on mathematics as a tool of analysis and as a means of conveying information.
7. **Explore and understand scientific approaches to the natural world.** Our world is profoundly influenced by a scientific understanding of the physical realm of our existence. From every day matters to major questions of public policy, students have a personal and social responsibility to make informed decisions involving science. The ability to make such decisions hinges not simply on knowledge of scientific facts, but also on understanding the powerful methods by which this knowledge is obtained. The courses that satisfy this requirement must include a laboratory.
8. **Explore and understand the systematic analysis of human interaction and contemporary institutions.** Human development, thought, and aspiration occur within societies, and those societies are shaped by various social and political institutions. Familiarity with the systematic analysis of contemporary institutions is an important component of a sound understanding of the world and is a foundation for responsible citizenship.
9. **View the world from more than one cultural perspective.** In order to live and work effectively in a culturally diverse world, liberally educated individuals cultivate the ability to view and understand issues and events from cultural perspectives that differ from their own. This ability requires in-depth analysis of issues that bring to the forefront similarities and differences in cultural values, beliefs, world views and/or identities.

- 10. Develop intermediate proficiency in a second language.** The study of a second language opens the possibility of engagement with people and texts of other cultures. This requirement may be met either by passing a proficiency test or by taking the appropriate language courses through the third semester.
- 11. Participate in activities that broaden connections between the classroom and the world.** Rhodes students are asked to become engaged citizens, participating in the local community - its politics, its culture, its problems, its aspirations - and in the world community. Students gain skill in connecting knowledge to its uses through educational experience that takes them off campus.
- 12. Participate in activities that encourage lifelong physical fitness.** It is important that students have the opportunity for recreation and physical activity, both during and after college. These involvements include learning about and participating in activities that promote lifelong physical fitness. Participation in athletics provides opportunities for leadership and for setting, understanding, and achieving team and personal goals. This requirement may be satisfied by taking three half-semester of no-credit physical education courses or participation in intercollegiate athletics or club sports.

CONCENTRATION OF STUDY IN A MAJOR DISCIPLINE

Students' majors may be directly related to an anticipated vocation, but that is not their primary purpose in a liberal arts curriculum. The qualities of mind and abilities that will serve students best in their careers are developed within the curriculum as a whole. The major is a refinement of intellectual discipline and a deepening of understanding of an area of study. The academic enrichment gained through a major affords access to other disciplines as well as an appreciation of the complexity of other fields of study. Students should consider carefully how all of the courses they select can enrich and complement work done in the major.

THE CHOICE OF ELECTIVE COURSES

The new Rhodes curriculum is designed specifically to offer students opportunities to combine a carefully structured and intense study of at least one subject with the broad and diverse understanding that is characteristic of an education in the liberal arts and sciences. Although required to meet certain objectives, the Foundation courses may be selected from a wide range of course offerings. These are only the beginning of a student's exploration of the fields of human knowledge and creativity. In selecting courses beyond these requirements and outside the major discipline, students should consider the ways in which their education can be broadened, complemented, and enriched.

PARTICIPATION IN CO-CURRICULAR ACTIVITIES

A comprehensive liberal arts education includes regular engagement with cultural activities and diverse perspectives not only in the classroom, but also in the college community and in communities beyond the college. Students become full participants in the campus community as they join others in a variety of extra-curricular and co-curricular activities. These include student government, music ensembles, athletics, campus publications, theatre productions, and many others. Service-learning opportunities, international education opportunities, and undergraduate research provide students and faculty with ways to integrate classroom and laboratory work with out-of-class experiences, and a student's experience in a course can be enriched in significant ways by the selection of

complementary co-curricular activities.

DEGREE REQUIREMENTS AND THE TRANSITION TO THE FOUNDATIONS CURRICULUM

With the introduction of many courses that satisfy Foundation requirements in 2006-2007 and the full implementation of the Foundations Curriculum in the Fall Semester of the 2007-2008 academic year, degree requirements for those entering classes affected are being implemented through a transition of both the degree requirements and the total number of credits required for the degree.

THE GENERAL DEGREE REQUIREMENTS

It is possible according to policy for any student who enrolled prior to the 2007-2008 academic year to select to fulfill the requirements for a degree using the Foundation Requirements **or** the division-based general degree requirements. Therefore, degree plans for such students should take into consideration the full implementation of Foundation courses in 2007-2008, the availability of courses that meet either the Foundations Requirements or the General Degree Requirements as well as the transition credit hours requirements as stated in this Catalogue. Therefore, the following degree requirement descriptions do not apply to those students entering in the Fall of 2007 or later.

WRITING AND LANGUAGE REQUIREMENTS

English 151, First Year Writing Seminar must be taken in the first year by all students unless the requirement is waived by the English department. In addition, proficiency in a foreign language at the level of third semester (201) courses must be demonstrated by passing any appropriate three or four credit language course at or above that level, by passing the Rhodes language placement test at a satisfactory level, or by scoring 3 or higher on that language's Advanced Placement Examination. The foreign language requirement is waived for those students for whom English is the second language.

Students planning to meet the Rhodes requirement in a language they have previously studied must take the placement test in that language during the orientation period. If a student has completed two or more years of a language in high school, the student may not take the 101 course in that language for credit at Rhodes. The foreign language requirement should be completed in the first two years. For more information about foreign language study, see the "Modern Languages and Literatures" section of this catalog.

THE BASIC HUMANITIES REQUIREMENT

Students must complete one of these two sequences:

A. The Search for Values in the Light of Western History and Religion. This course sequence is taken in the Fall and Spring Semesters of the first year and the Fall Semester of the second year.

B. Life: Then and Now. This course sequence offered in the Religious Studies and Philosophy departments is normally completed in the first two years. The first two courses must be taken at the 100-level in the Fall and Spring semesters of the first year; the third course (and fourth course if required) may be taken at any time but should be completed as early as possible. (Courses that meet this requirement are designated "Life Then and Now.")

Both of these alternatives are discussed in detail under the section "Interdisciplinary Study" in this catalogue. A student should plan to stay in the sequence first chosen, but if a change is desired, course equivalents between the two sequences may be obtained from the Registrar.

DISTRIBUTION REQUIREMENTS

Under the Distribution degree requirements, at least 33 credits in distribution requirements must be completed for a Rhodes degree. Three courses totaling at least nine credits must be completed in each of three areas: Humanities, Social Science and Natural Science. Two courses totaling at least six credits must be completed in the Fine Arts. The detailed requirements are as follows:

Humanities. Of the three courses, at least one must be in literature or film—English or foreign—and at least one in history or philosophy.

Natural Science. The three courses must be selected from at least two of the five science areas listed below. One of the three must have an accompanying laboratory.

Biology	Mathematics/Computer Science
Chemistry	Physics/Astronomy
Geology	

Social Science. The three courses must be selected from at least two of these four social science areas:

Anthropology/Sociology	Political Science& International Studies
Economics	Psychology (including Education 201)

Fine Arts. The two courses must be selected from any two of these areas: Art, Music, and Theatre. An accumulation of three one-credit applied music credits is equivalent to a course and may be used to meet this requirement.

PHYSICAL EDUCATION

Three half-semester courses of Physical Education are required for graduation. These courses carry no academic credit and are graded on a pass-withdraw basis. Physical Education courses are offered each semester and are taught for seven weeks (one-half of a semester) each. It is the student's responsibility to be sure that he or she is properly registered for the course during the semester in which it is taken. For each successfully completed, full-semester course in one of the ROTC programs, a student will be credited with one course of the Physical Education degree requirement of three courses.

THE MAJOR

Under either curriculum, a student must complete any one of the department-based majors, one of the interdisciplinary majors listed elsewhere in this catalogue or an approved interdisciplinary major formulated in consultation with faculty members.

Detailed descriptions of the department-based majors are given under the departmental descriptions in the section entitled "Courses of Instruction." The Interdisciplinary majors are described in the section "Interdisciplinary Study."

No major may require more than fifty percent of the total credits required for the degree. At least fifty percent of the course requirements for a major or minor must be Rhodes credit. All majors include a required senior seminar which both reviews and integrates important areas within the discipline. The senior seminar also further develops skills of analysis and of clear expression in both written work and oral presentations. These seminars carry two to eight credits and may extend over the whole year or be offered only in the spring semester.

A 2.000 (C) grade point average in the major is required for graduation. The major grade point average is determined by computing the grade point average of all courses required for the major as described in this catalog and any other courses taken in the declared major. The computation of a major grade point average for an interdisciplinary major shall include all courses described as required and as elective courses.

A student pursuing a double major or a second Bachelor's degree may use no more than four (4) of the same courses to satisfy requirements in both majors unless specified as required by one or both of the majors.

In the case of changes in the requirement for a major, students may follow the requirements stated in the catalogue that defines their general degree requirements or in any later catalogue except in cases where changes in departmental course offerings makes the original major requirements impossible to meet.

Declaration of a Major. Students must declare an intended major or majors no later than the middle of the spring semester of their sophomore year. Students in good standing will be accepted as majors by any department they may choose but must first discuss their suitability for work in the department with the department's chairperson. At the same time the prospective major should make a tentative plan of course work to be completed in the student's remaining semesters. A faculty advisor from the major department is assigned or selected by each new major to aid in this planning. Forms for declaring a major are available in the Office of the Registrar. Students declaring two majors will have an advisor in each major department, but one advisor will be designated as the primary advisor. Students who are delinquent in filing a declaration of major will not be allowed to register for classes until the appropriate form is received by the Registrar. While students may change majors, changes made after the sophomore year may be difficult to accommodate in the remaining semesters.

Interdisciplinary Major. Some students prefer to study in an area that can best be covered by combining the work in two or even three academic departments. Interdisciplinary majors are important ways in which the faculty can meet the special academic needs of these students.

The section listing titled "Interdisciplinary Study" summarizes existing interdisciplinary major requirements for pre-approved curriculum structures. Students who wish to declare any of the established interdisciplinary majors may do so by filing the normal Declaration of Major form with the Office of the Registrar. Any deviation from the program of study outlined in the description must be approved by the chairpersons of the departments involved.

Students who wish to declare an interdisciplinary major that does not have a program of study already defined should follow the appropriate steps in order to secure the necessary approvals within a reasonable time and to ensure an adequate review of the proposed program of study. Those steps are detailed in the "Interdisciplinary Studies" section of this catalogue. The proposed program of study must include specific provisions for a senior seminar or integrating senior experience. The "Declaration of Interdisciplinary Major" form is used to record the approvals and to advise the Registrar of the College.

INTENT TO GRADUATE FORM

All candidates for degrees must submit to the Registrar's Office an "Intent to Graduate" form at least two semesters prior to the intended date of graduation.

COMMENCEMENT

Rhodes College requires attendance at the May commencement exercises by all candidates for a degree including candidates whose work was completed in August or December of the previous calendar year. The College recognizes students in commencement exercises only after they have completed the academic requirements for a degree and confers degrees (signified by the date of degree in official records) at the end of each regular semester (December and May) and in August.

ACADEMIC MINORS

Academic minors are available to students who wish to supplement their major field of study with another academic area, giving both more depth and breadth to their course work. In addition to departmental minors, interdisciplinary minors are available within the established interdisciplinary programs in the curriculum.

Normally, a student is required to complete at least six specified courses in the department in which the minor is selected. At least four of the courses in the minor must be outside the major department or interdisciplinary major requirements, and the same course cannot be used to satisfy the requirements in two different minors. Forms for declaring a minor are available in the Office of the Registrar and should be completed no later than the beginning of the fall semester of the senior year.

A student must earn a grade point average of 2.000 in the courses required for an academic minor in order for the minor to be posted to the final academic record.

SECOND DEGREE

A student may earn a second Bachelor's degree upon earning at least 32 credits beyond the total credits required for the first degree and completion of all requirements for a second major. A student may not earn two Bachelor of Arts degrees or two Bachelor of Science degrees. A student planning to earn a second degree must declare that intention no later than the beginning of the last semester of enrollment. All academic work for both degrees is included in the cumulative grade point average of the double degree recipient.

A Rhodes graduate who wishes to return to the College to earn a second undergraduate degree must earn an additional 32 credits beyond the number of hours earned for the first degree as well as complete the second major. For a returning student, a second cumulative grade point average will be computed using only the additional hours earned for the second degree.

CHANGES IN DEGREE REQUIREMENTS

A student may satisfy the requirements for a Rhodes degree as described in any catalogue that has been in effect during the student's enrollment. Students readmitted to Rhodes may graduate under requirements in effect during the original period of enrollment or by following a program incorporating features of the current and the earlier degree requirements and approved by the Standards and Standing Committee. Students may not declare a major if it has been dropped from the College's curriculum, however, even if the major was available at the time of enrollment. In addition, degree and/or major requirements may have to be modified in order to fit current curricular offerings.

ACADEMIC ACHIEVEMENT

The candidate for the degree who attains a cumulative average of 3.9500 in all academic work at the College and a grade point average of 3.9500 in all Rhodes work and all attempted transfer credit combined will be recommended for the degree summa cum laude.

The candidate for the degree who attains a cumulative average of 3.8500 in all academic work at the College and a grade point average of 3.8500 in all Rhodes work and all attempted transfer credit combined will be recommended for the degree magna cum laude.

The candidate for the degree who attains a cumulative average of 3.5000 in all academic work at the College and a grade point average of 3.5000 in all Rhodes work and all attempted transfer credit combined will be recommended for the degree cum laude.

If a student with transfer credit is a candidate for academic achievement recognition, the student must have the grade point average required for academic achievement on all Rhodes work and must have a grade point average for all accepted transfer work and Rhodes work combined which meets the standard for academic achievement.

The major with honors requires special independent study work in the major field during the senior year. The Honors Program is described under Opportunities for Individualized Study.

AWARDING OF POSTHUMOUS DEGREES

A posthumous degree may be awarded to a deceased undergraduate student who was within 16 credits of the completion of the requirements for graduation or to a deceased graduate student who was within 6 credits of the completion of the requirements for graduation. The student must have been enrolled during the past two regular semesters. The remaining credits would have completed all degree requirements, and the cumulative and major GPA requirements must be met. The appropriate degree may be awarded posthumously on the recommendation of the Provost with the approval of the Faculty Standards and Standing Committee and the President. The student's transcript will show a notation that the degree was awarded posthumously.

TRANSFER STUDENTS

Students who transfer to Rhodes have their previous college work evaluated for transfer credit upon their acceptance for admission. Credit will be awarded following the guidelines outlined below for the evaluation of academic work for transfer credit. Transfer students are responsible for having final copies of transcripts sent from each institution attended. Official evaluation of transfer credit will not be completed until these final transcripts have been received in the Registrar's Office.

As degree candidates, transfer students must satisfy all of the degree requirements outlined in this catalogue. Of the total credits required for a Rhodes degree, a minimum fifty percent must be earned at Rhodes and a maximum of fifty percent may be accepted as transfer and Advanced Placement credit.

Transfer credit for students who transfer to Rhodes will be evaluated following these guidelines according to the Foundation requirements:

- a. Courses presented with two or three semester hours or less than six quarter hours will be given the appropriate and corresponding number of credits of transfer credit.
- b. Credit from several courses may be combined to total four or more credits and therefore satisfy a foundation requirement.
- c. A three-credit course may be used to satisfy a foundation requirement if the corresponding course in the department meets that same requirement.
- d. A three-credit course may be used to satisfy a major requirement if the corresponding course in the department meets that same requirement unless specifically disallowed by the department chair.

TRANSFER CREDIT

Credit from Other Institutions. Rhodes students may enroll in courses at other colleges and universities and transfer credits to Rhodes. A student who desires to have academic work transferred from another institution must have the work approved in advance by the appropriate academic department chairperson at Rhodes and by Registrar, acting on behalf of the Education Program Committee. Courses not receiving prior approval may not be accepted for transfer credit at the discretion of the department chair and the Registrar.

Students seeking concurrent enrollment at another institution during a regular semester must have permission from the Standards and Standing Committee prior to registering at the other institution. Concurrent enrollment credits are included in the computation of the total credits permitted in one semester but are not included in the determination of full-time status. Course credit earned at another institution during non-approved concurrent enrollment may not be accepted for transfer credit.

It is the responsibility of the student to ensure that an official transcript from the other institution is forwarded to the Registrar at Rhodes. Final evaluation of transfer work must be completed within twelve (12) weeks of the completion of the course(s) in question. In some departments, a proficiency examination must be passed in order for the transfer credit to be accepted.

Transfer credit may not be used to satisfy a Foundation Requirement.

Students pursuing the general degree requirements may use no more than four credits of transfer course work to satisfy the degree requirements in each of the four divisions of the curriculum-Humanities, Natural Sciences and Mathematics, Social Sciences, and the Fine Arts. This restriction does not apply to courses taken by students participating in approved study-abroad programs.

Credit from Special Programs. Students wishing to participate in special programs at other collegiate institutions are required to obtain permission and approval in advance from the appropriate academic officer acting on behalf of the Faculty Education Program Committee. In most cases, this approval will come from the Director of International Programs, the Registrar, and the chair of the department at Rhodes in which the coursework will be pursued. The Registrar, in consultation with department chairpersons and the Provost, must approve all work at other institutions in advance of beginning the work. In some cases it may be necessary to postpone approval until course syllabi, papers, and tests are examined.

All credit earned on study abroad programs, exchange programs, and cooperative programs such as Washington Semester is evaluated as transfer credit.

Transfer Credit Guidelines. The following guidelines are used in evaluating academic work from other institutions for transfer credit:

- To be accepted for credit, each course must be judged comparable in terms of content and quality to a course in the curriculum at Rhodes or it must be judged to be consistent with the liberal arts and science curriculum and of a quality comparable to that expected of courses at Rhodes. Departmental chairpersons make these judgments; in many cases the Registrar of the College can act with the authority of departmental chairpersons. In some departments, a proficiency examination must be passed in order for the transfer credit to be accepted. The chairpersons and the Registrar assign credit toward a degree in such a way as to match comparable work at Rhodes.
- The course work must be taken on the campus of an accredited college or university or while on a study abroad program approved by the Office of International Programs.
- Currently enrolled students may use no more than 4 credits of transfer credit to satisfy a distribution requirement in each of the four divisions. Therefore, only one transfer course may be used to satisfy a general degree requirement in each academic division for a total of four courses maximum. This restriction does not apply to students participating in approved study abroad programs. A student may use a 4-quarter hour course, equivalent to 2 and 2/3 credits, to satisfy course requirements for a degree, up to a maximum of five courses.
- Transfer credit may not be used to satisfy a Foundation Requirement.
- No more than twelve transfer credits may be earned in any one summer.
- All course work taken at other institutions for which Rhodes receives a

transcript will be evaluated for transfer credit, and if pre-approved for transfer credit, will be posted to the student's record.

- A maximum of fifty percent of the total credit required for a degree may be accepted towards a Rhodes degree. No student may earn additional transfer credit once that credit limit has been reached. This maximum varies as the number of credits required for the degree varies during the transition to the Foundation Curriculum.
- Transfer credits based on a quarter system are converted to the Rhodes credit basis using the formula that one quarter-hour equals two-thirds credit. Fractional transfer credits will be credited.
- Students earning both transfer credits and Advanced Placement and/or International Baccalaureate credits may apply a maximum combined total of fifty percent of the total credit required for a degree to the Rhodes degree. A student with such credit must earn at least fifty percent of the total credit required for a degree in residence at Rhodes.
- Advanced Placement credit and/or International Baccalaureate credit may not be used to satisfy Foundation Requirements.
- Of the total number of credits earned to qualify for the senior year in residence, a maximum of six credits may be transfer credit.
- Transfer credits are not accepted if the grade is D+ or below. Transfer courses taken on a Pass/Fail basis must be passed with a grade of C or better. Confirmation of such a grade must be received by the Registrar before the course will be accepted for transfer credit. Transfer credits are credited to the Rhodes transcript as credits only; they are not computed in or used to determine the grade point average.
- Courses taken on a college campus prior to matriculation by accepted students, including those which are taken in conjunction with a dual enrollment program at the secondary school level, will be accepted for credit under the same guidelines as stated above, including review by the appropriate department at Rhodes, only if such coursework does not satisfy high school graduation requirements or requirements for admission to Rhodes. Credit for such courses must be requested during the summer prior to enrollment at Rhodes. Students who have not graduated from high school who present such courses for transfer credit are not considered transfer students.

FOUNDATIONAL PROGRAMS IN THE HUMANITIES

Questions about the meaning and purpose of life are central to human existence. Every area of the Rhodes curriculum touches in some way upon such questions, whether directly as in moral philosophy, epic poetry, and political thought, or indirectly as in studies of the history of medieval Europe, economic theory, and the physical structure of the universe. The programs *Life: Then and Now* ("Life") and *The Search for Values in the Light of Western Religion and History* ("Search") help students think about these issues and so provide the foundation for the entire curriculum.

Life and Search students meet in small groups led by faculty members to analyze challenging and controversial texts that have shaped and reshaped thought, particularly in Western societies. Because of its prominence in world history, these courses pay special attention to the Bible and the traditions that have emerged in relationship to it. Life and Search courses endeavor to make the familiar unfamiliar by examining critically the logical and historical foundations of received opinion and texts. They also make the unfamiliar familiar by studying traditions, artifacts, and issues that most students have not yet encountered. Through both programs, students learn to appreciate the role of historical context in shaping values, beliefs, and practices and to reflect critically on their own values, beliefs, and practices. Life and Search stress skills that are central to the whole curriculum: careful reading, analytical writing, critical thinking, and discussion.

At the start of their first year in the College, students choose to pursue either Life or Search and generally remain in their chosen program until they have completed it. The two programs share many features but also are distinctive. The following descriptions clarify the differences between Life and Search.

LIFE: THEN AND NOW

The student who chooses the *Life: Then and Now* program completes a three semester sequence of courses. The first courses are taken in the fall and spring semesters of the first year. The third course may be taken at any time in the remaining three years of the student's college career.

The first two courses in the Life sequence are Religious Studies 101-102, "The Bible: Texts and Contexts." These courses introduce students to the academic study of the Bible and the traditions of interpretation and reflection based upon it. This two semester sequence follows a basic chronological development, from the earliest biblical sources to modern interpretations. The first semester of the course is taught by members of the Department of Religious Studies with primary competence in the study of the Bible and the second semester by members with expertise in theological reflection and the disciplines of the history of religion. Both courses emphasize careful textual analysis, clear and effective writing, and active discussion with peers. Complete descriptions of these courses may be found in the Religious Studies section of the catalogue.

The third Life course is chosen from a variety of offerings in Religious Studies, Philosophy, and Greek and Roman Studies. These courses build on the skills and base of knowledge developed in first year Life and further refine and augment them. The third Life course is selected from an array that includes advanced study of the Bible, theology and ethics, philosophy, and the history of religions. The spectrum of upper-level Life courses will change periodically to reflect student and faculty interests but includes staples such as "Archaeology and the Bible," "King David," "Sex and Gender in the New Testament," "Paul," "Contemporary Theology," "Holocaust," "Islam," and "Religious Traditions of Asia," "Religion in America," "Medieval Philosophy," and "Ethics." With a wide variety of choices, students may

select a third Life course that suits their interests and best complements their overall academic plan. A complete listing of the courses approved for the *Life: Then and Now* program is given in the section of the catalogue entitled Interdisciplinary Study.

THE SEARCH FOR VALUES IN THE LIGHT OF WESTERN HISTORY AND RELIGION

Throughout its more than fifty year history, this course has embodied the College's guiding concern for helping students to become men and women of purpose, to think critically and intelligently about their own moral views, and to approach the challenges of social and moral life sensitively and deliberately. Students are encouraged to engage texts directly and to confront the questions and issues they encounter through discussions with their peers, exploratory writing assignments, and ongoing personal reflection. Special emphasis is given to the development and cultivation of critical thinking and writing skills under the tutelage of a diverse faculty drawn from academic disciplines across the Humanities, Fine Arts, and Social Sciences. Students in this course can expect to be challenged and invigorated by intimate encounters with the voices of culture and the pinnacles of thought, to develop a respect and understanding of great moral, political, historical, and religious principles and quandaries, and to be better prepared to understand and respond to the diversity of human values in a complex world.

In the first year, the syllabus is centered on the biblical and classical traditions. An ongoing and intensive study of the Hebrew Bible and the New Testament explores the faith, values, and ideals of the ancient Israelites as well as early Christians. Interwoven with this exploration is an examination of the epic tradition of the ancient Near East and the rich and varied wellsprings of the ancient Greek and Roman civilizations including epics, histories, philosophy, poetry, and drama.

In the third semester of the sequence, students can choose from among a number of disciplinary tracks, including literature, religious studies, politics, philosophy, history, and fine arts. The third semester covers the Renaissance, the Protestant and Catholic Reformations, the Scientific Revolution, the Enlightenment, and the Modern Era. The course concludes with study of a number of revolutionary thinkers and movements of the nineteenth and twentieth centuries that challenge the basic principles of Western thought, culture, and religion.

In all courses of the sequence students read original source texts (in English translation) that encourage them to grapple first-hand with ideas as presented by the author, rather than relying on interpretation by secondary sources. Continuous effort is made to bring to light the influence and impact of ancient values on the contemporary world, as well as the cross-fertilization of ideas between Western culture and world civilization as a whole.

DUAL DEGREE PROGRAMS

There are some students who desire the benefit of an undergraduate education in the liberal arts and sciences prior to pursuing a more technical or specialized degree and career. Such students are able to take advantage of several dual degree programs arranged between Rhodes and other universities. Two programs take advantage of the College's relationship with Vanderbilt University.

For those students who are interested in pursuing studies in engineering, Rhodes offers two Dual Degree Programs, one in cooperation with Washington University in St. Louis and the other with the University of Memphis. Students outside the science disciplines are also encouraged to combine those studies with engineering.

MASTER OF EDUCATION

Rhodes College and Vanderbilt University encourage and facilitate the admission of Rhodes College undergraduate students interested in earning a graduate degree and professional educational licensure (elementary or secondary) into the Master of Education (M.Ed.) Program at Peabody College of Vanderbilt University.

Rhodes students interested in the program may choose to enroll in two Rhodes courses that have been selected and approved for graduate credit at Peabody College. The students receive Rhodes credit for the courses taken at Rhodes and Vanderbilt graduate credit for each of the courses upon their enrollment at Vanderbilt. The courses are Education 201 - Foundations of Education and Psychology 222 - Educational Psychology.

An interested student should apply during the Spring Semester of the junior year and if admitted by Peabody College enrolls in the classes during the senior year. If the student has already received undergraduate credit for the courses, the student will be allowed to enroll in the graduate section and complete the requirements for the graduate work. Upon enrollment at Peabody College, six graduate credits are awarded. Additional information about this program may be obtained from the Rhodes College Program Director for Education.

BACHELOR OF SCIENCE IN ENGINEERING

A student may complete the Rhodes requirements for this Dual Degree Program in three years at an accelerated pace, and then apply to Washington University for admission to the engineering program there. After two years of intensive engineering study, the student receives two degrees, a Bachelor of Science from Rhodes and a Bachelor of Science from Washington University.

The student who pursues a Rhodes degree in the Humanities, Social Sciences, or Fine Arts will generally complete the Rhodes degree in four years applying elective hours to the Dual Degree core requirements. Approximately twenty percent of the students admitted to the Dual Degree Program at Washington have completed their Bachelor's degrees.

To satisfy the graduation requirements at Rhodes and the entrance requirements to Washington University, all students in the Dual Degree Program must do the following:

1. Satisfy all of the Rhodes degree requirements as described earlier in this section of the catalogue. Students should note that Washington University has additional requirements for the Humanities and Social Sciences. In particular, at least eight hours must be taken in one department (in either Humanities or Social Sciences, but not necessarily both) and must include one upper level (300-400 level) course.
2. Take the following core courses: Mathematics 121, 122, 223, 251; Chemistry

- 111, 112, 111L, 112L; Physics 111, 112, 111L, 112L; Computer Science 141
3. Complete the following additional requirements depending on the specific course of study to be pursued at Washington University:
 - a. Chemistry/Chemical Engineering: Chemistry 122, 122L instead of 112, 112L in the core requirements; Chemistry 211, 212, 211L, 212L, 311, 312, 311L, 312L, 385, 386
 - b. Physics/Civil Engineering: Geology 111; Physics 211, 250, 305, 306
 - c. Physics/Electrical Engineering: Physics 211, 250, 301, 302, 304, 325
 - d. Physics/Mechanical Engineering: Physics 211, 250, 304, 305, 306.
 - e. Computer Science/Computer Engineering: Computer Science 142, 241, plus one of CS 330, 335, 355 or 360; Mathematics 201, and either Mathematics 311 or 370
 - f. Mathematics/System Science and Mathematics: Mathematics 201, 261, 311, 370, 465

MASTER OF SCIENCE IN BIOMEDICAL ENGINEERING

This program serves students who are interested in completing a master's degree in biomedical engineering (BME). Students who participate in this program will be able to complete both degrees in five years. The typical student in this program takes three years of coursework at Rhodes, and then two years of coursework and research in the joint program in biomedical engineering at the University of Memphis / University of Tennessee. Students will receive a paying job in a laboratory once accepted into the program (typically after their sophomore year). All students, after the three year completion of the their Rhodes undergraduate coursework, become eligible for graduate assistantships. The typical graduate assistantship includes a full tuition-and-fees scholarship and a monthly salary. Students remain in graduate assistantship status throughout their fourth and fifth years.

Students can apply for this program once they have reached sophomore standing and have completed one semester of course work. Applications consist of an application form, one letter of reference and a copy of the student's transcript. Each applicant will be required to complete an interview with a pre-graduate advisor. In order to remain in the program past the junior year, students must maintain a GPA of at least 3.25.

The following requirements must be met to earn the two degrees:

1. Complete all general degree or Foundation requirements for the Rhodes degree
2. Complete the following core courses: Mathematics 121, 122, 223, 251; Computer Science 141, 142; Chemistry 111, 122, 111L, 122L; Physics 111, 112, 111L, 112L
3. Complete the following additional requirements in addition to the specific major chosen at Rhodes:
 - a. For the Chemistry major: Physics 304*, 305*.
 - b. For the Physics major: two approved courses at the 300-level or higher*
4. Complete the following additional undergraduate requirements at the University of Memphis:
 - a. Mechanics 3322, Mechanics of Materials
 - b. Mechanics 3331, Mechanics of Fluids
 - c. *If Physics 304 has not been taken, then add EECE 2201 (Circuit Analysis I). If Physics 305 has not been taken, then add Mechanics 2332 (Dynamics).

These courses will be transferred to Rhodes. Additional undergraduate credit hours in mathematics, science, or engineering may be transferred to meet

requirement 5 below.

5. Complete the number of credit hours required for the Rhodes bachelor's degree (from the first three years at Rhodes plus undergraduate courses transferred from UM). Successful completion of requirements 1-5 is necessary to fulfill the requirements for the B.S. degree.
6. Complete the following graduate courses at the University of Memphis and/or The University of Tennessee:
 - a. BIOM 7209 (Measurements and Instrumentation)
 - b. BIOM 7101 (BME Analysis I) BIOM 7004 (Life Science I)
 - c. BIOM 7005 (Life Science II)
 - d. BIOM 7996, minimum 6 credits (MS Thesis)

Also, one additional graduate mathematics elective course and three additional graduate engineering elective courses. The mathematics and engineering elective courses are selected in consultation with the graduate advisor. Enrollment in the BME seminar/professional development course(s) is also required. Students are expected to complete an oral thesis defense.

The course descriptions and details for each course may be found at the University of Memphis, the University of Tennessee, and the Rhodes web sites. The coordinator for this program at Rhodes is Professor Ann Viano.

ACADEMIC REGULATIONS

The Board of Trustees vests responsibility for curriculum, instruction, and the regulation of academic affairs with the President and the Faculty. They in turn allocate this responsibility and implement it through various committees and individuals.

Two committees are chiefly responsible for regulating the academic program. The Educational Program Committee, which includes students in its membership, is responsible for the overall academic program, including requirements for the degree and departmental offerings. The Standards and Standing Committee has broad responsibility, subject to faculty review, to frame and implement procedures to insure that the instructional standards and aims of the College are met.

The regulations that follow are not comprehensive but are included here for the sake of easy reference by faculty and students. Any variation from academic regulations requires the formal approval of the Faculty. Students submit requests for variations from academic regulations to the appropriate faculty committees that make recommendations to the faculty. Requests for reconsideration of faculty decisions in light of new evidence will be considered by the committees making the initial recommendations. Students are encouraged to inquire in the Registrar's Office in the event that variations seem necessary.

REGISTRATION AND COURSE LOAD

All students are required to register for classes during the Enrollment Clearance/Registration process held on the day prior to the first day of classes each semester. Students who register for a semester on or after the first day of classes must pay the late registration fee. No late registrations will be accepted after the end of the Drop/Add period in any semester or summer term.

Qualification as a full-time, degree student requires registration for a minimum of twelve (12) credits in a semester. A normal course load for a full-time student is 16 credits. Registration for fewer than 12 or more than 18 credits by a full-time student must be approved in advance by the Standards and Standing Committee. Students must be aware that in order to earn the total credits for a degree, sixteen credits in each of the eight semesters is needed. Less than 16 credits in any one semester must be matched by more than 16 credits in another semester or by summer session credits.

Degree-seeking students who register for eleven (11) credits or less in any one semester are classified as part-time students. It should be noted that students living in the residence hall must pay the full comprehensive tuition, regardless of the number of credits taken in the semester. Part-time students are not eligible to live in the residence halls; however, pending the availability of rooms and approval by the Dean of Students, part-time students may be allowed residence in College dormitories. Part-time status also affects eligibility for financial aid and intercollegiate athletics. Normally, no student may carry more than eighteen (18) credits in a single semester or more than twelve (12) credits in a summer term. Computation of the total credits permitted per semester includes directed inquiries and concurrent enrollment at other institutions.

First-year students may not enroll in more than four courses in any one semester. A year's residence with satisfactory grades is the usual prerequisite for taking more than the maximum number of courses.

Degree students may obtain permission to audit no more than one course per semester, without payment of fee, by agreement with the professor concerned. Audited courses are not included in the number of credits carried, nor are they recorded on the permanent record. Special, non-degree students (those students not seeking a degree) may enroll in more than eight (8) credits only with the permission of the Provost.

COURSE PREREQUISITES AND CO-REQUISITES

Course prerequisites and co-requisites are requirements for entry into a course that state the background, experience, or related coursework that is needed for success in that course and to establish a relative order in which certain courses need to be taken. These requirements are set by the department based on experience and judgment.

A prerequisite is a requirement that must be met in advance of taking the course. If the prerequisite is stated as a course by number, then that course must have been completed satisfactorily at Rhodes or accepted by Rhodes as transfer credit from another institution before the student can enroll in the desired course.

A co-requisite is a requirement that must be met at the same time as the course is being taken if that requirement has not already been met. If the co-requisite is stated as a numbered course, then that co-requisite course must be taken at the same time or credit for the co-requisite course must have already been earned.

A linked co-requisite is a course requirement that must be taken at the same time as the course to which it is linked. In most cases, the linked co-requisite courses will be a three-credit lecture course and a one-credit laboratory. Enrollment in one linked co-requisite course is permitted only if that course has been failed previously. If enrollment in one linked co-requisite is discontinued either by dropping or withdrawing, a student may not continue enrollment in the other linked course. Successful completion of both linked courses is required in order for a foundation requirement to be met.

In some cases a prerequisite may not be stated in terms of a numbered course. For example, a prerequisite may be “a designated course or permission of instructor” or “Permission of the department.” In some cases, a prerequisite may require a specific class standing, e.g. “Junior or Senior class standing” or “First-year students only.” These conditions express flexible arrangements that a department may use to manage course prerequisites. “Permission of the instructor” is the most flexible and requires that the student receive the approval of the instructor before enrolling in that course. A student who does not meet a specific course-numbered prerequisite for a desired course must get permission of the department prior to enrolling in that course. Students not meeting a specific class standing requirement may be asked to drop the courses from their schedules.

CLASS STANDING

Under the foundations curriculum, a minimum of 30 credits are required for admission to the Sophomore class, 63 credits for admission to the Junior class, and 96 credits for admission to the Senior class. It should be noted that a minimum of 32 credits must be earned per year in order to accumulate the 128 credits needed for graduation in four years.

CLASS ATTENDANCE

Rhodes, as a residential college of the liberal arts and sciences, considers interactive engagement with other students and the professor, in a structured setting, to be one of the essential and central components of the academic program. Students enrolled at the institution make a commitment to participate fully in their education, which includes attending class. Absenteeism is not to be taken lightly.

Any student who fails to attend the first day of a class without providing prior notice of his or her absence to the instructor of the course or the chairperson of the department may be asked to drop the course upon request of the instructor. The student is responsible for dropping the class officially upon notification that

such action has been taken.

Specific attendance policies are set by individual instructors, who state them in the course syllabi and during the first class sessions. Students are responsible for knowing the attendance policy in each of their courses, for obtaining and mastering material covered during an absence, and for determining, in consultation with the instructor, whether and under what conditions make-up work will be permitted. Student's should understand if undertaking college-sanctioned activities (e.g., varsity athletics, internships, and off-campus competitions connected with courses) that their participation in such activities may come at the cost of absences from other courses or even forfeiting credit on certain assignments when making them up is not feasible. It is the student's responsibility to address the issues related to missing a class whatever the reason for the absence.

If, in accordance with the course policies, the instructor determines that excessive absences are jeopardizing a student's ability to obtain a passing grade in the course, the instructor may make written request to the Dean of the College that the student be removed from the course with a grade of F. If a student is removed from two or more courses in the same semester for this reason, the student may be asked to withdraw from the College.

CLASS PREPARATION

A student is expected to spend a minimum of forty-six hours of academic study for every enrolled credit. This principle applies to tutorial and directed inquiry study as well as to regular course work during the academic year. Time spent on a per assignment basis will vary depending on the nature of the class assignments; however, on an average, a minimum of seven hours per week outside of class is expected for active preparation for a three credit course.

SCHEDULE CHANGES

During the first week of classes in each semester, courses may be added and/or dropped from a student's schedule if approved by the instructor of each course being dropped and/or added. Students may drop classes until the end of the third week of the semester. The drop/add period for those courses that begin or end at mid-semester or at other irregular dates is one week from the beginning of the course. No extended drop period exists for these irregularly scheduled courses. Approval of a course underload must be obtained if the resulting course load is less than 12 credits. No credit will be awarded retroactively for courses for which a student failed to register properly, including physical education.

Any student who fails to attend the first day of class without providing prior notice of his or her absence to the instructor of the course or the chairperson of the department may be removed from the course upon request of the instructor to the Registrar.

WITHDRAWAL FROM CLASS

Students withdrawing from a course between the beginning of the fourth week and the end of the ninth week of a semester will receive either a grade of WP (withdrew passing) or WF (withdrew failing). Neither grade is computed in the student's grade point average.

Withdrawal from a course is not official until the appropriate form with all required approvals is submitted by the student to the Registrar's Office. A request to withdraw from a class which does not receive the approval of the instructor and the faculty advisor may be appealed to the Standards and Standing Committee through the Registrar's Office.

The request to withdraw from a class after the ninth week requires the approval

of the Standards and Standing Committee in addition to the approvals of the instructor and the student's faculty advisor. Students are expected to continue to attend classes until there is official notice that the request for withdrawal from class has been approved. No request for withdrawal from a class will be considered after the last day of classes.

Unauthorized withdrawal from any class constitutes a failure in the course. A student who withdraws from all courses in a semester is considered to be withdrawn from the college and must follow the appropriate procedure described below.

INTERRUPTION OF PARTICIPATION IN THE COLLEGE

It is not uncommon for some students faced with family circumstances, health or other problems, or academic difficulty to consider interrupting participation in the College for a semester or longer. Students who find themselves in such situations are encouraged to confer with their academic advisors, the College Counseling Office, the Dean of Students, the Associate Dean for Student Academic Support, or the Registrar to discuss the variety of options available and the implications, advantages, and disadvantages of these options (personal, academic, and financial.)

LEAVE OF ABSENCE

Application for and the granting of a Leave of Absence indicate a continuing relationship between the student and the College. Students may decide to apply for a Leave of Absence for a wide variety of reasons and the terms of the Leave of Absence granted are designed to reflect the individual's needs and circumstances. These terms range from the resumption of studies at the time specified without further approval by College authorities to the requirement that the student satisfy the College that conditions are now such that the individual is likely to succeed and prosper on return.

A Leave of Absence is granted only for one or two full semesters, and a student must make the request for a Leave of Absence in writing in advance to the Faculty Standards and Standing Committee. Students should obtain the necessary information and forms from the Dean of Students Office or the office of the Associate Dean for Student Academic Support. Students who are granted a Leave of Absence must also contact the Dean of Students in order to initiate the normal process of leaving campus.

A Leave of Absence is not normally granted for periods in excess of one year. A Leave of Absence is not given for the purpose of studying at another institution nor can it be given to students who are not in good academic standing. If circumstances warrant, a student may be approved to enroll in up to two courses at another institution while on leave. Students on Leave must return to the College at the specified time or be deemed to have withdrawn from the College necessitating application for readmission.

WITHDRAWAL FROM THE COLLEGE

In some instances a student may decide not to apply for a Leave of Absence but to withdraw from the College. Students who decide to withdraw from the College, either during or at the end of a semester, must contact the Dean of Students in order to initiate the withdrawal process. A letter of withdrawal must be filed with the Dean of Students and the entire withdrawal process completed before the student can be officially withdrawn from the College.

Students who decide to return to the College after having withdrawn must apply for readmission. If a student withdraws from the College during or at the end of

a semester, it is expected that readmission, if approved, will not take place until one full academic semester has lapsed. Applications for readmission are available from the Registrar. (See also “Voluntary Withdrawal and Removal From Campus” in the Campus Regulations and “Readmission of Students” in the Admissions section of this catalogue.)

EXAMINATIONS

The Honor Code represents what the students, the faculty, and the administration believe to be the best environment for the pursuit of the College’s educational aims. All tests and examinations are conducted under the Honor Code, and students are asked to indicate on their tests and final examinations that they have abided by the principles contained in the Honor Code.

Normally every course for which credit is given has a final examination as a component. Final examinations are intended to assess students’ mastery of the subject matter of the course and are normally comprehensive in scope. In some courses the purposes of a final examination are best served by special testing: take-home examinations, departmentally administered oral examinations, special projects and assignments, for example. Whatever the testing method, the important factor is that students are asked to synthesize major concepts, approaches, and facts from the course, and to demonstrate that they can do this on their own.

Final examinations are given during the examination week according to the published schedule. A student with three examinations in a row (not to include reading days) may petition the Dean of the College to re-schedule no more than two examinations for later times in the examination period. Other changes because of extenuating circumstances (e.g. illness) must also be approved by the professor and the Dean. A professor may offer optional exam times for an entire class within the examination period, except for a Reading Day. Each member of the class must choose one of the optional times at least one week before the first day of examinations. The feasibility of implementing this option is left to the professor’s discretion.

A student who has a failing average on course work may be counseled before the final examination about the status of that work and about the role the final examination will play in determining the final grade, but the student is not excluded from taking the final examination. A student who has a passing average on course work but fails the final examination, and as a result has a failing average for the course, may be permitted to take a re-examination at the discretion of the instructor. The conditional grade of E (reexamination) is given in this case. The reexamination must be taken no later than the end of the second week of classes of the following semester.

A student who has a passing average on course work and who fails the final examination, but who earns a passing final grade, may be given the appropriate letter grade for the course.

Unexcused absence from a final examination automatically results in failure in the course. A student who is prevented by illness or other reason from taking the final examination at the scheduled time must present a written excuse or doctor’s certificate and will be given a conditional grade of X (incomplete). In some courses, due to the lesser weight given to the final examination in determining the final grade for the course, a professor may not wish to give the grade of F for an unexcused absence or the grade of X in the event of an excused absence. The professor’s policy on this matter is made clear at the beginning of the course so that there is no misunderstanding and so that it is clear that this situation is an exception to the general college policy. Consult the section on Conditional Grades for policies governing E and X grades.

CONDITIONAL GRADES: REEXAMINATIONS AND INCOMPLETES

A student with a grade of E (see Examinations) must notify the Registrar at least one week in advance of the scheduled time that the reexamination will be attempted. If the student passes the reexamination, a grade of D-, D, or D+ will be earned, unless the course was taken Pass/Fail, in which case the grade of P will be recorded. Seniors in the final semester of attendance may be eligible for reexamination without delay, at the discretion of the professor, if they fail a final examination and are given an E grade.

The grade of X (incomplete) will be given to the student who is unable to complete course work, including the final examination, because of illness or other emergency. The appropriate form for the submission of the X grade must be submitted to the Registrar by the student and the professor by the deadline for the submission of final grades. Upon completion of the unfinished work and assignment of a grade by the professor, the student will receive a final grade.

All unfinished work must be completed and all final grades must be submitted by the professor to the Registrar's office no later than the end of the fourth week of classes of the following semester. A student on an approved Leave of Absence or off-campus study program will have until the fourth week of the student's next semester in attendance to have the grade submitted to the Registrar. If illness or other extraordinary circumstances prevent this deadline from being met, then a petition requesting an extension must be submitted to and approved by the Standards and Standing Committee. Conditional grades not removed by the deadline will automatically become grades of F.

GRADES AND GRADE POINTS

In official recording of academic work, the following symbols are employed: A, excellent; B, good; C, satisfactory; D, passing; P, pass; E, re-examination; X, incomplete; IP, course in progress; F, failure; WP, withdrew passing; WF, withdrew failing; NG, grade not submitted by professor. E and X grades are conditional and may be removed. A, B, C, D are employed with plus and minus notations.

Grade points are used to determine a student's grade point average. The number of grade points awarded per credit hour for each grade is as follows:

Grade	Grade Pts	Grade	Grade Pts
A	4.0	C	2.0
A-	3.7	C-	1.7
B+	3.3	D+	1.3
B	3.0	D	1.0
B-	2.7	D-	0.7
C+	2.3	F	0.0

The total number of grade points earned for all courses are divided by the number of credits attempted in order to calculate the grade point average. Credits with a grade of Pass are not included in the determination of the grade point average although those credits with a grade of Fail are included. The grades of WP and WF are not computed in the grade point average. Conditional grades earn no quality points and no credits until they are removed. Credit and grade points earned by students who return for additional course work after receiving a degree are not computed with the final degree grade point average. Instead, a new grade point average is computed for all work attempted after receiving a degree.

The major grade point average is computed using the same formula as above. In computing the grade point average in the major department, all courses taken in the major department, not just those courses required for the major, and any required cognate courses in other departments are used.

REPEATING A COURSE BECAUSE OF GRADE

Any student who has received a grade of D-, D, or D+ in a course may repeat the course for a higher grade. No additional credit may be earned when repeating a course for a higher grade. Any student who has failed a course may repeat the course for credit. The credits attempted and the grade points earned for each attempt of the course are included in the calculation of the student's cumulative grade point average. However, only one failure of a course will be calculated in the grade point average.

PASS-FAIL

A student may enroll in a class on a pass-fail basis with the permission of the instructor. No more than one course per semester with a maximum of six courses total is permitted under this program. Courses that are graded pass-fail only do not count against that limitation. The student wishing to take a course on a pass-fail basis must determine from the instructor the letter grade equivalent and the requirements for a grade of Pass. The pass-fail form with the instructor's signature must be returned to the Registrar's office during the first three weeks of class in a semester. The Pass/Fail option may not be used in courses taken to satisfy foundation or general degree requirements or courses taken to satisfy major or minor requirements including cognate courses.

Courses with grades of Pass count neither for nor against a student in the computation of grade point averages, but a failing grade is computed in the grade point average.

GRADE REPORTS

Reports of student's grades are available online on the Rhodes website at mid-semester and at the end of each semester. Students are responsible for keeping other family members correctly and currently informed of their academic standing and progress.

HONOR ROLL AND DEAN'S LIST

An Honor Roll and a Dean's List are compiled at the end of each semester. To be considered for Honor Roll or Dean's List, a student must be enrolled in at least 16 credits of academic work. To qualify for the Honor Roll, a student must achieve a semester grade point average of 3.85 or better. To qualify for the Dean's List, a student must achieve a semester grade point average of 3.70 or better. Those students who choose to take a course under the Pass/Fail option must have a minimum of 12 (twelve) additional graded credits of work to be considered for either of these honors. Students who are enrolled in the Honors Program and receive a grade of IP for that work will have their qualifying grade point average determined on all other graded work.

ACADEMIC GOOD STANDING

Students are considered to be in Academic Good Standing unless they are on Academic Probation or Suspension. The Registrar's Office will send statements to that effect to other institutions in order for current Rhodes students to attend summer sessions or other programs.

ACADEMIC PROBATION AND SUSPENSION

To graduate, a student must have an overall grade point average of 2.000 (C) for all work attempted and for all work attempted in the major department. A student is subject to academic probation if the major grade point average falls below 2.000. A student is subject to academic probation or suspension if the

cumulative grade point at the end of any semester falls below a minimum standard, which is dictated by the number of cumulative credits the student has earned. The cumulative standards are as follows:

Number of Credits Earned	Minimum GPA to Avoid Suspension	Minimum GPA to Avoid Probation
0-30	1.500	1.600
31-63	1.700	1.800
64-96	1.900	2.000
97 or more	2.000	2.000

In addition, a student is subject to probation in any semester in which the student earns fewer than twelve (12) credits and earns a grade point average of less than 1.500.

A student on academic probation is not considered to be in good academic standing. Such students are ineligible to participate in some extracurricular activities, including intercollegiate athletics. A student is removed from academic probation upon attainment of the minimum standard grade point average based on the number of credits earned.

After being placed on academic probation, a student may be continued on academic probation for no more than two consecutive semesters. At the end of the third consecutive semester on academic probation, the student must be removed from probation or placed on academic suspension.

Academic suspension may be imposed at the end of the fall semester as well as at the end of the academic year. Fees will not be refunded or remitted, in whole or in part, in the event of a suspension imposed by the College.

The period of suspension is one semester. Following suspension, a student may apply for readmission. Any student placed on academic suspension by the College for a second time may not be readmitted. No credit may be transferred for work done at another institution during the period of academic suspension.

A student has the right to request reconsideration of academic suspension. The Faculty Standards and Standing Committee considers the request. The Committee may allow the student to continue on academic probation into the next academic semester under specified conditions for academic achievement if it finds that the failure to achieve academically was due principally to extenuating circumstances and that the student has taken appropriate measures to ensure future academic success.

Semester grade point averages are affected by the conditional grades of X and E. The above provisions will apply when either of these grades is on the record in question. The action to suspend or be placed on academic probation may be delayed until it is determined what the grade point average will be when the conditional grades are removed.

TRANSCRIPTS

Complete college records for each student are kept in the Registrar's Office. Requests for transcripts must be in writing. Requests received via the Registrar's fax machine will be accepted although transcripts will not be transmitted via the fax. No transcript will be issued to students, current or past, whose financial accounts are delinquent.

FAMILY EDUCATION RIGHTS AND PRIVACY ACT

Rhodes complies with the Family Educational Rights and Privacy Act of 1974, as amended, commonly referred to as FERPA or the Buckley Amendment. This Act was

enacted to protect the privacy of educational records. Under FERPA, students have the following rights regarding education records:

1. the right to inspect and review the student's education records;
2. the right to request the amendment of the student's education records to ensure that they are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights;
3. the right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the Act and the regulations authorize disclosure without consent;
4. the right to file with the U.S. Department of Education a complaint concerning alleged failures by the institution to comply with the requirements of the Act and the regulations;
5. the right to obtain a copy of the institution's student records policy.

The institution at its discretion may disclose student record information without consent of disclosure to the parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954 and as verified by the institution. Full rights under the act shall be given to either parent, unless the College has been provided with evidence that there is a court order, state statute, or other legally binding document relating to such matters as divorce, separation or custody that specifically revokes these rights. The College also has the discretion to disclose to any parent or legal guardian of a student under the age of 21 information about a violation of any federal, state, or local law, or any rule or policy of the institution governing the use or possession of alcohol or a controlled substance if the institution determines that the student has committed a disciplinary violation with respect to such use or possession.

The procedures to be used by Rhodes for compliance with the provisions of FERPA are contained in The College Handbook. Copies of the policy can be found in the Registrar's Office. Questions concerning the Family Educational Rights and Privacy Act may be referred to this office.

OPPORTUNITIES FOR INDIVIDUALIZED STUDY

THE HONORS PROGRAM

The Honors program is a culminating experience in the major field, for seniors only. It is the principal means whereby a student may do more independent, intensive, and individual work than can be done in the regular degree programs. The Honors work offers an excellent introduction to graduate study as it employs the full resources of library and laboratory and encourages independent research and study.

All Honors programs include a project of a scholarly and creative nature. This project can be research culminating in a written report or thesis, or it can be a creative project as represented by an original production. An oral presentation of the final project is also expected. A copy of the final report or production is placed in a permanent file or on display in the library.

Students considering Honors normally take a one-credit tutorial in the second semester of the junior year. Emphasis in the tutorial will be selection of a topic, preliminary research and definition of the project, and preparation of the Honors application.

Although each department sets its own departmental requirements for Honors, there are general College requirements for the program. To be eligible for the Honors program a student must have a minimum cumulative grade point average and a major grade point average of 3.5000 at the time of application for honors. The student must graduate with a cumulative grade point average and a major grade point average of 3.5000 in order to receive the honors designation at commencement.

At least four credits per semester in the senior year must be earned in Honors Tutorial courses. Up to eight additional credits of tutorial or related course work may be counted, resulting in a maximum of sixteen credits of Honors in the senior year.

Special attention is necessary to ensure the completion of the Honors project in time for it to be evaluated and approved. For this reason, a special timetable for submission, reviews, and approvals of Honors projects is set by each department. Failure to meet announced deadlines may result in the failure to gain Honors recognition.

Full descriptions of the requirements for Honors are listed in each departmental section of this catalogue.

DIRECTED INQUIRY

The term directed inquiry indicates a type of independent study designed to give more individuality than is provided by regular coursework. A directed inquiry is a project agreed upon by a student and professor; it may be a laboratory experiment, special readings on a given topic, some type of art work, a group of essays, etc. The details of the project are agreed upon by the student and the professor. Directed inquiries may not be used to satisfy general degree requirements.

Credits for a directed inquiry range from one to four. Forty-six hours of work, including outside reading, experiments and conferences, are required for one credit. No more than twelve credits may be earned in any one department. The maximum number of credits for all directed inquiries allowed is twenty-four. Normally a first-year student may not undertake a directed inquiry until after the completion of one semester of regular studies. Special students are generally not eligible for directed inquiries.

Proposals for directed inquiries must be submitted for approval to the chair of the department. Appropriate forms are available in the Registrar's Office. These forms call for details such as the beginning and ending dates of the project and set forth specific rules governing such things as extensions or other possible considerations. The student should become familiar with this form well in advance of the date intended to submit a proposal so that everything will be in order and approved by the department when submitted. Applications for directed inquiries

are to be submitted in time for the department to act and submitted to the Registrar before the date set for the project to begin. Normally a student will not be permitted to take more than one directed inquiry at a time.

In the event that more than two students are interested in a directed inquiry on the same topic, a special topics course may be taught. Such courses must conform to the standard forty-six hours of study per credit.

THE TUTORIAL PLAN

The tutorial plan of instruction, like the Honors Program and the Directed Inquiry, has as its chief purposes the individualizing of instruction and the provision of a means whereby students may go beyond the scope of a class course, both in the amount of work done and the kinds of interests pursued. The method is often that of extensive reading under guidance, and conferences with the tutor on the material read, either individually or in a small group.

The content of a tutorial is usually that of a regular catalogue course that is not scheduled to be taught during a particular term. A student may request that the course be taught in the tutorial fashion if a member of the faculty is available and agrees to direct the course. Approval by the faculty member, the chairperson of the department involved, and the Registrar is necessary for the tutorial to be scheduled. At a minimum, forty-six hours of study are required for each credit or a total of 164 hours of study for a four credit course.

INTERDISCIPLINARY PROGRAMS

Interdisciplinary programs exist to provide an appropriate structure within which to offer study opportunities that do not fit within the bounds of existing departments, to bring together faculty and students from several disciplines to study areas of interest that cross traditional departmental lines and require an interdisciplinary approach, and to inform the campus community at large of the nature and importance of these areas.

Descriptions of Interdisciplinary Programs currently approved may be found under the listing for "Interdisciplinary Study" in the Courses of Instruction section of this catalogue.

INTERNSHIPS

Rhodes recognizes the need and the value of integrating traditional academic work and practical application. Internships are important ways in which students may have this experience.

Internship credit is given for involvement in programs in which off-campus work and significant academic work are combined. Internships are defined within the course structures of several academic departments. Requirements for acceptance as an intern are set by each department. At a minimum the student is expected to be able to integrate academic work with on-the-job activities. Special internship opportunities can be proposed subject to approval by the department concerned. Interested students should contact the chairperson of the department and the Career Services Office.

Students pursuing an internship experience arranged through a department and/or the Career Services Office must register for the appropriate course in order to earn academic credit. This credit is considered part of the course load during a regular semester and during summer session. Students with summer internships must register for the credit and pay the summer session tuition in order to receive the credit. Students may not earn both academic credit and a salary or wages of any kind for the same internship.

No more than eight (8) credits in internships may be earned in one department

per semester. A student may apply toward a degree a maximum of eight (8) credits of internship.

THE NANCY HUGHES MORGAN PROGRAM IN HOSPITAL CHAPLAINCY

This program is designed for pre-medical students and persons going into other health-care related disciplines, the ministry, and counseling fields. It offers a carefully supervised internship in local hospitals where students serve as chaplains' assistants, develop counseling skills, and sharpen their abilities to listen and respond to patient needs.

THE MEMPHIS CONSORTIUM OF COLLEGES

Through an arrangement between Rhodes and the Memphis College of Art, Rhodes students may take courses at the College of Art during the fall and spring semesters. A student must receive approval for the course from the Chair of the Department of Art at Rhodes before registering for the course. The student then registers for the desired class at the College of Art and includes the class on the semester's course schedule at Rhodes. The course credit counts toward the semester's credits at Rhodes; and as long as the College of Art course does not result in a course overload for the semester, there is no additional tuition charge. The final grade for the course is computed in the student's grade point average as if it were a Rhodes grade. Normally, only one course may be taken per semester through the Consortium arrangement.

Although the Consortium arrangement is not available during the summer, coursework taken at the Memphis College of Art during the summer may be applied to the Rhodes degree as Rhodes credit.

RHODES-CHRISTIAN BROTHERS UNIVERSITY CROSSTOWN ENROLLMENT PROGRAM

The Crosstown Enrollment Program offers students enrolled at Rhodes College and at Christian Brothers University the opportunity to enroll in a select number of courses not offered at their home institutions. C.B.U. provides opportunities for Rhodes College students to enroll in primary and secondary education courses. Rhodes College provides opportunities for C.B.U. students to enroll in modern language courses and Greek and Roman Studies courses. Students may not enroll as Crosstown students when the home institution offers the needed courses and the courses can be included in the student's schedule.

In order to participate in the Crosstown Enrollment Program, a student must be enrolled fulltime at Christian Brothers University or at Rhodes College. All Crosstown Enrollment courses are offered on a space-available basis and are treated as if they were being taught at the home institution, not as transfer credit. Grades earned are reckoned in the home institution's calculation of grade point averages and will appear on the student's transcript as courses offered by the home institution. There will be no "plus/minus" grades awarded. No additional tuition is charged for the Crosstown courses.

OPPORTUNITIES FOR STUDY ABROAD AND DOMESTIC OFF-CAMPUS STUDY

Opportunities for off-campus study, both domestic and international, are coordinated by the Buckman Center for International Education. Rhodes encourages its students to study abroad through the programs it administers or through programs administered by other institutions. Off-campus study, whether domestic or international in scope, requires substantial prior planning. Students interested in pursuing such a course of study should formulate and clarify their plans well in advance.

What follows is a brief description of some of the options for study abroad and off-campus domestic study programs. Students planning to study on an off-campus program should obtain a copy of the international and off-campus study brochure and application form from the Director of International Programs in the Buckman Center for International Education. Students intending to study off-campus during the regular academic year should also prepare with their major departments a full plan for both their junior and senior years, making certain that they can meet all major and college degree requirements.

Rhodes College reserves the right to cancel, alter or amend any part of a Rhodes program or to increase fees should circumstances make these actions advisable or necessary.

APPLYING FOR OFF-CAMPUS STUDY

All students interested in off-campus study must meet with a staff member in the Buckman Center for International Education. The staff can assist students in researching study abroad and other off-campus study programs and can facilitate completion of the program's application process. Students are responsible for meeting with their academic advisors to discuss program choices and course selection. Students must have a minimum grade point average of 2.50 unless otherwise specified and must be in good social and academic standing.

Each student who intends to pursue off-campus study must complete the Rhodes College Off-Campus Study Approval Form, available from the Director of International Programs. This form, when signed by all appropriate officials, grants approval for the program of study and, subject to general college policies regarding transfer credit, assigns appropriate credit for the academic work successfully completed.

Please see the published deadlines for all off-campus study applications in the above mentioned brochure. It is the student's responsibility to ensure that a final transcript of the completed work is sent to the Registrar's Office at Rhodes following completion of a non-Rhodes program.

RHODES STUDY ABROAD PROGRAMS

Rhodes College's commitment to international and cross-cultural study is most powerfully expressed in its programs abroad. The College offers a semester-long program, European Studies, in conjunction with the University of the South (Sewanee), as well as various summer programs: four-week intensive foreign language programs in late May and early June, a two-week field course in Coral Reef Ecology in Honduras, and British Studies at Oxford, a six-week program in July and August. Occasionally there will be a special opportunity to study abroad with a professor during the summer. Credit earned in all these programs is Rhodes credit. Rhodes does not provide financial aid for summer study; however, a limited amount of scholarship assistance is available. Please see the Director of

International Programs for more information.

EUROPEAN STUDIES

European Studies is a seventeen-week program offered jointly by Rhodes and The University of the South (Sewanee) that takes place from mid summer through early fall. It is a full semester of study abroad and offers the unique experience of studying in a variety of locations in Europe in a special and quite different learning environment. The program begins in July with four weeks of study at The University of the South with Rhodes and Sewanee faculty. The students then travel to England where there is a ten day practicum conducted by British tutors at the Universities of York and Durham, followed by six weeks with British instructors at Lincoln College, Oxford. The program closes with five weeks of travel in Western Europe, accompanied by British tutors in Art History.

SUMMER PROGRAMS

Intensive Language Study. The intensive language programs have been conducted in Paris, France; Madrid, Spain; Cuenca, Ecuador; and St. Petersburg, Russia. Accompanied by a Rhodes faculty member, students travel to a location in another country for four weeks of total immersion in the language and culture of that country.

Coral Reef Ecology. Students enroll in the first of the two courses of this program, Biology 252: Coral Reef Ecology Primary Literature, and Biology 253: Coral Reef Ecology, during the Spring Semester on campus. The second half of the program is taught at the Marine Station on Roatan Island, Honduras. The intensive two-week field study gives students the opportunity to be exposed to the organisms of the reef and the modern sedimentation processes in this unique environment.

British Studies at Oxford. British Studies at Oxford attracts many students, not only from Rhodes but from other colleges of equivalent standing. The program is held in July and early August at St. John's College, Oxford, where participants live and study with British and American tutors in courses in the Humanities and Social Sciences (usually including History, English, Art History, Music, Religious Studies, and Political Science), all focusing on a period of British culture and history chosen for that year from among the following: Early and Medieval Britain; Britain in the Renaissance; Britain in the Ages of Enlightenment, Revolution, and Romanticism; and Empire and After: Britain in the Nineteenth and Twentieth Centuries. The program's aim is to be thoroughly interdisciplinary and to promote engagement with the physical manifestations of British culture and with contemporary debates concerning its interpretation. In addition to the seminar courses, there are workshops, recitals, lectures from distinguished British scholars, and closely-integrated study visits to some of the key sites for the period being studied. The program is structured to create opportunities for the student to explore Britain and continental Europe independently. Each seminar carries 4 credits. All students take 2 seminars and can apply for entry to a third, optional seminar.

Other Summer Programs. Rhodes professors have research and other scholarly interests which frequently yield new Rhodes summer programs. Please see the Buckman Center for International Education for the current list of other summer study abroad opportunities.

RHODES EXCHANGE PROGRAMS

Rhodes College has formal bilateral exchange agreements with The University of Antwerp, Belgium; The University of Poitiers, France; Nebrissensis University,

Madrid, Spain; The University of Tübingen, Germany; the University of Aberdeen, Scotland; the University of Lima, Peru; and Rhodes University in Grahamstown, South Africa. Students participating in one of these exchanges pay tuition and, in some programs, room and board to Rhodes, receiving financial aid as if they were at Rhodes. The payments to Rhodes meet the expenses of the exchange students from abroad during their stay at Rhodes, while Rhodes students receive tuition, or tuition, room and board overseas. Credit earned at the institution abroad is treated as transfer credit. The number of students who can participate in these exchanges with other institutions is limited.

Rhodes is also a member of ISEP (The International Student Exchange Program), an organization of more than 200 colleges and universities located throughout the United States and in Africa, Asia, Australia, Canada, Europe and Latin America. Through ISEP, Rhodes students can participate on exchange by paying all of their fees, including room and board, to Rhodes utilizing any institutional and federal aid granted to them. Exchanges can occur in any discipline and can range in length from one academic term to one year. In most cases, ISEP participants are matriculated directly into the host institution and pursue courses with native students. Credit earned in these exchanges is treated as transfer credit.

OTHER PROGRAMS ABROAD

In addition to exchange programs and Rhodes programs, there are numerous programs offered by other colleges and universities and international agencies. Information on many of these programs can be found in the Buckman Center for International Education. Credit earned in these other programs is treated as transfer credit. Normally a student cannot earn more credit while on a full-year study abroad program than could have been earned in a regular academic year at Rhodes. Rhodes College financial aid is not available for these other programs; however, certain types of federal financial aid may be applied to these programs. Rhodes' Buckman Scholarships for Study Abroad are available for any approved semester or year-long program abroad.

DOMESTIC PROGRAMS

The Washington Semester, in association with American University in Washington, D.C., is one example of a domestic, non-Rhodes, off campus study program. Rhodes students have participated on these programs for many years in several of its academic programs. Programs are available in the following areas and receive transfer credit through the relevant department at Rhodes:

- American Politics (Political Science)
- Economic Policy (Economics and Business Administration)
- Foreign Policy (International Studies)
- International Business and Trade
- International Environment & Development (International Studies)
- Journalism (English)
- Justice (Political Science)
- Law Enforcement
- Peace and Conflict Resolution (International Studies)
- Public Law (Political Science)
- Transforming Communities (Urban Studies/Political Science)

The program usually includes at least one seminar in the area of study, a major independent study component culminating in a paper, and an internship in an associated agency, department, or organization. Credit earned on Washington Semester is reckoned as transfer credit.

Applications for Washington Semester are available from the Buckman Center for

International Education. Students who wish to attend the Washington Semester must receive permission of the Director of International Programs. Since special financial arrangements are required for this program, students may not apply Rhodes financial aid or Rhodes scholarship funds to the cost of attendance at American University.

Science Semester at Oak Ridge National Laboratory. Through a cooperative arrangement between Oak Ridge National Laboratory, Oak Ridge, Tennessee, and Rhodes, qualified students in the natural and some social sciences may spend the spring semester of their junior or senior year in residence at the Oak Ridge laboratories engaged in seminars and in active scientific research.

Interested students should contact the Department of Physics during the academic year preceding the one in which they intend to participate.

The College library system is composed of the Paul Barret, Jr. Library and one departmental collection (Biology). In June, 2006, the collection included 283,170 volumes, 1,148 print periodical subscriptions, 48,477 electronic books, over 10,000 full text journals through licensed databases, 99,003 microfilm/microfiche items and 11,196 audio visual items including phonodiscs, compact discs, DVDs and videotapes. Information about the library's holdings is accessible at any computer terminal with access to the College's computer network. The collection is supplemented by computer access to information and online information services including the DIALOG Information Retrieval system, America: History & Life, Annual Stock Reports, Bibliography of the History of Art, Cambridge Scientific Abstracts, Historical Abstracts, EEB0, Infotrac, MathSciNet, ProQuest Research Edition, the MLA Bibliography, PsycInfo, LEXIS-NEXIS (Academic, Statistical, Congressional, and Environmental), World News Connection, LitFinder, ProQuest Religious Periodicals Database, Philosopher's Index, Newsbank, Sociological Abstracts, ERIC, WilsonOmniFile, ATLA Religion Database with ATLASerials, EconLit and ArtSTOR. Access is also provided to the BioOne, Project Muse and JSTOR electronic journal collections and over 100 online newspapers. The library staff of thirteen is concerned not only with the acquisition, organization, and circulation of the collection, but in providing reference and reader assistance to users, as well as instruction to classes and individuals in the effective utilization of library resources.

The Library's book collection has been carefully built over a period of years by both the teaching and the library faculty so as to include materials that constitute valuable resources for undergraduate instruction in a liberal arts institution. In addition to the reference and circulating collections there are three special collections: the Rhodes Archives, the Richard Halliburton Collection, and the Walter P. Armstrong, Jr. Rare Book Collection. The Rhodes Archives consists of publications about Rhodes of an historical nature as well as books written by

faculty and alumni. The Walter P. Armstrong, Jr. Rare Book Collection includes the special items of value added to the library through the years and the collection of first editions of English and American authors, many of them autographed, donated by Mr. Walter P. Armstrong, Jr. The Halliburton Collection consists of manuscripts and artifacts relating to the life of this noted travel adventure writer.

Barret Library, a state-of-the-art facility made possible by a major gift from the Paul Barret, Jr. Trust, opened in August, 2005. Paul Barret, Jr., a graduate of the class of 1946 who died in 1999, was the nephew of Mr. and Mrs. A.K. Burrow, who provided for the construction of the 1953 Burrow Library. Barret Library will serve the needs of the college well into the 21st century. The facility, equipped for both wireless and wired technology, features a 24-hour study space and group study rooms, along with facilities for study and library collections. Also included in the Barret Library are areas for peer-tutoring and writing assistance, computer laboratories, a Digital Media Laboratory and a Media Center.

In order to effect optimum inter-institutional library service to the students, faculty, and staff of the Greater Memphis Consortium, the Barret Library joins the following libraries in making their collections available to each other's students and faculty: The Christian Brothers University Library, Hollis F. Price Library of LeMoyne-Owen College, Ned W. McWherter Library of the University of Memphis, G. Pillow Lewis Library of the Memphis College of Art, and the Memphis Theological Seminary Library. Students are also entitled to library cards in the Memphis Public Library and Information Center, the Main Library of which is an especially valuable community resource. The Barret Library operates an active interlibrary loan service for its faculty and students with libraries outside the Memphis area.

Rhodes is committed to providing a wide range of computing resources to support the diverse work of faculty, staff and students. Computers are considered an essential tool across disciplines. Students make use of the computer in general writing, lab reports and class presentations. Use of the Internet for research is commonplace. Class discussions become virtual discussions through the email, bulletin boards and online courses.

Information Technology Services (ITS) is located on the lower level of Barrett Library. Computing facilities include servers that provide network file sharing, email, an on-line library system, delivery of online course materials and electronic forums. Additionally there are three computer labs with approximately 90 Dell computers that are connected to the campus network. Equipped with a multimedia projection system, two of the labs are teaching labs. Computing resources dedicated to specific disciplines are located in various academic buildings on campus, notably in the science and mathematics buildings. The campus computer network is built upon an Ethernet backbone is linked to the Internet, enabling global communication. There are many smart classrooms across campus equipped with full multimedia capability. Wireless access is available in many locations including Barret Library, the Lynx Lair, Java City, and the Amphitheater, Burrow Refectory, the smart classrooms and the residence halls.

Students have access to email, file servers, printing and the Internet. Assistance for students is available on several levels. Student Computer Consultants are available in the Computer Depot and student assistants are available to assist users and assure proper operation of printers and equipment. Assistance can also be obtained from the Help Desk located on the main floor of Barret Library. Additional information is available at <http://www.rhodes.edu/barret>.

MEEMAN CENTER FOR LIFELONG LEARNING

Marilyn Adams Hury. Director. B.A., University of Louisville; M.A., University of Memphis.

Cissy Whittaker. Administrative Assistant. B.A., University of Memphis.

Barbara Cockrill. Administrative Assistant.

Meeman Center for Lifelong Learning is Rhodes' commitment to learning as a lifelong process. Since its inception in 1944, the Center has been an integral part of the College, successfully engaging adults of the Mid-South in the liberal arts and sciences. Meeman Center promotes personal and professional development by extending Rhodes' tradition of excellence in liberal education to individuals and businesses. All programs, courses, and trips offered by Meeman Center are described in detail in brochures available on request from the Meeman Center office or on the web.

NON-CREDIT COURSES

Lifelong learning courses are offered in literature, art, languages, science, current events, history, religion, philosophy, and other areas of interest. Courses vary in length and run in the Fall (September through November) and Spring (January through May). The instructors are Rhodes faculty and invited experts, including Rhodes alumni. Online registration is available at <http://meeman.rhodes.edu>.

RHODES TO TRAVEL

Exciting destinations, enlightening itineraries, faculty study leaders, stimulating discourse, knowledgeable guides, preparatory resource lists, and Rhodes camaraderie define educational travel adventures for alumni and friends. Four to six tours depart annually. You can link to full itineraries from www.rhodes.edu/meeman.

INSTITUTE FOR EXECUTIVE LEADERSHIP

The Institute is a nine-month (one session a month) executive development program that uses great works of literature to study leadership. Relevant to today's leadership issues, the program is based on case studies of current executives and their corporate leadership styles. Rhodes professors and a facilitator from the business community lead the discussions.

INSTITUTE ON THE PROFESSION OF LAW

Meeman Center offers an annual ethics seminar for attorneys to earn dual Continuing Legal Education (CLE) units. The seminar emphasizes national speakers, broad issues in law, and enlightened discussion and reflection. Rhodes faculty are a vital part of the Institute, both as planners and participants. The Institute is certified by the Tennessee, Arkansas, and Mississippi Continuing Legal Education Commissions.

MEEMAN AT NIGHT

Special courses, lectures, workshops, conversations, and book signings take place during the academic year as tuition-free offerings open to the Rhodes community and to the public. Announcements of these events are posted on our website.

MEEMAN MAYMESTER

This short summer program blends liberal arts classes taught by Rhodes

professors, workshops, and lively happy hours into a curriculum that is a relaxing stretch for the mind and body.

MEEMAN ON THE ROAD

In collaboration with the Alumni Relations Office Meeman Center sends professors to speak at Rhodes Chapter events and to other locations where there are requests for faculty participation.

CONTINUING EDUCATION UNITS

Generally, Continuing Education Units (CEUs) are earned through any Meeman Center non-credit course. Continuing Legal Education (CLE) hours are earned through the Institute on the Profession of Law and certain other CLE Commission-certified continuing education courses. Both Continuing Professional Education (CPE) credit and CEUs are earned in the Institute for Executive Leadership. Contact the Meeman Center office for more information.

COURSES OF INSTRUCTION

COURSES OF INSTRUCTION

A course at Rhodes is an academic activity undertaken by a student that is structured, directed, advised, and evaluated by a faculty member. Typically, a course requires a student to read, listen, discuss, and write while learning and developing specific abilities and sensibilities and while internalizing information and ideas from the specific subject areas outlined in the course syllabus. These activities require many hours of work over a semester and involve regular meetings with the faculty member and other enrolled students. The meetings or class sessions provide opportunities for lecture by faculty, discussion among students, student presentations, and other activities directly related to students' learning that are naturally done in a collective setting. Class meetings and the final examination period together usually constitute only one-fourth to one-third of the time spent on a course, so the majority of time a student dedicates to a course is outside of the classroom or laboratory. Measured in academic credit, a typical student's work load each semester is sixteen credits. Such a load corresponds to approximately fifty to fifty-five hours of work per week and is consistent with the understanding that a student's academic work is considered to be his or her full-time job while enrolled in the College.

Normally courses numbered in the one-hundreds and two-hundreds are for first and second year students; those in the three-hundreds and four-hundreds are for juniors and seniors. Courses numbered above 500 are graduate-level courses and are open only to students admitted to the graduate program. Courses numbered above 800 are courses designed for and offered only to students attending any of the various Rhodes foreign study programs.

In general, courses numbered in the one-hundreds and two-hundreds are offered yearly. Higher level courses are frequently offered every other year. Students making long range plans for majors are urged to consult with the chairperson of the department for information concerning the sequence of offerings.

From time to time experimental, special topics courses are offered by faculty members. These courses are not listed in the catalogue by title or description. They are conducted in a manner consistent with regular course offerings, governed by normal class schedules and examination policies; however, they may not be used to satisfy degree requirements unless so specified at the time the course was approved. Special topics courses are also used for transfer credit in some cases where no exact equivalent course is offered in the Rhodes curriculum.

Because the course topics and content vary from year to year, the courses offered through the British Studies at Oxford are not described in this catalogue. These courses are numbered from 800 to 899. Course descriptions of offerings of this program are available from the Office of British Studies or from the Registrar at Rhodes. In addition, several departments offer "Topics" courses for which the course description varies from semester to semester. Those course descriptions may be available from the appropriate department or faculty member.

The College reserves the right to cancel any course for which there is insufficient enrollment.

"Fall" and "Spring" below the course titles indicate the semester in which the course is usually taught. Course credit is shown at the right of the line.

Courses taught in a two-semester sequence are normally scheduled with the Fall Semester course being the first in the sequence. In most cases, the second course in the sequence requires successful completion of the first course, but there are some sequential courses that allow the second course to be taken first. The course descriptions will identify such courses. Credit is given for half of a hyphenated course should the student not enroll the following semester.

SPECIAL PROVISIONS CONCERNING DEGREE REQUIREMENTS

Not all courses may be used to satisfy degree or foundation requirements. Those courses that can be used are designated in the catalogue listings. Directed Inquiries may not be used unless specified by the department. With very few exceptions, the courses designated as fulfilling degree requirements carry four credits. An accumulation of one-credit applied music may be used to satisfy the Fine Arts or the F5 requirements.

THE ACADEMIC CALENDAR

The academic year consists of two semesters, each containing fourteen weeks of instruction and a fifteenth week devoted to examinations. The first semester begins in late August and ends in mid-December; the second semester begins in January and ends in early May. A detailed calendar including dates of recesses and special academic days may be found elsewhere in the College catalogue or on the Rhodes web site. Students normally enroll in four courses, totaling sixteen credits, each semester. In each academic year a student should plan to earn a minimum of thirty-two credits in order to meet all graduation requirements in the standard four-year undergraduate program.

One credit is equivalent to one semester hour. A student is expected to spend a minimum of forty-six hours in academic study for every hour of academic credit. This principle applies to directed inquiries, tutorial study, and to all courses in the curriculum.

CLASS SCHEDULES

Courses carrying four credits normally meet for a total of 150 minutes per week. The four-credit classes meeting three days per week meet for fifty minutes during each class period. Those four-credit classes meeting two days per week meet for seventy-five minutes during each class period. Others will meet four or five times per week on other daily schedules. Laboratory courses carrying four credits will also meet one or two afternoons per week for the laboratory. The amount of credit does not necessarily equate to the time spent in the classroom. Outside of class assignments, readings, service-learning opportunities, and other activities supplement the actual class time.

ANTHROPOLOGY AND SOCIOLOGY

STAFF

Tina S Benton. Departmental Assistant.

REQUIREMENTS FOR A MAJOR IN ANTHROPOLOGY/SOCIOLOGY

A total of forty (48) credits as follows:

1. Anthropology/Sociology 103 and 105.
2. Anthropology/Sociology 261 and 262. (to be taken by junior year)
3. Anthropology/Sociology 275. (to be taken junior year)
4. Anthropology/Sociology 486. (to be taken senior year)
5. Six additional courses (24 hours) in Anthropology/Sociology

The seven elective courses are chosen in conference with departmental faculty members and should reflect the student's specific interests and needs. Students may count one cognate course toward this requirement.

REQUIREMENTS FOR A MINOR IN ANTHROPOLOGY/SOCIOLOGY

A total of nineteen (24) credits as follows:

1. Anthropology/Sociology 103 or 105.
2. Anthropology/Sociology 275.
3. Four non-introductory courses.

HONORS IN ANTHROPOLOGY/SOCIOLOGY

1. Courses required: fulfillment of the requirements for a major in the department.
2. Honors tutorial: Anthropology/Sociology 495-496, and a substantial research paper in an area of special interest to the candidate.
3. Superior grades in senior seminar.

COURSE OFFERINGS

103. Introductory Anthropology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F9.

Anthropology, in the largest sense of the discipline, is the study of what it is to be human. In attempting to understand the diversity of thought and behavior that is characteristic of humans, we better understand ourselves, our potentials and our limitations. Further, this process of listening to and learning from others allows us to grant dignity and respect to those that we might otherwise naively dismiss as "primitives". This course covers the basic data, concepts, and theories

of cultural anthropology placing emphasis on the foundations of human society, social organization, culture, and symbol systems. No prerequisite. Not open to seniors.

105. Introductory Sociology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F8.

Sociology emerged in the late nineteenth century as an attempt to understand and explain the unprecedented changes in social organization and human relations resulting from modernization. This course provides a general overview of the sociological concepts, theories, and empirical research that concern the problems of modernity and contemporary American society. The naive, popular view of individuals as “free-standing, autonomous subjects” is critically assessed and a more comprehensive understanding of individuals as “social” selves that are both products and producers of institutions and social relationships is examined. In addition to introducing students to the field of sociology, the course aims to cultivate self-understanding and critical insight into the conditions of contemporary existence. No prerequisite. Not open to seniors.

205. Victims of Progress.

Spring. Credits: 4.

Degree Requirements: Social Science.

A critical examination of the interaction between industrial nations of the developed world and the tribal societies of the third world. The course will focus on the increasingly efficient exploitation of these peoples, not only by the industrialized world, but also by third world elites. The notion of progress itself will be critiqued. No prerequisite.

206. Urban Social Problems.

Spring. Credits: 4.

Degree Requirements: Social Science.

The course provides an overview of the history of cities and urban development, urban strengths and challenges, and the future of cities. We will approach these issues using urban ecology and political-economy perspectives. Through hands-on experience in Memphis communities, students will come to understand how urban issues are social problems that affect people’s everyday lives. No prerequisite.

207. Becoming Human: Archaeology and the Origins of Culture.

Fall. Credits: 4.

Degree Requirements: Social Science.

The study of archaeological methods and theory through a problem focus on human origins and cultural development up to the domestication of plants and animals. A section on the archaeology of the Southeastern United States is included. No prerequisite. Students should take 207 or 208, but not both. (Course offered in rotation with 208 and 211.)

208. Pyramids and Palaces: Archaeology of Complex Societies.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course introduces the student to archaeological methods and theory through the study of prehistory from the origins of plant and animal domestication to the origins of early states in the Old and New Worlds. Covered are both the archaeological evidence available and the theoretical explanations offered for

such cultural developments. Students should take 207 or 208, but not both. (Course offered in rotation with 207 and 211.)

209. Family in Social Context.

Spring. Credits: 4.

Degree Requirements: Social Science.

This major institution is considered from sociological, anthropological, and historical perspectives. With emphasis on diversity and change, the course will examine issues of family organization, sexuality, marriage, and child rearing.

Prerequisites: Anthropology/Sociology 103 or 105.

210. Gender and Society.

Spring. Credits: 4.

Degree Requirements: Social Science.

In this course, we will examine how and why society prescribes different gender expectations to men and women. In turn, we will discuss how those expectations affect the experiences, attitudes, and opportunities of men and women in society. Students will gain the conceptual and theoretical tools to analyze the personal, interactional, and institutional consequences of different social constructions of gender. (Course offered in alternate years; scheduled for 2007-2008.) No prerequisite.

211. Women in Prehistory and Women as Prehistorians.

Fall. Credits: 4.

The study of archaeological methods and theory is pursued through a focus on women in prehistory, gender in archaeological theory, and women archaeologists. This course seeks to reconstruct women's lives and roles in a range of ancient societies as women contributed to subsistence, technological innovation, symbolic and ritual activity, and as they shared in or were denied social, political, and religious authority and power. It also considers the intellectual history of gender studies in archaeology and the contributions of women archaeologists to anthropological archaeology.

Prerequisites: No prerequisites, however students who have taken 207 or 208 need permission of instructor. (Course offered in rotation with 207 and 208; scheduled for 2007-2008.)

215. Field Anthropology.

Fall, Spring. Credits: 1,2,4.

This course allows students to gain credit for participation in off-campus field projects under professional supervision in the fields of archaeological, social anthropological, and physical anthropological research. Students will be required to integrate academic and field work experiences in an oral and/or written report at the end of the field work experience. Maximum of 3 hours credit is possible.

Prerequisites: permission of instructor.

250. Learning from Things: Material Culture Studies.

Spring. Credits: 4

While we are symbol users and inhabitants of imagined worlds, we are also tool makers whose hands are "dirty" in manipulating the world. This course will focus attention on our "materiality" and our engagement with the material world. Examples of material culture studies will be drawn from such disciplines as archaeology, anthropology, geography, history, folklore, popular culture, architecture, and museum studies. Material culture studies, while a rich source of information is also

a challenging arena for the study of individuals, societies and cultures, because objects “speak” neither unambiguously nor directly to us. Students will come to appreciate how astute observation underpinned by theoretical acumen and the clever framing of questions can allow us to “learn from things.” This course is cross-listed as Archaeology 210.

261. Research Methods I.

Fall. Credits: 4.

Degree Requirements: Social Science.

Basic concepts and methods of anthropological and sociological research. Both quantitative and qualitative (ethnographic) skills are stressed. Several small projects are undertaken utilizing these concepts and methods

Prerequisites: Anthropology/Sociology 103 or 105 or permission of instructor.

262. Research Methods II.

Spring. Credits: 4.

Degree Requirements: Social Science.

Participant-observation is the methodological core of anthropology. Yet, participant-observation is a critical qualitative method that should be exercised across all disciplines and professions that address the human condition. We will explore this assertion in practice and in discussion around the seminar table. This course will focus on the “doing” of ethnography by asking you to respectfully, socially, meaningfully, and sensuously engage with a moment in another’s world. One way to describe ethnography is as a compelling descriptive pause to appreciate another way of being in and giving meaning to the world before one begins sustained and systematic social analysis and theorizing.

Prerequisites: Anthropology/Sociology 261 or permission of instructor.

265. Selected Introductory Topics in Anthropology and Sociology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science.

Introduction to selected themes and topics in anthropology and sociology. Students may enroll and receive credit for this course more than once as the course themes and topics change.

275. Explorations in Social Theory.

Fall. Credits: 4.

Degree Requirements: Social Science.

The major goal of this course is to help students identify and understand explanations of the social world and social actors that have become elevated to the status of social theory. Lectures will present certain “classical” directions of thought in sociology and anthropology. Students will undertake “critical” analyses of primary sources and write a series of reflective essays on their intellectual engagement with theoretical schools. These essays will serve as foci for seminar format sessions during the semester.

Prerequisites: Anthropology/Sociology 103 or 105.

280. The Map is Not the Territory.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of mapping as seen as an imposition of meaning on the world. Maps create as well as represent the reality of the territory. This problem will be addressed cross-culturally. The course will follow a seminar format and will involve

some hands on mapping. No prerequisite.

300. Cultural Motifs.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science.

This course emphasizes contemporary and emergent themes in the respective disciplines as a means of keeping students abreast of substantial developments in these dynamic fields of social inquiry.

Prerequisites: Anthropology/Sociology 103 or 105 or permission of instructor. Students may enroll and receive credit for this course more than once as the course theme changes.

301. Psychological Anthropology.

Spring, Credits: 4.

Degree Requirements: Social Science.

Anthropologists argue that rather than seeing the mind of “the other” as an imperfect or incomplete version of our own, we must approach it as an “alternative form.” In this course we will be investigating questions such as: Do members of non-Western cultures “sense and think” like members of Western cultures? Do individuals from a non-literate culture actually reason differently from members of a literate culture? Is one culture’s schizophrenic another culture’s saint? Are some psychological disorders specific to certain cultures? Why is it that close to 90% of the world’s cultures sanction some form of an altered state of consciousness? This course is recommended for students of both anthropology and psychology.

Prerequisites: Anthropology/Sociology 103 or 105, or permission of instructor. (Course offered every third year; scheduled for 2007-2008.)

303. Medical Sociology

Fall, spring. Credits: 4.

Medical sociology is the study of the socio-cultural factors that affect health, illness, disease, and medical care. Topics include epidemiology, social demography of health, the relationship between social stress and health, health and illness behavior, the physician-patient relationship, and the organization of health care and medical practice. These topics will be studied by combining classroom lectures, discussion and experiential learning. Students will participate in the ongoing implementation of a community health assessment of residents living in the Hollywood-Springdale area northeast of campus. The health study is part of the Community Outreach Partnership Center (COPC) grant project and is designed to identify barriers that limit access to health care among areas residents. This course is recommended for pre-med and health science majors, and social science majors.

Prerequisite: Anthropology/Sociology 105.

307. Sociology of Education

Fall. Credits: 4.

Education is considered to be the primary means to realizing the American ideals of equality and success. This course critically examines that idea using sociological perspectives and research to understand how class, race, and gender affect educational opportunities and outcomes. Students directly study educational issues by conducting observations and interviews in the local school system.

Prerequisites: Anthropology/Sociology 103 or 105 or permission of instructor.

317. Alternative Realities: Symbols, Ritual, World Views.

Fall. Credits: 4.

Degree Requirements: Social Science.

Humans are always searching for meaning and order beyond the limits of the activities that are needed to guarantee their immediate survival. This course will consider the role of symbolic activity in the construction and maintenance of coherent and comprehensive systems of meaning that integrate human experience with the workings of the larger world or cosmos

Prerequisites: Anthropology/Sociology 103 or permission of instructor.

320. Anthropology and the Written Word.

Credits: 4.

Degree Requirements: Social Science.

This course examines various issues involving orality and literacy and its consequences for ourselves and others whose lives we wish to understand. The cultural contexts surrounding the invention and use of writing systems as well as the effects of literacy on mind and society will also be studied. Anthropologists use writing to record some of their knowledge about other peoples and cultures. While anthropologists have produced numerous “scholarly” texts, they have also pursued other writing projects: autobiographies of individuals from non-Western societies, poetry and the novel, science fiction and literary texts which may or may not conform to Western literary traditions. This course will not only explore some of these genres of writing but will involve a component of creative writing as well.

Prerequisites: Anthropology/Sociology 103 or permission of instructor.

321. Ecological Anthropology.

Fall. Credits: 4.

Degree Requirements: Social Science.

The study of the complex and varied systems of interaction between people and their environment. Several competing models of ecological anthropology will be analyzed including materialist, symbolic, and systems approaches. A field trip to New Mexico is required. No prerequisite.

331. Prejudice and the Human Condition.

Spring. Credits: 4.

Degree Requirements: Social Science.

It is a condition of being human to understand in terms of projected assumptions of meaning based on one’s historical, social, cultural and linguistic position. This course examines the phenomenon of the projective or “prejudiced” nature of human understanding and explores its implications for the self and the structure of interpersonal, institutional and cross-cultural experience. Students are assigned a question each week that must be answered in the form of an essay based on the students’ interpretation of assigned readings. Student essays provide a context for seminar discussions of lectures and readings in social epistemology, phenomenology, and philosophical hermeneutics.

Prerequisite: Anthropology/Sociology 105 or permission of the instructor.

335. Modernization and Culture Change.

Fall. Credits: 4.

Degree Requirements: Social Science.

An examination of major approaches to the study of socio-cultural change in contemporary peasant societies. The course will focus on how these types of

societies function and change within the context of the larger systems of which they are a part. Special attention will be paid to the articulation of peasant economic systems with national and international capitalistic economies. Andean-America will be the geographic focus. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Anthropology/Sociology 103 or 105, or permission of instructor.

341. Peoples of sub-Saharan Africa and Madagascar.

Credits: 4.

Degree Requirements: Social Science, F9.

This course provides an ethnographic introduction to the cultures and culture history of sub-Saharan Africa and Madagascar. It also includes the study of various cultural practices and theoretical issues that have continued to fascinate anthropologists and animate ethnological discussions including state formation, witchcraft beliefs, oral traditions, and indigenous philosophy.

Prerequisites: Anthropology/Sociology 103 or 105.

343. Race/Ethnic Identities, Experiences, and Relations.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course uses fundamental sociological concepts and theoretical perspectives to examine race/ethnicity within our everyday lives, the lives of "others," and primarily, the United States. The course emphasizes social stratification, including the intersection of race, social class, and gender, and on social change.

Prerequisites: Anthropology/Sociology 103 or 105.

346. Peoples of South America.

Fall. Credits: 4.

Degree Requirements: Social Science.

Introduction to a variety of native peoples of South America. Emphasis on ecological adaptation to both physical and cultural environments No prerequisite.

350. Contemporary South American Society and Culture.

Spring. Credits: 4.

Degree Requirements: Social Science.

An anthropological look at contemporary problems of change in South America from the perspectives of First Peoples (Native American, Indian) and other peoples (variously labeled peasant, third world, campesino, caboclo, etc.) marginal to the market oriented political economy of the region. No prerequisite.

431-432. Special Problems.

Fall, Spring. Credits: 1, 2, 4.

Designed to encourage senior or advanced junior majors to study intensively in an area of their special interest.

Prerequisites: Permission of the instructor.

451-452. Research.

Fall, Spring. Credits: 1,2,4.

This course allows senior and advanced junior majors to become active participants in ongoing departmental research projects

Prerequisites: Permission of instructor.

460. Internship in Anthropology or Sociology.

Fall, Spring. Credits: 4.

Supervised experience for Junior and Senior anthropology/sociology majors in applying anthropological and/or sociological knowledge and principles in a field or real-world setting which might include non-profit community agencies, museums, and cultural resource management firms. A journal and/or final paper on the experience will be required. Prerequisites beyond Anthropology/Sociology 103 and 105 will depend on the individual project.

Prerequisites: Permission of instructor and department chair is required.

486. Senior Seminar.

Spring. Credits: 4.

Students will engage in an ongoing critical analysis of contemporary contributions to the theory and research in anthropology and sociology

Prerequisites: Anthropology/Sociology 103 or 105, and 275.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

Open to candidates for honors in the department. A tutorial consisting of advanced original research.

Prerequisites: Permission of instructor.

Karen M. Winterton. Departmental Assistant.

The Department of Art offers to the student, regardless of experience or major, the opportunity to develop a sensitivity to visual language through studio work and the study of the history of art. The department requires a balanced program in studio and art history that may be augmented to suit particular student interests and needs.

The Clough-Hanson Gallery, located in Clough Hall, brings to campus exhibitions of contemporary art from September through March. In April and early May, the gallery hosts two student exhibitions: the Juried Student Exhibit and the Senior Thesis Exhibit.

REQUIREMENTS FOR A MAJOR IN ART

A student may choose one of the two following tracks. Majors may petition to pursue their own course of study to meet particular goals.

I. Concentration in Studio

For the student interested in art as a vocation, for teaching, or for further study in graduate school, a program of studies balanced between studio and art history is preferable. The following courses are required.

A total of fifty-six (56) credit hours as follows:

1. Studio Art: two 100-level courses, 385, 485, 486.

2. Art History: 231, 232, 345.
3. Six additional courses, at least two of which must be at the level of 300 or above in studio. Students may petition the department in writing to count up to two cognates towards this requirement.

II. Concentration in Art History

For those students interested in the study of art history with graduate school as a definite goal, this program of study is suggested. The following courses are required

A total of fifty-six (56) credit hours as follows:

1. Studio Art: two 100-level courses.
2. Art History: 231, 232, 485, plus 6 additional courses, two of which will come from ancient studies (Prehistoric through Roman), two of which will come from Medieval through Baroque, and two of which will come from Modern (post 1800).
3. Three additional courses in studio or art history. Students may petition the department in writing to count up to two cognates towards this requirement.

German and/or French through the 201-level are strongly recommended for those students planning to pursue graduate work in art history.

REQUIREMENTS FOR A MINOR IN ART

A total of twenty-eight (28) credit hours as follows:

1. Studio Art: two 100-level courses.
2. History of Art: 231, 232.
3. Either one 300-level studio course and Studio 385 or one 300-level Art History course and Art History 485.
4. One additional course at 300 level or above (or pre-approved 200-level Topics courses).

HONORS IN ART

1. In the spring of the junior year, an art major, in consultation with an appropriate member of the art faculty, may write a proposal for honors work in the senior year. The department must approve the proposal.

2. An overall grade of A- on the thesis or project itself is required for honors credit.

COURSE OFFERINGS**Introductory Studio. Art.**

Introductory Studio Art Students interested in commencing studio work are encouraged to enroll in the introductory studio courses in their first year. These courses are designed for students with no previous background in the designated areas. Special emphasis is given to introducing media, exploring basic techniques, and problem solving. Studio courses require 138 hours of work per term for four credits. A studio fee may be required for studio courses to cover the expense of materials and equipment.

101. Drawing.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5.

An introduction to drawing in various media.

103. Life Study.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5.

Figure drawing from life.

105. Painting.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5.

An introduction to the fundamentals of painting, including its formal and conceptual properties.

107. Sculpture.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5.

Emphasis will be on the development of ideas as they relate to traditional and non-traditional approaches to making art. Students will develop skills in the use of metal working, wood working, casting, and alternative media. This course situates students within the contemporary art world and challenges them to articulate thoughts and concepts through the art making process.

111. Photography.

Fall. Credits: 4.

Degree Requirements: Fine Arts, F5.

An introduction to basic camera and darkroom techniques. (The student will provide camera, film, and supplies.)

113. Digital Arts.

Fall. Credits: 4, F5.

Degree Requirements: Fine Arts.

An introduction to digital arts, focused on the exploration and production of still images through electronic media.

166. Topics in Studio Art.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

Topics will vary from year to year with the instructor. Course may be repeated as long as topics are different.

Intermediate Studio Art.

Students taking intermediate studio courses will explore issues concerning media and methods relevant to individually designated concepts and investigations. Students are expected to spend twelve hours per week on research and production. Students must have permission from the instructor before registration. Studio courses require 138 hours of work per term for four credits. A studio fee may be required for studio courses to cover the expense of materials and equipment.

301. Intermediate Drawing.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

Prerequisites: Art 101, 103 or 105.

303. Life Study.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5.

313. Digital Art: Advanced Projects.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

Advanced studio work in digital arts, focused on creating electronic media-based projects geared toward individual student interests.

366. Advanced Topics in Studio Art.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

A seminar, open to both majors and non-majors, on varying subjects. May be repeated for credit. Topics courses include landscape painting and figure painting.

385. Junior Seminar.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

Individually designed creative projects or research undertaken with the approval and guidance of the art faculty. Students are required to propose a fifteen-week program of research, develop a relevant body of work, meet weekly for critiques

with the instructor, and maintain a daily sketchbook or journal. In addition each student will participate in one formal critique with art faculty and a peer group at the end of the semester.

Prerequisites: Junior standing, successful completion of all 100-level courses required for the major, and at least one 300-level studio course or permission of instructor. Required for all majors in the studio track.

Advanced Studio Art.

Students taking advanced studio courses will further explore issues concerning media and methods relevant to individually designated concepts and investigations. Students are expected to spend twelve hours per week on research and production. Directed Inquiries can be accommodated through any of the advanced studio offerings. Studio courses require 138 hours of work per term for four credits. A studio fee is required for every studio course to cover the expense of materials and equipment.

401. Drawing.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

Prerequisites: Art 300, 301 or 305.

405. Painting.

Fall, Spring. Credits: 4.

Prerequisites: Art 313.

460. Art / Architectural Internship.

Fall, Spring. Credits: 1-4.

Degree Requirements: Fine Arts.

Students are placed with local artists and/or regional galleries, design firms or architectural firms.

Prerequisites: Art major with junior or senior standing; successful completion of all one-hundred level courses in the art department required for the appropriate track; and approval of the art department. May be repeated for a total of six credits. Students may apply a maximum of four credits towards the Art major or minor.

485. Senior Seminar.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

Individually designed creative projects or research undertaken with the approval and guidance of the art faculty. Students are required to propose a fifteen-week program of research, develop a relevant body of work, meet weekly for critiques with the instructor, and maintain a daily sketchbook or journal. In addition each student will participate in one formal critique with art faculty and a peer group at the end of the semester.

Prerequisites: Senior standing and successful completion of all 100- and 200 -level courses required for the major. Required of all majors in the studio and track.

486. Senior Thesis.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

The continuation of the senior seminar in which students further develop and refine creative projects with the approval and guidance of the art faculty. This course culminates in a Thesis Gallery Exhibition.

Prerequisites: Art 485.

HISTORY OF ART**220. Archaeological Methods.**

Fall. Credits: 4, F5.

Degree Requirements: Fine Arts.

This class will expose students to a range of archaeological methods used in the field, laboratory and museum to find, record, date, preserve and contextualize physical materials. Basic methods of investigation and research will be discussed through the examination of site survey, excavation and the analysis of artifacts. Students will be introduced to various systems of archaeological classification and analytical techniques for understanding objects such as lithic artifacts, pottery, human skeletal remains, and other historic and prehistoric artifacts. Artifact illustration, photography, cataloguing and curating will also be discussed. (Course offered every third year; scheduled for 2009-2010.)

227. Architecture and Urbanism in the West from Antiquity to the Present.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

This course takes a case-study approach to surveying the concerns confronting different cultures as they developed their urban environments architecturally and spatially. Working chronologically, cities as diverse as ancient Periclean Athens and Hausmann's 19th-century Paris will be considered. (Course not offered 2007-2008.)

231. History of Western Art I.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5, F3.

A survey of Western art from pre-history through the middle ages. Emphasis is placed on examining art within the producing cultures of ancient Egypt, the ancient near east, classical Greece and Rome, the Byzantine East, and medieval Europe. Students will be exposed to the basic methods of art historical analysis.

232. History of Western Art II.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts, F5, F3.

A survey of Western art from 1300 to the present. Special emphasis will be placed on the development and expansion of Renaissance ideals of art, and then the reassessment of these ideals in the Nineteenth and Twentieth Centuries. Students will be exposed to the basic methods of art historical analysis.

265. Topics in Art History.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

Topics will vary from year to year with the instructor. Course may be repeated as long as topics are different.

318. Greek Art and Architecture.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

A chronological and thematic examination of the visual and material culture of ancient Greece from its Bronze Age (ca. 3rd millennium B.C.E.) to the end of the Hellenistic era (1st century B.C.E.). Special attention will be given to the historical and ideological context of cult buildings, monumental sculpture, and vase paintings as they might have been experienced by Greek viewers. (Course offered in alternate years; scheduled for 2008-2009.)

319. Roman Art and Architecture.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

This course traces the development of Roman art and architecture in its variable contexts with an eye to understanding the cultural and political institutions that created it, from Rome's earliest Etruscan roots in the 8th century BCE to its relocation to Byzantium in Asia Minor in the 4th century CE. (Course offered in alternate years; scheduled for 2007-2008.)

320. Art and Architecture of Ancient Egypt and the Near East.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

A chronological study of the material cultures of ancient Egypt and the Near East. Students will be introduced to current scholarship on the art and architecture of these cultures and emphasis will be placed on understanding these forms in their social and political contexts. (Course offered in alternate years; scheduled for 2008-2009.)

321. Art and Spirituality in the Middle Ages.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

An examination of the visual arts in Europe during the period normally known as the Middle Ages, ca. 313-1348. Attention will also focus on the art emanating from the Byzantine east. Art works discussed will include both secular and religious objects, and topics covered will include issues of aesthetics, iconography, style, functionality, and spirituality. (Course offered in alternate years; scheduled for 2008-2009.)

323. Italian Renaissance Art.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

This course examines Italian art and architecture, ca. 1260-1580, with emphasis on the historical and social context. Such themes as patronage, functions, theory, materials and techniques, style, and the profession of the artist will be discussed. Artists treated include Giotto, Brunelleschi, Masaccio, Donatello, Botticelli, Leonardo, Bramante, Raphael, Michelangelo, Titian, and Palladio. (Course offered in alternate years; scheduled for 2007-2008.)

326. Northern Renaissance Art.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

An examination of painting, sculpture, and the graphic arts in the Netherlands, Germany, and France, from 1400 to 1600, with emphasis on the historical and social context. Such themes as the status of the artist, art and mysticism, art and the Reformation, theory, and the relationship of Northern European and Italian art and culture will be discussed. Artists include Jan van Eyck, Rogier van der Weyden, Hieronymus Bosch, Albrecht Dürer, and Pieter Bruegel. (Course offered in alternate years; scheduled for 2008-2009.)

328. Baroque Painting from Caravaggio to Rembrandt.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

The course investigates European art ca. 1580-1750. Students will be introduced to the major artists, subjects, and stylistic developments during this time period. Additional emphasis will be placed on issues such as patronage, collecting, technique, women artists, and recent discoveries. Artists covered include Caravaggio, Bernini, Gentileschi, Rembrandt, Vermeer, Velasquez, and Rubens. (Course offered in alternate years; scheduled for 2007-2008.)

334. American Art.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

A thematic examination of art produced in the United States from the colonial period to WWII with special emphasis on the place of art and artists within a democracy. Themes include the relationship between political and visual representation, landscape as metaphor, race and ethnicity in art, and the tension between private and public patronage. Artists include Thomas Jefferson, Stuart Davis, and Frank Lloyd Wright. (Course offered occasionally.)

337. Italian Architecture 1300-1700.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

An examination of architecture in Italy covering the Medieval, Renaissance, and Baroque periods. Special emphasis will be placed on the cultural context of buildings, architectural theory, and urban planning. Topics include patronage, the role of the architect and buildings in society, and special focus on Florence, Venice, and Rome. Architects covered include Brunelleschi, Alberti, Michelangelo, Palladio, and Bernini. (Course offered every third year; scheduled for 2008-2009.)

338. Cities and Sanctuaries of the Ancient World.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

This class explores concepts and themes important to the rise of cities and their sacred spaces with an eye to understanding the experience an ancient had when living in or visiting them. (Course not offered 2007-2008.)

341. Modern Art I.

Fall. Spring. Credits: 4.

Degree Requirements: Fine Arts.

A survey of the major European art movements from about 1760 to 1880. Special emphasis is given to the interplay between politics and the emergence of new styles and subject matter in painting. Artists covered include David, Goya, Constable, Delacroix, Friedrich, Courbet, Manet, and Monet. (Course offered every third semester; scheduled for Spring 2008).

342. Modern Art II.

Fall. Spring. Credits: 4.

Degree Requirements: Fine Arts.

A survey of European art from 1880 to 1960. Themes examined include "primitivism," the tension between modern art and mass culture, the attempt to combine radical politics with formal innovation, and the development of non-objective styles of painting. Movements discussed include symbolism, fauvism, cubism, futurism, dada, surrealism, and abstract expressionism. (Course offered every third semester; scheduled for Fall 2008).

345. Contemporary Art.

Fall. Spring. Credits: 4.

Degree Requirements: Fine Arts.

A comprehensive introduction to European and American art and art criticism since 1960. Themes examined include the revival of political art in the late sixties (and its resurgence in the late eighties), the emergence of feminist strategies in representation, the rejection of the art object and the culture industry, the ongoing dialogue between modern art and mass culture, the return of history painting in the early eighties, and the emergence of different voices in the art world in the past twenty years. (Course offered every third semester; scheduled for Spring 2009).

356. Michelangelo.

Spring. Credits: 4.

Degree Requirements: Fine Arts.

An examination of the life and art of Michelangelo Buonarroti (1475-1564). Special attention will be paid to stylistic, interpretive, and methodological issues, as well as the many controversies that have surrounded his life and art from the Renaissance to the present. Works studied will include painting, sculpture, architecture, drawings, and poetry. Class will combine both lecture and seminar formats. (Course offered every third year; scheduled for 2007-2008.)

360. Gallery Management.

Spring. Credits: 4.

An internship involved with the various aspects of gallery management, such as selection, crating, shipping, publicity design, printing, computer entries, preparation and designing of exhibitions, hanging, lighting, receptions, security, etc. Open to juniors and seniors or with permission of instructor. May be repeated

for general degree (non-major) credit.

365. Advanced Topics in Art History.

Fall, Spring. Credits: 4.

Degree Requirements: Fine Arts.

A seminar, open to both majors and non-majors, on varying subjects. May be repeated for credit so long as topics are different.

399. Tutorial for Honors Candidates.

Spring. Credits: 1.

Students interested in reading for honors in the Department of Art are required to enroll in a preparatory tutorial in the spring semester of their junior year. Successful completion of the tutorial does not necessarily guarantee acceptance into the Honors Program.

461. Museum/ Gallery Internship.

Fall, Spring. Credits: 1-4.

An internship with a gallery or museum with a focus on the visual arts. Prerequisites: Approval of department Chair and offer of placement from an approved gallery or museum. Normally open only to art majors and minors with junior or senior standing. Students may apply a maximum of four credits towards the Art major or minor.

485. Senior Seminar.

Fall. Credits: 4.

Degree Requirements: Fine Arts.

Art History Track. Advanced seminar involving theory, methodology, and historiography. Students will submit a major research paper and conduct an oral presentation. Topics vary with instructor. Required of all majors in the art history track. Prerequisites: Art 231, 232 and any 300-level art history course. With the permission of the instructor, Juniors may take the seminar as Art 365.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4, 4.

REQUIREMENTS FOR A MAJOR IN BIOLOGY LEADING TO THE B.S. DEGREE

A total of fifty-three to fifty-seven (53-57) credits as follows:

1. Biology 130-131, 140-141.
2. At least six upper level courses; at least four of which must have an associated

lab experience. Four credits of research in Biology (451 or 452) will satisfy an upper level course with lab requirement. Chemistry 416 and/or Chemistry 414 (Chem 414 may include Chem/Bio 310 to satisfy a lab requirement) may also be counted as upper level courses for the Biology major.

3. Biology 485 or 486.
4. Chemistry 111-111L, 112-112L
5. One course from Math 111, Econ 290, or Psych 211.
6. One course from Math 115, Math 121, or Computer Science 141.

Students, in consultation with their advisors, should select a diversity of upper level courses, thereby gaining experience in different areas of biology. Satisfying the prerequisites for courses is the student's responsibility; however, in special circumstances, students with advance permission of the instructor may enroll in a course without meeting prerequisites.

Courses and accompanying laboratories of the same name are linked co-requisites and must be taken together. Unless otherwise noted, courses meet under the standard class schedule and laboratories meet for a three hour period; laboratories also often require further project work outside the scheduled lab time.

COURSE OFFERINGS

104. Topics In Biology.

Fall or Spring. Credits: 4.

Degree Requirements: Natural Science.

Topics in Biology courses provide an in-depth understanding of a topic in the Biological Sciences. As in other introductory biology courses, each Topics course details fundamental principles and concepts in the discipline but in the context of a specific topic. Topics in Biology may be taken as elective credit by students majoring in Biology provided they have not already taken an upper level Biology course of similar content; however, Topics in Biology will not satisfy upper-level course requirements for the major in Biology.

105. Topics In Biology with Laboratory.

Fall or Spring. Credits: 4.

Degree Requirements: Natural Science, F7.

Similar to Biology 104 but includes a laboratory component.

130, 131. Biology I.

Fall. Credits: 3, 1.

Degree Requirements: Natural Science, F7 (after completing lab and lecture).

An examination of the structure and functions of life at the cellular level. Topics include the organization of prokaryotic and eukaryotic cells, the roll of proteins in cell structure and metabolism, membrane structure and function, bioenergetics, interactions between a cell and its environment, and the mechanisms of heredity. Laboratory work provides an introduction to investigative techniques in biology and skills required for the analysis and presentation of scientific findings. Biology 130 and 131 are linked co-requisites.

140, 141. Biology II.

Spring. Credits: 4, 1.

Degree Requirements: Natural Science.

A study of biological principles at the level of organisms and above. This course

covers the mechanisms of evolution; plant and animal development, anatomy, and physiology; behavior and ecology. Laboratory stresses the importance of hypothesis testing.

Prerequisites: Biology 130, 131.

200. Evolution.

Fall or Spring. Credits: 4.

Degree Requirements: Natural Science, F2 (some sections).

A study of the evolutionary process from the historical development of the Darwinian concepts of change and natural selection to a modern synthetic analysis of the mechanisms of populational change, the process of speciation, the origins of life and extinction.

Prerequisites: Biology 130, 131 or 140, 141.

201, 201L. Mycology

Spring. Credits: 4, 1.

Degree Requirements: Natural Science.

The study of life's "fifth kingdom": the fungi and fungus-like protists. Even though they share an equal evolutionary standing with plants and animals, to most persons fungi remain amongst the most mysterious and ill-defined of nature's inhabitants. Just what is a fungus anyway? Where do they live, and what are they doing out there? This course will provide answers to questions like these, as well as provide examples of the practical uses of fungi in industry and research and of the roles that some of them play as agents of disease. The laboratory emphasizes the development of skills in the isolation and characterization of fungi from nature. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Biology 130, 131 or 140, 141.

202. Vertebrate Life.

Spring. Credits: 4.

A study of the diversity of vertebrates including past and present radiations. This course focuses on the various and diverse adaptations in behavior, ecology, morphology and physiology that allow vertebrates to successfully inhabit water, air and land. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Biology 140, 141.

204, 204L. Mechanisms of Development.

Spring. Credits: 4, 1.

An overview of developmental processes directed at exploring the cellular and subcellular mechanisms which control development. Modern experimental approaches and current models will be emphasized.

Prerequisites: Biology 130, 131 and 140, 141.

206, 206L. Survey of the Plant Kingdom.

Spring. Credits: 4, 0.

A study of the diversity of the plant kingdom, including algae, bryophytes and vascular plants. Emphasis will be placed on the morphology, life history and phylogenetic relationships of the groups examined.

Prerequisites: Biology 130, 131 and 140, 141.

207, 207L. Animal Behavior.

Fall. Credits: 4, 1.

An evolutionary and ecological approach to questions of why and how animals

behave as they do. Emphasis is on how traits help individuals maximize the survival of genes within them. Laboratories will involve quantitative data collection in both the laboratory and field. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Biology 130, 131 and 140, 141. Biology 200 recommended. Math 111 or equivalent suggested.

209. Embryology.

Spring. Credits: 4.

A study of the morphological changes that occur in animals from fertilization of an egg to birth. This anatomically-based course will focus on the development of the major organ systems and body plan of vertebrates, including comparisons of developmental patterns among vertebrates and understanding what happens when the patterns are disrupted to produce birth defects. Class meetings will be predominantly lecture with some laboratory work. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Biology 130, 131 and 140, 141.

212. Environmental Issues in Southern Africa.

Spring. Credits: 2.

An interdisciplinary examination of the environmental issues of a region of the world famous for its captivating scenery, immense richness and dire scarcity of natural resources, and cultural diversity of its people. Special attention will be devoted to the role of parks and community-based conservation projects in achieving a balance between people's needs and wildlife conservation. By itself, this course does not satisfy an upper level requirement for the Biology major; when combined with Biology 214 it satisfies a requirement for an upper level course with laboratory. Class meetings will be predominantly lecture with some laboratory work. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Biology 130, 131 and 140, 141; or Biology 105: Environmental Science; or permission of instructor.

214. Environmental Field Study in Namibia.

Summer. Credits: 2.

An in-country exploration of the major environmental issues of Namibia, one of the world's most arid and most beautiful countries. Students will spend three weeks in the region, visiting different ecosystems, such as the Namib Desert, dry thornveld savannas, and the Kalahari sands. They will meet with indigenous people, NGOs, and governmental officers involved in local environmental issues. Rhino tracking and lion darting can be part of the educational experience during this field study trip. This course emphasizes critical thinking and interdisciplinary learning and is meant to challenge students' world-view to enable them to increase their awareness and knowledge of our global society. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Biology 212.

240, 240L. Plant Physiology.

Spring. Credits: 4, 1.

An examination of physiological processes that operate in vascular plants. The course will emphasize water relations, photosynthesis and gas exchange, hormonal control of tropistic responses, plant development, and mineral recycling. Laboratory work will be conducted on both the molecular and whole plant levels.

Prerequisites: Biology 130, 131 and 140, 141.

250. Systematics.

Spring. Credits: 4.

Systematics involves the recognition and explanation of patterns found among organisms. It is concerned with the evolutionary processes that generated the observed patterns as well as the mechanical aspects of describing the relationship between organisms in a meaningful way both taxonomically and evolutionarily. This course satisfies an upper level course with laboratory requirement for the major.

Prerequisites: Biology 200.**253. Coral Reef Ecology.**

Spring. Credits: 2.

Half of this course will deal with coral reef ecology primary literature to gain an in-depth understanding of coral reef processes. It will provide a strong foundation for students continuing with Biology 254. The other half of this course will emphasize biological field techniques, biological classification, and processes dealing with coral reef ecology. By itself, this course does not satisfy an upper level requirement for the Biology major; when combined with Biology 254 it satisfies a requirement for an upper level course with laboratory.

Prerequisites: Biology 130, 131 and 140, 141 and permission of instructor.**254. Coral Reef Ecology.**

Summer. Credits: 2.

Degree Requirements: Natural Science.

This intensive two-week field course exposes students to the Mesoamerican Barrier Reef ecosystem. This course will be given at The Institute of Marine Sciences, Roatan, Bay Islands during two weeks in May-June.

Prerequisites: Biology 253.**301, 301L. Microbiology.**

Fall. Credits: 4, 1.

The study of microorganisms from all major organizational perspectives (genetics, physiology, phylogeny, etc.). Principal emphasis will be placed on prokaryotic microorganisms and the importance of their basic metabolic patterns in defining the roles that they play in nature (focusing on the cause of disease). The laboratory emphasizes the development of skills in isolation and characterization of bacteria.

Prerequisites: Biology 130, 131 and 140, 141.**304, 304L. Genetics.**

Spring. Credits: 4, 1.

The study of the transmission of genetic factors in eukaryotic model systems. Principle emphasis will be placed on the analysis of heredity, genes as functional units, and phenotypes resulting from regulated gene expression. Laboratory exercises include experimental genetic screens and their analysis.

Prerequisites: Biology 130, 131 and 140, 141.**307. Cell Biology.**

Fall. Credits: 4.

An advanced treatment of the organization and functions of eukaryotic cells. Primary emphasis will be placed on the role of biological membranes in such cellular activities as nutrition, secretion, intercellular recognition and communication, and energy transformations. Emphasis will also be placed on the role of proteins in

motility and the regulation of cell metabolism. By itself, this course satisfies an upper level requirement without laboratory for the Biology major; when combined with BCMB 310, it satisfies a requirement for an upper level course with laboratory (see the Biochemistry and Molecular Biology program under Interdisciplinary Study).

Prerequisites: Biology 130, 131.

315, 315L. Ecology.

Fall. Credits: 4, 1.

A broad study of concepts in the science of ecology. This course stresses the biotic and abiotic interactions which determine the distribution and abundance of organisms. The laboratory component consists of both on-campus laboratory work and intensive aquatic field experiences including at least one overnight outing. Students with organismal and environmental interests desiring a field component are encouraged to participate. Day-long weekend fieldtrips at the beginning of the course are required.

Prerequisites: Biology 130, 131 and 140, 141.

320, 320L. Conservation Biology

Spring. Credits: 4, 1.

An interdisciplinary examination of the science of conservation of biological diversity at gene, population, species, and ecosystem levels. Learning the theories and practice of conservation biology and critically evaluating strategies adopted to prevent loss of biodiversity are the main objectives of this course. Laboratories and field work are designed to make the students familiar with research methods and tools used by conservation biologists. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: One course in Biology or permission of instructor.

325, 325L. Molecular Biology.

Spring. Credits: 4, 1.

A study of the structure and function of genes at the molecular level. Topics include the synthesis of nucleic acids and proteins and the mechanisms of gene expression and control in prokaryotes and eukaryotes. An emphasis will be placed on the design, analysis, and interpretation of classic and contemporary experiments. The laboratory component will teach the student how to conduct and interpret experiments in molecular biology including isolation of DNA, gel electrophoresis, recombinant DNA cloning, and DNA sequencing within the context of specific projects.

Prerequisites: Biology 130, 131; Chemistry 111, 111L.

330. Virology/Immunology.

Fall. Credits: 4.

Approximately one quarter of the course is devoted to Virology, including the structural basis for classification of viruses and both viral and host aspects of virus infection and replication. The remainder of the course provides an overview of the vertebrate immune system, focusing mainly on specific mechanisms of cellular and humoral immunity. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Biology 130, 131 and 140, 141.

340. Animal Physiology.

Fall. Credits: 4.

A study of the organs and organ systems of animals using both physical and chemical relationships to describe their functional activities and roles

in controlling the animal's internal environment. Although primary emphasis will be placed on the vertebrates, the diversity of physiological adaptations of invertebrates will also be examined. Laboratory investigations will include studies of the nervous system responses to external stimuli, functional diversity of vertebrate muscles, regulation of vertebrate cardiac activity, blood pressure and respiration, and regulation of vertebrate salt and water balance. Laboratory experiments will involve the careful and humane use of live vertebrates as research models. Laboratories are scheduled for 4 hours each week. This course satisfies an upper level course with laboratory requirement for the major.

Prerequisites: Biology 130, 131 and 140, 141.

350, 350P. Comparative Vertebrate Morphology.

Fall. Credits: 4, 1.

A comparative approach to the study of vertebrate anatomy, emphasizing evolution, development, and functional significance. This course focuses on the morphological patterns shared by vertebrates. Laboratories will involve dissection of representative vertebrates. Two lecture sessions and not less than 4 hours of lecture/practicum per week.

Prerequisites: Biology 140, 141.

360, 360L. Histology.

Fall. Credits: 4, 1.

A study of the microscopic features of animal cells, tissues and organs. This course emphasizes the relationship between microscopic form and function starting with a brief overview of cells and progressing through the different mammalian organ systems.

Prerequisites: Biology 130, 131 and 140, 141.

365, 365L. Advanced Topics in Biology

Fall or Spring. Credits: 4 or 4, 1.

Introduction to selected advanced biology topics. Topics vary with instructor. May be repeated for credit when topics differ. Course offering may or may not have a laboratory credit associated with the class. Not offered every year. Course may include the equivalent of 3 hours of laboratory each week.

Prerequisites: Biology 130, 131 and 140, 141; or permission of instructor.

370. Neuroscience.

Spring. Credits: 4.

A study of the structural and functional aspects of the central and peripheral nervous systems. Topics covered may range from the processes involved in communication within individual cells of the nervous system to higher order human brain functions such as learning, memory, states of sleep and consciousness, and the physiological regulation of emotions and behavior. Laboratory investigations will give students hands-on experience in electrophysiology, biophysics, and cell biology, and will include studies of intracellular signals of excitable cells, cell culture and investigations of growth and development of the nervous system. Laboratories are scheduled for 4 hours each week.

Prerequisites: Biology 130, 131 and 140, 141.

380. Topics in Biomedical Science.

Spring or Fall. Credits: 4.

A topical exploration of the connection between basic biomedical science and its clinical significance. Four topics are covered during the semester. Each topic is taught by a St. Jude Children's Research Hospital post-doctoral fellow; a Rhodes faculty member directs the course. Each topic consists of a presentation of pertinent background information on basic scientific principles, reading and discussion of secondary and primary literature within the research area of the post-doctoral fellow, and discussion of potential clinical significance of the research. Some class sessions will be held at St. Jude Children's Research Hospital; students are responsible for transportation.

Prerequisites: Biology 130, 131 and 140, 141.

451-452. Research in Biology.

Fall, Spring. Credits: 1-4.

Qualified students may conduct original laboratory or field research in biology. A student may use four credits of research or a combination of two credits from BCMB 310 combined with research credit to total four credits to satisfy one of the upper level requirements in Biology. Interested students should consult the appropriate Biology faculty member. At least three hours per week per credit, weekly conferences with faculty sponsor, written report at the end of the semester.

Prerequisites: permission of sponsoring faculty member.

460. Internship in Biology.

Fall, Spring. Credits: 1-4.

The Internship Program is designed to introduce students to practical applications of their academic work. Students may work off campus under professional supervision in fields related to the biological sciences, such as health care, laboratory diagnosis, forensics, environmental protection, agriculture. Students will be required to integrate academic and work experiences in a written report due at the end of the internship. No more than 4 credits per semester for no more than two semesters; at least three hours involvement per week per credit. Pass/Fail credit only. Biology 460 does not satisfy an upper level Biology course requirement for the major.

Prerequisites: permission of departmental internship program director.

485-486. Senior Seminar.

Fall, Spring. Credits: 4.

All Biology majors are required to enroll in Senior Seminar during one semester of their senior year. Senior Seminar is intended to be a broad, integrative experience in Biology, requiring both oral and written work.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-6,4-6.

Open to candidates for honors in biology. Includes supervised honors research and instruction in a biological field of study.

Prerequisites: Minimum GPA of 3.5 and departmental permission.

CHEMISTRY

PROFESSORS

David Y. Jeter. 1973. B.S., Texas A&M University-Commerce; Ph.D., University of North Carolina, Chapel Hill. (Inorganic Chemistry.)

Darlene M. Loprete. James H. Daughdrill, Jr. Professor of the Natural Sciences. 1990. B.A., Clark University; Ph.D., University of Rhode Island. (Biochemistry.)

ASSOCIATE PROFESSOR

Jon Russ. 2004. Chair. A.A., Del Mar College; B.S., Corpus Christi State University; Ph.D., Texas A&M University. (Analytical Chemistry.)

ASSISTANT PROFESSORS

Mauricio L. Cafiero. 2004. B.S., University of North Florida; M.A., and Ph.D., University of Arizona. (Physical Chemistry.)

Loretta Jackson-Hayes. 2003. B.S., Tougaloo College; Ph.D., University of Tennessee. (Pharmacology.)

Julie C. D. Le. 2005. B.S. and M.S., Louisiana State University; Ph.D., The University of Texas, Austin. (Organic Chemistry.)

Dharmika S. Jayawardene Muesse. 2007. B.S. and M.S., University of Colombo; Ph.D., University of Memphis. (Analytical Chemistry.)

Patrick Sheridan, 2006. B.S., Stockton College, Ph.D. Tulane University. (Organic Chemistry.)

CHEMISTRY STOREROOM AND LABORATORY MANAGER

Jeff R. Goode. B.S., University of Memphis.

CHEMISTRY INSTRUMENT TECHNICIAN

Garrick Florence. B.S., Tougaloo College.

The Department is certified by the American Chemical Society as complying with its requirements for the professional training of chemists.

REQUIREMENTS FOR A MAJOR IN CHEMISTRY LEADING TO THE B.S. DEGREE

1. Chemistry 111-111L, 112-112L, 211-212, 212L, 311-312, 312L, and at least 2 additional courses from the following list: 406, 408, 414, 416, 422, 432, 442, 451-452 (total of four credits).
2. Physics 111-112 or 109-110, 113L-114L.
3. Mathematics 121-122.
4. Chemistry 485-486.

These requirements may be tailored to suit the interests and goals of the student. Some suggestions include:

1. Chemistry graduate school: 406, 408, 414, 451-452.
2. Biochemistry graduate school in a chemistry department: 414, 416, 451-452. (Note: students interested in graduate biochemistry may also wish to consider the Biochemistry-Molecular Biology major.)

REQUIREMENTS FOR CERTIFICATION BY THE AMERICAN CHEMICAL SOCIETY

1. Chemistry 111-111L, 112-112L, 211-212, 212L, 311-312, 312L, 406, 408, 414 and one of the following: Chemistry 422, 432, or 451-452.
2. Physics 111-112 or 109-110, 113L-114L.
3. Mathematics 121-122.
4. Chemistry 485-486.

HONORS IN CHEMISTRY

1. Courses required: those listed for the B.S. degree as well as Chemistry 495 and 496.
2. An original investigation of some problem in chemistry or biochemistry, usually related to research being carried on by a member of the department, is required. A creditable thesis must be presented at the end of the project. The honors project and its outcome must be approved by the Individualized Studies Committee.
3. A public presentation on the honors work is required by the department.

COURSE OFFERINGS

NOTE: The laboratory periods referred to in the following courses indicate an afternoon period of at least three hours.

105. Topics in Chemistry.

Fall, Spring. Credits: 4.

Degree Requirements: F7.

Chemical principles and information will be studied through the examination of thematic topics in the chemical sciences. Designed for students majoring in disciplines other than science and mathematics. Includes a laboratory experience.

111. General Chemistry I.

Fall. Credits: 3.

Degree Requirements: F7.

A study of the basic concepts and principles of chemistry with a particular emphasis on inorganic chemistry. Topics to be considered include stoichiometry, atomic and molecular structure, bonding, descriptive chemistry, and coordination chemistry.

Corequisite: Chemistry 111L.

111L. General Chemistry Laboratory I.

Fall. Credits: 1.

An experimental introduction to the physical and chemical properties of matter. One laboratory period a week.

Corequisite: Chemistry 111

112. General Chemistry II.

Spring. Credits: 3.

Degree Requirements: F7.

A continuation of Chemistry 111. Topics to be covered include states of matter, solutions, elementary kinetics and equilibria, acids and bases, oxidation-reduction and electrochemistry, and thermochemistry.

Prerequisites: Chemistry 111-111L.

Corequisite: Chemistry 112L.

112L. General Chemistry Laboratory II.

Spring. Credits: 1.

An experimental introduction to the volumetric techniques of chemical analysis. One laboratory period a week.

Prerequisites: Chemistry 111L.

Corequisite: Chemistry 112.

211. Organic Chemistry I.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

A general survey of elementary theory, preparation, reactions, and properties of the compounds of carbon, both aliphatic and aromatic, containing the most important functional groups.

Prerequisites: Chemistry 112-112L.**212. Organic Chemistry II.**

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

A continuation of Organic Chemistry I. Topics to be covered including various instrumental methods to determine molecular structures of organic compounds; reactions and preparations of carbonyl compounds, amines and aromatics; discussions on carbohydrates, proteins, nucleic acids, lipids and other natural products and biological substances.

Prerequisites: Chemistry 211.**Corequisite:** Chemistry 212L.**212L. Organic Chemistry Laboratory.**

Spring. Credits: 2.

Emphasis is placed upon synthesis and the common laboratory techniques encountered in organic chemistry. One hour of lecture and three hours of laboratory per week.

Corequisite: Chemistry 212.**311. Physical Chemistry.**

Fall. Credits: 4.

An introduction to the study of chemical phenomena at the molecular level using primarily the techniques of quantum mechanics and spectroscopy.

Prerequisites: Chemistry 112-112L, Physics 111-112, 113L-114L and Mathematics 122.**312. Physical Chemistry II.**

Spring. Credits: 4.

An introduction to chemical thermodynamics, kinetics, and statistical mechanics as applied to chemical and biochemical systems.

Prerequisites: Chemistry 311 or approval of the instructor.**Corequisite:** Chemistry 312L.**312L. Physical Chemical Laboratory.**

Spring. Credits: 2.

Experimental study of physico-chemical systems using modern instrumental techniques. Designed to be taken with Chemistry 312. One laboratory period a week. Additional time outside lab hours may be required.

312L. Physical Chemical Laboratory.

Spring. Credits: 2.

Experimental study of physico-chemical systems, using research-oriented techniques. Designed to be taken with Chemistry 311-312. One laboratory period a week. Additional time outside lab hours may be required.

406. Advanced Analytical.

Fall. Credits: 6.

A study of the principles and practice modern instrumental analyses, including absorption and emission spectroscopy, mass spectrometry, chromatography, and Fourier transform infrared spectroscopy. Emphasis is placed on understanding the major instrumental methods chemists use to study chemical phenomena. Two lectures and two laboratory periods a week.

Prerequisites: 212, 212L, 311-312, and 312L, or permission of instructor.

408. Advanced Inorganic Chemistry.

Spring. Credits: 4.

A survey of experimental and theoretical inorganic chemistry, with emphasis on topics of current interest. Six laboratory periods during the semester.

Prerequisites: 212, 212L, 311-312, and 312L.

414. Biochemistry.

Fall. Credits: 4.

A survey of the chemistry of carbohydrates, lipids and proteins, and their metabolism in living organisms. The kinetics and bioenergetics of enzymatic reactions in metabolic pathways will also be studied.

Prerequisites: Chemistry 212 and 212L, or permission of instructor

415. Advanced Biochemistry.

Spring. Credits: 4.

A study of the flow of genetic information from DNA to proteins, including transcription, mRNA processing, and translation. Aspects of molecular physiology will also be investigated.

Prerequisites: Chemistry 414 and Bio 325 or permission of instructor.

416. Pharmacology.

Fall (or Spring). Credits: 4.

A study of chemicals that produce change in function of biological systems and the mechanisms by which these chemicals act. The course focuses on the main classes of drugs as well as some of the more popular contemporary drugs and how they affect their target biological systems. Applicable pharmacology-related literature is also emphasized to give students exposure to the types of techniques used in drug research.

Prerequisites: 212, 212L, Biology 130-131 and 140-141.

422. Advanced Organic Chemistry.

Spring. Credits: 4.

Modern theories of organic chemistry with emphasis on advanced synthetic methods and reaction mechanisms.

Prerequisites: Chemistry 212 and 212L.

432. Advanced Physical Chemistry.

Fall. Credits: 4.

A continuation of Chemistry 312, with more detailed treatments of quantum chemistry, statistical mechanics, and spectroscopy.

Prerequisites: Chemistry 312 and 312L; Mathematics 122.

451, 452. Introduction to Research.

Fall, Spring. Credits: 1-4,1-4.

Original investigations undertaken by junior and senior chemistry majors of chemical or biochemical problems usually related to research being carried on by members of the department. A maximum of 12 credits may be earned. For degree purposes four credits of 451 and/or 452 will be equivalent to a course even if these credits are not all taken in the same semester.

460. Chemistry Internship.

Fall, Spring. Credits: 1-4, 1-4.

A course designed to give students practical experience in chemical research and technology, guided by a chemical professional mentor. Students may work on or off campus, depending upon the preferences of the sponsoring company or institution. Examples of possible work arenas are chemical manufacturing studies, product discovery or improvement Research & Development, or forensic characterization. Students will be required to submit a written report and give an oral presentation at the end of the internship.

Prerequisites: Chemistry 212 and 212L, and permission of the Departmental Program Director. Pass/fail basis only. Chemistry 460 does not satisfy an upper level Chemistry course requirement for the major.

485-486. Chemistry Senior Seminar.

Fall, Spring. Credits: 0-4.

A seminar course required of all senior chemistry majors. The course is designed to promote independent thinking, integration of topics in chemistry, and to provide practice in group discussion and in written and oral presentation.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

Open to candidates for honors in chemistry. Includes supervised honors research in a chemical or biochemical field of study.

Prerequisites: Departmental permission.

The Department of Economics and Business offers three majors to meet students' particular interests and career goals: Economics, Business, and Economics and Business. There are two tracks within the Business major: General Business and International Business.

Master of Science in Accounting. A more concentrated study of accounting may be undertaken in the M.S. in Accounting Program offered by the Department of Economics and Business. Students who have completed an undergraduate degree in the Department of Economics and Business and who have taken the appropriate accounting courses can finish the requirements of the M.S. in Accounting degree in two additional semesters of study. For a complete listing of courses and degree requirements in the M.S. in Accounting program, see the section on Master of Science in Accounting.

REQUIREMENTS FOR A MAJOR IN ECONOMICS

A total of forty-eight (48) credits as follows:

1. Economics 101-102, 290, 302, 307, 486.
2. Five courses from Economics 205, 210, 265, 312, 323, 331, 333, 339, 407, 420; with at least one from each of the following areas:
 - a. Economics 312, 323, 331, 333, 339.
 - b. Economics 407, 420.
3. Mathematics 115. (For graduate study, Math 121 and 122 should be considered.)
4. Recommended: Mathematics 107. Students planning on attending graduate school should take both Economics 407 and 420.

REQUIREMENTS FOR A MAJOR IN BUSINESS

General Business Track

A total of fifty-two (52) credits as follows:

1. Economics 101-102, 290, 307.
2. Business 241, 243, 351, 361, 371, 486.
3. One course from each of two of the following areas:
 - a. Accounting: Business 341.
 - b. Finance: Business 452, 454.
 - c. Management: Business 466, 474.
 - d. Marketing: Business 472, 474.
 - e. Quantitative methods: Business 375.
4. Mathematics 115. (For graduate study, see note above concerning mathematics requirement).
5. Recommended: Mathematics 107, Philosophy 304.

International Business Track

A total of fifty-six (56) credits as follows:

1. Economics 101-102, 290, 307.
2. Business 241, 243, 351, 361, 371, 486.
3. Three courses from Business 454, 463, 473, or Economics 210.
4. Mathematics 115. (For graduate study, see note above concerning mathematics requirement).
5. Foreign Language proficiency in or completion of course of study in a foreign language through the second full year at the college level.
6. Recommended: Mathematics 107, Philosophy 304, Political Science 218.

REQUIREMENTS FOR A MAJOR IN ECONOMICS AND BUSINESS

A total of sixty (60) credits as follows:

1. Economics 101-102, 290, 307, 486.
2. Business 241, 351, 361, 371, 486.
3. Two courses from Economics 205, 210, 265, 312, 323, 331, 333, 339, 407, 420; with at least one from Economics 407, 420.
4. One course from each of two of the following areas:
 - a. Accounting: Business 341.
 - b. Finance: Business 452, 454.
 - c. Management: Business 466, 474.
 - d. Marketing: Business 472, 474.
5. Either Econ 302 or Bus 241.
6. Recommended: Mathematics 107, Philosophy 304.

REQUIREMENTS FOR A MINOR IN ECONOMICS

A total of twenty-eight (28) credits in Economics as follows:

1. Economics 101-102, 290; at least one from Economics 302, 307.
2. Additional electives are Economics 205, 210, 265, 312, 323, 331, 333, 407, 420.
3. Mathematics 115.
4. Students who major in Business may not minor in Economics.

REQUIREMENTS FOR A MINOR IN BUSINESS

A total of twenty-eight (28) credit hours as follows:

1. Economics 101, 102, 290.
2. Business 241, 351, 361, 371.
3. **Students who major in Economics may not minor in Business.**

HONORS IN ECONOMICS

1. Requirements for a major in Economics.
 2. Economics 495-496.
 3. A substantial research paper in an area of special interest to the candidate.
 4. An oral examination on the research paper.
- All honors students must meet eligibility criteria established for the Honors Program.

HONORS IN BUSINESS

1. Requirements for a major in Business.
 2. Business 495-496.
 3. A substantial research paper in an area of special interest to the candidate.
 4. An oral examination on the research paper.
- All honors students must meet eligibility criteria established for the Honors Program.

COURSE OFFERINGS

Generally, courses with numbers ending in 00 through 39 are economics courses, those ending in 40 through 79 are business courses, and those ending in 80 through 99 are both. Within business, the course numbers indicate the particular area: 40s-accounting and related areas, 50s-finance, 60s-management, and 70s-marketing.

ECONOMICS

101-102. Introduction to Economics.

Spring. Credits: 4.

Degree Requirements: Social Science.

Degree Requirements for Economics 101: F2 (some sections), F8.

A survey of economic analysis and institutions combining economic theory with a discussion of applications to the U. S. economic system for majors and non-majors. First semester (microeconomics): Study of the behavior of consumers and firms in competitive and noncompetitive markets, and the consequences of this behavior for resource allocation and income distribution. Consideration of government's role in competitive and noncompetitive markets. Second semester (macroeconomics): Study of the determination of the domestic levels of income, output, employment and prices; study of international trade and finance. Consideration of economic growth and international trade. Must be taken in sequence, but students can take Economics 101 without taking 102.

205. Public Economics.

Spring. Credits: 4.

An examination of public sector economics. The structure of the major revenue

raising and expenditure operations of the government will be analyzed using microeconomic tools to determine their allocative and distributive effects. Additional topics include an introduction to public choice theory and an examination of market failures and public policy responses to them. Typically offered every other year.

Prerequisites: Economics 101-102 or may be taken concurrently with Economics 102.

210. International Economics.

Fall. Credits: 4.

A study of the theory, institutions, and commercial policies of international trade and finance. Barriers to free trade; private and public policies; international monetary problems and solutions with emphasis on balance-of-payments disequilibrium, its causes and adjustments and the current need for international liquidity and monetary reform.

Prerequisites: Economics 101-102.

265. Topics in Economics.

Fall, Spring. Credits: 1-4.

Content of the course varies with instructor. The course may be repeated for credit as long as topics covered are different.

Prerequisites: Economics 101-102 and permission of the instructor.

290. Statistical Analysis for Economics and Business.

Fall, Spring. Credits: 4.

Degree Requirements: F6.

Drawing conclusions from limited information is a common characteristic of decision making in economics and business. Although this course is designed to introduce the student to basic concepts of probability and statistics as applied to topics in Economics and Business, emphasis will be placed on the use of statistical inference to reduce the impact of limited information or uncertainty in decision-making. Topics will include descriptive statistical measures, probability, random variables, probability distributions, sampling distributions, point and interval estimation, hypothesis testing, time series analysis, regression and the use of index numbers.

Prerequisites: Economics 101 or permission of the instructor.

302. Intermediate Macroeconomic Theory.

Spring. Credits: 4.

A study of the determinants of national income, its fluctuation and growth. Contemporary fiscal and monetary theories are analyzed in connection with the causes and control of economic growth and fluctuations.

Prerequisites: Economics 101-102.

307. Managerial Economics.

Fall, Spring. Credits: 4.

Development and practical application of tools of supply, demand, cost, capital, and profit analysis, including quantitative models, to decision-making in a business enterprise. Additionally, a study of the problems of economic measurement and forecasting methods, business planning, product strategy, and location analysis. Extensive use of cases.

Prerequisites: Economics 101-102, and 290.

312. Economic Development.

Spring. Credits: 4.

Problems of economic development and growth; interaction of economic and non-economic factors, population and the labor force, capital requirements, market development, foreign investment and aid, and role of government. Comparison of the growth of advanced and developing economies. Policy measures to promote development and growth.

Prerequisites: Economics 101-102.

323. Classical and Marxian Political Economy.

Fall. Credits: 4.

The writings of Adam Smith and of Karl Marx had a profound and lasting influence on the way people think about the world. The Industrial Revolution that took place in the interim between the publications of the works of these two thinkers literally changed the world. This course focuses on the most important works of Smith and Marx and on the economic events taking place in eighteenth and nineteenth century England that continue to affect the way we think and live. The works of other Classical Economists are also examined.

Prerequisites: Economics 101-102 or may be taken concurrently with Economics 102.

331. Labor Economics.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course covers standard labor economic theory. Topics include market equilibria, the demand for and supply of labor (Including human fertility, human capital, hours of work, and labor force participation), wage levels and differences (Including discrimination), union and government as labor market forces.

Prerequisites: Economics 101.

333. Health Economics.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course covers standard health economic theory. Economic aspects of the production, distribution, and organization of health care services, such as measuring output, structure of markets, demand for services, pricing of services, cost of care, financing, mechanisms, and their impact on the relevant markets.

Prerequisites: Economics 101.

339. Economic History.

Fall. Credits: 4.

Degree Requirements: F2, F3

This course uses the tools of economic analysis to explore the long-run determinants of economic growth and the implications for policymaking today. Focus is on long-run economic change and the development of the American economy. Specific topics include the history and development of economic institutions, the American colonial experience, early American industrialization, slavery, the Progressive Era, the Great Depression, and the Southern economy. Course includes a trip to the downtown Cotton Museum.

Prerequisites: Economics 101. Economics 102 highly recommended.

407. Game Theory.

Fall. Credits: 4.

The issues of strategic interaction and information asymmetry have come to the forefront of virtually every functional field in economics and business. This course represents an introduction to how game theory is used as a tool to model and to solve questions of strategy as they arise in a variety of economic situations and events in the world. Modeling topics to be covered are strategic and extensive form games, Bayesian decision-making, and evolutionary stability. Possible applications include bargaining, international collective action, the credibility of macroeconomic policy, learning, and signaling.

420. Econometrics.

Fall. Credits: 4.

Economic theory is mainly concerned with relations among variables. Econometrics is concerned with testing the theoretical propositions embodied in these relations to show how the economy operates, and with making predictions about the future. Topics covered in this course include the general linear model, qualitative variables and time series analysis.

Prerequisites: Economics 101-102, 290, and Math 115.

450. Washington Semester: Economic Policy.

Fall, Spring. Credits: 12 or 16.

A sixteen-week study of the making of economic policy in Washington, D.C. in conjunction with American University. Consists of an 8-credit seminar, a 4-hour internship and an optional 4-hour research project. Those not choosing a research project may enroll in another course. All credit is reckoned as transfer credit.

Prerequisites: Consent of Department. Special financial arrangements with the College are required.

475. Interdisciplinary Senior Seminar in Economics and International Studies.

Fall. Credits: 4.

Senior Seminar offers students the opportunity to integrate and extend their understanding of the various areas of International Studies and Economics. The course will be taught through a collaboration of one instructor from the International Studies Department and one Economics instructor. The student will participate in the International Studies Senior Tutorial and meet with the Economics instructor in order to prepare a Senior Paper on a topic of the student's choice and both faculty members' approval. Students will present their completed research in the Senior Seminar in Economics in the following semester. The course is open to Economics and International Studies Interdisciplinary majors only.

Prerequisites or Corequisites: Economics 407 or 420 and senior standing.

486. Senior Seminar in Economics.

Spring. Credits: 4.

Senior Seminar offers students the opportunity to integrate and extend their understanding of the various areas of economic theory and policy studied as an Economic Major. The focus of the seminar is development of the ability to critically appraise analytical models' appropriateness and usefulness. Students will discuss, present and defend economic policy and research.

Prerequisites: Economics 290, 307; 407 or 420 or permission of the instructor; senior status.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-4.

Open to candidates for Honors in Economics or Business.

Prerequisites: Departmental permission.

BUSINESS

241. Financial Accounting.

Fall, Spring. Credits: 4.

Principles of financial accounting that are used to communicate financial information to external parties. The study of financial accounting provides a strong foundation for future courses in business and finance. The student is introduced to accounting concepts, how to record transactions for the three legal forms of business organizations, and how to prepare financial statements. Use is made of tutorial software.

243. Cost Accounting.

Fall, Spring. Credits: 4.

Analysis of cost accounting techniques and applications relative to managerial planning, control, and decision-making. Topics include measurement of unit costs, control of operating costs, incremental decision-making, production cost reports, cost variances, and profit planning. Computer spreadsheets and cases are used to analyze cost accounting data and to simulate managerial accounting decisions.

Prerequisites: Business 241.

246. Law of Basic Commercial Transactions.

Spring. Credits: 4.

Introduction to legal concepts in those areas of the law essential to commercial transactions, including creation and performance of contracts for the sale of goods and other property, negotiable instruments, real and personal property, leases, and wills and estates. The course will be taught largely utilizing the case method and problem approach, with an emphasis on how legal concepts are applied to specific factual situations.

260. Career Planning.

Fall, Spring. Credits: 2 for one semester; 2 for second semester.

This course provides an opportunity for sophomores and juniors across the curriculum to begin to contemplate how they can apply the skills and knowledge they have acquired in their coursework thus far, and the courses they plan to take in the future, to a real-world organization. Through off-campus shadow experiences and a self-assessment, students explore who they are, what they want, what their life's work should be and whether there are opportunities for positions in work organizations that match their interests and abilities. To qualify for this course, the students must have completed at least one full year of undergraduate coursework.

261. Business Ethics.

Spring. Credits: 4.

Degree Requirements: Humanities.

Topics covered in this course include: ethical theory, gender and diversity issues, worker safety, international business ethics, regulation, insider trading, product safety, labor conflict and strikes, and a number of others that are either programmed or raised by students. Students will be called upon to understand and apply philosophical, economic and sociological concepts related to ethical reasoning and argument to business decision-making and conduct. Case material, videos, class

discussion, and student presentations will be used to supplement readings.

265. Topics in Business.

Fall, Spring. Credits: 1-4.

Content of the course varies with instructor. The course may be repeated for credit as long as topics covered are different.

Prerequisites: Economics 101-102 and permission of the instructor.

341-342. Intermediate Accounting Theory.

Fall, Spring. Credits: 4-4.

Accounting theory, from both the theoretical and practical viewpoints. Covers the foundation of accounting theory, the accounting and reporting process, and the impact of the recent pronouncements from FASB, AICPA, AAA, and SEC. Should be taken in sequence.

Prerequisites: Economics 101-102 and Business 241. Business 243 recommended.

345. Federal Income Tax.

Fall. Credits: 4.

An introduction to the principles of taxation applicable to individuals and businesses, including determination of income, deductions, exemptions, capital gains and losses, depreciation, employee expenses, alternative minimum tax, and property transactions. The course emphasizes taxation of individuals, but introduces corporate and partnership taxation as well. Coverage includes the theory and purpose of taxation, the impact of taxes on management decisions, and the evolution of the tax system over time. A computer tax service and a computer tax preparation program are utilized for tax research and simulation of financial decisions involving complex tax issues.

Prerequisites: Economics 101-102 and Business 241.

351. Financial Management.

Fall, Spring. Credits: 4.

The main objectives of the financial manager are to plan for, acquire, and use funds in an efficient manner in order to maximize the value of the firm. This course introduces the discounted cash flow model, modern portfolio theory, the capital asset pricing model, and the static theory of capital structure. Major topics covered include decision-making under uncertainty, cost of capital and valuation, history of capital markets, and financial analysis. Students are introduced to computerized financial spreadsheets, case studies, and contemporary financial issues.

Prerequisites: Economics 101-102, 290, and Business 241.

361. Management of Organizations.

Fall, Spring. Credits: 4.

Survey of organizational behavior and organization theory. Initially, the course covers fundamental issues such as theory construction, the difference between theoretical and non-theoretical models and theory testing as a basis for analyzing management models. The second part of the course focuses on micro issues such as theories of work motivation, leadership and selected topics such as tokenism and political behavior. The third part of the course deals with macro issues such as organizational structure, technology/work design, intra-organizational conflict, and the organizational/environmental interface. Throughout the second and third parts of the course, both theory application and theory evaluation are emphasized.

Prerequisites: Economics 101 or permission of instructor.

371. Marketing Management I.

Fall. Credits: 4.

An introduction to the study of marketing as an exchange process: the theoretical underpinnings of how transactions in the marketplace are initiated, motivated, facilitated, and consummated. Topics include the basic role marketing plays in the economy; the ways marketing is planned and executed; students gain experience in applying marketing theory by competing in a computer simulation.

Prerequisites: Economics 101 or the permission of the instructor.

375. Business Research.

Fall or Spring. Credits: 4.

An examination of the strengths and limitations of business research, including the impact of research on managerial decision-making. Topics covered will include research design, sampling, psychological measurement, survey and experimental methodology, and statistical analysis of business market data. Students conduct research and present findings on a consulting basis to a local business.

Prerequisites: Economics 290 and two of the following: Business 351, 361, 371.

448. Auditing.

Spring. Credits: 4.

Conceptual approach to auditing process, procedures, communications and professional environment which includes auditing standards, legal responsibilities and professional ethics.

Prerequisites: Business 341-342.

452. Financial Cases and Asset Valuation.

Fall. Credits: 4.

Application of financial theories introduced in Financial Management (Business 351) to actual business problems using quantitative and qualitative techniques. Presented with debatable alternatives, students analyze, choose, and defend their ideas and a course of action. Corporate finance theories are reexamined in conjunction with their related cases. Case topics include financing current operations, long-term financing, investment decisions, signaling with dividend and debt policies, and mergers and acquisitions. Contemporary corporate financial issues are examined, as well as financial ethics. Extensive use of computerized financial spreadsheets. Students are organized into teams for case preparation. Course is taken concurrently with Cases in Strategy in order to examine the connections between financial value and strategic planning.

Prerequisites: Business 351. Must be taken concurrently with Business 472: Cases in Market Strategy and Value Analysis.

452. Cases in Managerial Finance.

Fall. Credits: 4.

Prerequisites: Business 351. Must be taken concurrently with Business 472.

454. International Finance.

Spring. Credits: 4.

Introduction to the environment of international financial management, including the international monetary system, balance of payments, and parity conditions in the foreign exchange market. Presentation of foreign exchange markets, international investment analysis, international capital markets and derivatives, using concepts learned in Business 351: the efficient market hypothesis, discounted cash flow analysis, modern portfolio theory, and static capital structure theory. Students are also exposed to financial engineering and option theory in order to understand foreign exchange forward and futures contracts and foreign exchange options, which are important hedging securities. Case studies included. Use of computerized spreadsheet required.

Prerequisites: Business 351

460. Internship.

Fall, Spring. Credits: 4 for one semester; 2 for second semester.

Degree Requirements: F11.

The internship program provides an experiential approach to the learning process and affords economics and business students the opportunity to work in both business and nonprofit organizations for academic credit. Internship placements are designed to complement learning goals and career plans by allowing the student to apply theoretical principles learned in the traditional classroom. Placements are arranged by the Director of Career Services and work schedules are arranged by the student and the on-site supervisor. Typically students work on specific projects related to their career interest and compatible with the goals and interests of the sponsoring organization. Other requirements of the internship include submission of a resume and application, interview with the on-site supervisor, participation in classroom seminars which focus on long-term career planning and job search skills, completion of written self-assessment assignments made by the faculty director, and the writing of a comprehensive paper. Internships are available to second-semester junior and senior economics or business majors with possible availability to majors from other departments. Arrangements for internships are made the semester prior to the actual experience. Prerequisite courses appropriate to the specific internship experience are required. Under special circumstances, the number of credit hours may vary from 1 to 6, but under no circumstances will more than 8 credits be allowed to count toward the credits required for graduation.

461. Internships.

Fall, Spring, Summer. Credits: 1.

This internship course is available for students unable to take the class component of Business 460. The program provides an experiential approach to the learning process and affords economics and business students the opportunity to work in both business and nonprofit organizations for academic credit. Students are encouraged to explore areas of possible career interest through internships. Students must work directly with a professor in the Economics/Business Department on an internship that applies the theoretical work taught in classes by that professor. There are requirements for the sponsoring organization and for the student. The student must submit a resume, an application, an interview with the on-site supervisor, and provide a journal, an essay, and any other assignments required by the supervising professor. This internship program is limited to majors in this department. The course must be taken pass/fail.

463. International Management.

Fall. Credits: 4.

Explores the application of management models to international business decisions in the areas of work design, organizational structure, strategic planning and human resource/personnel management. The focus is on the usefulness of contemporary models across diverse cultural settings as indicated by recent empirical research.

Prerequisites: Business 361.

466. Personnel and Human Resource Management.

Spring. Credits: 4.

An introduction to the functions of personnel/human resource management. Topics covered include human resource planning, training and development, wage and salary administration, selection instrument validation, employee performance evaluation, and employee relations. Special attention is given to the use of information systems for managing personnel functions. A computer/library project that focuses on the relationship between work attitudes and work behavior is required.

Prerequisites: Business 361 and Economics 290 (or Psychology 211).

472. Cases in Market Strategy and Value Analysis.

Fall. Credits: 4.

Focus is on the management of the marketing process in order to develop effective strategies to create consumer value and on the components of market and environmental analysis: customer and competitor, industry, government, and the business itself. Through the use of case studies and computer application, attention is given to the development of an analytical structure for determining acceptable marketing strategies and their financial value.

Prerequisites: Economics 290 and Business 243 and 371. Must be taken concurrently with Business 452: Financial Cases and Asset Valuation.

473. International Marketing.

Spring. Credits: 4.

An introduction to the global marketing environment, with an examination of how international business variables affect the marketing process. Objectives include understanding the differences between domestic and international marketing, providing a framework for analyzing major risks and opportunities in foreign markets, and developing techniques for preparing and implementing strategic marketing plans through the use of case studies.

Prerequisites: Business 371.

486. Senior Seminar in Business.

Spring. Credits: 4.

A study of the theory and practice of setting and administering business policy, this course integrates the student's previous study of economics and business. Emphasis is on appraising a company's performance and strategy considering general social and economic conditions, as well as the internal conditions of the firm; developing objectives, policies and plans; and developing, guiding, and maintaining an administrative organization to carry out the plans and meet the objectives. Pedagogy includes computerized simulation games, computerized spreadsheets, solving case studies in business, and team teaching. Students are organized into teams for case preparation.

Prerequisites: Economics 290 and Business 243, 351, 361 and 371; senior status.

EDUCATION

PROFESSOR

Mark V. Smith. 2001. Distinguished Service Professor of Education and Program Director. B.S., The University of Tennessee; M.Ed. and Ed.D., The University of Memphis.

Rhodes College offers a Minor in Educational Studies which subscribes to the following principles:

- That students enrolled in strong liberal arts programs are best prepared to teach in the PK-12 setting by first earning a baccalaureate degree in their chosen teaching field.
- That for students seeking licensure, the next step should be completion of a graduate degree in a professionally oriented teacher licensure program.
- That by completing the Minor in Education students will be more prepared to select and complete a graduate program in education that is most appropriate for their desired career in education or will be prepared to enter one of the many alternative pathways to a teaching position.

Based upon these principles, the Educational Studies Program at Rhodes has integrated the following attributes into the program:

- The strengths of the liberal arts curriculum of Rhodes College;
- The Vision and traditions of Rhodes College;
- Opportunity for a variety of field experiences in the diverse Memphis and Mid-South Community;
- Engagement with current practitioners in classes and in field experiences;
- The flexibility to tailor the Minor in Educational Studies to fit student interest and career goals (e.g., elementary education, secondary education, higher education, counseling, school psychology, etc.);
- Opportunity for a smooth and successful transition into graduate education programs (for licensure); and,
- A required cumulative experience for research and/or internship in education with the possibility of doing this through a study abroad experience.

REQUIREMENTS FOR A MINOR IN EDUCATIONAL STUDIES

The Minor in Educational Studies requires a minimum of 18 credits:

1. Education 201, 355, and 2 or 4 credits selected from Education 451, 460, or an approved study abroad experience in education.
2. Psychology 222 or Philosophy 270.
3. One course selected from: Psychology 229, 230, 311; Anthropology/Sociology 307; History 244; or Religious Studies 232..

LICENSURE TO TEACH

Licensure to teach is a function of state government offered through colleges and universities approved by their respective state departments and boards of education. Rhodes College has recently elected not to offer a teacher licensure program and recommends that students enrolling in liberal arts colleges like Rhodes seek licensure to teach through enrollment in professionally oriented graduate education programs. Rhodes students interested in earning licensure should meet with the Program Director to explore both traditional and non-traditional paths to licensure.

It should be understood that licensure programs nationwide are currently undergoing numerous and significant changes. Thus, students interested in earning

licensure should stay abreast of changes in the requirements of any state in which they plan to teach. Licensure is generally transferable from one state to another, usually without additional requirements.

See www.rhodes/academics/education.edu. for additional information and for links to state licensing offices and selected graduate education programs.

COURSE OFFERINGS

201. Foundations of Education.

Fall, Spring. Credits: 4

Degree Requirements: Social Science.

Foundations of Education provides an overview of the system of American education and the development and application of current educational practices. Specific course topics include: history and philosophy, legal and political aspects, school finance, professional expectations, best practices, and specific challenges related to teaching and learning in today's society.

355. Principles of Curriculum and Instruction.

Spring. Credits: 4.

This course focuses on the development of the pedagogical knowledge, skills, and dispositions appropriate for successful teaching and provides opportunities for the student to apply the principles learned in the course. Special attention is given to the Ten Core Principles developed by the Interstate New Teacher Assessment and Support Consortium (INTASC). The Curriculum and Instruction course is a service learning course in that each student is required to serve as a tutor in a PK-12 setting.

Prerequisites: Education 201 and junior standing.

451. Directed Research.

Spring. Credits: 2 or 4.

Degree Requirements: F11.

Students enrolling in the Directed Research course propose a research topic to the Education Program Director and once approved, conduct appropriate research on the topic. The course serves as a cumulative experience for the Minor in Education. Requirements will vary as to the selected topic and will include: regular meetings with the assigned faculty member, scholarly research, a mid-term report, and a final written report. An oral presentation will be made to an appropriate group or class.

Prerequisites: Education 201 and 355, junior/senior standing, and presentation of an acceptable prospectus for the research project.

460. Internship in Education

Spring. Credits: 2 or 4.

Degree Requirements: F11.

The Internship in Education is arranged on an individual basis and is designed to meet the identified needs and/or interests of the student. The internship serves as a cumulative experience for the Minor in Education. The internship will have a specific focus and the enrolled student will complete a minimum of 40 hours of field experience per credit earned as well as a scholarly reflective paper. An oral report will be made to an appropriate class or group.

Prerequisites: Education 201 and 355, junior/senior standing, and presentation of an acceptable prospectus for the internship.

British Studies at Oxford. This summer study program offers more courses in English literature than in any other discipline. Credit earned in the program is directly credited as Rhodes College work. Professor Michael Leslie, a member of the English department, serves as Dean of the program, which is more fully described in the section concerning Foreign Study.

The Writing Center. The department oversees a writing service available to all Rhodes students. Student tutors, all English majors, are available daily to assist students with written work. The Writing Center will report the results of the tutoring to the professor for whom the written work is done.

REQUIREMENTS FOR A MAJOR IN ENGLISH

A total of fifty (50) credits as follows:

Track I: Concentration in Literature

1. Three (3) courses in English literature written before 1800, at least two of which must be at the 300 level (i.e., 230, 260, 315-341)

COURSE OFFERINGS

Unless otherwise noted, these courses are taught every year and in the semesters indicated.

FIRST-YEAR WRITING COURSES**151. First-Year Writing Seminar.**

Fall, Spring. Credits: 4.

Degree Requirement: F2.

A course that develops the ability to read and think critically, to employ discussion and writing as a means of exploring and refining ideas, and to express those ideas in effective prose. Individual sections of the course will explore different topics in reading, discussion, and writing. Topics are selected by individual professors and are designed to help students develop transferable skills of analysis and argumentation, applicable to the various disciplines of the liberal arts and sciences. Several papers will be required, at least one of which will involve use of the library and proper documentation. The seminar will emphasize successive stages of the writing process, including prewriting, drafting, and revision, and will provide feedback from classmates and the instructor.

155. First-Year Writing Seminar: Daily Themes.

Fall, Spring. Credits: 4.

Degree Requirement: F2.

An alternative to English 151 offered to outstanding first-year writers, by invitation only. The course is limited to 12 students who meet as a group once a week and individually with the instructor once a week. Students will turn in 5 one-page themes each week. Some research and writing will be required, and students will use their daily themes as the basis for two longer papers: one at mid-term and the other at the end of the semester.

INTRODUCTORY AND ADVANCED WRITING COURSES**200. Introduction to Poetry Writing: Form, Theory, Workshop.**

Fall, Spring. Credits: 4.

A study of poetic form and theory, leading to a workshop in which students present their own poems for discussion.

Prerequisites: English 151 or the permission of the instructor.

201. Introduction to Fiction Writing: Form, Theory, Workshop.

Fall, Spring. Credits: 4.

A study of narrative form and theory, leading to a workshop in which students present their own fiction for discussion.

Prerequisites: English 151 or the permission of the instructor.

203. Introduction to Dramatic Writing.

Fall. Credits: 4.

A study of the problems, vocabulary, and tools of writing for the stage. Workshop and presentation of scenes and short plays. Cross-listed with Theater 250.

Prerequisites: English 151 or the permission of the instructor.

204. Introduction to Screenwriting.

Fall, Spring. Credits: 4.

An introduction to the basic three-act film structure. Students will read and view various screenplays and films, and develop their own film treatment into a full-length script.

Prerequisites: Must have taken a creative writing or film studies class.

300. Advanced Poetry Workshop I: Form.

Fall. Credits: 4.

Study of prosodic tradition, with an emphasis on the evolution of form as an organic process. Students will develop their own writing practices, both within received forms and by conceiving forms appropriate to their own styles. Study of poets in translation and those writing in English, across cultures and periods.

Prerequisites: English 200 and permission of the instructor.

301. Advanced Fiction Workshop I: Narrative Form.

Fall. Credits: 4.

Practice in the craft of fiction with an emphasis on elements of narrative form, including point of view, character development, plot, temporality, and tone. Includes study of narrative form and close readings of contemporary short fiction.

Prerequisites: English 201 and permission of the instructor.

310. Advanced Poetry Workshop II: Theory.

Spring. Credits: 4.

Students will work to develop their own poetry, and consider and discuss their own ideas on aesthetics, as they read and discuss theories of poetry. Study of selected essays, excerpts and letters by writers such as Aristotle, Berryman, Brooks, Coleridge, Eliot, Hass, Keats, Lawrence, Lowell, Olson, Pound, Rilke, Shelley, Stevens, Williams, and Wordsworth. Readings of selected poems in translation and in English, across cultures and periods.

Prerequisites: English 200 and permission of instructor.

311. Advanced Fiction Workshop II: Theory.

Spring. Credits: 4.

Practice in the craft of fiction with an emphasis on narrative theory and the historical development of the short story. Students will develop their own fiction while examining short fiction from all periods of the preceding century, thereby placing their own art within its historical context. Includes study of literary movements and narrative theory.

Prerequisites: English 201 and permission of instructor.

481-482. Senior Writing Project.

Fall, Spring. Credits: 0-2.

Enrollment by special application only. This is a two-semester course in which students create and assemble a substantial manuscript of writing in their major genre. Interested students will submit an application for entry into this course at the start of the senior year. See the Director of the Concentration in Literature and Creative Writing for information on the application process.

Prerequisites: Any 200-level literature course or permission of instructor.

336. Literature and Landscape, 1500-1800.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course investigates two closely related subjects: English literature's response to changing ideas of nature and the landscape; and the response of

designers of English landscapes and gardens to literature. Material studied will range from Shakespeare to Wordsworth, including both the acknowledged literary greats and lesser-known writers of the 17th and 18th centuries.

Prerequisites: Any 200-level literature course or permission of instructor.

340. Restoration Literature.

Fall. Credits: 4.

Degree Requirements: Humanities.

Literature, principally drama, of the Restoration and late seventeenth century. Authors include Dryden, Rochester, Wycherley, Etherege, Congreve, Otway, Farquhar, Behn, Vanbrugh.

Prerequisites: Any 200-level literature course or permission of instructor.

343. Studies in Eighteenth-Century Literature.

Spring. Credits: 4.

Degree Requirements: Humanities.

A course in British poetry, non-fiction prose and drama. In a given year, the course might offer either a complete survey of the period or a thematic focus. Areas of focus would include shifts in poetic sensibility, the growth of a national consciousness, the role of religion in literature, and the propagation of print culture. Authors include Montague, Pope, Johnson, Boswell, Burney, Addison, Steele, and Cowper.

Prerequisites: Any 200-level literature course or permission of instructor.

345. Eighteenth-Century British Fiction.

Spring. Credits: 4.

Degree Requirements: Humanities.

The eighteenth century saw the emergence of the novel in its modern form. As a result eighteenth-century novels are all, in different ways, experimental, testing and developing the strategies of narration that characterize realist fiction. The course will study a range of novels, as well as debates among critics who have tried to account for the rise of the novel during this period in history. Readings may include work by Defoe, Richardson, Fielding, Smollet, Burney, Radcliffe, and Austen.

Prerequisites: Any 200-level literature course or permission of instructor.

350. Romantic Poetry and Prose.

Fall. Credits: 4.

Degree Requirements: Humanities.

A course in British poetry, drama, fiction and non-fiction prose between 1780s and 1830s. Particular prominence will be given to historical and cultural changes in the period--movements of revolution and reaction--and the emergence or redefinition of aesthetic concepts. Writers include Barbauld, Godwin, Wollstonecraft, Smith, Wordsworth, Coleridge, Byron, Shelley, Keats, and De Quincey.

Prerequisites: Any 200-level literature course or permission of instructor.

351. Victorian Poetry and Prose.

Spring. Credits: 4.

Degree Requirements: Humanities.

The period 1837-1901 (the reign of Victoria) witnessed the industrial transformation of Britain as well as the often bitterly contested expansion

of Britain's global empire. Poets and essayists addressed this changing social landscape, and an expanding reading public often turned to their work for guidance in a changing world. This course will study major poems and essays of the period. Possible authors include Tennyson, Carlyle, Mill, Arnold, Elizabeth Barrett Browning, Robert Browning, Christina Rossetti, Ruskin, Eliot, Pater, Wilde.

Prerequisites: Any 200-level literature course or permission of instructor.

355. Nineteenth-Century British Fiction.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

A study of major works, with particular attention to changes in reading habits and publishing practices that altered the shape of the novel during this period. Readings may include work by Austen, Scott, Dickens, Brontë, Thackeray, Collins, Eliot, Hardy, and Gissing.

Prerequisites: Any 200-level literature course or permission of instructor.

360. American Romanticism.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

An advanced study of US poetry, fiction and non-fiction produced between 1820 and 1875. The course will trace the influence on the American imagination of British Romanticism and American Transcendentalism and also chart the rise of a distinctly American literary tradition. Course discussion will also address the political, historical, and cultural forces that shaped the writing of the period, as well as consider the lingering effects of Puritanism and Enlightenment philosophy. Authors may include Emerson, Thoreau, Melville, Hawthorne, Douglass, Whitman, Dickinson, and Stowe.

Prerequisites: Any 200-level literature course or permission of instructor.

361. American Realism and Naturalism.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

An advanced study of literature -- primarily novels and short stories - produced in post-Civil War America. Prompted by post-war disillusionment and the rapid and dramatic changes in American culture, this period saw the concurrent and overlapping emergence of realism and naturalism as well as an increased interest in a regionalist aesthetic. Authors may include Twain, Howells, Chesnutt, James, Jewett, Chopin, Crane, Norris, and Dreiser.

Prerequisite: Any 200-level literature course.

362. American Modernism.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

An advanced study of important US poetry, drama, fiction, and non-fiction produced between 1900 and 1945. The course will examine these works within the cultural dominant of modernism, which sought to articulate the urgent sense of dislocation and contemporaneity that characterized early twentieth-century experience. The course will ground its exploration of modernist stylistic and aesthetic innovations within the context of the prevailing philosophical, political, historical, and cultural realities of the period. Authors could include Frost, Dos Passos, Eliot, Fitzgerald, Hemingway, Stevens, Cather, Hughes, Faulkner, and Welty.

Prerequisite: Any 200-level literature course.

363. Topics in Twentieth-Century British Literature.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

An in-depth examination of a specific topic pertaining to British literature and/or culture of the twentieth and twenty-first centuries. Topics may focus on specific periods, movements, genres or authors. Sample topics: Modernist Poetry, Multicultural British Literature, Postmodern British Literature, British Cultural Studies, Joseph Conrad, Virginia Woolf.

Prerequisite: Any 200-level literature course or permission of the instructor.
Course repeatable for credit with different topic.

364. African-American Literature.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

A study of the works, mainly twentieth-century fiction, of black writers in America. Analysis of the artistic expression and vision of such writers as Chesnutt, Ellison, Hughes, Gaines, Brooks, Marshall, Walker, and Morrison will include an exploration of black aesthetics, as well as an investigation of the ways in which these authors treat personal, racial, historical, political, and gender-based issues.

Prerequisites: Any 200-level literature course or permission of instructor.

365. Twentieth-Century British Fiction.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

A study of major works, with particular attention to literary modernism—its rise, reception, and wake—within the context of its cultural and socio-historical frameworks. Readings may include work by Conrad, Ford, Forster, Greene, Joyce, Lawrence, Rhys, Waugh, Woolf, and other authors from more recent decades.

Prerequisites: Any 200-level literature course or permission of instructor.

370. American Postmodernism and Beyond.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

This course will examine fiction, poetry, and drama published between the years following World War II to the present day. The works will be read against the backdrop of the decline of modernism and European colonialism and the subsequent rise of postmodernism and its many attendant sub-movements. Authors could include Lowell, Ellison, Mailer, Bellow, Sexton, Pynchon, Barth, O'Connor, Updike, Oates, Roth, Morrison, and Wallace.

Prerequisites: Any 200-level literature course. Majors only.

373. Developments in Contemporary Literature.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

A study of the emergence of new writers after 1945, with close analysis of poems, works of fiction and plays. May be repeated with different topic.

Prerequisites: Any 200-level literature course or permission of instructor.

375. Topics In Postcolonial Literature.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course investigates crucial contemporary issues in postcolonial literature

and theory. Topics will vary by year, though each will explore various voices, relations, and movements that comprise the literature of the postcolonial Other. Sections might center on specific geopolitical regions (i.e. literatures of the Caribbean, Africa or South Asia), groups of writers (ie, postcolonial women and literature), genre (i.e. postcolonial poetry) or thematic concerns. Other sections might provide an overall introduction to postcolonial texts and theory.

Prerequisites: Any 200-level literature course or permission of instructor. Repeatable for credit with different topic.

380. Topics in Literary Study.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

Exploration of special topics at a level designed for English majors. Content will vary from year to year. Course may be repeated for credit with a different topic.

Prerequisites: Any 200-level literature course or permission of instructor.

385. Topics in Advanced Literary Study.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

The focused exploration of special topics or critical problems in literary study. Topics will vary from semester to semester, and may include the intensive study of major authors, literary genres or movements, historical contexts of imaginative expression, significant themes, or critical methodologies. Courses include the study of critical texts and issues that are central to defining and interpreting their literary topic. Seminar format. Repeatable for credit with different topic.

Prerequisites: Any 200-level literature course or permission of instructor. Majors only.

483-484. Senior Paper.

Fall, Spring. Credits: 0-2.

For majors in the literature concentration. An independent project in which students will produce a sustained work of literary criticism on a topic of their choosing.

485. Senior Seminar: Critical Theory and Methodology.

Fall, Spring. Credits: 4.

An examination of selected developments in contemporary critical theory and their impact on the teaching and study of literature. Senior English majors only.

Prerequisites: English 385 or permission of instructor.

Satisfies the Senior Paper requirement. For seniors only.

Prerequisites: English 399.

INSTRUCTOR

Carol L. Ekstrom. B.S., Beloit College; M.S., George Washington University. (Department of Physics, Geology.)

The Earth System Science minor is described in the section on Interdisciplinary Study.

COURSE OFFERINGS**111. Earth System Science.**

Fall. Credits: 4.

Degree Requirements: Natural Science, F7.

A study of the dynamic interaction of earth, water, air, and life. Emphasis is placed on the geology of the mid-south, and the ways that geological knowledge is acquired. Three hours of lecture and three hours of lab per week, plus a week-end field trip to the Ouachita Mountains. (Course offered in alternate years, scheduled for 2008-2009.) Not open to seniors.

112. Evolution of the Earth.

Spring. Credits: 4.

Degree Requirements: Natural Science, F7.

The origin and evolution of the earth as revealed by the rocks and fossils of the earth's crust. A regional analysis of selected areas of North America is related to the broader context of global tectonics. Three hours of lecture and three hours of lab per week, plus a weekend field trip to northeastern Mississippi. (Course offered in alternate years; scheduled for 2008-2009.)

116. Global Environmental Change.

Fall, Credits: 4

Degree Requirements: Natural Science, F7.

A survey of the underlying scientific basis of the issues involved in global environmental change: greenhouse warming, biogeochemical cycles, ozone depletion, sea-level rise, fresh-water, energy resources, and toxic-waste concerns. The laboratory portion of the course involves computer modeling of relevant global systems. (Course offered in alternate years, scheduled for 2007-2008.) Not open to seniors.

214. Environmental Geology.

Spring. Credits: 4.

Degree Requirements: Natural Science, F7, F11.

The application of geologic principles to understand the response of our environment to natural and anthropogenic forces of change. Emphasis is placed on sustainability, and the hydrologic cycle. Local environmental topics will be analyzed spatially using GIS (geographic information system).

A service-learning component of the course focuses on both campus environmental audits, and local environmental problems. Three hours of lecture and three hours of lab per week. (Course offered in alternate years, scheduled for 2007-2008). Not open to seniors.

301. Special Problems in Geology.

Fall, Spring. Credits: 1, 2, or 4.

An opportunity to do research on current problems in geology.

Prerequisites: Geology 111 or 116, and approval of instructor.

460. Internship in Geology.

Fall, Spring. Credits: 4.

A program designed to introduce students to the practical applications of their academic studies. Students may work with professionals in such agencies as the U. S. Geological Survey, USGS Water Resources Division, and the Center for Earthquake Research and Information (CERI). A written and oral presentation is required at the end of the internship integrating the student's academic work and the internship project.

Honors in Greek and Roman Studies

Detailed information about graduating with honors in Greek and Roman Studies is available from the department. Only students with a minimum overall GPA of 3.5 and a GPA within GRS of 3.7 by the end of the fall semester of their junior year will be eligible to pursue honors. In addition to fulfilling the requirements for the major with a concentration in either Greek, Latin, Classical Studies, or material culture, students seeking honors will be expected to complete the following additional work:

1. GRS 495-496: Honors Tutorial. (GRS 496 will count as the senior tutorial for those students attempting to graduate with honors.)
2. An honors thesis or project that demonstrates an exceptional understanding of one or more aspects of the ancient world. Such a project might take the form, for example, of a written thesis, an analysis of archaeological fieldwork, or the production of a tragedy or comedy.

Programs Abroad

To help students experience the artifacts of the Greeks and Romans and other Mediterranean cultures in the areas where they lived, GRS organizes, supports, and recommends a number of opportunities for travel-study abroad. As described below in the descriptions for GRS 305 and Latin 232, the department regularly offers courses that involve travel and study in Greece, Italy, and other countries in the Mediterranean and Middle East. With colleagues from other institutions faculty members from GRS also contribute to collaborative initiatives that provide opportunities for research, for example, in archaeological excavations and surveys during the summer at Hacımusalar in southwestern Turkey. With the University of the South, Rhodes sponsors European Studies, which features course work at the University of the South and Oxford in conjunction with visits to sites in Great Britain, Italy, Greece, and Turkey. (More information about European Studies is available in the catalog in the section on "Opportunities for Study Abroad and Off-Campus Study.") Finally, the college is a member of the American School of Classical Studies in Athens and the Intercollegiate Center for Classical Studies in Rome, which operate centers for study and research in Greece and Italy respectively.

COURSE OFFERINGS

245. Texts and Contexts.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

Topics in Greek and Roman literature organized chronologically, thematically, generically, or by geographic region. Topics might include literature of the fourth century BCE, love and gender, the ancient novel, or Alexandrian authors. The course aims to introduce students to the basic methods of reading and writing critically but with an emphasis on the special qualities of ancient texts (production and reception, e.g.). Background in the cultures of Greece and Rome will be offered as necessary to understand the texts in their cultural context. Students may take this course more than once if topics change.

250. Serving Gods: Religion in Ancient Greece and Rome.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

This course will use documents and material artifacts to reconstruct the beliefs and rituals of the traditional religions of Greece and Rome. The approach will focus on particular shared aspects of the sacred among the Greeks and Romans. Topics will include Greco-Roman theology, sacrifice and its interpretation, hero cult, the afterlife, oracles and forms of prophecy, maintenance of sanctuaries, philosophical religion and emperor worship.

255. Myth in Ancient Greece and Rome.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

A study of the *mythoi* from ancient Greece and Rome as transmitted in a variety of multiforms in the literary and the plastic arts, including those from the ancient period and modern adaptations. The course aims to familiarize students with both the basic Greek and Roman myths as well as the major schools of myth interpretation. Interpretative traditions to be covered may include those of the myth and ritual school, the psychoanalysts, and the structuralists.

260. Poetry in Performance.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

This course will examine the relationship between the evolution of poetic genres and the contexts of performance. The approach and range of topics will change from year to year. Examples of topics include Homeric poetry and the role of the oral tradition in the definition and maintenance of communities during the Archaic period; lyric poetry and the function of the *persona loquens* in the *polis*; Athenian tragedy and comedy as a reflection of the cultural, economic, and political concerns of Attika and the greater Greek-speaking world; Roman comedy and the interaction between Greek and Roman cultural norms. Students make take this course more than once if topics change.

275. Introduction to Classical Studies.

Spring. Credits: 4.

This course introduces students to the study of the ancient world and its documentary and non-literary domains. Within the former domain, topics of study will include the nature of ancient written texts, scholia, lexica, grammars, commentaries, interpretive analyses, bibliographies, manuscript traditions, and modern scholarly resources. With regard to the non-literary sources of information, students will become familiar with the types of material artifacts used to study the cultures of ancient Greece and Rome and the theoretical approaches to the study. Although students may take this course at any time, majors must take this course before they enroll in GRS 475, which they will normally take in the spring semester of the senior year.

283. Introduction to Study in Europe, the Mediterranean, and the Near East.

Spring. Credits: 1.

This course prepares students to participate in Latin 232: Latin in Rome, GRS 305: Travel-Study in Europe, the Mediterranean, and the Near East, the classical track of European Studies and other opportunities for travel-study, for example, archaeological field schools and trips to museum collections. This course generally focuses on one country or region (e.g. Egypt, Greece, Italy, or Turkey) each time it is offered. Weekly meetings will cover introductory material on a variety of topics that will prepare students for their travel-study experience. Students will be expected to complete a number of relevant readings, participate in discussions, and attend lectures and other cultural activities.

305. Travel-Study in Europe, the Mediterranean, and the Near East.

Summer. Credits: 4.

Degree Requirements: Fine Arts.

This course offers an intensive introduction to the material culture of ancient Mediterranean and Middle Eastern countries. The course generally focuses on one country, e.g., Egypt, Greece, Italy, or Turkey) each time it is offered. Through visits to archaeological sites and museums, the course will cover the evolution of art, architecture, and other aspects of material culture beginning with the period of the earliest human presence and, depending on the region, working through societies of the first millennium CE. The course of travel and study generally lasts four weeks. If possible, students should enroll in at least one of the following courses as preparation for this course: Art 220, 231, 318, 319, 320, History 205 (when appropriate). Students make take this course more than once if the itinerary changes.

361. GIS and Mediterranean Archaeology.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course introduces students to the methods, theories, and practices associated with primary (field or lab) and secondary (library) research in archaeological survey with an emphasis on the use of information technologies, primarily geographical information systems (GIS). Permission of the instructor is required for this course.

475. Senior Seminar.

Spring. Credits: 4.

This course represents the capstone experience for all majors in GRS. Although the specific topic of study will vary from year to year depending on the interests and goals of the participants, students will engage in a significant scholarly investigation into some aspect of the ancient world. The students' work must reflect an engagement with primary materials and their familiarity with and ability to use secondary resources. Students are encouraged to select topics that reflect their interests and postgraduate plans and incorporate their work as majors and minors in fields other than GRS. Normally, the project will culminate in a research paper, but other products are possible, such as a creative work. Generally, seniors will present the results of their work in an oral presentation for other students and faculty members at an event scheduled on campus or at a conference for undergraduate research.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-4.

These courses are for students working on an honors project as described above. Permission of the advisor is required for enrollment in these courses.

GREEK

101-102. Elementary Greek.

Fall, Spring. Credits: 4-4.

This series of courses introduces students to the fundamentals of the ancient Greek language. Although the primary goal of the elementary sequence of courses through Greek 201 is to prepare students to use ancient Greek documents in a wide variety of academic contexts, students will develop all four language skills: reading, writing, listening, and speaking.

201. Intermediate Greek.

Fall. Credits: 4.

This course concludes the elementary language sequence and prepares students for more advanced work in the language. During this course students will make the transition from graded selections in the elementary texts to authentic ancient texts primarily from the fifth and fourth centuries BCE. In addition to developing their ability to comprehend and interpret ancient texts, students will continue to work on their aural-oral proficiency.

265. Topics in Greek Literature.

Fall, Spring. Credits: 1-4.

Degree Requirements: Humanities.

In this course advanced students of ancient Greek will read and analyze texts from major works of literature. It will feature materials organized thematically, generically, by period, or by author. Texts in this course will generally represent

significant documents for the study of the cultural and literary history of the Greek society and may also be the subjects of study in other courses offered at Rhodes both by GRS and other disciplines. The course will help students develop greater reading fluency and expand their understanding of interpretative approaches. The course will generally be taught as a four-credit course. Students in special circumstances may take the course for one, two, or three credits with the permission of the instructor. The course may be repeated for credit if the topic differs.

Prerequisites: Greek 201 or the equivalent.

291/391. Homeric Poetry.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the earliest literary documents in the Greek language, the poems attributed to Homer. Readings will come primarily from the *Iliad* and *Odyssey*, but students should expect to do some work with the Hymns and the Hesiodic corpus as well. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the Archaic Period of Greek history as well as the issues of composition and transmission. Students will also become familiar with current interpretative approaches to the material.

Prerequisites: Greek 265 or equivalent. Some familiarity with Greek history is strongly advised. Permission of the instructor is required.

292/392. Greek Lyric Poetry.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the evolution of major types of Greek poetry, including elegy, monodic lyric, and choral lyric. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context of the Archaic Period. Students will also become familiar with current interpretative approaches to the material.

Prerequisites: Greek 265 or equivalent. Some familiarity with Greek history and Homeric poetry is strongly advised. Permission of the instructor is required.

293/393. Greek Comedy.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the work of the Athenian comic playwrights. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the 5th and 4th centuries BCE. Students will also become familiar with the current interpretative approaches to the material.

Prerequisites: Greek 265 or equivalent. Some familiarity with Greek history, Homeric poetry, the work of the lyric poets, and the literature of the 5th century is strongly advised. Permission of the instructor is required.

294/394. Literature of the 4th Century BCE.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the work of the Athenian historians, orators, and philosophers who were active in the 4th century BCE. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at their home institutions. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the 4th century BCE. Students will also become familiar with the current interpretative approaches to the material.

Prerequisites: Greek 265 or equivalent. Some familiarity with Greek history, Homeric poetry, the work of the lyric poets, and the literature of the 5th century is strongly advised. Permission of the instructor is required.

295/395. Hellenistic Literature.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the evolution of Greek literature during the Hellenistic period, which begins with the conquest of Alexander the Great and the founding of the Museum at Alexandria by Ptolemy I Soter. Students will read and study the works of the major authors of the period: Callimachus, Theocritus, and Apollonius of Rhodes as well as epigrams from other writers including Meleager, Philodemus, and Posidippus. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context of the Hellenistic Period. Students will also become familiar with current interpretative approaches to the material.

Prerequisites: Greek 265 or equivalent. Some familiarity with Greek history, Homeric poetry, the work of the lyric poets, and the literature of the 5th century is strongly advised. Permission of the instructor is required.

415. Tutorial Assistantship.

Fall, Spring. Credits: 2.

Under the direction of the instructor, the tutorial assistant will be responsible for helping plan and conduct the tutorial sessions for elementary students. Assistants will also develop a familiarity with issues concerning second language acquisition and assist in the evaluation of language courses. This course is open only to advanced students and by permission of the instructor.

LATIN

101-102. Elementary Latin.

Spring, Fall. Credits: 4-4.

This series of courses introduces students to the fundamentals of the Latin language. Although the primary goal of the elementary sequence of courses through Latin 201 is to prepare students to use Latin documents in a wide variety of academic contexts, students will develop all four language skills: reading, writing, listening, and speaking.

201. Intermediate Latin.

Fall, Spring Credits: 4.

This course concludes the elementary language sequence and prepares students

for more advanced work in the language. During this course students will begin making the transition from graded selections in the elementary texts to authentic ancient texts from a variety of Latin authors and genres from antiquity to the modern period. In addition to developing their ability to comprehend and interpret ancient texts, students will continue to work on their aural-oral proficiency.

202. Latin Rhetoric.

Spring. Credits: 4.

In keeping with the pedagogy of the ancient schools of rhetoric, this course will provide an analytic and comprehensive review of the structures of the language. Students will work toward fluency in reading, composition, and conversation.

232. Latin in Rome.

Summer. Credits: 4.

Degree Requirements: Humanities.

An intensive reading course examining works of Latin literature pertinent to the study of the topography of Rome. Selections will come from Roman historians, poets, orators, and inscriptions. Prerequisites: Latin 201 or the equivalent.

291/391. Latin Literature from the Early Republic.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the earliest literary documents in the Latin language. Readings will come primarily from the comedies of Plautus and Terence, but students should expect to study other examples of archaic Latin such as the fragments of Ennius' *Annales*. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the early Republic. Students will also become familiar with current interpretative approaches to the material.

Prerequisites: Latin 265 or equivalent. Some familiarity with Roman history and the literature of the Augustan period is strongly advised. Permission of the instructor is required.

292/392. Latin Literature from the Late Republic.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, focuses on the literature of Rome during the Late Republic. Readings will come primarily from the work of Cicero, Catullus, Caesar, and Sallust. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the Late Republic. Students will also become familiar with the current interpretative approaches to the material.

Prerequisites: Latin 265 or equivalent. Some familiarity with Roman history and the literature of the Augustan period is strongly advised. Permission of the instructor is required.

293/393. Literature of the Neronian Period.

Fall. Credits: 4.

This inter-institutional collaborative course, making extensive use of resources available via the internet, explores the literature of the early Roman Empire, with a particular emphasis on the works of authors who were active during the period of Nero's reign. These authors include Seneca, Lucan, and Petronius. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will include a rigorous study of the cultural and historical context during the early Principate.

Prerequisites: Latin 265 or equivalent. Some familiarity with Roman history and the literature of the Augustan period is strongly advised. Permission of the instructor is required.

294/394. Roman Literature, 70-180 CE.

Fall. Credits: 4.

This course, making extensive use of resources available via the internet, explores the society of the Roman Empire through the works of authors who were active during the period beginning with the reign of Vespasian and extending to the death of M. Aurelius. These authors include Martial, Statius, Tacitus, Pliny the Younger, Juvenal, and Apuleius. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will require extensive reading in more than one genre of Latin literature and a rigorous study of the cultural and historical context of Rome in the late first and second centuries CE.

Prerequisites: Latin 265 or equivalent. Some familiarity with Roman history and the literature of the Augustan period is strongly advised. Permission of the instructor is required.

295/395. Latin Literature from Late Antiquity and the Middle Ages.

Fall. Credits: 4.

This course examines the literature produced during and after the dissolution of the Roman empire, beginning approximately with the reforms of Diocletian and Constantine and concluding with the renaissance of secular education in the twelfth century. Texts will include selections from the work of Jerome, Augustine,

Prudentius, Alcuin of York, Einhard, Hrotsvitha of Gandersheim, Abelard, Heloise, Hildegard of Bingen, and Walter of Chatillon. Students will participate in a weekly webcast lecture, an on-line discussion moderated by faculty members from institutions that participate in Sunoikisis (www.sunoikisis.org), and weekly tutorials with faculty members at Rhodes. This course is specifically designed for advanced students and will require extensive reading in more than one genre of Latin literature and a rigorous study of the cultural and historical context of Rome and the Latin-speaking world after 180 CE.

Prerequisites: Latin 265 or equivalent. Some familiarity with Roman history and the literature of the Augustan period is strongly advised. Permission of the instructor is required.

415. Tutorial Assistantship.

Prospective majors should complete History 200 by the end of the sophomore year. Students should have completed at least one other course at the 200 or 300 level before attempting coursework at the 400 level.

REQUIREMENTS FOR A MAJOR IN HISTORY

A total of 10 courses (40 credits) as follows:

1. History 200 (The Historian's Craft)
2. History 485 (Senior Seminar)

3. Eight (8) additional courses at the 100, 200, 300, and 400 levels, selected according to the following principles:
 - a. Of the eight courses, no more than one may be taken at the 100 level.
 - b. Of the eight courses, at least three courses must be seminar courses at the 400 level.
 - c. Of the eight courses taken at all levels at least one must be taken in each area listed below. In addition, no more than four (4) from a single area will be counted toward the major. The areas are:
 - (1) History of Europe
 - (2) History of the Americas
 - (3) History of Asia, Africa, and Middle East
 - d. Of the eight courses taken at all levels, at least one must concentrate on a period prior to 1500 CE. The following courses meet that requirement: History 210, 212, 281, 282, 288, 293, 385, and 412. (There may be special topics as well.)

REQUIREMENTS FOR A MINOR IN HISTORY

A total of 5 courses (20 credits) selected according to the following principles:

1. No more than one course at the 100 level.
2. At least two courses at the 400 level.
3. At least one course in each of the following areas:
 - (a) History of Europe
 - (b) History of the Americas

2. Completion of the two-term tutorial sequence History 495-496.
3. Completion of major research project, culminating in a research paper and an oral presentation. The student normally begins preparing a proposal by taking a directed inquiry in the spring of the junior year. The formal research proposal must be accepted by the Department early in the student's senior year. Project must be completed and approved by the supervising committee by April.

COURSE OFFERINGS

105. Introductory Seminars in History.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F2, F3 (some sections).

This writing intensive course, intended for first and second year students, provides an introduction to themes and topics from a variety of historical perspectives. Possible topics include: "The Mongol Empire", "Memphis and the American South", "British Empire and its Enemies", and "Why Hitler?" May not be repeated for credit. Not open to juniors and seniors.

200. The Historian's Craft: Methods and Approaches in the Study of History.

Fall, Spring. Credits: 4.

Degree Requirements: F2.

This course introduces prospective history majors and minors to the experience of how historians perform their craft. Each seminar will teach students the basic skills of research, historical writing, and historical analysis. Students will be introduced to historiography, the use of primary sources, and ethical issues in

history. Written work will be emphasized, and an oral presentation may be required of all students. Not open to seniors.

200-level classes are introductory and cover broad chronological spans or large geographical areas. Open to all students.

205. Selected Topics in History.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F3.

Introduction to selected periods in history. Varies with instructor. May be repeated for credit when topics vary. Not offered every year. Potential topics include "Russia Since 1861" and "Asian Societies: Past and Present."

212. Medieval Europe.

Fall. Credits: 4.

Degree Requirements: Humanities, F3 (some sections).

This course examines the transition from the world of late antiquity to that of the European Middle Ages, from the collapse of the Roman Empire through the fourteenth century. Lectures will focus on the medieval "braid" of Roman tradition, Christianity and Germanic custom. Topics will include patterns of migration, the Christianization of Europe, the development of social and political institutions, the conflicts between church and state, the urban revival of the eleventh century, and the intellectual "renaissance" of the twelfth century, culminating in the famine, plague, and chaos of the fourteenth century. (Course offered in alternate years, scheduled for 2007-2008.)

213. Renaissance and Reformation Europe.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course begins by examining the changes, as well as the medieval carry-overs, that brought about the period known as the Renaissance. The effects of impersonal forces such as climate change and epidemics, the impact of the discovery of the Americas, and a new understanding of human capabilities will be considered. The course then turns to a survey of the intellectual movements and of the religious, social, and political characteristics of European history from 1500 (the coming of the Reformation) to 1714 (the height of French power under Louis XIV). The emphasis will fall upon those changes that prepared society for the transition to what is now considered the "modern" world. (Course offered in alternate years, scheduled for 2007-2008.)

215. Enlightenment and Revolution: Europe, 1714-1815.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

The eighteenth century was an age of intellectual and political revolutions that destroyed what historians describe as the Old Regime. This course critically assesses the rhetoric, goals and legacy of the century's key philosophic movement, the Enlightenment. It surveys the development of the Old Regime in the eighteenth century and seeks to interpret the social, economic and intellectual forces that tended to undermine it. Particular emphasis will be placed on the French Revolution, the overthrow of the Old Regime, the Reign of Terror and the rise and fall of the Napoleonic system in Europe.

216. Industrialism, Nationalism, and Imperialism: Europe, 1815-1914.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course examines the impact of industrialization on the social, political, and intellectual life of Europe. The combination of nationalist idealism and the realism of state power that produced the unifications of Italy and Germany will be critically examined. The course will also examine the nationalist and imperialist rivalries that drove the European states to the brink of war after the turn of the century.

217. The Age of Extremes: European Culture and Society in the Twentieth Century.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F3.

By focusing on the experiences of ordinary people and significant shifts in their values, we will study how Europe evolved through what one historian has called an "age of extremes" in the twentieth century. Central issues will include the experience and legacies of "total war," daily life under Nazi rule and in the Communist countries of Eastern Europe, the psychological impact of the Great Depression, and the various ways in which people struggled to redefine themselves as Europe faded from a position of world dominance.

224. British Empire and Its Enemies.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course addresses some of the major developments of the British empire from the early 1600s to the 1980s. Emphasis is on the changing nature of the empire, its role in Britain's rise and fall as a world power, the influence of empire on Britain's political, economic, and cultural development, and the imperial impact on Britain's colonies and possessions. Attention is also directed at the many enemies that the empire created, both in Britain and in the colonies. The course concludes by examining aspects of post-colonialism in Britain and its former possessions.

225. Modern Britain.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course will introduce students to some of the major historical developments in Britain since 1688. The focus will be on political events, but some attention will also be paid to social, economic, religious, and intellectual developments. Topics to be discussed include: Glorious Revolution of 1688-89; corruption and reform in eighteenth-century politics; origins, nature, and impact of industrialism; evolution of parliament and emergence of the office of prime minister; impact of the French Revolution; reform and radical movements of the nineteenth century; imperialism; the British experience in World Wars One and Two; origins and nature of the welfare state; British society and politics since 1945; and the Americanization of Britain.

231. North America in the Colonial and Revolutionary Eras.

Credits: 4.

Degree Requirements: Humanities, F3.

This course investigates British, French, Spanish, African, and Native American encounters in North America from the Age of Exploration through the early political development of the United States. Major themes include the tensions between individual and community interests, the origins and development of slavery, the emergence of capitalism, religious diversity, and the American Revolution. (Course

offered in alternate years, scheduled for 2008-2009.).

232. The United States in the Nineteenth Century.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course examines major social, political, economic, and cultural changes in the nineteenth century, including U.S. relations with Native North Americans, antebellum reform, the Civil War, Reconstruction, and industrialization/urbanization. Major themes may include the rise and decline of sectionalism and transformations in gender and race relations, as well as questions of individualism and community, liberty and order.

233. The United States in the Twentieth Century.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course investigates major social, political, cultural, and economic changes in the twentieth century, from Progressivism through the end of the Cold War. Major themes may include the effects of world war and economic depression on society, the United States' changing role in the global community, the rise and fall of American liberalism, the Vietnam War as watershed, and the emergence of cultural pluralism.

242. African-American History.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

The experiences of African-American people in the United States can be described as a continuous quest for empowerment; this quest has been affected by myriad factors (e.g., gender roles, class divisions, secular and non-secular ideologies, regionalism) in addition to racism. This course, through the use of secondary and primary material, historical documentaries, and critical analyses, will chart the historically complex journeys of African Americans, from the impact of the African diaspora on colonial America to the Black student sit-ins and the formation of the Student Non-Violent Coordinating Committee in 1960, and beyond.

244. History of Childhood in the United States.

Spring. Credits: 4.

Degree Requirements: Humanities, F3, F11.

This course provides an examination of the ways in which the concept of childhood has been defined throughout United States history, as well as a study of how children themselves have influenced and shaped institutions, laws, and popular culture. A service-learning component is required. (Course offered in alternate years; scheduled for 2008-2009.)

245. Women in United States History.

Fall, Credits: 4.

Degree Requirements: Humanities, F3.

This course explores key developments in American women's history, from pre-contact Native American societies to the present. Topics include Native and Euro-American women's status in pre-industrial societies, the political meanings of witch trials, the rise of domestic sentimentalism, race and gender in the slaveholding South, the impacts of industrialization, gender relations in war and depression, and the origins of modern feminism. Letters, diaries, oral histories, government documents, popular literature, and film will be analyzed in light of related scholarship.

246. Gender and Warfare in America.

Fall. Credits: 4

Degree Requirements: Humanities, F3.

While the study of wars has always proven to be a popular subject for students of American history, the use of gender in analyzing the causes and effects of these conflicts has only recently been an important focus in historians' examinations of different conflicts. New studies have used gender to examine the origins of different wars and to understand the motivations of the soldiers who fought them. By emphasizing the importance of gender in historical study, students will be encouraged to examine historical evidence critically in order to bring their perspective to the study of wars in American history. (Course offered in alternate years; scheduled for 2007-2008).

247. The American South.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course examines the social, political, and cultural history of the South as a distinct region of the United States. The course will include discussion of the origins of a slave society, the culture of slavery and the Old South, the Civil War and Reconstruction, political and cultural change in the New South, and the Civil Rights Movement.

249. Poverty in the United States.

Spring, Credits: 4.

Degree Requirements: Humanities, F3.

This course will examine attitudes toward the poor throughout the course of U.S. history, as well as the experiences of public and private relief organizations. Lectures and readings give attention to attempts to define "poverty," to vagabond/homeless experiences, to problems facing the working poor, to private and public attempts to eradicate poverty, and the assessment of various programs of poor-relief, public assistance, family wage. Field trips and a community-based group project are required. (Course offered every third year; scheduled for 2008-2009.)

254. Interpreting the American West.

Spring. Credits: 4.

Degree Requirements: Humanities, F3, F11.

A collaboration between History and Theater, this course will immerse students in primary historical research and in the techniques of scripting, staging, and acting. Students will explore and critique some of the most mythologized elements of the American West: the fur trade, the Overland Trail, and the cattle drives. Using revisionist perspectives, students will "decolonize" western history, and then, using archival sources, students will create a performance piece. All students will engage in both historical analysis and dramatic interpretation.

255. Conservatism in the United States.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course will provide an introduction to developments in conservative thought and politics in the 20th Century. Students will learn about the roots of American conservatism and learn how conservatives critiqued the creation of the New Deal, the rise of Stalinist Russia and the threat of communism, and the outbreak of World War II. Class will discuss conflicts between traditionalists and libertarians, Eisenhower's "modern Republicanism," conservatives and the Cold War,

the campaign of Barry Goldwater, and the conservative response to the civil rights movement, Vietnam and “free love.” Finally, the class will consider the Reagan revolution and its impact on the current state of conservative politics in the United States and suggest directions for conservatism in the 21st Century. (Course offered in alternate years; scheduled for 2007-2008.)

256. Liberalism in the United States.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

How did liberalism, one of the dominant ideologies of the 20th century America, get transformed into the “L” word in current political debates? Did Ronald Reagan bury liberalism or might Bill Clinton have played a part in its decline? This course will examine the origins of modern liberalism in the Progressive Era, its rise and expansion during the New Deal, its ideological dominance through the fifties and sixties, and its eventual decline at the end of the century. This course will give students the opportunity to understand the rise and fall of American liberalism, and to suggest possible directions for American liberals in the future. (Course offered in alternate years; scheduled for 2007-2008.)

261. Colonial Latin America.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course surveys the history of Latin America in the period before the Revolutions of Independence (before 1810). After studying the Native American (principally Aztec, Inca, Chibcha and Maya) and European (Spanish and Portuguese) civilizations that shaped the formation of colonial Latin American history, the conquest, the institutions and the social history/movements during this historical period will be addressed in a thematic fashion.

262. Contemporary Latin America.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course surveys the history of Modern Latin America from the period of Independence (1810-1824) to the present, addressing the economic and social development of the Latin American region. Certain themes, such as religion, poverty, violence and foreign intervention will be covered in depth. Feature films, recent literature and oral history testimony will serve as “tools” for understanding contemporary Latin America.

267. Mexico: From Pre-Columbian Peoples to the Present.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course focuses on Mexico as a geographic unit and addresses, principally, the social, cultural and economic history of the peoples who have inhabited Mexico. Beginning with an examination of pre-Columbian history, the course moves in a mostly chronological fashion, focusing on the European conquest of Mexico (1519-1521), colonial institutions and actors, nineteenth century independence, politics and instability. The course concludes with an examination of twentieth century revolution (1911 and after), reform and identity.

281. The Origins of Chinese Civilization.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course examines the foundations and evolution of China's cultural tradition from the prehistoric period to the Song reunification in 960 CE, with emphasis placed on the imperial period (beginning 221 BCE). The themes of change and continuity within the structure of an enduring ideology are supplemented by a multifaceted approach that includes the history of society and the arts. (Course offered in alternate years; scheduled for 2007-2008.)

282. Late Imperial China.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course examines China's development into a modern nation from the tenth-century Song reunification through foreign conquest, native recovery, and yet another foreign conquest to the creation of the heavily bureaucratized and Confucianized Qing state. It also explores the beginnings of China's encounter with the West that led to the collapse of the traditional Chinese world order. (Course offered in alternate years; scheduled for 2007-2008.)

288. Japanese Civilization.

Fall. Credits: 4.

Degree Requirements: Humanities, F3, F9.

This course presents an examination of Japan's history and culture from prehistoric times to the mid-nineteenth century. Important themes will include Japan's creation of a unique culture through both isolation and cultural receptivity, the formation and preservation of enduring values, the structure and transformations of Japanese society, and Japan's "cult of aesthetics."

293. Ancient and Medieval India.

Fall. Credits: 4.

Degree Requirements: Humanities, F3.

This course explores India from the era of the Indus civilization through the death of the Mughal Emperor Aurangzeb in 1707 CE. Topics include the Harappa culture, Aryan migrations and emergence of Hinduism, Gangetic culture and rise of Mauryan and Guptan empires, Islamic invasions and creation of the Delhi sultanate, and the Vijayanagar empire. The course concludes with a close examination of the rise and fall of the Mughal Empire, one of the world's greatest empires. Considerable attention will also be devoted to religious, social, and cultural developments, including the evolution of Hinduism, the caste system, Islamic culture in India, religious reform movements, and architecture.

294. Modern India.

Spring. Credits: 4.

Degree Requirements: Humanities, F3.

This course surveys the history of South Asia following the collapse of the Mughal Empire in the early eighteenth century through the post-colonial period of the late twentieth century. Focus is on political, religious, and socio-economic developments such as the post-Mughal political order; the origins and nature of the British Raj; nationalism and the struggle for independence; religious revival and political identity; partition and its aftermath; and the post-colonial order in India, Pakistan, and Bangladesh.

300-level courses focus on particular themes and topics and devote more attention to historiography and writing than do 200-level courses. All 300-level courses have the prerequisite of any History course at the 100 or 200-level or permission of the instructor unless otherwise noted.

305. Selected Advanced Topics in History.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

Advanced study of selected periods and topics in history. Varies with instructor. May be repeated for credit when topics vary. Not offered every year. Potential topics include *Imagining Asia: Western Perceptions of the East*, and *The Power of the Poor in Latin America*.

310. Women in Medieval Europe.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course examines the lives of European women from approximately 400-1500 CE and explores how they both shaped and were shaped by religious, political, economic, and cultural forces in medieval society. In addition to looking at women's lived experiences, we will study images and ideas about women, and the connections between the two. Throughout the semester we will also consider how historians write the history of medieval women, including what sources are available, what questions historians have chosen to ask, and how these affect what we can know about medieval women. (Course offered in alternate years; scheduled for 2008-2009.)

313. The Crusades.

Credits: 4.

Degree Requirements: Humanities

Covering the period between approximately 1050 and 1600, this course examines the conflicts between Western European Christians and others around them primarily, but not exclusively Muslims of the Middle East. While many of these conflicts were military in nature, only a small proportion of this course will discuss the details of military technology, tactics, and strategy. More attention will be paid to the broader political context in both Europe and the Middle East, the ideological underpinnings of the conflict for both Christians and Muslims, the nature of religious belief in the Middle Ages, and the impact that these conflicts had on the territories involved. (Course offered in alternate years; scheduled for 2007-2008.)

341. Native America and American History.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course provides an in-depth look at the history of selected Native American cultures, including inter-tribal relations as well as relations with Euro-Americans in North America. The evolution of United States Indian policy, as well as key shifts in Native American strategies for survival form the chronological framework of the course. Recent scholarship as well as Native American oral history, autobiography, fiction, and film will shed light on issues of sovereignty, conquest, resistance, syncretism, and cultural identity.

342. Slavery in the United States.

Spring. Credits: 4.

Degree Requirements: Humanities.

The purpose of this course is to attain a fundamental knowledge of one of the most complex and controversial experiences in United States history. This course will examine various social, economic, and political factors in an attempt to explain why slavery developed as it did. Also, because slavery remained in the United States over such a long period (approximately 240 years), we will discuss how it changed over time. (Course offered in alternate years; scheduled for 2007-2008.)

343. The Civil Rights Movement.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

This course examines the social, political, and economic climate of the 1940s through the 1960s, and considers how both Blacks and Whites were affected. Specifically, the course will focus on various organizations and the strategies they implemented which resulted in events such as the Brown v. Board of Education case and the Civil Rights Act of 1964. Additionally, the course will analyze the subtle and not-so-subtle reactions to initiatives that allowed African Americans to attain many of the rights and privileges that have become commonplace in today's society.

349. Black and White Women in the History of the American South.

Spring. Credits: 4.

Degree Requirements: Humanities.

Using a variety of genres including autobiography, demographics, fiction, court records, film, and women's history, students will explore the many public and private roles that Southern women have filled from colonial days to the present. Emphasis will be placed on the distinctiveness of Southern society and its complex cultural diversity.

350. Women in Nineteenth-Century America.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course is a multicultural investigation of women in nineteenth-century America. Encounters between Native Americans and Euro-American colonizers, the expansion of market capitalism, the ideology of True Womanhood, and the growth of chattel slavery reverberated through women's lives. So, too, the Civil War, industrialization, and urbanization transformed gender relations. The ways that women both shaped and were shaped by these developments will be examined. Popular magazines, sermons, songs, and American painting will reveal a discourse on gender that called forth American concerns about liberty and order, hierarchy and equality, individualism and community. (Course offered in alternate years; scheduled for 2007-2008.)

351. United States Constitutional History to 1865.

Fall, Credits: 4.

Degree Requirements: Humanities.

This course examines American constitutionalism from the colonial era through the Civil War. Topics include American revolutionary ideology, the Constitutional Convention, the early nineteenth-century Supreme Court's exercise of judicial review, and the new republic's attempts to deal with such issues as federalism, the

separation of powers, the government's role in an expanding economy, and the fate of slavery in new territories. In contrast to a constitutional law course, this class is more concerned with how American constitutionalism both shaped and responded to larger political and social developments, and less concerned with the evolution of constitutional doctrine in and of itself. (Course offered in alternate years; scheduled for 2008-2009.)

352. United States Constitutional History since 1865.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course examines American constitutionalism from the Reconstruction period to the 1990s. In particular, the course focuses on the Supreme Court's interpretation of the constitutional issues surrounding Reconstruction and civil rights, industrialization and economic expansion, the rise of national regulatory power, and the expansion of individual rights. In contrast to a constitutional law course, this class is more concerned with how American constitutionalism both shaped and responded to larger political and social developments, and less concerned with the evolution of constitutional doctrine in and of itself. (Course offered in alternate years, scheduled for 2007-2008.)

357. United States Intellectual History: The Twentieth Century.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course examines the role that intellectuals have played in American society in the twentieth century. The course emphasizes the emergence of modernism between 1910 and 1930, changing patterns of American social thought from Progressivism to the present, and the reaction of intellectuals to major events of the twentieth century.

358. U.S. Foreign Affairs.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course will survey the United States' relationship with the world from 1895 to the present and will approach historical issues from a variety of perspectives: economic, political, social, and cultural. The class will examine the United States and the world through World War II; the Cold War and how it played out in different areas in the world, as well as in America; and post-Cold War issues in American foreign affairs.

363. History of U.S.-Latin American Relations.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course provides an examination of the history of United States - Latin American relations, beginning with tensions created by the Latin American Wars for Independence (1810-1824). U.S. priorities, dating from the Monroe Doctrine of 1823, are studied in light of specific policies and actions taken by the U.S. in the region. Specifically, the Mexican-American War, the Spanish-American War, the Good Neighbor and The Alliance For Progress will be examined in depth. (Course offered in alternate years; scheduled for 2007-2008.)

364. History of Religion in Latin America.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course examines the history of religion and religious tradition in Latin America, beginning with an analysis of pre-Columbian religious history and study of the imposition of Christianity with the arrival of the Spaniards and Portuguese. Syncretic identity, politics and religion and the recent growth of evangelical Protestantism in Latin America will be some of the major themes addressed.

385. Nomads of Inner Asia.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course presents a survey of the history of the pastoral nomadic peoples who have inhabited the Eurasian steppe region since early times, with particular attention paid to the creation of nomadic empires and their relations with sedentary neighbors in China, Europe, and the Middle East. The course will focus on the histories of the Scythians, Xiongnu, Huns, Turks, and Mongols.

389. East Asia in the Modern World.

Spring. Credits: 4.

Degree Requirements: Humanities.

This course presents a survey of the modern experiences of five different Asian nations: China, Japan, Mongolia, Korea, and Vietnam. The emphasis will be on the period from World War II to the present, to examine these different countries' experiences with nationalism, world war, civil war, revolution, and modernization along with the tenacity of tradition. The course also will examine the relationships among these nations and their significance in the modern world. (Course offered in alternate years, scheduled for 2008-2009.)

400-level seminars focus on the historical interpretation of a specific topic or period. Open to juniors and seniors.

405. Seminars on Special Topics

Spring, Fall. Credits: 4

Degree Requirements: Humanities

Advanced seminars in selected topics in history. Varies with instructor. May be repeated for credit when topics vary. Not offered every year.

Prerequisites: Any History course at the 100 or 200-level or permission of the instructor.

412. Medieval England.

Credits: 4.

Degree Requirements: Humanities.

This seminar examines the history of England in the Middle Ages, from the age of the Anglo-Saxons to the advent of the Tudors (900-1500). The class will focus particularly on political/constitutional and social history, addressing the following questions: How does the role of kingship change over the course of the Middle Ages? From where does the distinctive tradition of the English Common Law derive? How do administrative institutions develop? And finally, how (if at all) do these developments affect the way that ordinary people lived? (Course offered every third year.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

426. Modern European Intellectual History.

Fall. Credits: 4.

Degree Requirements: Humanities.

This seminar examines some of the leading developments in European thought from the eighteenth century to the present. Some of the issues/intellectual trends to be discussed include the Enlightenment, the French Revolution and natural rights, political economy and liberalism, the Industrial Revolution and socialism, Darwin and Social Darwinism, the “irrational” in late nineteenth-century thought, the impact of the two world wars, feminism, the Cold War and existentialism, and student radicalism and the new left.

Prerequisites: Any History course at the 200-level or permission of the instructor.

428. Fascist Europe, 1918-1945.

Credits: 4.

Degree Requirements: Humanities.

This seminar investigates one of the most tumultuous eras in European history by exploring the political and cultural development known as “fascism.” Radicalized by World War and Depression, adherents of this new political philosophy gained control of several European countries and transformed them from liberal democracies to totalitarian states. Concentrating on culture and society, we will explore why and how such groups came to power in countries including Italy and Germany, what fascists believed, the elements of their programs, and the legacies they left behind. An original research or historiographical paper, oral presentations, and extensive class discussion are required. (Course offered every third year.)

Prerequisites: Any History course at the 100 or 200-level or permission of the instructor.

432. Colonial North America.

Credits: 4.

Degree Requirements: Humanities.

This seminar explores a variety of interpretations of the colonial experience in North America. Emphasis will be on the interaction of cultures and the evolution of political and social systems. Students will explore primary documents and autobiography, culminating in a research paper. (Course offered alternate years; scheduled for 2008-2009.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

435. The Civil War and Reconstruction Era.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar will investigate the political, social, and constitutional developments surrounding the American Civil War. Topics include the development of antebellum society in the North and South, the rise of sectional political tensions, the social impact of the war on black and white Americans, and post-war attempts to reconstruct the social, political, and constitutional order. (Course offered alternate years; scheduled for 2008-2009.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

436. The Origins of Modern America, 1877-1918.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar deals with the social, economic, political, and constitutional development of the United States from the Reconstruction Era through the end of

World War I. Topics include the rise of a corporate capitalist economic order, the creation of a post-Reconstruction southern identity, tensions between black and white Americans, the United States' involvement in Europe's Great War, and the rise of the national regulatory state. (Course offered every third year.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

439. Recent History of the United States.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar examines the evolution of American society since 1945. Special attention is given to the Cold War, political developments, and the cultural transformation of the 1960s and 1970s, and the resurgence of conservatism.

Prerequisites: Any History course at the 200-level or permission of the instructor.

441. Interpretive Issues in Native American History.

Fall. Credits: 4.

Degree Requirements: Humanities.

The seminar provides a closer look at problematic issues in the history of Native people in North America, including both Canada and the United States. Topics include the nature of oral tradition as history, Native spiritual crises and revitalization movements, the uses of metaphor in Indian diplomacy, the intersections of tribalism and capitalism, changing gender relations, and the emergence of inter-tribal collaboration. (Course offered in alternate years, scheduled for 2008-2009.)

Prerequisites: History 341 or permission of the instructor.

445. Gender in the American West.

Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar explores gender systems among different cultures, regions, and time periods in the trans-Mississippi West, from early contact between European and native peoples through twentieth-century industrial migrations. Major themes include human encounters with the natural environment, the convergence of cultures, conquest and colonization, the expansion of capitalism, and their impact on gender systems. Students will consider the nature of gender in historic "frontiers" of individual and community transformation. (Course offered in alternate years, scheduled for 2007-2008.)

Prerequisite: Any History course at the 200-level or permission of the instructor.

448. Law and Justice in the American South.

Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar investigates the history of law and lawlessness in the American South from the early nineteenth century to the late twentieth century. Students will explore the developments of substantive law, constitutional thought, and legal institutions in the southern states, as well as white and black southerners' attitudes about law and justice. Specific topics will include honor and violence in the Old South, the law of slavery, communal justice and lynching, and the effect of religious values on substantive law and constitutional ideals. (Course offered in alternate years, scheduled for 2007-2008.)

Prerequisite: Any History course at the 200-level or permission of the instructor.

456. Cold War America.

Spring. Credits: 4.

Degree Requirements: Humanities

This course will survey the United States' involvement in the Cold War and how conflict with the Soviet Union shaped postwar international affairs, domestic politics, and American culture society. Students will learn about the rise of the Soviet-American global rivalry and how this competition played itself out in different theatres. Readings will cover the growth of tensions over issues like the Truman Doctrine or Communist control of Vietnam, as well as Cold War nuclear politics. Further, the course will examine Cold War culture in the United States and discuss issues of consensus and dissent in American society. (Course offered in alternative years; scheduled for 2007-2008.)

460. Internship.

Fall, Spring. Credits: 1- 4.

This is a directed internship in which students apply analytical and writing skills in a variety of off-campus workplaces. Possibilities include historical archives and museums as well as opportunities in non-profit organizations and law firms. To enroll, students must be approved in advance by the instructor and the Office of Career Services. (Does not count toward the major or minor. Taken pass-fail only.)

482. Modern China.

Fall. Credits: 4.

Degree Requirements: Humanities.

This seminar examines China's transformation from a traditional society to a revolutionary one. Beginning with the intrusion of Western powers and the collapse of China's imperial system, the course will then explore the nation's attempts at integration and stabilization in the face of warlordism and invasion. Finally, an important focus will be China's civil war and the history of the People's Republic to the present day. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

485. Senior Seminar.

Fall, Spring. Credits: 4.

The senior seminar is an examination of important themes and issues in the study and writing of history, as seen through selected representative works drawn from diverse fields of historical investigation. Emphasis will be on reading and discussion, with both written analyses and oral presentations required. (Open only to senior History majors.)

488. Modern Japan.

Spring. Credits: 4.

Degree Requirements: Humanities.

This seminar examines Japan's transition from a closed, traditional society through the processes of modernization, imperial expansion, defeat and occupation to its postwar recovery and emergence as a global economic power. Particular emphasis will be placed on Japan's efforts to become an integral part of the modern world and yet retain its traditional social structures and values. (Course offered in alternate years, scheduled for 2007-2008.)

Prerequisites: Any History course at the 200-level or permission of the instructor.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-4.

Maximum of 8 hours credit. Must have departmental approval before undertaking Honors. (Does not count toward the major.)

INTERDISCIPLINARY STUDY

INTERDISCIPLINARY PROGRAMS

Interdisciplinary programs exist to provide an appropriate structure within which to offer study opportunities that do not fit within the bounds of existing departments, to bring together faculty and students from several disciplines to study areas of interest that cross traditional departmental lines and require an interdisciplinary approach, and to inform the campus community at large of the nature and importance of these areas.

1. Archaeology 210 or Anthropology 250: Learning from Things: Material Culture Studies

2. Archaeology 220 or Art 220: Archaeological Methods

3. Three courses selected from a list of courses that deal with archaeological issues offered in various departments. At least two departments must be represented to satisfy this requirement.

Anthropology/Sociology 207: Becoming Human: Archaeology and the Origins of Culture

Anthropology/Sociology 208: Pyramids and Palaces: Archaeology of Complex Societies

Anthropology/Sociology 211: Women in Prehistory and Women as Prehistorians

Art 318: Greek Art and Architecture

Art 319: Roman Art and Architecture

Art 320: Art and Architecture of Ancient Egypt and the Near East

Chemistry 105: Topics in chemistry (when offered as Archaeometry)

Greek and Roman Studies 305: Travel-Study in Europe, the Mediterranean, and the Near East

Religious Studies 260: Archaeology and the Biblical World

Religious Studies 265: Archaeology and the Biblical World: Field Work (with permission)

4. A choice of one course from the following two options.

Archaeology 450: Archaeological Field School

Archaeology 460: Internship

COURSE OFFERINGS

210. Learning from Things: Material Culture Studies

Spring. Credits: 4.

While we are symbol users and inhabitants of imagined worlds, we are also tool makers whose hands are “dirtied” in manipulating the world. This course will focus attention on our “materiality” and our engagement with the material world. Examples of material culture studies will be drawn from such disciplines as archaeology, anthropology, geography, history, art history, folklore, popular culture, architecture, and museum studies. Material culture studies, while a rich source of information is also a challenging arena for the study of individuals, societies and cultures because objects neither “speak” unambiguously nor directly to us. Students will come to appreciate how astute observation underpinned by theoretical acumen and the clever framing of questions can allow us to “learn from things.” This course is cross-listed as Anthropology/Sociology 250.

220. Archaeological Methods.

Credits: 4.

This class will expose students to a range of archaeological methods used in the field, laboratory and museum to find, record, date, preserve and contextualize physical materials. Basic methods of investigation and research will be discussed through the examination of site survey, excavation and the analysis of artifacts. Students will be introduced to various systems of archaeological classification and analytical techniques for understanding objects such as lithic artifacts, pottery, human skeletal remains, and other historic and prehistoric artifacts. Artifact illustration, photography, cataloguing and curating will also be discussed. (Course offered every third year; scheduled for 2006-2007.)

450. Archaeological Field School.

Credits: 4.

Degree Requirement: F11

A supervised training course (ordinarily in the summer) in archeological methods at a controlled excavation. Students will live on the site and participate as crewmembers in the excavation, registration, restoration and publication of archaeological remains. Most students will participate in the Rhodes summer field school at the Ames Plantation, but alternative field schools in the USA or abroad are acceptable alternatives pending the approval of the chair of the Archaeology Program.

460. Internship.

Credits: 4.

A supervised learning experience involving archaeological and/or material culture studies out of state, abroad, or in the community outside of the college. This may include museums, laboratories, cultural resource management firms, cultural conservation projects, historical landmarks, surveying firms, etc. The student and the faculty advisor will devise the program of field work and submit it for approval to the chair of the Archaeology Program.

ASIAN STUDIES

Committee:

John F. Copper, Department of International Studies
Michael R. Drompp, Department of History, Chair
Ming Dong Gu, Department of Modern Languages and Literatures
John C. Kaltner, Department of Religious Studies
David Mason, Department of Theatre
Mark W. Muesse, Department of Religious Studies
Michelle Voss Roberts, Department of Religious Studies
Lynn B. Zastoupil, Department of History

REQUIREMENTS FOR A MINOR IN ASIAN STUDIES:

A total of twenty (20) credits as follows:

1. Asian Studies 150: Themes in Asian Studies
2. Four additional courses (200-level or above) chosen from at least two different departments. One of these courses may take the form of a directed inquiry if approved by the Asian Studies Committee. Courses currently being offered which meet this requirement are:

History

History 281: The Origins of Chinese Civilization
 History 282: Late Imperial China
 History 288: Japanese Civilization
 History 293: Ancient and Medieval India
 History 294: Modern India
 History 385: Nomads of Inner Asia
 History 389: East Asia in the Modern World
 History 482: Modern China
 History 488: Modern Japan

International Studies

International Studies 261: Government and Politics of China
 International Studies 262: China's Foreign Policy
 International Studies 263: Government and Politics of Japan
 International Studies 264: Government and Politics of Southeast Asia
 International Studies 285: The East Asia Miracle
 International Studies 395: United States Foreign Policy in East Asia
 International Studies 432: Topics in International Studies (when topic centers on Asia)

Modern Languages and Literatures

Chinese 205: Modern Chinese Literature in English Translation
 Chinese 210: Chinese Literary Heritage
 Chinese 215: Images of Women in Chinese Literature and Film
 Chinese 220: Contemporary Chinese Cinema
 Chinese 300: Asian Humanities: India, China, Japan

Religious Studies

Religion 255: Living Religions in Today's World (when topic centers on Asia)
 Religion 258: Topics in the History of Religions (when topic centers on Asia)

Theatre

Theatre 270: Introduction to Asian Theatre
 Theatre 360: Introduction to Theatre in India

COURSE OFFERINGS

150. Themes in Asian Studies.

Fall. Credits: 4.

This introductory course examines the historical and cultural experiences of various peoples of Asia through a thematic approach. The course takes a comparative approach to a particular topic that reflects important forces that have had an impact throughout Asia. By examining a broad theme that has had resonance throughout Asia, the student will develop an appreciation for the complexity and diversity of Asian cultures while at the same time exploring common forces that have shaped those cultures. Such themes could include the development of Buddhism in Asia, comparative approaches to Asian theatre, and the history of Asian societies' experiences with Western political and economic expansionism.

BIOCHEMISTRY AND MOLECULAR BIOLOGY

Committee:

Terry Hill, Department of Biology

Darlene Loprete, Department of Chemistry, Chair

Mary Miller, Department of Biology

Ivaylo Ilinkin, Department of Mathematics and Computer Science

Loretta Jackson-Hayes, Department of Chemistry

REQUIREMENTS FOR A MAJOR IN BIOCHEMISTRY AND MOLECULAR BIOLOGY LEADING TO THE B.S. DEGREE

It is strongly recommended that Chemistry 111-111L and Biology 130-131 be taken in the fall semester of the first year.

A total of forty-one to forty-three (41-43) credits as follows:

1. Chemistry 111-111L*, 112-112L, 211-211L, 212-212L.
2. Biology 130-131.*
3. Biology 325, 325L, and 307 (Molecular Biology and Cell Biology).
4. Chemistry 414.
5. BCMB 310.
6. BCMB 485 or 486.
7. Two of the following courses:
 - a. Biology 304.
 - b. Chemistry 311.
 - c. Chemistry 416
 - d. BCMB 451 or 452 (4 credit hours, 4 credits; may only satisfy one elective)
 - e. Biology 204
 - f. Biology 301
 - g. Biology 380
 - g. Computer Science 141

For students seeking admission to graduate school, the following courses are recommended:

- a. BCMB 451 or 452
- b. Mathematics 121, 122
- c. Physics 109-110 or 111-112, and 114L
- d. Biology 140, 141 for programs in the biological sciences.

e. Chemistry 311-312, 311L-312L for programs in biochemistry.

For students seeking admission to programs in the health professions, the following courses are recommended:

- a. Mathematics 115 or 121, 122
- b. Physics 109-110 or 111-112, and 113L-114L

COURSE OFFERINGS

310. Methods in Biochemistry and Cell Biology.

Fall. Credits: 2.

This course will provide instruction in the theory and application of a variety of research techniques dealing with the structure and function of proteins in biological systems. Techniques to be studied include enzyme assays and characterization, peptide sequencing, polyacrylamide gel electrophoresis, antibody production, immunoblotting, and immunofluorescence microscopy. This course can count as laboratory credit to accompany Biology 307 or Chemistry 414 or both. One hour of lecture and three hours of laboratory per week plus independent work. Same as Biology 310.

Prerequisites: Chemistry 112-112L or permission of instructor.

451-452. Research in Biochemistry and Molecular Biology.

Fall, Spring. Credits: 1-4.

Qualified students may conduct original laboratory research in biochemistry and molecular biology. A student may use four credit hours of research to satisfy one of the upper level requirements in Biochemistry and Molecular Biology. Interested students should consult a Biochemistry and Molecular Biology committee member.

Prerequisites: permission of sponsoring faculty member and the Biochemistry and Molecular Biology committee. At least three hours per week per credit hour, weekly conferences with faculty sponsor, written report at the end of the semester.

460. Internship.

Fall, Spring. Credits: 1-4.

The Internship Program is designed to introduce students to practical applications of their academic work. Students may work off campus under professional supervision in fields related to the biochemical and molecular biological sciences, such as in bioinformatics and biotechnology. Students will be required to integrate academic and work experiences in an oral and/or written report at the end of the internship. No more than 3 credits per semester for no more than two semesters. Pass/Fail credit only. This course does not satisfy an upper level course requirement for the major.

Prerequisites: Permission of the Biochemistry and Molecular Biology Committee chair

485-486. Senior Seminar.

Fall, Spring. Credits: 4.

All Biochemistry and Molecular Biology majors are required to enroll in Senior Seminar during one semester of their senior years. Senior Seminar is intended to be a broad, integrative experience in Biochemistry and Molecular Biology, requiring both oral and written work.

Prerequisites: Completion of the required courses or permission of instructor.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

Open to candidates for honors in Biochemistry and Molecular Biology. Includes

supervised honors research and instruction in an appropriate field of study.
Prerequisites: Permission of the Biochemistry and Molecular Biology Committee.

EARTH SYSTEM SCIENCE

Committee:

Carol L. Ekstrom, Department of Physics (Geology)
David H. Kesler, Department of Biology
Ann M. Viano, Department of Physics

REQUIREMENTS FOR A MINOR IN EARTH SYSTEM SCIENCE

A total of twenty (23) credits as follows:

1. Geology 111: Earth System Science
2. Geology 116: Global Environmental Change
3. Statistics (Math 111 or Economics 290, or Psychology 211) or Interdisciplinary 222-322: GIS (for a total of three credit hours)
4. Twelve additional credits, selected from the following courses. The courses must be in at least two different departments: a maximum of one course may be taken from Group B.

Group A

Biology 200. Evolution
 Biology 212. Environmental Issues in South Africa
 Biology 214. Environmental Field Study in Namibia
 Biology 253-254. Coral Reef Ecology
 Biology 315. Ecology
 Biology 320,320L. Conservation Biology
 Chemistry 105, Chemistry, Archeology, and Art
 Geology 112. Evolution of the Earth
 Geology 214. Environmental Geology*
 Geology 301. Special Problems in Geology
 Geology 460. Internship in Geology
 Physics 101. Astronomy

Group B

Anthropology/Sociology 205. Victims of Progress
 Anthropology/Sociology 321. Ecological Anthropology
 Interdisciplinary 260. Frontiers of Environment and Culture
 Philosophy 250. Environmental Ethics
 Religious Studies 200. Topics course (when environmental topic)
 Women's Studies 200, Introduction to Women's Studies (when appropriate)

5. One Experiential Learning involvement:

Courses marked with an *, or pre-approved research, internships, or volunteer projects. Pre-approved off-campus courses may be used to fulfill the ESS Requirements.

ENVIRONMENTAL SCIENCE

Committee:

David Kesler, Department of Biology, Chair
Rosanna Cappellato, Department of Biology

Carol Ekstrom, Department of Physics (Geology)

Eric Gottlieb, Department of Mathematics and Computer Science

Jon Russ, Department of Chemistry

REQUIREMENTS FOR A MINOR IN ENVIRONMENTAL SCIENCE

A total of 24 credits and one additional experiential environmental experience as follows:

1. Two of the following introductory courses in environmental science:
 - a. Geology 116: Global Environmental Change
 - b. Geology 111: Introduction to Earth System Science
 - c. Biology 105: Environmental Science
2. Three of the following courses: (At least one must be taken from outside a student's major department)
 - Biology 210: Conservation Biology
 - Biology 212 and 214 (taken together): Environmental Issues in Southern Africa, Environmental Field Studies in Namibia and Botswana
 - Biology or Geology 254: Coral Reef Ecology
 - Biology 315: Ecology
 - Chemistry 211: Organic Chemistry I
 - Chemistry 406: Instrumental Analysis
 - Chemistry 422: Advanced Organic Chemistry
 - Geology 214: Environmental Geology
3. One additional environmentally-oriented course 200 or higher level approved by the program committee
4. One additional environmentally-oriented experience based on experiential learning. These experiences will be approved by the environmental science committee but may include independent research, internships, service projects, summer experiences, and international experiences.

FILM STUDIES

Committee:

Jennifer Brady, Department of English

Thomas F. Cohen, Department of English, Chair

Michael LaRosa, Department of History

Valerie Nollan, Department of Foreign Languages and Literature

James Vest, Department of Foreign Languages and Literature

REQUIREMENTS FOR A MINOR IN FILM STUDIES

A total of twenty (20) credit hours as follows:

1. English 202
2. English 382
3. Three courses to be chosen from a list of offerings in various departments. One of these requirements may be satisfied by a directed inquiry or an internship (on approval of the Film Minor Committee). Courses currently being offered which meet one or more of these requirements are:
 - Art 345: Contemporary Art
 - English 202: Introduction to Cinema
 - English 204: Introduction to Screenwriting
 - English 241: History and Criticism of American Cinema
 - English 242: World Film
 - English 245: Special Topics in Film

English 381: Advanced Topics in Film
French 234: Hitchcock and Truffaut
French 332: French Drama
French 334: French Cinema
German 307: German Cinema
History 205: History of Latin America through Film
Russian 400: Russian and Soviet Cinema

LATIN AMERICAN STUDIES

Committee:

Eric Henager, Department of Modern Languages and Literatures
Amanda Irwin, Department of Modern Languages and Literatures, Chair
Michael LaRosa, Department of History
Amy Risley, Department of International Studies
Timothy Watkins, Department of Music

REQUIREMENTS FOR A MAJOR IN LATIN AMERICAN STUDIES

A total of forty-five (45) credits as follows:

1. Each of the eleven following courses:
Anthropology/Sociology 103: Introduction to Anthropology or 205: Victims of Progress
Economics 101: Introduction to Economics
Economics 102: Introduction to Economics
History 261: Colonial Latin American
History 262: Modern Latin America
International Studies 200: Introduction to Comparative Politics
International Studies 273: Latin American Politics and Society
International Studies 274: Issues in US-Latin American Relations or History
363: History of U.S.-Latin American Relations
Spanish 301: Advanced Spanish Language and Civilization
Spanish 306: Introduction to Latin American Culture and Literature
Latin American Studies 485: Senior Seminar
2. Two of the following courses:
Anthropology/Sociology 335: Modernization and Cultural Change
Anthropology/Sociology 346: Peoples of South America (Amazonia)
Anthropology/Sociology 350: Contemporary South American Society and Culture
Music 119: Music in Latin America
3. Two of the following courses:
Spanish 309: Spanish in Ecuador
Spanish 310: Spanish in Memphis
Spanish 320: Spanish American Drama
Spanish 330: Spanish American Poetry
Spanish 340: Latin American Colonial Literature
Spanish 360: Gender in Spanish American Literature
Spanish 370: Contemporary Southern Cone Literature
Spanish 405: Literature of Mexico after 1911
Spanish 406: Contemporary Novel of Spanish America
Spanish 408: Spanish American Short Story
Spanish 365: Special Topics in Spanish (only when dealing with a Latin American topic)

REQUIREMENTS FOR A MINOR IN LATIN AMERICAN STUDIES

A total of twenty-four (24) credits as follows:

- Anthropology/Sociology 103 or 105
- Anthropology/Sociology 335, 346 or 350
- History 261, 262
- International Studies 200, 273, and 274
- Spanish 306

COURSE OFFERINGS

206. Business Spanish Practicum.

Fall. Credits: 1.

Discussion of current Latin American business and economic conditions based on readings in major dailies, internet sources, and background materials. Course materials change each year. May be repeated once for credit.

485. Senior Seminar.

Fall. Credits: 3.

Senior Seminar is an interdisciplinary research project from the following departments: Anthropology/Sociology; History; International Studies; Foreign Languages (Spanish). Students must combine two disciplines in their research and work under the supervision of the faculty from the departments who are also members of the Latin American Studies Committee.

NEUROSCIENCE

Committee:

Jay A. Blundon, Department of Biology, Chair
Robert Strandburg, Department of Psychology

REQUIREMENTS FOR A MAJOR IN NEUROSCIENCE LEADING TO THE B.A. DEGREE

A total of sixty-two (62) credits as follows:

1. Seven (7) introductory courses
 - a) Biology 130-131L
 - b) Biology 140-141L
 - c) Chemistry 111-111L
 - d) Chemistry 112-112L
 - e) Philosophy 328
 - f) Psychology 150
 - g) Psychology 200
2. Four (4) specific upper level courses
 - a) Biology 370
 - b) Psychology 211
 - c) Psychology 318
 - d) Neuroscience 485/486
3. Four (4) of the following electives
 - a) Biology 204, 207, 304, 307, 325
 - b) Chemistry 414, 416
 - c) Neuroscience 451-452
 - d) Psychology 216, 220, 224, 306, 327, 353
4. Courses recommended but not required
 - a) Chemistry 211-212 (L)
 - b) Computer Science 141

- c) Mathematics 115
- d) Physics 111-112
- e) Political Science 216

COURSE OFFERINGS

451-452. Research in Neuroscience.

Fall, Spring. Credits: 1-4

Qualified students may conduct laboratory research in neuroscience. Four credits of research may be used to satisfy one of the upper level electives for the Neuroscience Major. Involves at least three hours of work per week per credit, regular meetings with the faculty sponsor, and a formal presentation of the research product upon completion. Interested students should consult the Neuroscience Program committee.

Prerequisites: Permission of the sponsoring faculty member and the Neuroscience Committee.

485-486. Senior Seminar.

Fall or Spring. Credits: 4

All Neuroscience majors are required to enroll in Senior Seminar during one semester of their senior year. Senior Seminar is intended to be a capstone academic experience that involves student presentations and discussions of current primary literature in Neuroscience. Students will lead a discussion of primary literature articles and will also prepare a research paper on the same topic.

Prerequisites: Permission of the instructor.

495-496. Honors Tutorial.

Fall or Spring. Credits: 4-8

Open to senior candidates for honors research in Neuroscience with a minimum maintained GPA of 3.5. Each candidate must submit a research proposal to the Neuroscience Program Committee in September followed by a manuscript of their research by March of the next year. The honors degree in Neuroscience is contingent upon committee acceptance of the research manuscript. Includes supervised honors research and instruction in an appropriate field of study.

Prerequisites: Permission of the Neuroscience Committee.

URBAN STUDIES

Committee:

Rosanna Capellato, Department of Biology

Michael P. Kirby, Department of Political Science, Chair

Thomas G. McGowan, Department of Anthropology and Sociology

Charles W. McKinney, Jr., Department of History

Gail Murray, Department of History

Carla Shirley, Department of Anthropology and Sociology

Mark V. Smith, Department of Psychology

REQUIREMENTS FOR A MAJOR IN URBAN STUDIES

A total of forty one (41) credits as follows:

1. Urban Studies 201: Introduction to Urban Studies
2. Interdisciplinary 222 or 322: Introduction to GIS or Seminar in GIS (One credit)
3. Political Science 200: Urban Politics

4. Political Science 316: Urban Policy
5. Anthropology and Sociology 343: Race/Ethnic Identities, Experiences and Relations
6. Anthropology and Sociology 261: Research Methods
7. History 242: African American History
8. Urban Studies 360: Urban Studies Junior Internship (restricted to urban studies majors or minors)
9. Urban Studies 485: Urban Studies Senior Seminar
10. Two elective courses in Urban Institutions and Issues selected from the following list:

Economics 361: Management of Organizations
Education 201: Foundations of Education
Anthropology and Sociology 303: Medical Sociology
Anthropology and Sociology 307: Sociology of Education
History 343: The Civil Rights Movement
Biology 105: Environmental Science
Geology 214: Environmental Geology
Urban Studies 460: Urban Studies Senior Internship (restricted to urban studies majors or minors who have completed the urban studies junior internship)
Urban Studies 462: Field Projects in Community Organization

Other elective courses may be used to fulfill the elective requirements provided they 1) contain an urban institutional or urban issues focus and 2) are approved for major credit by the Urban Studies Chair. Urban Studies elective courses may be added during the school year; check with program chair during registration for a complete list of electives in Urban Studies; see appropriate departmental listing for course descriptions. Courses cannot be used as both requirements and electives.

REQUIREMENTS FOR A MINOR IN URBAN STUDIES

- A total of twenty one (21) credits as follows:
1. Urban Studies 201: Introduction to Urban Studies
 2. Interdisciplinary 222 or 322: Introduction to GIS or Seminar in GIS (One credit)
 3. One of the following: Political Science 200: Urban Politics or Political Science 316: Urban Policy
 3. Anthropology and Sociology 343: Race/Ethnic Identities, Experiences and Relations
 4. History 242: African American History
 5. Urban Studies 360: Urban Studies Junior Internship (restricted to urban studies majors or minors)

STUDY ABROAD

Many Urban Studies students spend a semester abroad and some of the courses may be eligible for Urban Studies credit. However, students must provide the program chair with the course information before beginning the program. There are also some programs that are more appropriate for Urban Studies students (for example, see *Cities in the 21st Century* at Trinity College in Hartford, CT).

COURSE OFFERINGS

201. Introduction to Urban Studies.

Spring. Credits: 4.

Degree Requirements: Social Science.

An interdisciplinary approach to examining issues and institutions in American

cities; neighborhoods, downtowns, suburbs, housing, poverty, environmental justice, nonprofits and city politics; discussion of urban public and social policies; field trips or service learning will be used to do hands on analysis of urban issues.

360. Urban Studies Junior Internship.

Fall, Spring. Credits: 4.

A directed internship with an urban, social, governmental, or nonprofit agency. The courses integrate traditional academic work in Urban Studies with practical internship experience.

Prerequisites: Two courses in Urban Studies or Urban Studies electives.

460. Urban Studies Senior Internship.

Fall, Spring. Credits: 4.

A directed internship with an urban, social, governmental, or nonprofit agency. The courses integrate traditional academic work in Urban Studies with practical internship experience.

Prerequisites: Urban Studies 360.

462. Field Projects in Community Organization.

Fall, Spring. Credits: 4.

Direct application of class work to an urban problem or issue through field work in an urban institution; development of a research or policy design before field activity; involvement of student, faculty sponsor and community agency sponsor.

Prerequisites: Three courses in Urban Studies or Urban Studies electives.

485. Senior Seminar in Urban Studies.

Spring. Credits: 4.

An investigation of subject areas in the discipline of Urban Studies that involves research collaboration between students and faculty.

WOMEN'S STUDIES

REQUIREMENTS FOR A MINOR IN WOMEN'S STUDIES

A total of twenty-four (24) credits as follows:

1. Women's Studies 200. Introduction to Women's Studies.
2. Women's Studies 400. Seminar in Contemporary Feminist Theory.
3. Four courses selected from the Women's Studies curriculum. Two of these courses must come from fields *outside of one's major*. For one of these four WS courses, students are encouraged to consider an Internship or a Directed Inquiry. An Internship or Directed Inquiry must be approved by the Women's Studies Committee.

Women's Studies courses regularly offered include, but are not limited to:

Anthropology/Sociology 210: Gender and Society
Anthropology/Sociology 211: Women in Prehistory
Art 265: Women in the Ancient World
English 220: Topics in Women and Literature
English 221: The Novel of Manners
English 320: Women Writers in the Middle Ages
French 441: Women Writers, Women's Writing
History 205: Selected Topics in Women's History
History 245: Women in United States History
History 249: Black and White Women in the South
History 345: Gender in the American West
History 405: Topics in American Women's History
Psychology 232: Psychology of Women
Religious Studies 232: Religion and Sexuality
Religious Studies 258: Women in World Religions
Spanish 350: Short Fiction by Spanish Women Writers
Spanish 365: Medieval and Early Modern Spanish Women Writers

COURSE OFFERINGS

200. Introduction to Women's Studies.

Spring. Credits: 3.

Degree Requirements: Humanities.

An interdisciplinary course designed primarily for first and second year students. This course assists students in formulating questions about gender as it relates to their work in various disciplines across the curriculum.

400. Seminar in Contemporary Feminist Theory.

Fall. Credits: 3.

Degree Requirements: Humanities.

An interdisciplinary seminar in contemporary feminist thought for third and fourth year students. Students will examine the contributions of feminist scholars in political theory, literary criticism, theology, psychology, anthropology, and philosophy.

INTERDISCIPLINARY MAJORS

Students interested in interdisciplinary study are encouraged to consider interdisciplinary majors. The following interdisciplinary majors have been approved by the Faculty, and the required courses have been defined as listed below. Students who wish to declare any of these established interdisciplinary majors may do so by filing the normal Declaration of Major form with the Office of the Registrar. Any

deviation from the program of study outlined in the description must be approved by the chairpersons of the departments involved.

ECONOMICS AND INTERNATIONAL STUDIES

A total of 15-16 courses (60-64 credits) as follows:

1. Economics 101, 102, 210, 290, 307, 312, and Economics 407 or 420
2. International Studies 100, 190, 200, 300, plus one two course sequence (other than 210-312)
3. Mathematics 115
4. An appropriate foreign language through completion of the second year (202)
5. Students must also successfully complete the interdisciplinary senior seminar (Economics 475).

HISTORY AND INTERNATIONAL STUDIES

A total of 13-14 courses (52-56 credits) as follows:

1. History 200, and two additional courses from the following: 215, 216, 217, 224, 225, 231, 232, 233, 242, 255, 256, 261, 262, 267, 281, 282, 288, 294.
2. International Studies 100, 200, 300
3. Economics 101-102
4. Area Requirement (Choose one area; 2 courses from each department; at least one history course must be at the 400 level)
 - a. Europe: History: 426, 428; I.S. 281, 282, 283
 - b. Asia & Africa: History 389, 482, 488; I.S. 243-244 or 245-246 or 261-262 or 263-264
 - c. the Americas: History 342, 343, 356, 358, 363, 432, 434, 436, 439; I.S. 273-274
5. I.S. 475. Senior paper to be written under the direction of one faculty member from each department.
6. An appropriate foreign language through completion of the second year (202).

POLITICAL SCIENCE AND INTERNATIONAL STUDIES

A total of 56 credits as follows:

1. International Studies: Two of the following: 100, 190, 200; both of the following: 300, 475; and one two course sequence.
2. Political Science: 151, 340, 360; one of the following: 212, 214, 218, 314; and one additional course
3. Economics 101,102
4. An appropriate foreign language through the completion of the second year (202).

MATHEMATICS AND ECONOMICS

A total of 60 credits as follows:

1. Economics 101, 102, 290, 302, 307, 407, 420.
2. Mathematics 121, 122, 201, 223, 251, 261.
3. Mathematics 311 or 321.
4. Economics 486 or Mathematics 485 and 486. Senior projects must have a faculty reader from both departments. The final presentation of the senior project must be made in the Senior Seminars of both departments.
5. For students seeking admission to graduate school in mathematics, Mathematics 362 and either 322 or 363 are recommended.
6. Other recommended courses include Business 351, Math 431, and CS 141.

SELF-DESIGNED INTERDISCIPLINARY MAJORS

Some students prefer to study in an area that can best be covered by combining the work in two or even three academic departments. Interdisciplinary majors are important ways in which the faculty can meet the special academic needs of these students.

Students who wish to declare an interdisciplinary major that does not have a program of study already defined should follow the steps below in order to secure the necessary approvals within a reasonable time and to ensure an adequate review of the proposed program of study. The proposed program of study must include specific provisions for a senior seminar or integrating senior experience. The "Declaration of Interdisciplinary Major" form is used to record the approvals and to advise the Registrar of the College.

1. Consult with faculty members in the departments that will be combined in the major to determine the feasibility of the interdisciplinary major. Consultation with the Registrar is also recommended in order to secure an understanding of the approval procedure.
2. Prepare, in consultation with the departments, a petition requesting the Faculty's approval of the interdisciplinary major. This petition is addressed to the Chairperson of the Faculty Educational Program Committee. The petition should contain these items:
 - a. The Declaration of Interdisciplinary Major, including a complete listing of courses, with numbers and titles and dates when the courses which comprise the interdisciplinary major are to be taken. Though it is customary that the number of courses in each department will be fewer than what is expected of a major in that department, it is essential that courses be included in the interdisciplinary major so that reasonably advanced work is done in each department. Introductory level courses in a large number of areas is not sufficient.
 - b. An essay in which a rationale for the interdisciplinary major is developed. Some clear academic link or tie between the departments is essential; simply taking courses in two departments is not sufficient. The rationale should be such that only by combining work in the departments can the rationale be realized. The importance of this essay cannot be overemphasized as it is not only a statement of the student's reasons for choosing the proposed interdisciplinary major but a philosophical and practical statement of why it is important to the student's career and life paths.
 - c. A complete description of the manner in which the senior seminar will be structured. It must be clear how the departments involved in the major will be integrated into the senior seminar, seminars, or capstone experience. An indication should be given as to the department or departments in which the senior seminar will be pursued or if an interdisciplinary senior seminar is proposed. The capstone experience should be explained in as much detail as possible.
 - d. Some indication of how the departments will work cooperatively with the student in realizing the rationale for the interdisciplinary major. This may take the form of a specially designed directed inquiry or tutorial for the student, participated in by representatives of the departments; it may be a major project in one area reviewed and evaluated by members of the other department. Whatever form it takes, some academic program sponsored by the departments in the interdisciplinary major is necessary.
3. The Declaration of Interdisciplinary Major must be endorsed in writing by the chairpersons of the departments. This endorsement should give an assessment of the student's ability to undertake and complete successfully

the work projected in the petition. The departmental endorsements should also specify who will serve as the principal faculty advisor for the student.

4. The entire Declaration of Interdisciplinary Major with the completed petition is submitted to the Registrar for review before it is sent to the Education Program Committee for a full review and action.
5. Interdisciplinary majors must be declared and receive approval no later than midterm of the spring semester of the junior year. It is expected that work on the petition, interviews with faculty, and consultation with the Registrar will take place no later than the fall semester of the junior year. The student who submits an interdisciplinary major petition will have already declared a major by midterm of the spring semester of the sophomore year. If the interdisciplinary major can be worked out in time for the sophomore year deadline for declaring a major, it should be submitted earlier.
6. Any proposed deviation from the approved interdisciplinary major must have departmental approvals and the approval of the Education Program Committee before changes are made in the course of study.

INTERDISCIPLINARY COURSES

HUMANITIES

Basic Requirement In Humanities

The Life program and the Search program described below offer alternative ways to fulfill the Basic Requirement in Humanities in the College's general degree requirements.

Life: Then and Now.

Staff:

Mark W. Muesse, Department of Religious Studies, Director
Thomas Bremer, Department of Religious Studies
Ryan Byrne, Department of Religious Studies
Patrick Gray, Department of Religious Studies
Stephen R. Haynes, Department of Religious Studies
Kendra G. Hotz, Department of Religious Studies

Michelle Voss Roberts, Department of Religious Studies
Patrick A. Shade, Department of Philosophy
David Sick, Department of Greek and Roman Studies
Gail P. C. Streete, Department of Religious Studies

In the first two courses of the Life: Then and Now program, the student is introduced to the major methodological approaches to the study of religion represented in the "Life" curriculum. The student selects the last course from a range of courses that apply these specific methodological approaches to different aspects of religion. Fuller course descriptions may be found in the departmental listings.

Religious Studies 101. The Bible: Texts and Contexts. (First Semester, First Year) [4]. The first in a two-course sequence that introduces the “Life” curriculum, this course focuses on introducing students to the academic study of the Bible. Students survey representative texts from each genre of biblical writing in the Old Testament/Hebrew Bible and the New Testament. Particular attention is paid to understanding the role of historical and cultural context in shaping biblical views on theological issues (God, sin and evil, Jesus’ significance, e.g.).

Religious Studies 102. The Bible: Texts and Contexts. (Second Semester, First Year) [4]. This course continues the introduction to the “Life” sequence begun in Religious Studies 101 by examining the development of central themes in the Christian theological tradition. The course begins with classical figures from the early and medieval periods, and follows the impact of modernity on Christian thought. The course concludes with major theological developments in the 20th and 21st centuries, including the advent of the comparative study of religion.

Final Courses. The concluding courses in the “Life” curriculum allow the student to focus in particular areas of the study of religion or philosophy. See the departmental listings under “Religious Studies,” “Philosophy,” and “Greek and Roman Studies” for specific courses in the Life curriculum.

Humanities 101-102-201. The Search for Values in the Light of Western History and Religion.

Fall-Spring-Fall. Credits: 4-4-4

The Search for Values in the Light of Western History and Religion is an

interdisciplinary study of the ideas, beliefs, and cultural developments that have formed Western culture. In the first year (101-102), students examine original documents in translation from the history and literature of the Israelites, the Greeks, the Romans, and the early Christians. Selected texts from the Hebrew Bible are read and discussed in conjunction with the ideas and themes of Mesopotamian and Greek culture. Students study the Gospels and selected letters from the New Testament in conjunction with Hellenistic and Roman history, life, and thought.

In the third semester, students trace the roles of biblical and classical heritages in the shaping of the values, character, and institutions of Western culture and its understanding of self and world. To this end, they read and discuss selections from the works of philosophers, theologians, political theorists, scientists, and literary artists from the Renaissance to the present. Courses in the second year focus attention on the following disciplines: Classical Studies, History, Literature, Music, Philosophy, Politics, Religious Studies, and Theatre. Students choose from one of these disciplinary areas.

Prerequisites: Humanities 101 is a prerequisite for Humanities 102. Humanities 102 is a prerequisite for Humanities 201. These prerequisites may be satisfied alternatively by the permission of the instructor.

INTERDISCIPLINARY COURSE OFFERINGS

222. Geographic Information Systems (GIS).

Spring. Credits: 1.

Geographic information systems (GIS) technology is a tool used for scientific investigations, resource management and development planning. GIS technology is a collection of digital maps, associated digital data, and software tools that can answer spatially posed questions. This course will introduce students to GIS technology, GIS software and the application of GIS in a variety of natural and social science disciplines, including anthropology, biology, economics and business, geology, political science international studies, and urban studies.

240. Effective Public Speaking.

Fall, Spring. Credits: 4.

This course provides students with frequent opportunities to practice oral communication skills. Students study the fundamentals of healthy and efficient voice production, as well as the use of the voice and body as instruments of expression and persuasion.

263. Mock Trial Participation.

Spring. Credits: 1.

Preparation for and participation in intercollegiate Mock Trial competitions. Participants prepare cases around assigned sets of facts. They then practice and compete in roles of both lawyer and witness.

Prerequisites: Political Science 262 and invitation of the instructor. A total of 4 credit hours may be earned for Mock Trial Participation.

322. Geographic Information Systems Research Seminar.

Fall, Spring. Credits: 1-2.

This course is designed for students who have already been introduced to the analytical tools of GIS. Students will undertake a research project under the supervision of one of the faculty teaching this course. The research project will culminate in a paper and presentation. The seminar will meet in an ongoing basis

to exchange ideas, report on progress, and share potential sources of information.

331. Theory and Practice of Scholarship Grant Writing.

Spring. Credits: 1.

This course is a workshop designed to assist students in the theoretical and practical aspects of writing successful grants for post-graduate scholarships and other competitive opportunities. Students learn about the various options available, read scholarly literature on grant writing, develop strategies for writing proposals and give and receive criticism on proposals and projects. By the conclusion of the course, students are prepared to compete for national postgraduate scholarships.

485, 486. Interdisciplinary Senior Seminar.

Fall, Spring. Credits: 4.

This course is intended for the student who is pursuing an interdisciplinary, self-designed major. In the event that the student is unable to unify the senior seminar experiences of the departments involved in the major or to take each of the department's senior seminars, the Interdisciplinary Senior Seminar will be utilized to serve as the culminating experience for the major. It is intended to be an experience that will show both a breadth and a depth of knowledge in the integration of the departments, requiring both written and oral work.

HONORS IN INTERNATIONAL STUDIES

Required: The process of completing Honors in the Department of International Studies is comprised of two semesters (Fall and Spring). Students must enroll in International Studies 475 in the Fall semester of the year in which the student intends to complete the Honors Project and gain departmental approval of a research proposal. Students will select a first and second reader for the Honors Project and a third member will be selected by the department. Students should consult with an International Studies faculty or staff member about their intentions to pursue an honors project at the beginning of the fall semester and obtain a copy of the Honors in International Studies Guidelines.

Prerequisites: Senior standing, a minimum GPA of 3.70 in all course work, and approval of the department.

COURSE OFFERINGS

100. Introduction to International Relations.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F8.

A survey of contemporary international politics. Major topics covered in this course include international political geography, the nation-state, modern diplomacy, international political economy, international law and organization, the East-West conflict, North-South issues, and the evolution of the international system.

133. Model United Nations.

Fall, Spring. Credits: 1.

Simulation of United Nations bodies (General Assembly, Security Council, etc.) in a controlled class environment to prepare students for participation in Model United Nations Sessions to which Rhodes College is invited annually. Students engage in detailed topical research on political, economic, and social issues of assigned countries and formulate position papers and resolutions for debate in the simulation. May be repeated for credit (4 credits maximum).

190. International Politics since 1945.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F3.

An extensive survey of significant events and trends in the international system since 1945. Topics will include the origins, evolution, and end of the cold war. The emergence of the post cold war era, decolonization and East-West competition, limited wars, the rise of nationalism, the role of nuclear weapons in world politics, changes in the global economy, and challenges facing the United States today will also be considered.

200. Introduction to Comparative Politics.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F8.

An introduction to the principal theories, analytical approaches, and methods relating to the study of comparative politics. Concrete country and case studies are used to highlight the relationship between the tools of comparative politics and real world events.

221. Russia and Soviet Successor States.

Fall. Credits: 4.

Degree Requirements: Social Science.

A study of the countries comprising the former USSR. The course will discuss the politics of the reform, as well as the domestic, foreign, and security policies of the successor states, and the context of the changed global power equation after the Cold War.

Prerequisites: International Studies 190 and 200 or permission of instructor.

243. Government and Politics of the Middle East.

Fall. Credits: 4.

Degree Requirements: Social Science.

An introduction to the cultural and social roots of politics, the legacy of colonialism, the sources of political power, grass roots challenges to elite control, the political economy of the region, and international relations. Throughout, the course emphasizes an interdisciplinary framework for understanding the politics of the Middle East and highlights the linkage among culture, economics, politics, and power.

Prerequisites: International Studies 200.

244. Issues in Middle East Politics.

Spring. Credits: 4.

Degree Requirements: Social Science.

Each year a topic of pressing importance to Middle East politics is addressed. Possible topics include Islamic activism, democratization, the Arab-Israeli dispute, the war on terrorism, the political economy of oil.

Prerequisites: International Studies 200 and 243.

245. Government and Politics of Africa.

Fall. Credits: 4.

Degree Requirements: Social Science.

The African mosaic in its complexity is introduced to students in this course. Beginning with a brief review of African history, the politics, economics and social transitions on the continent since 1945 will be examined. The role of both external and internal factors in shaping these transitions provides the theoretical focus for an investigation of present political economy, and future possibilities.

Prerequisites: International Studies 200 or permission of the instructor.

246. Pan-Africanism and the Politics of African Unity

Spring. Credits: 4.

Degree Requirements: Social Science.

This course is designed as a survey and examination of the origins and development of the idea of Pan-Africanism. It focuses on the evolution of this idea into a major political movement for the empowerment of Africans in the Diaspora and the decolonization of the African continent. Particular emphasis is laid on the role of individuals in the development of the movement and the political dynamics that informed the culmination of the movement into the formation of the OAU. The role of the OAU/AU as the basis of collective African diplomacy, as well as that of regional economic integration schemes in the quest for African unity, security, and development is evaluated with a view to determining their achievements, problems, and prospects.

Prerequisites: International Studies 245 or permission of instructor.

261. Government and Politics of China.

Fall. Credits: 4.

Degree Requirements: Social Science.

A study of the political system of the People's Republic of China, including an examination of the three centers of power (party, government, and military), ideology, leadership, political change, provincial and local governments. The Chinese political system will be assessed as a unique communist system and one that is changing due to rapid economic development. Current political problems will be analyzed.

Prerequisites: International Studies 200 or permission of the instructor.

262. China's Foreign Policy.

Spring. Credits: 4.

Degree Requirements: Social Science.

An analysis of China's foreign policy from 1949 to the present. Particular emphasis will be placed on China's relations with the United States, Russia, Japan and Europe, its bid to lead the Third World bloc, Beijing's efforts to adjust to a new world order and its new role as an economic power.

Prerequisites: International Studies 190 or permission of the instructor.

263. Government and Politics of Japan.

Fall. Credits: 4.

Degree Requirements: Social Science.

A study of the Japanese political system focusing on political culture, constitutionalism, the party system, elections, political leadership, local governments, and the relationship among business, labor, and the bureaucracy. The

Japanese political system is assessed as a mixed presidential-parliamentary system and as a model in terms of consensus efficiency and smooth decision-making.

Prerequisites: International Studies 200 or permission of the instructor.

264. Government and Politics of Southeast Asia.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of political structures, parties, bureaucracies, leadership hierarchies, foreign policies in selected Southeast Asian countries. Particular attention will be given to political development; the impact of war in Indochina; the threat of communism; the potential for regional organizations, especially the Association of Southeast Asian Nations (ASEAN); and the area's role in the new world order.

Prerequisites: International Studies 200 or permission of the instructor.

270. Research Methods in International Relations.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course examines various tools and methods used in the study of international relations. The formulation and design of research projects will be emphasized. Basic analytical concepts and techniques will also be introduced as students explore various approaches to the study of world politics.

Prerequisites: International Studies 100 and 200, or permission of the instructor.

273. Government and Politics of Latin America.

Fall. Credits: 4.

Degree Requirements: Social Science.

A study of the domestic political and economic development of Latin America. Topics include political history, political culture, political actors and institutions, governmental systems and the state, and contemporary political issues. Other topics in the economic area include underdevelopment, trade and political economy. Selected countries are examined as case studies to describe and explain Latin American political life in a variety of environments.

Prerequisites: International Studies 200.

274. Contemporary Issues in Inter-American Relations.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of the international aspects of politics in Latin America, with particular attention to its relationship with the United States. Special attention is given to issues in U.S.-Latin American relations. Topics include diplomatic history, the Cold War and post-Cold War environments, the relationship of domestic and international politics in the region, and contemporary Latin America issues such as debt, development, trade and integration, environment, immigration, drugs and democracy. The foreign policies of major Latin American powers are also examined.

Prerequisites: International Studies 200.

281. Government and Politics of Western Europe.

Fall. Credits: 4.

Degree Requirements: Social Science.

A comparative study of the governmental structures and political dynamics of the United Kingdom, France, Germany and Italy. The varieties of parliamentary democracy, their political evolution in recent decades, comparisons of political

cultures, and the disparate decision making patterns will be emphasized.

Prerequisites: International Studies 200 or permission of the instructor.

282. Politics of European Integration.

Spring. Credits: 4.

Degree Requirements: Social Science.

An examination of the post World War II transformation of Europe: the loss of empire, the evolution of the European Union institutions and the development of new national, regional and international roles. Emphasis will be on the political issues, economic problems, and defense debates within and among the countries of the European Union in the last decade.

Prerequisites: International Studies 100 and 281, or permission of instructor.

283. Eastern and Central Europe.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of contemporary Eastern and Central Europe, including domestic politics, foreign and economic policy, regional cooperation, and discord. Special attention will be paid to the changes taking place in the region in the aftermath of the 1989 anti-communist revolutions, including prospects for democracy and market reform in the region.

Prerequisites: International Studies 200 or permission of instructor.

285. The East Asia Miracle.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course will focus on the development (economic and political) miracles that have taken place in East Asia since WWII. Special attention will be given to change in Japan since the war, the Four Dragons (S. Korea, Taiwan, Hong Kong and Singapore), where economic growth seems to have produced democracy, Southeast Asia, and China.

Prerequisites: International Studies 100.

300. International Relations Theory.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science.

An examination of the major theoretical paradigms in the study of international politics. An overview of approaches to the study of international relations with emphasis on the realist, liberal, critical, and Marxist debates. Theories of war and peace will be analyzed.

Prerequisites: International Studies 100.

310. Comparative Political Economy.

Fall. Credits: 4.

Degree Requirements: Social Science.

Contemporary nation-states display a wide range of diversity in their patterns of power and authority and choices of economic systems. This course seeks to comprehend from a theoretical perspective the processes which produced these present systems, their similarities and differences, and their sources and mechanisms of change. Major theoretical perspectives will be reviewed.

Prerequisites: International Studies 200.

311. International Political Economy.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course provides an overview of the major issues in international political economy: interdependence, the making of foreign economic policy, evolution of the international financial system, the role of multinational corporations, and issues in the North-South dialogue. Emphasis is on the variety of ways in which political and economic forces interact to affect flows of goods, services, investments, money and technology. Major theoretical perspectives will be reviewed.

Prerequisites: International Studies 100 or permission of instructor.

336. Nationalism.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of nationalism and its impact on international relations. The course examines the roots of national identity, the evolution of nationalism in the twentieth century, and changes brought about by the end of the Cold War. It explores links between nationalism and foreign policy-making, war, and conflict resolution.

Prerequisites: International Studies 200 or permission of the instructor.

371. American Foreign Policy.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course examines the foreign policy making process in the U.S. and American foreign policy since World War II. Emphasis will be placed on the historical evolution of American foreign policy, the conduct and style of foreign policy making and the contemporary foreign policy establishment. Policy alternatives for specific issues in the present and near future will also be studied.

Prerequisites: International Studies 190 or permission of the instructor.

372. U.S. National Security Policy.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course examines the evolution of American military power and U.S. national security policy in the twentieth century. Emphasis will be placed on the dynamics of policy formation, the interaction of foreign and defense policy, and the impact of domestic politics and the changing international environment on the policy process. Various strategic theories, assumptions about national security policy, and dilemmas regarding the use of force will also be examined.

Prerequisites: International Studies 190 and 371, or permission of the instructor.

395. U.S. Foreign Policy in East Asia.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course will assess U.S. foreign policy toward the countries of East Asia. It will focus on America's traditional role in the Far East, recent wars (Korea and Vietnam), problems in current relations with China and Japan, the NICs, ASEAN and the survival of communism in East Asia, trade and security issues, and human rights. The matter of a Pacific Rim bloc will also be covered.

Prerequisites: At least one of the following: International Studies 261, 262, 263, 264, 371, 372.

420. Revolution in World Politics.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course examines the concept of revolution, the development and processes involved in revolutionary movements, and the consequences and ramifications of revolutionary change. Students will first be familiarized with theoretical frameworks prevalent in the study of revolutions. Focus will then be on historical case studies, with particular emphasis on the Russian, Chinese, Algerian, Cuban, Vietnamese, and Iranian revolutions, and on the specific role of such contributive factors as human agency, mass mobilization, state breakdown, international dynamics, guerrilla activities, and the prevailing social and cultural environment.

Prerequisites: International Studies 200.

421. Democratization in World Politics.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course examines thematically as well as empirically the phenomenon of democratization in previously non-democratic countries. It analyzes the general dynamics involved in the causes, processes, and consequences of the move toward modernization, examining the various theoretical frameworks forwarded for the explanation of the phenomenon. The course will also focus on various case studies, starting from the re-establishment of democracy in southern Europe in the 1970s to parts of Latin America in the 1980s and various east European nations at the start of the 1990s.

Prerequisites: International Studies 200 or permission of the instructor.

431-432. Topics in International Studies.

Fall, Spring. Credits: 4-4.

Degree Requirements: Social Science.

Concentrated study on issues of special importance in international affairs. This course is arranged to meet particular students' interests or faculty research projects. Topics offered recently have included Soviet-American Arms Control Negotiations and Crises in International Politics. Other possible topics might include Terrorism, Arms Transfers, International Drug-Trafficking, the Pacific Rim, South Africa, and others. Not offered each year.

Prerequisites: International Studies 100 and 200, or permission of the instructor.

450. Washington Semester.

Fall, Spring. Credits: 12-16.

A sixteen-week study program in Washington, D.C., consisting of two seminars, an internship, and a significant research project. Since special financial arrangements are required for this program, students may not apply Rhodes financial aid or Rhodes scholarship funds to the cost of attendance at American University. All credit is reckoned as transfer credit.

Prerequisites: Approval of the department chair.

451. International Organization.

Fall. Credits: 4.

Degree Requirements: Social Science.

The growth of international organizations in the nation-state system; procedures of international cooperation in key issue areas including: the peaceful settlement of disputes and collective security, human rights, ecological balance, and economic well-being. The study of functional and universal organizations, with an emphasis

on the League of Nations and the United Nations.

Prerequisites: International Studies 100 or permission of instructor.

452. International Law.

Spring. Credits: 4.

Degree Requirements: Social Science.

A study of the sources of international law, general problems of international law such as rights and duties of states, succession, recognition, settlement of disputes, international legislation, individual and collective responsibility, codification and U.N.-formulated international law.

Prerequisites: International Studies 100 or permission of instructor.

460. Internship in International Studies.

Fall, Spring. Credits: 1-8.

Arranged on an individual basis and in conjunction with the Career Services Office, students can receive internship credit for work in various professional settings. Internships have been arranged in the past with a variety of local law firms, non-profit agencies, and area corporations. Internship opportunities are also available with local, state, and federal government agencies. The typical internship experience receives 4 academic credits on a pass/fail basis. Student interns are expected to keep a regular log of their activities and write a final paper reflecting on their overall internship experience.

470. Summer Internship Abroad.

Credits: 4.

The Mertie W. Buckman International Internship Program provides an opportunity for outstanding International Studies majors and International Studies-related Interdisciplinary majors to spend two months abroad in an international business setting while working on an internship project approved by the International Studies faculty. The Mertie W. Buckman International Internships, which seek to expose students to international politics and economics, are awarded on a competitive basis and cover all direct expenses associated with the internship, including travel and accommodations abroad.

475. Senior Tutorial.

Fall, Spring. Credits: 4.

Conducted as a tutorial in seminar format, this course seeks to assist each student in intensive research and the completion of the Senior Paper and an oral presentation of the Senior Paper. The Senior Paper is based on a topic of student's choice and faculty member's approval. Contemporary issues in the study of international relations and comparative politics are also discussed. Required of all International Studies majors and International Studies-related Interdisciplinary majors.

Prerequisites: Senior Standing.

495-496. Honors Tutorial.

Fall and Spring. Credits: 4-4.

An Honors version of International Studies 475, this tutorial will consist of individual research and writing of the Honors Project. Students will select a first and second reader for the Honors Project and a third member will be selected by the department. Students should consult with an International Studies faculty or staff member about their intentions to pursue an honors project at the beginning of the fall semester of the senior year (or earlier) and obtain a copy of the Honors

in International Studies Guidelines.

Prerequisites: Senior standing, minimum GPA of 3.70 in all course work, and approval of the department.

REQUIREMENTS FOR A MAJOR IN MATHEMATICS

A total of fifty-seven (57) credits as follows:

1. Mathematics 121, 122, 201, 223, 261, 321, 362, 386, 485, and 486.
2. Computer Science 141.
3. Physics 111, 111L, 112, and 112L.
4. Three additional four-credit mathematics courses numbered above 200, excluding 495 and 496.
5. For the B.S. degree, the College requires three additional approved Natural Science courses outside the department.

REQUIREMENTS FOR A MAJOR IN COMPUTER SCIENCE

A total of fifty-six (56) credits as follows:

1. Computer Science 141, 142, 172, 231, 241, 485, and 486.
2. Mathematics 121, 122, and either 223 or 261.
3. One computer science course from each of the following groups: Systems (330 to 340), and Theory (350 to 360).
4. Three additional four-credit computer science courses numbered above 300, excluding 495 and 496..
5. For the B.S. degree, the College requires five additional approved Natural Science courses outside the department.

REQUIREMENTS FOR A MINOR IN MATHEMATICS

A total of twenty-four (24) credits as follows:

1. Mathematics 121, 122, 201, 223, and 261.
2. One additional four-credit mathematics course numbered above 300.

REQUIREMENTS FOR A MINOR IN COMPUTER SCIENCE

A total of twenty-four (24) credits as follows:

1. Computer Science 141, 142, 172, 231, and 241.
2. One additional four-credit computer science course numbered above 300.

HONORS IN MATHEMATICS OR COMPUTER SCIENCE:

1. Required courses: fulfillment of the requirements for the major.
2. Honors course: readings, research, and a research and/or expository thesis.
3. Approval by the department is required.

PLANNING A MAJOR

Students considering a major in Mathematics or Computer Science should contact the Chair or another member of the department as early as possible to ensure progress is being made toward the major. More information can be found at the department's web site: www.rhodes.edu/mathcs.

For reasonable progress toward a major in Mathematics, a student should begin the Calculus sequence (Math 121, 122 and 223) at the appropriate level in the first year, and complete the sequence before the Spring of the second year; complete Math 201 in the first year (or second year if necessary); and by the end of the second year, complete Math 261, Computer Science 141, and the Physics sequence. For reasonable progress toward a major in Computer Science, a student should begin the introductory programming sequence (Computer Science 141, 142, 241) in the first year. In the second year, a student should complete Computer Science 172 in fall and Computer Science 231 in the spring. The Mathematics requirements should be completed by the end of the third year.

COURSE OFFERINGS

105. Topics in Mathematics.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

A course designed for the non-mathematics major. Possible topics may include (but are not restricted to) music and math and mathematical modeling.

Prerequisites: Minimal, depending on the topic.

107. Linear Methods.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

Topics include systems of linear equations, matrices, matrix inversion and applications (including Leontief input-output analysis), mathematical programming, linear programming and the simplex method, finite Markov chains, and game theory.

Prerequisites: None.

108. Cryptology.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

This course is an examination of conventional cryptographic methods (such as substitution and transposition ciphers), public key methods (such as RSA, a standard method for secure web transactions), and computer-based conventional cryptographic techniques (block ciphers and hash functions). We will develop and use mathematical tools such as modular arithmetic, probability, matrix algebra, and number theory both to implement and cryptanalyze these methods. In addition, we will deal with a few of the technical and public policy issues surrounding uses of encryption.

Prerequisites: None.

111. Elementary Probability and Statistics.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

This course includes the following topics: descriptive statistics, sample spaces, counting procedures, compound events, random variables, discrete and continuous probability distributions, expectation, estimation, hypothesis testing, correlation, and simple linear regression. Computer statistical packages will be used. Students who have already had Math 122 should consider taking Math 311-312 instead.

Prerequisites: None.

115. Applied Calculus.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

This one-semester course presents an overview of calculus: limits, the derivative and applications, the definite integral and area, the fundamental theorem of calculus, integration by substitution and by parts, exponential and logarithmic functions, and partial derivatives. This course does not use trigonometry. (Note: Students who have already had Math 121 may not earn credit for Math 115. Math 115 is not adequate preparation for Math 122.)

Prerequisites: None.

121. Calculus I.

Fall. Credits: 4.

Degree Requirements: Natural Science, F6.

This course is an introduction to the concepts, formalism, and applications of derivatives and integrals. Elementary transcendental functions are used throughout; specific topics include limits, the derivative, applications of differentiation, the definite integral, and the Fundamental Theorem of Calculus.

Prerequisites: Students will need a background in high school algebra, geometry, trigonometry, and exponential and logarithmic functions.

122. Calculus II.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

This course is an introduction to (1) formal and numerical techniques of integration, (2) Taylor's theorem, sequences, series, power series, and their applications, (3) applications of integration and series to solving first-order and linear differential equations, and (4) applications of integration to calculate area, length, volume, probability, work, centroids, and fluid pressure.

Prerequisites: Math 121.

201. Mathematical Methods, Discourse and Culture.

Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

A thorough introduction to the reading, writing, presenting and creating of mathematical proofs. Students will learn and practice in a careful and deliberate way the techniques used to prove mathematical theorems. Proofs studied will be chosen from a variety of fields such as set theory, number theory, analysis, algebra, and graph theory. Topics also include elements of the history and philosophy of mathematics and an introduction to the mathematical community.

Prerequisites: Math 122 or permission of instructor.

223. Calculus III.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

A continuation of Math 122: vector calculus, functions of several variables, partial derivatives, multiple integrals, line integrals, and Green's theorem.

Prerequisites: Math 122.

251. Differential Equations.

Fall. Credits: 4.

Degree Requirements: Natural Science, F6.

The theory, methods, and applications of ordinary differential equations. Topics include existence, uniqueness and other properties of solutions, linear equations, power series and Laplace transform methods, systems of linear equations, and qualitative analysis.

Prerequisites: Math 122.

261. Linear Algebra.

Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

Topics include systems of linear equations, matrix algebra, determinants, real and complex vector spaces, linear transformations, eigenvalues and eigenvectors, and diagonalization. Attention is given to proofs.

Prerequisites: Math 122.

311-312. Mathematical Statistics and Probability.

Fall, Spring. Credits: 4-4.

Degree Requirements: Natural Science.

Topics include probability spaces, discrete and continuous random variables, independence, expectation, characteristic functions, the Central Limit Theorem, point and interval estimation, hypothesis testing, and regression. (Courses offered in alternate years; scheduled for 2005-2006.)

Corequisites: For 311, Math 223. **Prerequisites:** For 312, Math 311.

321-322. Real Analysis.

Fall, Spring. Credits: 4-4.

Degree Requirements: Natural Science.

Topics include the real and complex number systems, metric spaces, sequences and series, continuity, and differentiation, as well as topics selected from the Riemann and the Riemann-Stieltjes integrals, sequences and series of functions, functions of several real variables, and Lebesgue theory. Emphasis is on careful proof. (Courses offered in alternate years; scheduled for 2006-2007.)

Prerequisites: For 321, Math 201 and Math 223. For 322, Math 321.

362-363. Abstract Algebra.

Fall, Spring. Credits: 4-4.

Degree Requirements: Natural Science.

An introduction to axiomatic algebraic structures. Topics include groups, subgroups, permutation groups, cyclic groups, normal subgroups, quotient groups, homomorphisms, isomorphisms, rings, integral domains, polynomial rings, ideals, quotient rings, fields, and extension fields. Additional topics may include finite fields, Galois theory, and advanced topics from linear algebra. (Courses offered in alternate years; scheduled for 2005-2006.)

Prerequisites: For 362, Math 201 and Math 261. For 363, Math 362.

370. Complex Variables.

Spring. Credits: 4.

Degree Requirements: Natural Science.

This course is an introduction to the theory of functions of a complex variable. Topics covered include complex numbers and their properties, analytic functions and the Cauchy-Riemann equations, complex logarithms, exponential and trigonometric functions, complex integration and the Cauchy integral formula, complex power series, the residue theorem, and applications to calculations of definite integrals. (Course offered every third year; scheduled for 2005-2006.)

Prerequisites: Math 223.

386. Junior Seminar.

Spring. Credits: 1.

This course will prepare students for the Senior Seminar experience. Students will attend the Senior Seminar presentations, pursue independent readings, and prepare a Senior Seminar prospectus for approval by the faculty of the department.

431. Topology.

Spring. Credits: 4.

Degree Requirements: Natural Science.

Topics selected from sets, functions, metric spaces, topological spaces, separation properties, compactness, connectedness, the Stone-Weierstrass theorem, mapping theorems, plane topology, homotopy, and homology theory. (Course offered every third year; scheduled for 2007-2008.)

Prerequisites: Math 201 and Math 223.

455-456. Readings in Mathematics.

Fall, Spring. Credits: 1 to 4.

This course allows students to do advanced work not provided for in the regular courses. Its content will be fixed after consultation with the student and in accord with his or her particular interests.

Prerequisites: Permission of department chair.

460. Internship.

Fall, Spring. Credits: 1 to 4.

Internships in Mathematics and Computer Science, which are normally arranged by the Director of Career Services, are occasionally available and permit a qualified student to receive academic credit for off campus work experience. Internships are for Junior and Senior students majoring in the department. Subject to departmental approval, credit received may be used towards the major. Upon completion of the internship, the student makes written and oral reports focusing on an integration of the student's academic work and the internship project. Interested students should contact the Chair of the department and the Director of Career Services.

465. Special Topics in Mathematics.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

An occasional offering of topics not covered in the existing mathematics courses. Topics may include but are not limited to: graph theory, Fourier analysis, measure theory, dynamical systems, foundations of mathematics, game theory, set theory, logic, non-Euclidean geometry, applied mathematics, and operations research.

482. Combinatorics.

Fall. Credits: 4.

Topics selected from basic counting principles, Ramsey theory, the inclusion/exclusion principle, recurrence relations, generating functions, partially ordered sets, systems of distinct representatives, combinatorial designs, graphs, directed graphs, partitions, combinatorial optimization, enumeration under group action, and an introduction to coding theory. (Course offered every third year; scheduled for 2006-2007.)

Prerequisites: Math 201 or permission of instructor.

485-486. Senior Seminar.

Fall, Spring. Credits: 1-2.

This course is meant to emphasize the unity and power of mathematics by applying and extending ideas drawn from courses required for all majors. Topics will be determined by a consultation among the students enrolled and the supervising faculty member. All participants will make several oral presentations.

Prerequisites: Math 261 or 223 and permission of supervisor.

495-496. Honors Tutorial in Mathematics.

Fall, Spring. Credits: 4 to 8.

Prerequisites: Permission of department chair.

COURSE OFFERINGS IN COMPUTER SCIENCE

103. Computer Information Fluency.

Fall. Credits: 4.

Degree Requirements: Natural Science, F6.

A broad introduction to computing appropriate for all students, regardless of intended major. This course introduces fundamentals of computers and computer information management primarily through projects that emphasize mastery of basic concepts, acquisition of skills, and logical reasoning. Concepts presented include computer data representation, an intro to architecture and how computers work, and basic network organization. Skills are developed to facilitate the use of a computer for communication and online research. Logical reasoning is fostered through working with models and abstraction, algorithmic thinking with an intro to programming, and critical evaluation of the use of computers and technology. Emphasis is on the development of a conceptual framework for further learning and problem-solving with computers, rather than on the use of specific software or hardware.

141. Computer Science I: Programming Fundamentals.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

An introduction to the fundamental concepts and practices of procedural programming. Topics include data types, control structures, functions, arrays, files, and the mechanics of running, testing, and debugging. Emphasis is placed on program design and problem solving techniques. The course also includes an introduction to the historical and social context of computing and an overview of computer science as a discipline.

142. Computer Science II: Object-Oriented Programming.

Spring. Credits: 4.

Degree Requirements: Natural Science, F6.

An introduction to the fundamental concepts and practices of object-oriented

programming. The object-oriented programming paradigm is introduced, with a focus on the definition and use of classes as a basis for fundamental object-oriented program design. Other topics include an overview of programming language principles, simple analysis of algorithms, basic searching and sorting techniques, and an introduction to software engineering issues.

Prerequisites: Computer Science 141.

172. Discrete Structures for Computer Science.

Fall. Credits: 4.

Degree Requirements: Natural Science, F6.

An introduction to and survey of the mathematics used in computer science including functions, relations, sets, counting, logic, Boolean algebra, proof techniques, induction, recursion, computational complexity, and computability. Other topics may be included as time permits.

Prerequisites: Computer Science 141.

231. Introduction to Systems Programming and Computer Organization.

Spring. Credits: 4.

Degree Requirements: Natural Science.

A bottom-up exploration of the interaction between computer hardware and software. Topics include machine data representation and manipulation, binary file handling, addressing modes and dynamic memory allocation, an introduction to processes and threads, and process memory organization. Key layers of machine abstraction are illustrated through projects that involve an introduction to digital logic, assembly language programming, and an introduction to UNIX system programming.

Prerequisites: Computer Science 141.

241. Computer Science III: Data Structures and Algorithms.

Fall. Credits: 4.

Degree Requirements: Natural Science.

An introduction to the fundamental concepts of data structures and the algorithms that arise from them, using the object-oriented design paradigm. Data structures covered include stacks, queues, linked lists, hash tables, trees, and graphs. Other topics include an introduction to iterative and recursive algorithmic strategies and basic algorithm analysis.

Prerequisites: Computer Science 142.

Corequisite: Computer Science 172 (unless already taken).

315. Internet Programming.

Spring. Credits: 4.

Degree Requirements: Natural Science.

A survey of the special challenges encountered in the development of software for networked computing systems, including security, testing, maintenance, and reliability. Topics include the web as an example of client-server programming, the design and implementation of robust and maintainable web applications, use of multimedia technologies, designing for platform-independence, and programming ethics within the web community.

Prerequisites: Computer Science 241.

320. Computer Graphics.

Spring. Credits: 4.

Degree Requirements: Natural Science.

Coverage of the basic concepts of 2D and 3D graphics, including an overview of graphics hardware, use of a graphics application programming interface, user interface design, techniques for computer animation, and graphical algorithms such as geometric transformations, clipping, windowing, hidden surface removal, and raster graphics techniques for the representation of curves, surfaces, and solids. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Computer Science 241.

Corequisite: Math 223 or Math 261 (unless already taken).

330. Operating Systems.

Fall. Credits: 4.

Degree Requirements: Natural Science.

An introduction to the fundamentals of operating systems design and implementation. Topics include the process model and implementation of processes, an overview of the major components of a modern operating system, mutual exclusion and interprocess synchronization, a survey of scheduling algorithms, memory management techniques, and file systems. Examples are drawn from contemporary operating systems such as UNIX and Windows 2000. (Course offered in alternate years; scheduled for 2005-2006.)

Prerequisites: Computer Science 231.

335. Computer Architecture.

Fall. Credits: 4.

Degree Requirements: Natural Science.

An advanced study of the fundamental concepts in the design and organization of modern computer systems, focusing on how hardware has developed to support software requirements. Topics include a review of basic computer organization, instruction set design, processor design, memory system design, timing issues, interrupts, microcoding, and various performance-enhancing parallel techniques such as pipelining. Studies of existing architectures will illustrate how these design principles have been implemented.

Prerequisites: Computer Science 231.

350. Theory of Computation.

Spring. Credits: 4.

Degree Requirements: Natural Science.

A study of theoretical models for computing. The hierarchy of finite state machines, pushdown machines, context free grammars, and Turing machines will be analyzed, along with their variations. The basic concepts of decidability, complexity theory, and NP-Complete problems will be introduced.

Prerequisites: Computer Science 172.

355. Advanced Algorithms.

Spring. Credits: 4.

Degree Requirements: Natural Science.

An in-depth study of the design and analysis of advanced algorithms, including the performance tradeoffs and resources required by various algorithmic implementations. Major classes of computational problems will be identified and explored. Advanced data structures and approximation heuristics are introduced as required for solution design. Topics vary depending on the specific problems

covered but will include the Master Theorem, dynamic programming, divide-and-conquer and greedy algorithms. (Course offered in alternate years; scheduled for 2005-2006.)

Prerequisites: Computer Science 241.

360. Programming Languages.

Spring. Credits: 4.

A wide-ranging and in-depth coverage of fundamental programming language concepts, presenting design issues of the various language constructs, and examining the design choices for these constructs in a range of the most popular contemporary programming languages. Language design alternatives are examined and critiqued. Methods of syntax description, common approaches to describing the semantics of programming languages, and various implementation approaches are covered. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Computer Science 241.

455-456. Readings in Computer Science.

Fall, Spring. Credits: 1 to 4.

This course allows students to do advanced work not provided for in the regular courses. Its content will be fixed after consultation with the student and in accord with his or her particular interests.

Prerequisites: Permission of department chair.

460. Internship.

Fall, Spring. Credits: 1 to 4.

Internships in Mathematics and Computer Science, which are normally arranged by the Director of Career Services, are occasionally available and permit a qualified student to receive academic credit for off campus work experience. Internships are for Junior and Senior students majoring in the department. Subject to departmental approval, credit received may be used towards the major. Upon completion of the internship, the student makes written and oral reports focusing on an integration of the student's academic work and the internship project. Interested students should contact the Chair of the department and the Director of Career Services.

465. Special Topics in Computer Science.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

An occasional offering of topics not covered in the existing computer science courses. Topics may include but are not limited to: Artificial Intelligence (search techniques, game playing, neural nets, machine learning); Database Systems (relational, hierarchical and network databases, security and synchronization); Operations Research (resource allocation and optimization techniques including linear programming, game theory, queueing theory and Markov chains).

485-486. Senior Seminar.

Fall, Spring. Credits: 1-4.

Fall term: This course lays the groundwork for the Spring Senior Seminar experience. Independent readings will be discussed and presented, and a Senior Seminar Project prospectus will be prepared and presented for approval by the faculty of the department. Spring term: This course comprises an in-depth exploration of the principles and techniques of analysis and design of software systems from an object-oriented perspective. Design patterns, a diagrammatic modeling language, and standard techniques of computer software specification,

implementation, testing, and documentation will be explored and used as tools by students working in teams. Each team will produce a robust, scalable, and maintainable large-scale system based on the project proposal completed in CS 485. The Senior Seminar sequence is meant to emphasize the unity and power of computer science by applying and extending ideas drawn from the courses required for all Computer Science majors. All participants will make several oral presentations.

Prerequisites: Senior standing in the Computer Science major.

495-496. Honors Tutorial in Computer Science.

Fall, Spring. Credits: 4 to 8.

Prerequisites: Permission of department chair.

MODERN LANGUAGES AND LITERATURES

PART-TIME ASSISTANT PROFESSOR

Angela Balducci Mutzi. 1985. Doctor of Letters, University of Palermo. (Italian language and literature.)

STAFF

Kathy M. Foreman. Departmental Assistant.

The **Department of Modern Languages and Literatures** regularly offers instruction in Chinese, French, German, Italian, Russian, and Spanish. Details about the study of each of these languages at Rhodes are found under the subject heading for that specific language. In addition to literature and culture courses in the modern languages, the department also offers some courses in literature in English translation.

Modern Language and Literature Degree Requirement. The degree requirement in modern languages may be met by the successful completion of any appropriate three or four-hour course numbered 201 or higher or by demonstrating proficiency through placement into a language course at a level above 201 and approval by the appropriate language faculty. Students who take 201 (or higher) or the equivalent at another institution can earn transfer credit, but must still demonstrate proficiency (see above) in the specific language before the degree requirement is satisfied. Students for whom English is a second language may have this requirement waived.

All students who plan to fulfill Rhodes' foreign language degree requirement in a language they have previously studied for two years or more in high school must take a placement test in that language. For French, German, Russian, and Spanish, scores on that test will be used to place students in the course most appropriate for them at Rhodes. Students with fewer than two years in a language may enter that language at the 101 level. Any student who scores at the 202 level or higher will need to consult with the department to see if he or she fulfills Rhodes' foreign language requirement. Students wishing to fulfill the foreign language requirement in a language not previously studied should sign up for a course numbered 101 in that language. **However, a student may not take a course numbered 101 in any language for academic credit if two or more years of that language were completed in high school.**

In the modern languages, placement tests typically cover reading, writing, listening comprehension, and culture. **Literature or culture courses given in translation do not satisfy the foreign language degree requirement.**

Departmental Majors. Two types of majors are offered by the department:

A. The major in French, German, and Spanish. This major is designed to provide depth in one language, including its literature and civilization. Requirements are listed under the appropriate language heading.

B. The Russian Studies major, described below under "Russian".

THE LANGUAGE CENTER

The Language Center houses technology for students and faculty members to use in accessing instructional materials in both analog (audio and video tapes and foreign-language television broadcasts) and digital (digital audio and video resources and computer software) formats.

GENERAL COURSES

Modern Languages 150. Selected Foreign Languages.

Credits: Variable.

Certain foreign languages not listed above as regular course offerings are taught on occasion. Information concerning languages not regularly taught may be obtained from the Registrar or the department chair.

Modern Languages 280. Introduction to General Linguistics.

Spring. Credits: 4.

Degree Requirements: Humanities, F9.

The Introduction to General Linguistics course presents language as a specific object of knowledge, thought, science, and philosophy. Students will be introduced to the major linguistic theories and examine language as a semiotic system at its various levels. Among the authors to be studied are Ferdinand de Saussure, Nikolai Trubetsky, Roman Jakobson, George Lakoff, Anna Wierzbicka, Sapir, Whorf, Vygotsky, and Bakhtin. (Course is offered alternate years; scheduled for 2007-2008.)

Modern Languages 460. Internship.

Fall, Spring. Credits: 1-4.

Internships in the departmental languages are occasionally available for language majors and permit a qualified student to receive academic credit for an internship experience on or off campus, for example by working with a business, a non-profit organization, or within the department itself. The internship, which requires of the student an advanced competence in a foreign language, must entail a significant encounter with a foreign language. Working with a faculty mentor, students must submit a project proposal for the internship prior to the beginning of the internship itself. The completed project will be graded by the faculty mentor. Intradepartmental internships will be reserved for students planning to continue their studies in a foreign language and culture beyond the undergraduate level. Such internal internships will involve working with a faculty mentor on projects of a diverse nature that seek to enhance the program offerings of the language section. Placements must be approved by the faculty mentor who teaches the language in question and the chair of the department. Internship credit will not be awarded retroactively and does not count toward the total number of credits required for the major.

Pass/Fail only.

CHINESE

REQUIREMENTS FOR A MINOR IN CHINESE STUDIES:

A total of twenty (20) credits in Chinese language (above the level of intermediate Chinese 202), literature and culture. The credits are spread across the following courses:

1. Chinese 301 and 302: Advanced Chinese
2. One of the Chinese Literature courses:
Chinese 205: Modern Chinese Literature in Translation
Chinese 210: Chinese Literary Heritage
3. Two of the following courses:
History 281: The Origins of Chinese Civilization
History 282: Late Imperial China
History 382: Modern China

COURSE OFFERINGS

101-102. Elementary Chinese.

Fall, Spring. Credits: 4-4.

This two-semester course introduces Chinese to students with no knowledge of the language. Equal emphasis will be given to acquiring the rudiments of spoken and written Chinese. Students who complete the year-long course will master

approximately 700 characters and a vocabulary of a 1,000 words. It also intends to acquaint students with some aspects of Chinese culture and society as a necessary part of their education in this language.

201-202. Intermediate Chinese.

Fall, Spring. Credits: 4-4.

Degree Requirements: F10 for 201.

In addition to the same objectives for the first year, this course aims at improving students' aural-oral skills to achieve fluency and comprehension, further developing their proficiency in reading for understanding, and enhancing their ability to write in Chinese and to translate from Chinese into English and vice versa.

205. Modern Chinese Literature in English Translation.

Fall. Credits: 4.

Degree Requirements: Humanities, F4, F9.

An introductory course of modern Chinese literature (1918-1989) designed to acquaint students with major phases of modern Chinese literature and some masterpieces of representative writers in relation to political and social changes. The course provides opportunities to learn about modern Chinese culture, society, and politics through readings of chosen works and trains students to read thoughtfully and critically. No prior knowledge of Chinese language, literature, and culture is required.

210. Chinese Literary Heritage.

Spring. Credits: 4.

Degree Requirements: Humanities, F4, F9.

This course introduces one of the world's richest literary heritages: traditional Chinese literature. It conducts a general survey of Chinese literature from high antiquity up to modern times with the focus on some representative writers and their works. It consists of three major sections: poetry and prose, drama, and fiction. All readings are in English. No prior knowledge of Chinese language and culture is required.

212. Introduction to Comparative Literature: Chinese/English.

Spring. Credits: 4.

Degree Requirements: Humanities, F4, F9.

This course introduces students to the discipline of comparative literature. It selects some representative works from the Chinese and European literary traditions and groups them into several units centering round a genre and headed by a theme. All readings are in English.

Prerequisites: None.

214. Introduction to Chinese Culture.

Fall or Spring. Credits: 4.

Degree Requirements: Humanities, F3, F9.

This course introduces students to Chinese civilization and culture from the multiple perspectives of geography, history, philosophy, language, literature, religion, art, people, society, and general ways of life. Major concerns will include, but are not restricted to, forms of material and spiritual culture that have developed and changed through China's continuous traditions; individual and collective values that underlie social life, political organization, economics systems, family structure, human relationships, and individual behavior; and the

rationales that have made Chinese culture what it is.

Prerequisites: None.

215. Images of Women in Chinese Literature and Film.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F4, F9.

This course offers a critical survey of women's images in traditional Chinese literature, and in films about Chinese society. It aims at a critical examination of how femininity and gender roles are conceived in traditional Chinese society, how women are victimized by male prescribed moral codes, and how they resist and subvert the patriarchal order.

Prerequisites: None.

220. Contemporary Chinese Cinema.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities, F5.

An introductory course on contemporary Chinese cinema that combines film viewing with readings of film theory and criticism. The aim is to provide a window for students to glimpse the complexity of contemporary Chinese culture. Students will view selected Chinese films produced in mainland China, Taiwan, and Hong Kong from the 1980's to the present and be required to read essays of critical studies which explore the interrelations of various issues in Chinese society.

Prerequisites: None.

300. Asian Humanities: India, China, Japan.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

An introductory course of the cultural traditions of Asia. While it covers a wide range of Asian cultures (Korea, Vietnam, Thailand, Burma, Cambodia, and other South Asian countries and regions), it focuses on three major civilizations: India, China and Japan. It introduces students to the rudimentary aspects of Asian humanities such as geography, history, ethnicity, language, literature, religion, philosophy, and arts. All readings are in English.

Prerequisites: None.

301-302. Advanced Chinese.

Fall, Spring. Credits: 4-4.

This course lays greater emphasis on further developing students' proficiency in reading for understanding and enhancing their ability to write in Chinese and to translate from Chinese into English and vice versa. At the end of the year-long course students should be able to read Chinese materials in everyday life, to write compositions in Chinese characters for daily communication, and to translate non-technical materials from Chinese into English and vice versa with the help of dictionaries.

350. Fiction by Spanish Women Writers.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course aims to raise and examine issues associated with women's literary expression through the study of works by some of the most prominent Spanish writers of the last two centuries. Questions of marginality (as related to gender, language and culture), female sexuality and creativity, and the challenge of writing under the watchful eye of state censors will be addressed.

Prerequisites: Spanish 301 or 302 or permission of instructor.

355. Medieval and Early Modern Women Writers.

Spring. Credits 4.

The primary focus is on women writers from the Middle Ages to the end of the seventeenth century. It explores how women writers in the Hispanic world, such as Florencia Pinar, Teresa de Jesús, Catalina de Erauso, Juana Inés de la Cruz, and María de Zayas, negotiate gender construction and its impositions through literature. For these women, literary production becomes the site of gender-related political resistance, and in some instances, gender redefinition or what could be called a Hispanic proto-feminism. The course deals with a variety of literary genres, such as poetry, short novel, theater, autobiography, and letters, as well as some oral tradition.

Prerequisites: Spanish 301 or 302 or permission by instructor.

360. Gender In Spanish American Literature.

Spring. Credits: 4.

Degree Requirements: Humanities.

A study of gender in works by women and men writers. Topical units composed

of texts representing various genres, regions, and periods.

370. Contemporary Southern Cone Literature.

Fall. Credits: 4.

Degree Requirements: Humanities.

A study of contemporary Southern Cone literature including short stories, novels, theatre, poetry, and essays.

Prerequisites: Spanish 301 or 302 or permission of instructor.

395. Spanish Medieval Masterpieces.

Fall. Credits: 4.

Degree Requirements: Humanities.

A survey course of the literary manifestations of Spain during the Middle Ages. Some of the main texts that may be studied are *Poema de Mio Cid*, *Milagros de Nuestra Señora*, *Libro de buen amor* and *La Celestina*.

Prerequisites: Spanish 301 or 302 or permission of instructor.

405. The Literature of Mexico after 1911.

Fall. Credits: 4.

Degree Requirements: Humanities.

A study of major Mexican writers of the 20th and 21st centuries. May include works by Juan Rulfo, Rosario Castellanos, Elena Garro, Carlos Fuentes, Octavio Paz, and Carlos Monsiváis.

Prerequisites: Spanish 301 or 302 or permission of instructor.

406. The Contemporary Novel of Spanish America.

Fall. Credits: 4.

Degree Requirements: Humanities.

A study of major novelists since 1950. May include works by Carmen Boullosa, Mario Vargas Llosa, Cristina Peri Rossi, and Gabriel García Márquez.

Prerequisites: Spanish 301 or 302 or permission of instructor.

408. The Spanish American Short Story.

Fall. Credits: 4.

Degree Requirements: Humanities.

A study of Spanish American short story writers. May include works by Jorge Luis Borges, Isabel Allende, Luisa Valenzuela, Julio Cortázar, and Horacio Quiroga.

Prerequisites: Spanish 301 or 302 or permission of instructor.

410. Modern Spain: From Enlightenment to Realism.

Fall. Credits: 4.

Degree Requirements: Humanities.

This course aims to give the student an overview of the literary development of Spain during the 18th and 19th centuries. Emphasis is given to the main cultural and literary movements: Enlightenment, Romanticism and Realism.

Prerequisites: Spanish 301 or 302 or permission of instructor.

412-413. Twentieth-Century Spain.

Fall, Spring. Credits: 4-4.

Degree Requirements: Humanities.

Spanish 412 studies the generations of 1898 and 1927. Spanish 413 focuses on the literature of the Spanish Civil War, the Franco Regime, and the transition from dictatorship to democracy. These courses do not need to be taken in sequence.

Prerequisites: Spanish 301 or 302 or permission of instructor.

421. Poetry and Prose of the Golden Ages.

Fall, Spring. Credits: 4.

Degree Requirements: Humanities.

This course focuses on 16th- and 17th-century poetry and prose. May include works by Quevedo, Góngora, Garcilaso de la Vega, Cervantes, Zayas, Teresa de Jesús, and Juan de la Cruz.

Prerequisites: Spanish 301 or 302 or permission of instructor.

423. Hispanic Golden Age Theater.

Spring. Credits 4.

This course will study major playwrights of the Golden Age such as Lope de Vega, Pedro Calderón de la Barca, Tirso de Molina, María de Zayas, Juana Inés de la Cruz and Juan Ruiz de Alarcón, among many others. Written and staged between the end of the 16th and the end of the 17th centuries—a period known for its literary and artistic activity both in the New World and Spain—these plays are important because of their themes, audience and treatment of critical issues such as gender definition, national identity, and conflicts of class.

Prerequisites: Spanish 301 or 302 or permission by instructor.

424. Exploring *Don Quijote*.

Fall. Credits 4.

This course aims to familiarize students with Miguel de Cervantes's masterpiece, considered one of the classics of 17th-century Spanish literature. Although both parts of *Don Quijote* will be examined, emphasis will be given to the first part written in 1605. Questions of readership, authorship, and narrative, among others, will be examined.

Prerequisites: Spanish 301 or 302 or permission by instructor.

486. Senior Seminar.

Spring. Credits: 4.

An overview of major topics of Hispanic literatures and cultures. Emphasis is given to the process of conceiving and developing a substantial library of research, and to the elaboration of a major research paper.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8,4-8.

An examination of philosophical methods, problems, and ideas from early through late Medieval philosophies, most notably those of Augustine and Aquinas. Issues addressed include the natures and relations of faith and reason, the human good, arguments for the existence of God, and the relation of the human to the divine. (Course offered in alternate years; scheduled for 2008-2009.)

203. Early Modern Philosophy.

Spring. Credits: 4.

Degree Requirements: F1.

An examination of major representatives of Early Modern Philosophy, focusing on the works of Descartes, Hume, and Kant. Major themes are their epistemological and ethical theories. Issues to be considered include such things as the nature and role of rationality, the relation of the sensuous and the rational, the exercise of freedom, and the existence of God.

206. Logic.

Fall, Spring. Credits: 4.

Degree Requirements: F6.

An examination of argumentation, with emphasis on identifying, analyzing, and evaluating arguments. Issues to be considered include methods in categorical and truth-functional logic, induction, and fallacies.

240. Philosophy of Religion.

Fall or Spring. Credits: 4.

Degree Requirements: F1.

An exploration in depth of a few major problems in contemporary philosophy of religion, such as the arguments for the existence of God, the problem of evil, the meaningfulness of theological language, and the relationship of faith and reason. (Course offered in alternate years; scheduled for 2008-2009.)

250. Topics in Philosophy.

Fall or Spring. Credits: 4.

Degree Requirements: F1 (some sections).

A seminar in which topics of current interest are presented and discussed. Topics may involve both classical and contemporary philosophical texts. Typically, topics focus on issues that raise significant moral questions in contemporary society. (Subject to special scheduling.)

270. Philosophy of Education.

Fall or Spring. Credits: 4.

Degree Requirements: F11.

A philosophical examination of education with attention to issues in ethics (what values should guide education?), metaphysics (do we educate the whole or only part of the person?), and epistemology (what is knowledge and is it the goal of education?). (Course offered in alternate years; scheduled for 2007-2008.)

301. Ethics.

Fall. Credits: 4.

Degree Requirements: F1.

An examination of major ethical theories, typically virtue ethics, deontology,

and consequentialism, with special emphasis on their central arguments and applicability to specific ethical issues.

302. Environmental Ethics.

Fall or Spring. Credits: 4

An examination of the values and norms that govern our relationship with the environment. Major ethical theories will be explored in relation to topics such as obligations to nonhuman organisms, anthropocentrism, government regulation, and international environmental treaties. (Course offered in alternate years; scheduled for 2008-2009.)

303. Medical Ethics.

Fall or Spring. Credits: 4.

Degree Requirements: F1.

An examination of issues arising from the practice of medicine, the application of medical technology, and the business of health care delivery that have significant implications for an understanding of the good life or an understanding of moral duties. (Course offered in alternate years; scheduled for 2007-2008.)

315. Nineteenth Century Philosophy.

Spring. Credits: 4.

This course considers the Kantian roots of German Idealism and examines the philosophy of Hegel and that of one or more of his critics (Kierkegaard, Marx, Nietzsche) in the later 19th Century. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Philosophy 203 or special permission of instructor.

318. Metaphysics.

Spring. Credits: 4.

Degree Requirements: F1.

An exploration of some major issue(s) such as materialism vs. theism, the mind-body problem, freedom and determinism. (Course offered in alternate years; scheduled for 2008-2009.)

319. Theory of Knowledge.

Spring. Credits: 4.

An exploration of some major issues in the theory of knowledge, such as the nature of knowledge and justified belief, the possibility and limitations of human knowledge, and the ethics of belief. (Course offered in alternate years; scheduled for 2007-2008.)

328. Philosophy of Mind and Consciousness.

Fall or Spring. Credits: 4.

What is the nature of the human mind? What are its powers and limitations? What is the relationship between the mind and the body (especially the brain)? These and similar questions will be investigated through central works in the history of philosophy (e.g., Descartes' Meditations) and various contemporary works in philosophy and/or related fields (e.g., biology, psychology). (Course offered in alternate years; scheduled for 2007-2008.)

329. Philosophy of Science.

Fall or Spring. Credits: 4.

A philosophical examination of the meaning and limitations of explanation, primarily

in the natural sciences. (Course offered in alternate years; scheduled for 2007-2008.)

360. Existentialism.

Fall. Credits: 4.

Degree Requirements: F1.

An examination of prominent existentialists from the 19th and 20th Centuries. Issues include the idea that human beings' deepest desire is for meaning in their lives, and that the primary issue in human life is whether and how we own up to this. (Course offered in alternate years; scheduled for 2008-2009.)

370. American Philosophy.

Spring. Credits: 4.

Degree Requirements: F11.

An examination of the major representatives of Classical American Philosophy. Emphasis is on issues such as the nature of philosophical method, the biological/social nature of human beings, the instrumentalist view of knowledge and inquiry, and the contextual nature of truth and value. (Course offered in alternate years; scheduled for 2008-2009.)

399. Tutorial for Honors Candidates.

Spring. Credits: 1.

Junior Philosophy majors wishing to read for honors are required to enroll in this preparatory tutorial. Although required for honors, enrollment in this course does not guarantee acceptance into the Honors Program.

401. Advanced Topics: History of Philosophy.

Fall or Spring. Credits: 4.

An advanced study of specific topics in the history of philosophy. The course will focus on one of the following topics: a central historical figure (Plato, Aristotle, Kant, Whitehead), a specific period (ancient, medieval, modern, contemporary analytic or continental philosophy), or a major movement (empiricism, process philosophy, phenomenology). (Course offered in alternate years; scheduled for 2007-2008.)

475-476. Problems in Philosophy.

Fall, Spring. Credits: 4-4.

A tutorial course for senior students only. Each student chooses an individual topic in consultation with the departmental faculty.

486. Senior Seminar.

Spring. Credits: 4.

Senior seminar is designed to be a capstone experience in Philosophy, requiring both oral and written work. The seminar culminates in the senior paper, a sustained, sophisticated discussion of a significant philosophical issue.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-4.

A course dedicated to the development of an Honors essay.

Prerequisites: Permission of department.

PHYSICAL EDUCATION

Physical Education classes are offered each semester for students who wish to take courses to fulfill degree requirements and for their own growth, development, and pleasure. Courses are taught for seven weeks (one-half of a semester), and all classes are open to both men and women. Courses offered during the first seven weeks of the semester are numbered in the 100s, and courses numbered in the 200s are offered during the second seven weeks of the semester.

Three half-semester courses of Physical Education are required for graduation. All courses satisfy the physical education and F12 degree requirements. They carry no academic credit and are graded on a pass-withdraw basis.

Physical Education courses for which proper registration is not made will not be credited to a student's record retroactively. It is the student's responsibility to be sure that he or she is properly registered for the course during the semester in which it is taken.

COURSE OFFERINGS

100/200. Varsity Sports.

Fall, Spring.

101/201. Club Sports.

Fall, Spring.

103/203. Tennis.

Fall, Spring.

Basic instruction on the forehand, backhand, serve, volley, overhead, rules, and etiquette. Open to all skill levels.

107/207. Golf.

Fall, Spring.

Basic instruction on grip, swing, rules, and etiquette. Open to all skill levels.

120/220. Squash.

Fall, Spring.

Basic instruction on forehand, backhand, serve, rules, and etiquette. Open to all skill levels.

121/221. Racquetball.

Fall, Spring.

Instruction in basic skills and scoring.

125/225. Swimming.

Fall, Spring.

A self-paced program open to all levels.

131/231. Scuba Diving.

Fall, Spring.

Instruction in the basic skills and techniques of scuba diving, leading to certification. Extra activity fee required. Course held off campus.

154/254. Weight Lifting.

Fall, Spring.

Instruction in the proper use of weight training equipment.

156/256. Advanced Conditioning.

Spring.

A structured program of advanced conditioning programs consisting of running, weight-lifting, agility, plyometrics, and sprint work.

157/257. Run for Fun.

Fall, Spring.

A self-paced program of jogging for all levels of conditioning.

174/274. Aerobics.

Fall, Spring.

Low impact, step, and circuit training.

171/271. Taekwondo.

Fall, Spring.

A hard style form of martial arts with emphasis on kicks and punches.

175/176. Wing Chun.

Fall, Spring.

A hard style form of martial arts with emphasis on straight line kicks, punches, and circular trapping.

176/276. Tai Chi.

Fall, Spring.

A soft martial art that focuses on the integration of the mind and body through progressive exercises and movements.

177/277. Karate/Self Defense.

Fall, Spring.

Instruction in basic kicking, punching, katas (forms) and self defense techniques. Open to all levels and belt testing is optional.

178/278. Kickboxing.

Fall, Spring.

A controlled sparring class with an overall workout through kicks, knee strikes, punches, elbow strikes and fighting combinations. Open to all levels.

179/279. Aikido.

Fall, Spring.

Emphasis on the neutralization of aggression through body movement, throws, and joint locks. Open to all levels.

180/280. Yoga.

Fall, Spring.

Gentle, yet systematic stretching and relaxation techniques for the entire body. Open to all levels.

185/285. Ballet.

Spring.

Open to all levels.

195. Life Saving.

Fall.

295. Water Safety Instructors Course.

Spring.

PHYSICS**ASSOCIATE PROFESSORS**

Brent K. Hoffmeister. Chair. 1996. The Van Vleet Fellow in Physics. B.A., Wabash College; Ph.D., Washington University (Ultrasonics, medical physics.)

Ann M. Viano. 1999. The J. Lester Crain Professor of Physics. B.S., Santa Clara University; Ph.D., Washington University. (Materials science, solid-state physics.)

ASSISTANT PROFESSOR

Shubho Banerjee. 2002. M.S., Indian Institute of Technology, Kanpur; M.S. and Ph.D., Carnegie Mellon University. (Ferrofluids, thermodynamics, theoretical physics.)

INSTRUCTOR

Carol L. Ekstrom. 1974. B.S., Beloit College; M.S., George Washington University. (Geology, Earth system science.)

TECHNICAL ASSOCIATE

Glen W. Davis. B.S., University of Memphis; M.S., Murray State University.

STAFF

Eva L. Owens. Departmental Assistant.

All prospective physics majors should consult with the Department Chairperson as early as possible. As noted, prospective physics majors should take in their first year Physics 111-112 and associated laboratory. Physics 101, 105, and 107 may not be used for credit toward a major or minor in physics, but they may be used for general degree credits.

REQUIREMENTS FOR A MAJOR IN PHYSICS LEADING TO THE B.S. DEGREE

A total of fifty-five (55) credits as follows:

1. Physics 111-112, 111L-112L.
2. Physics 211, 211L.
3. Physics 250.
4. Physics 301, 305, 401, and 406.
5. Physics 486.
6. At least one additional Physics lecture course at the 300-level or above.
7. Mathematics 121, 122, 223, and 251 or appropriate substitutes as approved by the Physics Department.

Students majoring in physics and planning to pursue graduate studies in physics or in a closely related field are strongly encouraged to take the following, additional courses: Physics 302, 304, 306, and 325; Mathematics 261.

REQUIREMENTS FOR A MINOR IN PHYSICS

A total of twenty (20) credits as follows:

1. Physics 111-112, 111L-112L.
2. Physics 211.
3. Physics 250.
4. At least one additional Physics lecture course at the 300-level or above.

HONORS IN PHYSICS

1. Courses required: those listed for the B.S. degree with a major in physics, plus Physics 495-496, Honors Tutorial.

2. A research project in physics, usually involving a topic related to Physics Faculty research. The Honors Project must be approved by the Department of Physics, must follow the Department's schedule for Honors work, and a creditable thesis must be presented to the Department at the end of the academic year.

COURSE OFFERINGS

101. Astronomy.

Fall, Spring. Credits: 3.

Degree Requirements: Natural Science, F7.

An introduction to modern astronomy, including the apparent motion of stars and planets, fundamental astronomical concepts and astronomical tools, the Solar System, the Sun, other stars, stellar evolution and stellar systems, the Galaxy, other galaxies, galactic systems, and cosmology. Physics 101L must be taken at the same time.

Prerequisites: None.

Corequisite: Physics 101L.

101L. Astronomy Laboratory.

Fall, Spring. Credits: 1

Laboratory exercises (computer-based and hands-on) involving astronomical concepts and, weather permitting, observations of the stars, constellations, the Moon, planets, and "deep sky" objects. Physics 101 must be taken at the same time.

Corequisite: Physics 101.

105. Topics in Physics.

Fall, Spring. Credits: 4.

Degree Requirements: Natural Science.

Topics, designed for the non-science major, in physics, astronomy, and interdisciplinary subjects, including modern developments in physics and closely allied fields, atmospheric processes, biophysics, geophysics, and science writing.

Prerequisites: None.

107. Physics of Sound and Music with lab.

Fall. Credits: 4.

Degree Requirements: Natural Science, F7.

An introduction for non-science majors to the physics of sound with applications to sound production by musical instruments. Topics include the physical behavior of sound, musical scales, human perception of sound, and sound production by acoustic instruments and the human voice. As part of the course, students are required to fabricate and demonstrate a musical instrument of their own design. The course and its integrated laboratory are normally scheduled for two consecutive class periods.

Prerequisites: None.

111. Fundamentals of Physics I.

Fall. Credits: 3.

Degree Requirements: Natural Science, F6, F7.

A study of the classical fields of physics, with an introduction to modern physics. Includes the study of Newtonian mechanics and wave motion. Intended for both science and non-science majors, the course includes three lectures and one laboratory session each week.

Corequisites: Physics 111L, Mathematics 121 or equivalent.

112. Fundamentals of Physics II.

Spring. Credits: 3.

Degree Requirements: Natural Science, F6, F7.

A study of the classical fields of physics, with an introduction to modern physics. Includes the study of thermodynamics, electromagnetism, optical properties of matter, and atomic structure. Intended for both science and non-science majors, the course includes three lectures and one laboratory session each week.

Corequisites: Physics 112L, Mathematics 122 or equivalent.

Prerequisite: Physics 111 or the equivalent.

111L-112L. Fundamentals of Physics Laboratory.

Fall, Spring. Credits 1-1.

Basic experiments in topics covered in either Physics 111 or 112. Includes extensive use of computer-based data collection and analysis.

Corequisite: Physics 111-112.

211. Modern Physics.

Fall. Credits: 4.

A survey of relativistic and quantum physics, including photons, the atom, matter waves, introductory quantum mechanics via the Schrödinger formulation, one-electron and complex atoms, nuclear properties and processes, elementary particles, molecules, and condensed matter. The course includes three lectures and one laboratory session each week.

Prerequisites: Physics 112.

Corequisite: Mathematics 223 or equivalent.

211L. Modern Physics Laboratory.

Fall. Credits: 1

The application of advanced experimental techniques to the exploration of 20th century physics concepts. Includes measurements of fundamental constants, properties of electrons, atomic energy levels, atomic and nuclear scattering, etc.

Prerequisites: Physics 111L-112L.

250. Mathematical Methods of Physics.

Spring. Credits: 4.

A survey of analytical and numerical techniques useful in physics, including multivariable calculus, optimization, ordinary and partial differential equations, complex numbers, special functions, linear algebra, Fourier series, Fourier and Laplace transforms, and numerical methods.

Prerequisites: Physics 211 and Mathematics 223 or equivalent.

301. Electromagnetic Theory.

Fall. Credits: 4.

A study of the fundamental properties of electric and magnetic fields in vacuum. The development will be from fundamental observations through modern, discrete applications of Maxwell's Equations. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Physics 112.

Corequisite: Physics 250.

302. Advanced Electromagnetic Theory.

Spring. Credits: 4.

A study of static and dynamic electromagnetic fields in matter, electromagnetic

waves, and radiation; also, a brief introduction to relativistic electrodynamics. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Physics 301.

304. Electronics.

Fall. Credits: 4.

The basic concepts of analog and digital electronics, with emphasis on digital electronics. Logic gates, flip-flops, decoders, multiplexers, registers, counters, displays, and arithmetic/logic circuits will be covered. Programmable integrated circuits and environmental sensors as used in basic robotic design will also be covered. (Course offered as interest warrants.)

Prerequisites: Physics 112.

305. Dynamics.

Fall. Credits: 4.

Basic principles of the dynamics of particles and rigid bodies presented within the framework of classical mechanics. Topics include Newtonian mechanics, oscillating systems, general motion of a particle in three dimensions, mechanics of rigid bodies, and an introduction to Lagrangian and Hamiltonian mechanics. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Physics 112 and Physics 250.

306. Advanced Dynamics.

Spring. Credits: 4.

Advanced topics in the study of dynamics, including non-inertial reference systems, motion in a central force field, motion of rigid bodies in three dimensions, dynamics of oscillating systems, chaotic systems, and special relativity. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Physics 305.

307. Topics in Intermediate Physics.

Fall, Spring. Credits: 4.

Topics for the intermediate-level physics- or natural-science student, often including but not limited to exposition of experimental systems or subjects such as robotics, spectroscopy, experiment interfacing, nuclear physics, etc. (Course offered as interest warrants.)

Prerequisites: Physics 211.

310. Astrophysics.

Spring. Credits: 4.

An introduction to modern astrophysics, this course will normally include coverage of the following: stellar evolution; physics of the interstellar medium; structure, evolution, and morphology of galaxies; the origin and evolution of large-scale structure in the Universe; and cosmology. Occasionally, topics such as comparative planetology may be included. (Course offered as interest warrants.)

Prerequisites: Physics 211 and Mathematics 223 or equivalent.

325. Optics.

Fall. Credits: 4.

A study of contemporary physical optics, including diffraction theory (Fraunhofer and Fresnel), polarization, coherence theory and lasers, Fourier and nonlinear optics. Two lectures and one laboratory session per week. (Course offered as interest warrants.)

Prerequisites: Physics 301.

401. Quantum Mechanics.

Spring. Credits: 4.

Introduction to topics in quantum physics, including observables and measurement, position and momentum representations, intermediate wave mechanics, the time-dependent Schrödinger equation, Hilbert space vectors and operators, the Hamiltonian, potential wells and the harmonic operator, introduction to Dirac notation, scattering theory, and applications to the study of atoms. (Course offered in alternate years; scheduled for 2007-2008.)

Prerequisites: Physics 211 and Physics 250.

406. Thermal Physics.

Spring. Credits: 4.

The study of thermodynamics and statistical mechanics from the unifying viewpoint of quantum theory. Topics include: Gibbs and Boltzmann factors; Fermi-Dirac and Bose-Einstein distribution functions; temperature, pressure, and the monatomic ideal gas; thermodynamic potentials. Application of theory to metals, white dwarf stars, photons, and phonons will be considered. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Physics 211 and Physics 250.

409. Topics in Advanced Physics.

Fall, Spring. Credits: 4.

Special topics designed for advanced students in physics or mathematics. Subjects will involve theoretical physical and mathematical systems. (Course offered as interest warrants.)

Prerequisites: Physics 301 and Physics 305.

413L-414L Research in Physics.

Fall, Spring. Credits: 1-1.

Experiments of an advanced nature, carried out independently by the student with a faculty mentor. Experiments can be selected from topics involving high-vacuum techniques, stellar photometry, scintillation spectroscopy, Compton scattering, atomic and molecular spectroscopy, Mössbauer effect, superconductivity, or designed by the student in consultation with the faculty mentor.

Prerequisites: Physics 211.

486. Senior Seminar.

Spring. Credits: 2.

Examination of the unifying themes, central concepts, and links between discipline areas of physics. Lectures by faculty. Also student organization, preparation and presentation of papers from the physics literature and current research efforts. Open to senior physics majors only.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4 to 8.

Open to candidates for Honors in Physics.

Prerequisites: Permission of Department Chairperson.

POLITICAL SCIENCE

PROFESSORS

Michael Nelson. 1991. Fulmer Professor of Political Science. B.A., College of William and Mary; M.A. and Ph.D., The Johns Hopkins University. (American Presidency; Southern Politics; American politics.)

Marcus D. Pohlmann. 1986. B.A., Cornell College; M.A., M.Phil. and Ph.D., Columbia University. (American politics, legal studies; black political thought)

ASSOCIATE PROFESSORS

Daniel E. Cullen. 1988. M.A., Dalhousie University; Ph.D., Boston College. (History of political philosophy; American political thought; contemporary political theory.)

Michael P. Kirby. 1970. Plough Professor of Political Science. B.S., Wisconsin State University; M.A., Northern Illinois University; Ph.D., University of Wisconsin-Milwaukee. (Criminal justice; urban policy)

Stephen H. Wirls. 1994. Chair. B.A. Kenyon College; M.A. and Ph. D., Cornell University. (American politics, Congress, American political thought, modern political philosophy.)

ASSISTANT PROFESSOR

Margaret A. Carne. 2004. B.A. Oberlin College; M.A. and Ph.D. University of California, Berkeley. (American politics, campaigns and elections, parties and interest groups, research methods.)

Arielle C. Goldberg. 2007. B.A. University of Massachusetts, Amherst; M.A. and Ph.D., City University of New York. (American politics, urban politics, public policy.)

Christopher E. Baldwin. 2007. B.A., Kenyon College; M.A. and Ph.D., University of Toronto. (Classical political philosophy, American political thought, post-modern political thought.)

PART-TIME INSTRUCTOR

Ashley B. Coffield. B.A. Rhodes College; M.P.A., Texas A&M. (Public administration; public policy.)

STAFF

Jean E. Minmier. Departmental Assistant.

All political science majors must take 151. (Advanced Placement credit in Political Science will count as four credits toward the major but will not substitute for 151.)

REQUIREMENTS FOR A MAJOR IN POLITICAL SCIENCE

A total of forth-eight (48) credits as follows:

1. Political Science 151
2. Political Science 270
3. Political Science 485
4. One course of the following courses in political thought and philosophy: 212, 214, 216, 218, 310, 314, Humanities 201 (Politics Track).
5. History 233
6. International Studies 100 or International Studies 200
7. Six additional courses (24 credits) in Political Science, two of which must

be at the 300 level and one of which may be Political Science 460: Public Affairs Internship.

HONORS IN POLITICAL SCIENCE

Honors work in Political Science affords an opportunity for Political Science majors to investigate topics of their own choosing. In the process, they will be expanding and honing their research and writing skills, which is excellent preparation for graduate and professional degree work. Majors pursuing honors will devote a substantial portion of their last two semesters at Rhodes to their projects (honors work normally earns twelve credits across two semesters). To be eligible, a student must have completed 28 credits of course work in the major and have a grade point average of 3.5 or higher in the college and in Political Science courses. All honors proposals must be approved by the department.

COURSE OFFERINGS

151. United States Politics.

Fall, Spring. Credits: 4.

Degree Requirements: F2 (some sections), F8.

An examination of the U.S. political system. What is the foundation of government in the United States? What are its purposes? How is the constitution of government designed to achieve those purposes? Major topics and controversies include the nature of politics, individual liberty and constitutionalism, the federal structure of government, political ideologies, public opinion, elections and political parties, interests groups, representation, Congress, the Presidency, the Judiciary, public policy, civil rights and liberties. Some sections may be open only to first year students, and all sections are open to seniors only by permission of department.

200. Urban Politics.

Fall or Spring. Credits: 4.

A critical introduction to urban America's fiscal and racial problems, formal and informal political processes, power structures, and alternative futures.

Prerequisite: Political Science 151 or permission of the instructor.

205. Introduction to Public Policy.

Fall or Spring. Credits: 4.

An analysis of the processes and politics of making and implementing public policies. Topics may include: taxing and spending, energy, transportation, environmental protection, agriculture, equality, health, consumer protection, education, business, labor and welfare.

Prerequisite: Political Science 151.

211. Politics and Literature.

Fall or Spring. Credits: 4.

An exploration of perennial issues of politics as they are treated in literature and drama. Authors studied may include: ancient Greek dramatists, Shakespeare, Defoe, Swift, Cooper, Hawthorne, Melville, Twain, Stendhal, Flaubert, Dostoyevsky, Conrad, Golding, Malraux.

212. American Political Thought and Statesmanship.

Fall or Spring. Credits: 4.

A survey of the ideas and controversies in American political thought and development from the Puritans to the present. Topics may include: the philosophical origins of the Declaration of Independence and the Constitution,

selfishness and morality, federalism, the democratization of politics, equality and slavery, laissez-faire capitalism and the welfare state, the civil rights movement, and the redefinitions of freedom and equality by, for example, the new left and feminism.

Prerequisite: Political Science 151 or permission of the instructor.

214. Modern Ideologies.

Fall or Spring. Credits: 4.

A selected survey and analysis of ideas and systems of thought that have shaped the modern world. Topics include the evolution of liberalism and conservatism, the origins and development of communism, contemporary controversies over justice and economic distribution, morality and law, and feminism.

216. Introduction to the Philosophy of Law.

Fall or Spring. Credits: 4.

A selective survey of perennial issues in the theory and practice of law. Standard topics include: philosophical assumptions of criminal liability and moral responsibility; excusing crime; the purpose of punishment; the relation of reason and passion in the concept of provocation; the insanity defense; the intersection of race, gender and the law; legal ethics; discretion and the rule of law.

218. Justice, Equality, and Liberty.

Fall or Spring. Credits: 4

An introduction to the overlapping issues of politics, philosophy and economics, this course examines rival conceptions of justice and the ways in which those views are modified by commitments to equality and liberty. Particular topics include: the character of freedom and its relationship to responsibility; what human beings owe to one another; the causes and consequences of wealth and poverty; the case for and against egalitarianism; the nature of right and duties; and whether or not justice requires redistribution of wealth.

230. Black Political Thought.

Spring. Credits: 4.

A critical analysis of a variety of political goals, strategies, and tactics espoused in the 20th century. Views of Booker T. Washington, Marcus Garvey, W.E.B. DuBois, Martin Luther King, Jr., and Malcolm X are among those normally considered.

Prerequisite: Political Science 151 or permission of the instructor.

241. Parties and Interest Groups in American Politics.

Fall or Spring. Credits: 4.

This course explores what political parties and organized interests are capable of doing in a democracy, what they actually do in American politics, and what a variety of reformers and others would have them do differently. Specific topics include: American party development, partisanship in the electorate, party organization, and the role of parties and interest groups in elections and policy making.

Prerequisite: Political Science 151 or permission of the instructor.

245. Southern Politics.

Fall or Spring. Credits: 4

An examination of politics in the American South, with special attention to political parties and elections. Politics at the state level is considered, along with the place of the South in the national political arena.

Prerequisite: Political Science 151 or permission of the instructor.

255. Criminal Justice.

Spring. Credits: 4.

The study of criminal justice in urban areas, practices and purposes of enforcement agencies and courts, arrest, preliminary hearing, bail, jury, prosecution, trials, plea bargaining, sentencing, corrections, and probation. Justice in theory and practice.

Prerequisite: Political Science 151 or permission of the instructor.

262. Trial Procedure.

Fall. Credits: 4.

Students study and practice trial procedure. Topics include opening statements, direct examination, cross examination, closing statements, objections, and preparing a witness.

Prerequisite: Sophomore status or permission of the instructor.

270. Research Methods.

Fall or Spring Credits: 4.

An examination of the various research methods used in the study of American politics. Focus will be on quantitative methods of inquiry, but qualitative research techniques will also be studied.

Prerequisite: Political Science 151.

280. Topics in American Politics and Institutions.

Fall or Spring. Credits: 4.

An examination of some aspect of American politics and institutions of government. Topics might include: the judiciary, state and local government, intergovernmental relations, American political development, the legislative process, campaign finance. Prerequisite: 151 or permission of the instructor.

Prerequisite: Political Science 151 or permission of the instructor.

282: Topics in Urban Politics.

Fall or Spring. Credits: 4.

Prerequisite: Political Science 151 or permission of the instructor.

284: Topics in Public Policy.

Fall or Spring. Credits: 4.

Prerequisite: Political Science 151 or permission of the instructor.

286: Topics in Political Thought and Philosophy.

Fall or Spring. Credits: 4.

Prerequisite: Political Science 212 or 214 or permission of the instructor.

288: Topics in Public Law.

Fall or Spring. Credits: 4.

Prerequisite: Political Science 151 or permission of the instructor.

301. Constitutional Law and Politics.

Fall or Spring. Credits: 4.

An examination of the federal judicial process and American constitutional principles. Constitutional topics include the free speech, church-state relations, abortion, euthanasia, and rights of the accused.

Prerequisites: Political Science 151 and one 200 level course.

307. Topics in Public Law.

Fall or Spring. Credits: 4.

An examination of some aspect of law and the judicial branch. Topics might include: the 1st Amendment, the 14th Amendment, state and local law, legal reform, and administrative law.

Prerequisites: Political Science 151 and one 200 level course.

311. Classical Political Philosophy.

Fall or Spring. Credits: 4.

A consideration of fundamental questions of political philosophy will be explored through careful examination of selected writings of Plato, Aristotle, and others. What is the human good? What is justice? How is politics related to human nature or, what does it mean to be a “political animal”? Are the good person and good citizen identical?

Prerequisite: One 200 level course.

314. Modern Political Philosophy.

Fall or Spring. Credits: 4.

An examination of the radical critiques in Western political thought from Machiavelli to Nietzsche. Specific topics include the contest between selfishness and morality in political life, the natural rights of individuals, the social contract basis of legitimacy, private property, equality and inequality, the place of reason and of faith in human affairs and happiness.

Prerequisite: One 200 level course.

316. Urban Policy.

Fall. Credits: 4.

Problems and processes of policy formation in the urban system; discussion of substantive policy areas such as housing and community development.

Prerequisite: Political Science 151.

320. Urban Programs.

Fall or Spring. Credits: 4.

Examination of programs and policies that address urban problems; with an opportunity to explore the inner workings and outcomes of effective programs that have social, environmental, and downtown emphases.

Prerequisite: Political Science 270 and one additional 200 level course.

330. Campaigns and Elections.

Fall. Credits: 4.

This course examines election dynamics in contemporary American politics from the perspectives of both political scientists and practitioners. Specific questions addressed include: Why do candidates, voters, and others think and act as they do? How do the rules of electoral politics influence their behavior? Who wins elections and why? What difference—if any—do campaigns actually make in election outcomes? Finally, how might we use this knowledge to improve campaigns and elections?

Prerequisite: Political Science 270 and one additional 200 level course.

340. The American Presidency.

Fall or Spring. Credits: 4.

An exploration of the constitutional, historical and political aspects of the presidency. Specific topics include the selection of the President, presidential leadership, personality, relations with Congress and the Supreme Court, and the Vice Presidency.

Prerequisite: Political Science 270 and one additional 200 level course.

360. Congress and the Political Process.

Fall or Spring. Credits: 4.

The United States Congress is a rarity among representative assemblies in the rest of the world; it actually legislates, and individual members of the House and the Senate can directly affect legislation and policy. Why then is it also the least respected branch of our national government? Is it failing to do its job well? This entire course explores this question. Specific topics include: representation; the rich practical thought behind the framers' original design for a legislature; the evolution of House and Senate; elections and incumbency; campaign finance and interest groups; the internal organization of House and Senate; the struggle for power between president and Congress.

Prerequisite: Political Science 270 and one additional 200 level course.

401. Seminar in American Politics and Institutions.

Fall or Spring. Credits: 4.

An investigation of an important subject area within the discipline of political science. Topics might include constitutional controversies, the legislative process, political behavior, campaign design and strategy.

Prerequisite: One 300 level course.

411. Seminar in Contemporary Political Philosophy.

Fall or Spring. Credits: 4.

An advanced seminar devoted to controversies or recent developments in contemporary political philosophy. Topics may include: theories of freedom, justice, rights, egalitarianism, multiculturalism, communitarianism, and religion.

Prerequisite: One 300 level course.

460. Public Affairs Internship.

Fall, Spring. Credits: 4.

Degree Requirements: F11.

A directed internship with a selected legal, governmental or community agency. The course integrates traditional academic work in Political Science with practical internship experiences. All internships are assigned through the Department of Political Science Internship Director. The course can be taken only once for credit.

Prerequisites: Political Science 270, one additional 200-level course and consent of the instructor.

485. Senior Seminar in Political Science.

Fall, Spring. Credits: 4.

An advanced investigation of critical political problems and/or contemporary perspectives on American democracy.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

An advanced tutorial, individually tailored to each honor student. It involves the

preparation of a major independent research project.

REQUIREMENTS FOR A MAJOR IN PSYCHOLOGY

A total of 11 courses or forty-four (44) credits in the major as follows:

1. Psychology 150 to be taken as early as possible in the student's course of study.
2. Psychology 200 to be taken as early as possible in the student's course of study.
3. Psychology 211.
4. One advanced method course from among Psychology 350 - 353.
5. Three content areas courses from: Psychology 216, 220, 225, 229, 311, 318, 323, 326, and 327.
6. One course designated as writing intensive in psychology
7. One course applying psychology which may be an internship(460), a service-learning course, 229, 326, 338, 351 or a course in education that is not cross-listed in psychology.
8. Psychology 485 to be taken during the senior year.

One course beyond the introductory level outside the department in a field

that can be connected to Psychology.

REQUIREMENTS FOR A MINOR IN PSYCHOLOGY

A total of 6 courses or twenty-four (24) credits as follows:

1. Psychology 150.
2. Psychology 200.
3. Four additional psychology courses to be chosen in consultation with a departmental advisor and to be approved by the department chair. These will be selected to coordinate with the student's major and career aspirations, and will normally include at least one 300- or 400-level course.

HONORS IN PSYCHOLOGY

Members of the faculty of the Department of Psychology encourage students of exceptional academic accomplishment to pursue research with a departmental faculty sponsor that is of an in-depth, rigorous nature; this work will introduce the student to the quality of research one would normally experience in a graduate program. Because the level of involvement of the student and his or her faculty sponsor will be greater in Honors research than that in either a Tutorial or Directed Inquiry, the faculty of the Department of Psychology have established rules for student admission to and conduct in the Departmental Honors Program. The policies are described on the department website and in the Major's Handbook.

COURSE OFFERINGS

105. Special Topics in Psychology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F2 (some sections).

This course is designed for the non-psychology major and will examine a different general-interest topic each time it is taught. Students will be exposed to the five major theoretical perspectives and to research methods as they pertain to a thematic topic such as 'close relationships', 'psychology of the self', 'drugs, brain, and behavior', etc.

150. Foundational Issues in Psychology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science, F8.

Students will focus on major themes that underlie and define the discipline of psychology. The aim of this course is to foster an appreciation of the role of scientific reasoning in refining our common sense notions about human behavior and experience. Students will be introduced to the major theoretical perspectives and to the basic principles of psychological methods.

200. Research Methods and Statistics.

Fall, Spring. Credits: 4.

Students will be taught critical thinking and scientific reasoning skills. Topics include: philosophy of science and the scientific method, measurement theory (reliability and validity), the basics of research design (control variables, rival hypotheses, and confoundings), and elementary statistical analysis.

Prerequisites: Psychology 150 or permission of instructor.

211. Statistical Methods.

Fall, Spring. Credits: 4.

Degree Requirements: F6.

Statistical methods are an integral part of social sciences, particularly psychology, as they provide the tools that are needed to reveal patterns in complex behavior. Students will develop an appreciation of the role of statistics and knowledge of the major tests that demonstrate differences and relationships.

Prerequisites: Psychology 150 and Psychology 200 or permission of the instructor.

216. Perception.

Spring. Credits: 4.

A survey of theories and research concerning sensation and perception focusing on how we construct an internal representation of the external world from the evidence of our senses.

Prerequisites: Psychology 150 or permission of the instructor.

220. Psychology of Health.

Spring. Credits: 4.

Degree Requirements: Social Science.

The knowledge base and methodology of psychology will be applied to an understanding of health and illness. Topics to be covered will include risk factors, behaviors impacting specific illnesses, health delivery systems, and health maintenance.

Prerequisites: Psychology 150 or permission of the instructor.

222. Educational Psychology.

Fall, Spring. Credits: 4.

Degree Requirements: Social Science.

A study of thoughts and actions as they relate to how we teach and learn, particularly in school settings. Emphasis will be placed on the use of theory to guide practical instruction and the use of assessment to determine instructional effectiveness. Cognitive processes, individual differences, strategies for instruction, motivation, critical thinking, and self-regulation of learning will be stressed.

Prerequisites: Psychology 150 or Education 201 or permission of instructor.

224. Psychological Disorders.

Spring. Credits: 4.

Degree Requirements: Social Science.

The phenomenology, etiology, and treatment of the major forms of psychological disorders, including schizophrenia, mood disorders, anxiety disorders, and personality disorders. We will evaluate theories and research concerning these disorders from psychobiological, behavioral, cognitive, sociocultural, and psychodynamic perspectives.

Prerequisites: Psychology 150 or permission of the instructor.

225. Personality Psychology.

Spring. Credits: 4.

Degree Requirements: Social Science.

Major theoretical approaches to understanding personality are presented and evaluated. This course contains both conceptual and experiential components.

Prerequisites: Psychology 150 or permission of the instructor.

229. Developmental Psychology: Infancy and Childhood.

Fall. Credits: 4.

Degree Requirements: Social Science.

A study of developmental principles, focusing on research relevant to prenatal development, infancy, and childhood. Theories of emotional, cognitive, and personality development will be examined. Students will consider the implications of developmental research for social and educational policy that affects the welfare of children. There is a 10-hour service-learning requirement and counts as an applied psychology course.

Prerequisites: Psychology 150, Psychology 200 or Education 210, or permission of the instructor.

230. Adolescent Development.

Spring. Credits: 4.

Degree Requirements: Social Science.

Theories and research on adolescent development will be applied to educational and social policy issues pertaining to adolescents in today's world.

Prerequisites: Psychology 150 or Education 201 or permission of instructor.

232. Psychology of Women.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course is designed for students in other disciplines as well as Psychology. It is a survey of theory and research on women's experience and will address such topics as personality development, female sexuality, psychological aspects of reproductive functions, moral development and gender roles.

Prerequisites: Junior or Senior status and Psychology 150 or Women's Studies 201.

306. Language and Communication.

Spring. Credits: 4.

Degree Requirements: Social Science.

A discussion of recent theory and research on human language. Topics to be covered include language development, the relationship between language and thought, and the relationship between language and culture. Students will collect observational data and develop discourse analysis skills.

Prerequisites: Psychology 150 and junior or senior standing or permission of the instructor. Non-psychology majors with a special interest in language or theatre are welcomed in this course.

309. Judgment and Decision Making.

Fall. Credits: 4.

Degree Requirements: Social Science.

An examination of how people make judgments about themselves and others, attribute causation to human behavior, and make judgments or decisions about courses of action. (Course offered in alternate years; scheduled for 2008-2009.)

Prerequisites: Psychology 211 or Math 111 or Economics 290 or permission of instructor.

Degree Requirements: Social Science.

A survey of the major theoretical orientations and current practices of counseling

and psychotherapy. Elementary helping and listening skills will be practiced.

Prerequisites: Psychology 150 and Junior or Senior standing, or permission of the instructor.

318. Physiological Psychology.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course illustrates how psychological processes can be understood as an expression of brain activity. Topics include perception, learning, motivation, language, consciousness and psychopathology.

Prerequisites: Psychology 150 or permission of the instructor.

323. Social Psychology.

Spring. Credits: 4.

Degree Requirements: Social Science.

Study of social behavior, including such topics as interpersonal attraction, altruism, aggression, conformity, group dynamics, leadership, intergroup conflict and negotiation, attitude change, person perception, and the social aspects of environmental and health psychology.

Prerequisites: Psychology 150 and either Psychology 200, Math 111, Economics 290, or permission of instructor.

326. Learning and Memory.

Fall. Credits: 4.

Degree Requirements: Social Science.

This course will begin with an examination of behavioral theories of learning. Then, after a brief discussion of attention and perception, we will consider the role of mental representation in learning focusing on the formation and retrieval of memories. Counts as an applied psychology course.

Prerequisites: Psychology 150 and 211 or permission of instructor.

327. Cognitive Processes.

Spring. Credits: 4.

Degree Requirements: Social Science.

This course will provide a comprehensive account of recent cognitive theory and research on thinking and problem solving. Some of the topics that will be covered include language acquisition, inductive and deductive reasoning, problem solving, decision making, and text comprehension.

Prerequisites: Psychology 150 and 211, or permission of the instructor.

338. Psychological Assessment.

Spring. Credits: 4.

Degree Requirements: Social Science.

Psychometric principles of test construction and issues of reliability and validity of contemporary psychological tests will be covered. Students will learn accepted practices and critical issues in the administration and interpretation of psychological tests. Counts as an applied psychology course.

Prerequisites: Psychology 211 or permission of the instructor.

350. Advanced Topics in Research Methods: Randomized Experiments.

Spring or Fall. Credits: 4.

Students will conduct a laboratory or field research experiment on human participants.

Prerequisites: Psychology 211 and permission of instructor.

351. Advanced Topics in Research Methods: Community/ Program Evaluation.

Spring or Fall. Credits: 4.

Students will gain experience in program evaluation, Community psychology, and with the design and collection of survey data. Counts as an applied psychology course.

Prerequisites: Psychology 211 and permission of instructor.

352. Advanced Topics in Research Methods: Observational/Qualitative.

Spring or Fall. Credits: 4.

Students will collect and/or analyze qualitative and/or observational research data.

Prerequisites: Psychology 211 and permission of instructor.

353. Advanced Topics in Research Methods: Psychophysiology.

Spring. Credits: 4.

Students will gain practical experience recording and analyzing human brain activity and bodily responses.

Prerequisites: Psychology 211, 318 and permission of the instructor.

399. Junior Seminar.

Spring. Credits: 1.

A survey of contemporary research on selected topics, to be taken in preparation for honors research. Open only to junior psychology majors.

Prerequisites: permission of a faculty member who agrees to supervise the project.

408. Advanced Topics in Psychology.

Fall, Spring. Credits: 2-4.

An issue of current interest and importance in psychology will be explored in depth. Topics will be announced each time the course is offered.

Prerequisites: permission of instructor.

460. Internship in Psychology.

Fall, Spring. Credits: 4-8.

Supervised experience in applying psychological knowledge and principles in a real-world setting. Students prepare a research paper or a literature review on a topic related to the internship, work on a project with the off-campus supervisor, and keep a daily journal.

Prerequisites: Psychology 211 plus specific courses relevant to the internship project. Permission of the instructor and an off-campus supervisor is required.

485. Senior Seminar.

Fall, Spring. Credits: 4.

Psychology majors are required to enroll in Senior Seminar during the senior year. Senior seminar is intended to be a capstone experience in Psychology, requiring both oral and written work.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

Maximum of 12 hours credit. For students accepted into the honors program of the department to do independent research.

REQUIREMENTS FOR A MAJOR IN RELIGIOUS STUDIES

A total of thirty-six (36) credits as follows:

1. Religious Studies 255, 256, 258, 485.
2. One 200-level course in Bible (260-286).
3. One 200-level course in theology and ethics (211-233).
4. Three 300-level courses.

The Internship (Religious Studies 460) may not count toward the religious studies major.

REQUIREMENTS FOR A MINOR IN RELIGIOUS STUDIES

A total of twenty (20) credits as follows:

1. Religious Studies 101 and 102 or Humanities 101 and 102.
2. Two 200-level courses in different areas of religious studies (biblical studies, theology and ethics, history of religions). Certain courses (e.g., Humanities 201 or GRS 250) can fulfill this requirement when cross-listed as Religious Studies courses.
3. One 300-level Religious Studies seminar in any area.

The Internship (Religious Studies 460) may not count toward the Religious Studies minor.

RECOMMENDED COURSES

Greek 101-102 and Hebrew 101-102 are recommended for students interested in advanced work in New Testament and Hebrew Bible studies, respectively, and for students considering seminary. Students interested in theology will benefit from taking courses in Philosophy.

HONORS IN RELIGIOUS STUDIES

The Honors Program in Religious Studies is established by consultation between the student and the department. In addition to the courses required for a major, the honors program requires the one-hour junior honors tutorial, Religious Studies 399, and the senior honors tutorials, Religious Studies 495-496, in which the student will be guided in the research and writing of an honors paper.

COURSE OFFERINGS

FOUNDATIONAL COURSES

101. The Bible: Texts and Contexts

Fall. Credits: 4.

Degree Requirements: Life Then and Now, F1.

The first in a two-course sequence that introduces the "Life" curriculum, this course focuses on introducing students to the academic study of the Bible. Students will survey representative texts from each genre of biblical writing in the Old Testament/Hebrew Bible and the New Testament. Particular attention will be paid to understanding the role of historical and cultural context in shaping biblical views on theological issues (God, sin and evil, Jesus' significance, e.g.).

Religious Studies 101 is a prerequisite for 200-level courses in biblical studies. Humanities 101-102 can substitute for Religious Studies 101.

102. The Bible: Texts and Contexts

Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1, F2.

This course continues the introduction to the Life sequence begun in Religious Studies 101 by examining the development of central themes in the Christian theological traditions. The course begins with classical figures from the early and medieval periods, and follows the impact of modernity on Christian thought. The course concludes with major theological developments in the 20th and 21st centuries, including the advent of the comparative study of religion. Religious Studies 102 is a prerequisite for upper level courses in theology, ethics, and history of religions. Students who have not had Religious Studies 102 may take these courses with the permission of the instructor.

BIBLICAL STUDIES

260. Archaeology and the Biblical World.

Fall, Spring. Credits: 4

Degree Requirements: Life Then and Now, F1.

A detailed study of the major archaeological finds from the biblical period and their impact on biblical interpretation. The course uses the material evidence of archaeology to reconstruct ancient life, customs, and cultural influences in the biblical lands and then compares this portrait with those presented in the biblical texts. Depending upon the expertise of the instructor, the course may focus on lands and finds associated with the Hebrew Bible/Old Testament or those associated with the New Testament. Familiarity with general biblical history is presumed.

265. Archaeology and the Biblical World: Field Work.

Summer. Credits: 4.

Degree Requirements: Life Then and Now, F1.

Work in the summer at an archaeological site related to biblical history.

Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

284. The Letter to the Romans.

Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

285-286. Selected Topics in New Testament.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

THEOLOGY AND ETHICS

211. Contemporary Theology.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

A survey of the major issues and figures in theology in the twentieth and twenty-first centuries. The course focuses on the special challenges to theology posed by the modern world.

220. Topics in Theology.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

An in-depth study of a particular problem, topic, or perspective in modern theology.

232. Social Issues in Ethical and Religious Perspective.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

This course examines selected social issues in theological, ethical and biblical perspective. Topics include Holocaust, Religion and the Bible, Religion and Racism, and Religion and Sexuality.

233. Pain, Suffering, and Death.

Fall. Credits: 4.

Degree Requirements: Life Then and Now, F1.

A seminar that examines critical issues and problems of crisis experience involving pain, suffering, and death using various disciplinary perspectives and pedagogical methods, including interviews with health care professionals. Designed primarily for students considering health or human service vocations (e.g., medical professions, counseling, social work, ministry), but also of interest to others.

HISTORY OF RELIGIONS

210. History of Christian Thought.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

The faith of the earliest New Testament communities will be examined, and developments in biblical theology from the early church onward will be considered.

214. Early Christian Literature.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

A study of selections from the early Greek Fathers, e.g. Clement of Rome, Ignatius of Antioch, and the Epistle of Barnabas, whose writings extend the biblical tradition into the second century CE and mark a formative stage in the development of Christian creed and canon.

251. Religion in America.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

A historical analysis of American religion, examining the diversity of religions in America through the study of selected beliefs, practices, and institutions.

253. Judaism.

Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

A survey of the history of Judaism, its formative experiences and its sources of tradition, its distinctive ideas and values, and what it means to be a Jew in today's world.

255. Living Religions in Today's World.

Fall. Credits: 4.

Degree Requirements: Life Then and Now, F1, F9.

A survey of the major living religions in today's world. The course will consider both the rise of the classic traditions and the shape that their followers are giving them today. Religions to be considered include Hinduism, Buddhism, Chinese religion, Japanese religion, and Islam.

256. Methods and Theories of the Study of Religion.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1, F11

An introduction to the phenomenological, sociological, anthropological, and psychological approaches to the academic study of religions. This course reviews the methodologies and theories of foundational thinkers in the modern study of religions. Students learn to apply the ideas of these theorists in field studies of local religious phenomena.

258. Topics in the History of Religions.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

An exploration of a specific tradition or subject in the history of religions. Subjects include Islam, African-American Religion, Women in American Religion, and Women in World Religions.

259. Topics in the History of Christianity.

Fall, Spring. Credits: 4.

Degree Requirements: Life Then and Now, F1.

This course will consider selected aspects in the Common Era history of communities of biblical faith and practice. Topics include Catholicism and Reformation.

ADVANCED STUDIES AND SEMINARS

Courses in Religious Studies at the 300 level and above are not part of the "Life" curriculum and cannot count for "Life" or F1 credit.

300-301. Selected Topics in Biblical Studies, Theology, and the History of Religions.

Fall, Spring. Credits: 4.

Degree Requirements: None.

Open to majors and minors only, except with permission of the instructor.

399. Junior Honors Tutorial.

Open to junior majors by permission of instructor only.

451-452. Research in Religious Studies.

Fall, Spring. Credits: 1-4.

This course involves advanced students in religious studies in collaborative work with faculty on original research projects. Prerequisites: Permission of the instructor.

460. Internship.

Fall, Spring. Credits: 1-4.

A supervised learning experience in the community outside the college, e.g., correctional institutions, churches, hospitals, social agencies. The program of field work will be devised by the student and faculty advisor and approved by the chairperson of the department.

In collaboration with Methodist Healthcare, the Nancy Hughes Morgan Program in Hospital Chaplaincy offers an internship each spring semester designed for students considering health or human service vocations (e.g., medical professions, counseling, social work, and ministry).

485. Senior Seminar: Senior Paper.

Spring. Credits: 4.

The seminar culminates in the senior paper, a major research project reflecting a semester-long engagement with a significant topic for religious studies.

Prerequisites: Two 300-level courses.

495-496. Honors Tutorial.

Fall, Spring. Credits: 4-8.

Prerequisites: Permission of department only.

THEATRE

PROFESSOR

Julia Ewing. 1976. Artistic Director, McCoy Theatre. B.A., Siena College; M.A., University of Memphis. (Acting; directing; stage movement.)

ASSOCIATE PROFESSOR

David Jilg. 1994. Chair. B.A., Rhodes College; M.F.A., Tulane University. (Production design, costume design.)

ASSISTANT PROFESSORS

Laura Canon. 1994. Technical Director and Production Manager, McCoy Theatre. B.A., Rhodes College; M.F.A., University of Memphis. (Lighting design, scene design.)

MANAGING DIRECTOR, MCCOY THEATRE

Kevin Collier. 2006. B.A., Rhodes College.

The Department of Theatre offers a wide array of courses of instruction designed to develop students' theoretical as well as practical skills. The departmental facility, the McCoy Theatre, is a sixty by sixty (60' x 60') black box theatre capable of being arranged in a variety of configurations. The 2003-04 season included *The Laramie Project*, *Equus*, and *Big Love*. In the spring of 2005, Rhodes and The University of Memphis collaborated on a production of *Metamorphoses* and for 2005-06 the season consisted of *The Tempest*, *Tongue of a Bird*, and *Ubu Roi*.

In the summer of 2005, construction began on an expansion of the theatre, and the 2006-2007 academic year opened with a facility more than double the size of its original incarnation. The expansion includes a classroom, a costume construction shop, faculty offices, and a second theatre space only slightly smaller than the performance auditorium. This space, dubbed the McCoy Studio, serves as an instructional classroom, a rehearsal hall, and a location for mounting student-run projects.

RHODES STUDY ABROAD PROGRAMS

EUROPEAN STUDIES

European Studies is a seventeen-week program offered jointly by Rhodes and The University of the South (Sewanee) that takes place from mid summer through early fall. It is a full semester of study abroad and offers the unique experience of studying in a variety of locations in Europe in a special and quite different learning environment. The program begins in July with four weeks of study at The University of the South with Rhodes and Sewanee faculty. The students then travel to England where there is a ten day practicum conducted by British tutors at the Universities of York and Durham, followed by six weeks with British instructors at Lincoln College, Oxford. The program closes with five weeks of travel in Western Europe, accompanied by British tutors in Art History.

European Studies offers two academic options. The first track, "Ancient Greece and Rome: The Foundations of Western Civilization," is a survey of the thinking and achievement of Ancient Greece and Rome and their importance to Western Civilization. The second track, "Western Europe in the Middle Ages and the Renaissance," is an integrated and comprehensive cultural portrait of Western Europe in the Middle Ages and the Renaissance. They both provide a highly enjoyable experience of other cultures and other academic methods that enriches study back on the Rhodes campus.

Students in the European Studies program pay their tuition and fees to Rhodes and receive need-based financial aid as granted by Rhodes. Aid is limited to the amount that would be granted in support of a semester's study at Rhodes. The credits are applied directly to degree requirements and are factored into the Rhodes grade point average.

This curriculum will be offered for the Fall 2007 European Studies program. Curricular changes will be implemented for the 2008 program to correspond with the Foundations Curriculum. A total of 18 credits is possible for the successful completion of this program. All courses are approved as meeting major or general degree requirements in the appropriate department or division as noted. Since courses are developed annually, some variation in topics may occur from year to year although the departments and general fields of study remain constant.

COURSE OFFERINGS

TRACK ONE. ANCIENT GREECE AND ROME: THE FOUNDATIONS OF WESTERN CIVILIZATION.

Art 836. Greece, the Eastern Aegean, and Italy: The Monuments and Centers of Classical Civilization.

Credits: 3.

Degree Requirements: Fine Arts.

The travel-study portion of Track One includes a month-long tour of the Continent including Athens, Istanbul, Troy, Naples, Rome, the Vatican City, and concludes with a week in London. During the tour, each student keeps a daily academic journal. Most students will never have thought seriously about art, architecture and city structure before going on this program but, by the end of it, each student should have the wherewithal to look at a building or a sculpture and understand its period, its aims, the way it was produced and what the artist intended by it.

English 831. Epic Poetry.

Credits: 3.

Degree Requirements: Fine Arts.

Ancient epics were sweeping sagas of gods and heroes, love and battle, with many characters and events. This course introduces the study of epic poetry, focusing on the characteristics that distinguish epic from other types of literature. It begins with the detailed study of *The Iliad* with emphasis on its characteristics as oral poetry and continues with the Roman equivalent, Virgil's *Aeneid*. The comparison of the great heroes, Achilles and Aeneas, demonstrates the origins of the characteristically western struggle between individualism and the obligation to society. Students may not take both English 831 and Rhodes' Greek and Roman Studies 211 for credit.

English 834. Ancient Greek Literature: Greek Lyric Poetry and Drama.

Credits: 3.

Degree Requirements: Humanities.

This course traces the development of Greek poetry from the first personal poems of Archilochus and Sappho to the lyric splendor of the Theban Pindar, then the flowering of drama in fifth-century Athens. Plays of each of the three great classical tragedians, Aeschylus, Sophocles, and Euripides are read, as well as Aristophanes' comedies that extracted humor from subjects surprisingly similar to those that agonized the audiences of tragedy.

History 830. Ancient Greek and Roman History.

Credits: 3.

Degree Requirements: Humanities.

This course explores the politics, culture, and society of the ancient Greek and Roman worlds. The course begins with a study of how the Greek city states, with special reference to Athens, developed in the archaic period, triumphed over their Persian foes and attained the glories of the fifth century, and fought disastrously with one another before becoming subject to Alexander the Great's "world" empire.

The course then traces the transformation of the Roman state from its mythological origins and the regal period, through the Republic, and back to the monarchical system of the Principate. Broad social themes are studied: the ideology of imperialism, some views of the more remote parts of the empire, the role of women, the city of Rome, religion, and imperial propaganda. This course is equivalent to History 211: Ancient Mediterranean Worlds. Students may not take both courses for credit.

Philosophy 833. Classical Philosophy from Homer to Plato.

Credits: 3.

Degree Requirements: Humanities.

The Athenian Plato and his pupil Aristotle, who both wrote in the fourth century BCE, are two of the greatest figures in the history of western philosophy. This course offers a brief overview of the historical development of classical Greek thought from Homer to Plato. Students may not take both Philosophy 833 and Rhodes' Philosophy 201 for credit.

Philosophy 835. Aristotle, Plato and the Legacy of Ancient Philosophy.

Credits: 3.

Degree Requirements: Humanities.

What can we know? How should we live? These and other connected questions

were searchingly examined by Plato and Aristotle, and after them by thinkers of the Epicurean, Stoic, Sceptic, and Neoplatonist schools. The course is designed to provide a critical overview of the evolution of their debate. A closer look is made also at selected extracts from the writings of the philosophers concerned, as well as one complete work, the *Nicomachean Ethics* of Aristotle.

TRACK TWO. WESTERN EUROPE IN THE MIDDLE AGES AND THE RENAISSANCE.

Art 833. Artistic Centers of Western Europe: Their Art and Architecture, Museums and Monuments.

Credits: 3.

Degree Requirements: Fine Arts.

The travel-study portion of Track Two includes a month-long tour of the Continent including Paris, Beaune, Rome, Florence, Venice, Ravenna, Nürnberg, Munich, Bruges, Ghent, and concludes with a week in London. During the tour, each student keeps a daily academic journal. Most students will never have thought seriously about art, architecture and city structure before going on this program, but, by the end of it, each student should have the wherewithal to look at a building or a sculpture and understand its period, its aims, the way it was produced and what the artist intended by it.

Art 843. Western Europe: Middle Ages and the Renaissance.

Credits: 3.

Degree Requirements: Fine Arts.

This course provides a broad-based, chronological survey of the art and architecture of Western Europe in the Middle Ages from the fourth century to the Renaissance. It introduces many of the themes and works of art that are explored further on the Continental tour. Slide lectures trace the general developments of styles throughout the period, set within their historical contexts, as well as focusing on individual buildings, manuscripts, pieces of sculpture, metalwork or paintings as case studies of technique or patronage. Visits to the Bodleian Library and Ashmolean Museum enable students to view examples of the objects studied in the course first hand.

English 843. Comparative Literature: Arthurian Literature and Shakespeare.

Credits: 3.

Degree Requirements: Humanities.

This course explores the history and the literary development of the greatest medieval hero—Arthur, king of the Britons—and compares it with themes of the greatest author of English drama, William Shakespeare. The study goes from the first story of Arthur in Geoffrey of Monmouth's *History of the Kings of Britain* to the development of the legend in French courtly and spiritual literature to Thomas Malory's great *Morte D'Arthur*. The second part of the course is an exploration of a key theme in Shakespearean drama. The course concentrates on various texts, including the comedies, *The Merchant of Venice* and *A Midsummer Night's Dream*; the tragedies, *Hamlet* and *Macbeth*; and the Roman play, *Coriolanus*. Themes within the broader context of Shakespeare's works as a whole will be examined.

History 834. Politics and Society in Medieval Europe.

Credits: 3.

Degree Requirements: Humanities.

The aim of this course is to provide a sound general understanding of European politics and society in the Middle Ages. The introductory classes consider the

creation of the medieval world, focusing in particular on the “fall” of the Western half of the Roman Empire and on the formation and Christianization of the Germanic kingdoms of Western Europe. Next the course examines the political, religious, and social developments that reached their culmination in what historians call the High Middle Ages, among them the formation of states, the development of the papacy, the development of towns, and the roles of women in the medieval world. The course will end with consideration of the political, economic, and religious problems of the Late Middle Ages (c. 1300-c. 1500). This course is equivalent to History 212: Medieval Europe. Students may not take both courses for credit.

History 844. European Life in the Late Middle Ages and Renaissance.

Credits: 3.

Degree Requirements: Humanities.

This course examines the organization and character of the Western Catholic Church before the Reformation. It examines the distinctive systems of belief which were fostered before the Reformation and seeks to understand how particular beliefs prompted distinctive behavior in the later fifteenth and early sixteenth centuries. The course continues through the Tudors, Henry VIII, and the Reformation in Britain, in Italy and the Mediterranean, and Northern Europe. An excursion enables the group to visit the university church in Oxford and witness what different classes of lay men and women were commissioning and building before the Reformation, the better to understand the tenor of faith and pious activity at that time. This course is equivalent to History 212: Medieval Europe. Students may not take both courses for credit.

Religious Studies 830. The Formation of Christianity in Western Europe: From Late Antiquity to the Middle Ages.

Credits: 3.

Degree Requirements: Life Then and Now.

This course offers an introduction to the History of Christianity in Western Europe from its beginnings to the sixteenth century. Theological and institutional developments receive some attention, but the course focuses on the interplay between social and religious change. The course is divided chronologically among three periods: the rise of Christianity in the West, religious life and thought in the High Middle Ages, and the Late Middle Ages and Early Modern periods. The course studies the legacy of early modern Christianity, the presence of many denominations, and the effects of that disunity on early modern society and intellectual life.

RESERVE OFFICER TRAINING PROGRAMS

Rhodes, in cooperation with the University of Memphis and the Departments of the Army and Air Force, participates in crosstown agreements that provide the opportunity for Rhodes students to enroll in Aerospace Studies (Air Force ROTC) and Military Science (Army ROTC) at The University of Memphis. Upon successful completion of the reserve officer training programs and the undergraduate degree at Rhodes, a student receives a commission as a second lieutenant in the appropriate military service.

The curriculum for the ROTC program is reviewed by the Faculty of Rhodes and the appropriate credit hours are assigned. The student who participates in the ROTC programs will have to complete all requirements as specified by the military service departments, including summer training camps, if the commission as an officer is to be granted.

A Rhodes student may earn a maximum of sixteen credits in the ROTC programs and apply fourteen of these credits to the 128 credit hours needed for a Rhodes degree. In addition, for each course completed in the ROTC program, the student will receive credit for one of the three half-semester courses in Physical Education that are required for graduation. Credit earned in ROTC is counted as elective credit, and it is listed on the student's transcript as ROTC credit with the appropriate course titles. Credits enrolled in during a given semester are included in the count of credits for a normal course load. (The credit shown below applies to the 16-credit provision.) Although a student takes the ROTC courses at The University of Memphis, that student is a full-time student at Rhodes, and any financial assistance provided by the military services is based on tuition and fees at Rhodes.

AEROSPACE STUDIES

The Aerospace Studies program is in two parts. The freshman-year/sophomore-level program, the General Military Course, is open to all students. The junior/senior level program, the Professional Officer Course, is available only to selected, eligible students who desire to earn commissions as officers in the United States Air Force while pursuing their academic studies at Rhodes. Participants in the POC program and those in the GMC on AFROTC scholarships receive a monthly subsistence allowance from the Air Force. Graduate students who qualify are also eligible for POC enrollment.

Air Force ROTC scholarships which pay all or a portion of certain college costs (tuition, book allowance, and certain fees) are available on a competitive basis, to entering first-year students and to cadets participating in the AFROTC program. Details are available from the Office of Admissions and Financial Aid or from the Department of Aerospace Studies at the University of Memphis. Students wishing to participate should contact the Unit Admissions Officer, AFROTC Detachment 785, Department of Aerospace Studies, University of Memphis, at 678-2681. Students may also access AFROTC Detachment 785's website at www.afrotc.memphis.edu and/or the AFROTC website at www.afrotc.com.

COURSE OFFERINGS

General Military Courses

111-112. Air Force Today.

Fall, Spring. Credits: 1-1.

This survey course is designed to introduce students to the United States Air Force and Air Force Reserve Officer Training Corps. Featured topics include: mission and organization of the Air Force, officership and professionalism, military customs and courtesies, Air Force officer opportunities, group leadership problems, and an introduction to communication skills. Leadership Laboratory is mandatory for Air Force ROTC cadets, and it complements this course by providing cadets with followership experiences.

211-212. The Air Force Way.

Fall, Spring. Credits: 1-1.

This course is designed to examine general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the space-age global positioning systems. Historical examples are provided to extrapolate the development of Air Force capabilities (competencies), and missions (functions) to demonstrate the evolution of what has become today's USAF air and space power. Leadership Laboratory is mandatory for AFROTC cadets and complements this course by providing cadets with followership experiences.

Professional Officer Courses.

311-312. Air Force Leadership and Management.

Fall, Spring. Credits: 3-3.

This course is a study of leadership, management fundamentals, professional knowledge, Air Force personnel and evaluation systems, leadership ethics, and communication skills required of an Air Force junior officer. Case studies are used to examine Air Force leadership and management situations as a means of demonstrating and exercising practical application of the concepts being studied. A mandatory Leadership Laboratory complements this course by providing advanced leadership experiences in officer-type activities, giving students the opportunity to apply leadership and management principles of this course.

411-412. Preparation for Active Duty.

Fall, Spring. Credits: 3-3.

This course examines the national security process, regional studies, advanced leadership ethics, and Air Force doctrine. Special topics of interest focus on the military as a profession, officership, military justice, civilian control of the military, preparation for active duty, and current issues affecting military professionalism. Within this structure, continued emphasis is given to refining communication skills. An additional Leadership Laboratory complements this course by providing advanced leadership experiences, giving students the opportunity to apply the leadership and management principles of this course.

Aerospace Studies

301-302. Field Training.

Summer. Credits: 0.

AFROTC Field Training is offered during the summer months at selected Air Force bases throughout the United States. Students in the four-year program participate

in four weeks of Field Training, usually between their sophomore and junior years. Students applying for entry into the two-year program must successfully complete six weeks of Field Training prior to enrollment in the Professional Officer Course. The major areas of study in the Field Training program include junior officer training, aircraft and aircrew orientation, career orientation, survival training, base functions and Air Force environment, and physical training.

Leadership Laboratory.

Fall, Spring. Credits: 0-0.

Leadership Laboratory is taken throughout the student's period of enrollment in AFROTC. The first two years of the Leadership Laboratory include a study of Air Force customs and courtesies, drills and ceremonies, issuing military commands, instructing, directing and evaluating the preceding skills, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. The last two years of Leadership Lab consist of activities classified as advanced leadership experiences. They involve the planning and controlling of military activities classified as advanced leadership experiences.

MILITARY SCIENCE

The Military Science program is divided into two courses each of two years' duration. The first, the Basic Course, offers instruction in leadership skills, soldiering skills, and the role and use of armed forces. The second, the Advanced Course, builds on the Basic Course, offers practical leadership experience, and prepares the student for commissioning as an Army officer. Students may apply for the four-year program (which can be completed in three years with department permission) or the two-year program.

The Basic Course is open to all students and involves classes of one or two hours per week. Enrollment in the basic course creates no military obligation.

The Advanced Course is available only to selected, eligible cadets who desire to earn a commission while pursuing their studies at Rhodes. Cadets enrolled in the Advanced Course receive a subsistence allowance of up to \$1500 per year during the Junior and Senior years (paid at \$150 per month).

Army ROTC Scholarships are available on a competitive basis. The scholarship pays up to \$16,000 toward tuition and fees and provides an annual allowance for books and supplies. Scholarship students receive the subsistence allowance for the period of the scholarship. Scholarship applications for first year students must be submitted by November 15th.

Rhodes College offers a 30-credit program of study in accounting and business leading to the Master of Science in Accounting degree. The M.S. in Accounting is a professional master's degree designed to provide a mature understanding of accepted professional practices in the field of accounting and to support entry and advancement in the various fields of professional accounting.

ADMISSIONS PROCEDURE

A student who wishes to apply for admission to the M.S. program should write, call, or e-mail the Director of the program requesting an application form. The form should be completed carefully and mailed to the Director of the M.S. in Accounting program with a nonrefundable application fee of twenty-five dollars.

Students who have submitted an application and all supporting credentials to the M.S. in Accounting Director by March 1 will be notified of the decision of the Graduate Admissions Committee by April 1.

All applicants to the graduate program must have an earned baccalaureate from an accredited institution before being admitted into the program.

STANDARDIZED TESTS

All applicants for admission to the M.S. in Accounting program are required to take the Graduate Management Admissions Test (GMAT). Any student planning to apply to the program for fall admission should plan to take the test no later than December so that his or her scores will be available for the Graduate Admissions Committee by March 1.

Test application forms may be obtained from some colleges and universities or by writing directly to the testing service, as follows: The Education Testing Service, Princeton, NJ 08541.

Applicants whose university instruction was not in English are also required

to take the Test of English as a Foreign Language and achieve a score of 550 or above.

PROVISIONAL ADMISSION

A limited number of students who would be denied admission based on test scores, letters of recommendation, personal interviews and transcripts may be admitted provisionally to the program if they can demonstrate high probability of success in the program and likelihood of outstanding performance in the profession of accounting in some other manner. Other criteria may include, for instance, a record of outstanding performance in a job with increasing levels of responsibility over time. Any student provisionally admitted to the program must attain a grade point average of at least a 3.00 (B) on the first nine hours of the program completed in order to remain in the program.

ADMISSION OF SPECIAL STUDENTS (NON-DEGREE CANDIDATES)

Students who give evidence of sufficient ability may be admitted as special students to a course offered as part of the M.S. in Accounting curriculum. Special students may take no more than two courses. After two courses, which may total no more than eight credit hours, the student must make formal application to the M.S. in Accounting program and be accepted into it before taking any additional graduate courses. An undergraduate student in his or her senior year may petition the graduate committee to enroll in graduate courses as a special student. In such a case, no graduate credit will be granted for courses used to satisfy undergraduate requirements. A student may apply no more than a total of six graduate credit hours earned as a special student and/or for transfer credit toward the requirements for the M.S. in Accounting at Rhodes.

READMISSION OF STUDENTS

The M.S. in Accounting degree must be completed within three academic years from the date of initial enrollment as a degree candidate. Failure to complete the degree requirements within this time will result in being dropped from the program. Any student who wants to continue the program after being dropped must petition the Director for reinstatement.

ADDITIONAL INFORMATION

The M.S. in Accounting program office hours are 7:30 a.m. - 4:00 p.m. Monday through Friday (central time). Additional information and application forms will be supplied upon request. Contact:

EXPENSES

The tuition charges, regulations for payment and withdrawal, activity fees, and special fees and deposits for the M.S. in Accounting are the same as for the undergraduate program at Rhodes. These charges and policies are outlined in the "Expenses" portion of the catalogue. Room charges and policies are also the same as those for the undergraduate programs; however, on-campus rooms will be made available to graduate students only after all undergraduate demand has been satisfied.

FINANCIAL AID

Most financial assistance for students in the M.S. in Accounting program will be awarded as grants, loans and student employment.

LOANS

Graduate students are currently eligible for up to \$8,500 per year. Federal Stafford Loans can be made on either a subsidized or an unsubsidized basis. In the case of a subsidized loan, the interest is paid by the federal government while the student is enrolled in an eligible institution on at least a half-time basis. In the case of an unsubsidized loan, the student is responsible for interest payment during periods of enrollment. Repayment begins six months after the student graduates or ceases to be enrolled at least half-time. The maximum repayment period is ten years, and the interest rate is variable, with a cap of 9%.

Anyone interested in the student loan program should contact:

Office of Financial Aid
Rhodes College
2000 N. Parkway
Memphis, TN 38112-1690
Telephone 901-843-3810

GRANTS AND GRADUATE STIPENDS

All grants and graduate stipends for students in the M.S. in Accounting program are merit based; financial need is not a consideration. Selection for a grant and/or stipend is based upon the candidate's academic record, personal achievements, and promise of success in accounting.

THE EDUCATIONAL PROGRAM

The graduate program builds upon the undergraduate study of accounting by introducing more complex accounting practices and reasoning into the functional areas of accounting: cost, tax, auditing and advanced financial. The graduate program also addresses the legal environment of business and business ethics, accounting research, and the theory and methodology of the accounting discipline. It is central to the mission of the program that students be able to communicate effectively, both orally and in writing. A significant component of all graduate courses will be oral presentations and discussions as well as written assignments.

THE CURRICULUM

Core courses and prerequisites. The following courses or their equivalents are required before beginning the graduate program. The graduate committee will evaluate a student's transcript to determine whether a core course requirement has been met. At the committee's discretion, a student may be allowed to take certain graduate courses concurrently with these core courses.

1. Financial Accounting
2. Intermediate Accounting I and II (Minimum grade of C- in both classes.)
3. Cost Accounting
4. Federal Income Tax
5. Auditing
6. Introduction to Economics, Microeconomics and Macroeconomics

Area courses. A student must complete at least one course, either graduate or undergraduate, in each of the following areas: management, marketing, and finance.

CHANGES IN DEGREE REQUIREMENTS

A student may satisfy the requirements for an M.S. in Accounting degree as described in any catalogue that has been in effect during the student's enrollment in the M.S. program. Students readmitted to Rhodes may graduate under requirements in effect during the original period of enrollment or by following a program incorporating features of the current and the earlier degree requirements and approved by the Graduate Committee.

TRANSFER CREDIT

No more than a total of six graduate credits earned at another institution and/or graduate credit earned as a special student (see above) may be counted toward the M.S. in Accounting at Rhodes. A minimum grade of B must be earned for any course credit to be transferred.

Transfer Credit Guidelines. The following guidelines are used in evaluating academic work from other institutions for graduate transfer credit.

1. The institution at which the course work is taken must be an accredited college or university.
2. Correspondence courses and distance learning (Internet) courses will not be accepted for meeting the program's prerequisites, area courses, or degree requirements.
3. To be accepted for credit, each course must be judged comparable in terms of content and quality to a course in the graduate curriculum at Rhodes. The Program Director makes these judgments.
4. All course work taken at other institutions for which Rhodes receives a transcript will be evaluated for transfer credit, and if acceptable, will be posted to the student's record.
5. A maximum of 6 credits (1 credit = 1 semester hour) will be accepted toward the Rhodes M.S. in Accounting degree. Transfer credits based on a quarter system are converted to the Rhodes credit basis using the formula that one quarter hour equals two-thirds credit. Fractional transfer credits will be credited.

6. Transfer credits are not accepted if the grade is C+ or below. Transfer credits are credited to the Rhodes transcript as credits only; they are not used to determine the grade point average.
7. Transfer credit may be used to satisfy M.S. degree requirements.

ACADEMIC REGULATIONS

The M.S. in Accounting program abides by the same academic regulations as the undergraduate program at Rhodes, with the exceptions noted below.

REGISTRATION

Qualification as a full-time, degree student requires registration for a minimum of six (6) credits in a semester. Degree-seeking students who register for five (5) credits or less in any one semester are classified as part-time students.

PASS-FAIL

A student may enroll in a class on a pass-fail basis. Permission of the instructor and the Director of the M.S. in Accounting is required and must be obtained during the first three weeks of the class in a semester. The Pass/Fail option may not be used to satisfy any of the graduate course requirements for the M.S. in Accounting degree.

ACADEMIC PROBATION AND SUSPENSION

To maintain acceptable scholastic standing and to graduate, a student must have an overall grade point average of 3.000 (B) for all graduate work attempted. The Graduate Committee places on academic probation any student whose cumulative grade point average at the end of a semester falls below the minimum standard. Notification of academic probation will be printed on the student grade report. A student on academic probation is not considered to be in good academic standing. Such students are ineligible to participate in some extracurricular activities, including intercollegiate athletics. A student is removed from academic probation upon attainment of a 3.000 average in graduate courses. A student placed on academic probation because of a grade point average below 3.000 has one academic semester of course work to raise his or her average to the required 3.000. If the grade point average is not raised to a 3.000, he or she may be dropped from the program. Any student who earns a D or an F in any graduate course may be dismissed immediately from the program.

COURSES OF INSTRUCTION

Courses numbered 500-599 have a 300 or 400 level cognate course in which undergraduates may be enrolled. (See Course Offerings.) Courses numbered 600 and above are graduate-level-only courses.

Fall and Spring following the course titles indicate the semester in which the course is usually taught. Course credit is shown to the right of the semester.

The College reserves the right to cancel any course for which there is insufficient enrollment.

The course uses lectures, discussion and case methods to analyze the relationship between business and the public with which it interacts.

Prerequisites: Completion of core courses.

MATTERS OF RECORD

HISTORICAL SUMMARY

Rhodes had its origin in the Clarksville Academy, founded in 1837. The Academy conveyed its property in 1848 to the Masonic Grand Lodge of Tennessee and was merged into the new Masonic University of Tennessee, a degree-granting institution of higher education located in Clarksville, Tennessee. This institution became Montgomery Masonic College in 1850, and in 1855 its name was again changed, to Stewart College, in honor of its president, William M. Stewart. Under President Stewart's leadership the operation of the College passed from the Masonic Lodge to the Presbyterian Synod of Nashville.

Under the Plan of Union of 1873, the Presbyterian Church reorganized Stewart College after the Reconstruction Era to operate it as the single Presbyterian college for the entire area which was at that time considered to be the Southwest.

In 1875 Stewart College became Southwestern Presbyterian University, developing alongside the undergraduate curriculum a School of Theology, under the leadership of Dr. Joseph Wilson, father of Woodrow Wilson. The School of Theology remained in operation until 1917.

Under the leadership of President Charles E. Diehl, the College moved to Memphis in 1925 and adopted as its name Southwestern, denoting a liberal arts college. In 1945, the official college name became Southwestern At Memphis.

On July 1, 1984, the name of the College was changed to Rhodes College in honor of Peyton Nalle Rhodes, president from 1949 to 1965, who joined the faculty in 1926 and served the institution until his death in 1984. John David Alexander served as president from 1965 to 1969; William Lukens Bowden, from 1969 to 1973; and James Harold Daughdrill, Jr., from 1973 to 1999. William Earl Troutt became the nineteenth president of the College on July 1, 1999.

RHODES PRESBYTERIAN HISTORY AND LIBERAL ARTS HERITAGE

Rhodes' relation to the Presbyterian Church has remained close and unbroken since 1855. The most recent expression of the College's relationship to the Church may be found in a covenant statement between Rhodes and the Church, summarized as follows:

Rhodes is a liberal arts college associated with the Presbyterian Church (U.S.A.). The College has a covenant relationship with the Synod of Living Waters (Tennessee, Mississippi, Alabama, Kentucky). Rhodes, as a church-related college whose primary mission is to educate, guarantees freedom of inquiry for faculty and students. The College, without pressing for acceptance, maintains a climate in which the Christian faith is nurtured. The curriculum includes a variety of courses in Bible and religion that explore the Judeo-Christian heritage and its implications for the whole of life. Students are required to study the Bible and its relationship with history and culture as a part of their college work. As an academic community founded on Christian ideals, Rhodes expresses personal concern for students, provides opportunities for corporate worship, and maintains a commitment to social justice and human mercy.

More specifically, the educational purpose of the College is expressed in its maintenance of an environment for the pursuit of truth in which it is ensured that the Christian faith is clearly articulated, that its formative role in Western civilization is carefully considered, and that honest intellectual and moral questions are articulated and responded to intelligently and sensitively.

This commitment is made clear in a resolution adopted by the Board of Trustees of the College: It is the intention of the Board that the College substantially comply with requiring twelve credits of sound and comprehensive study of the Bible for the granting of a degree. In keeping with this resolution and with the mission of the College, the foundations requirement is structured so that there are two ways available to students to complete this part of the degree program. Students may choose the course The Search for Values in the Light of Western History and Religion, or students may choose the Life: Then and Now Program.

THE FACULTY

Rhodes' strength as a distinguished college of the liberal arts and sciences is dependent on an exceptionally able student body and a faculty of effective teachers and committed scholars. College planning, including curriculum and academic facilities, is done with the objective of making it possible for students and faculty to create an imaginative and challenging learning experience.

Rhodes recruits faculty members who demonstrate excellent teaching and who show promise of continued and significant scholarly activity. The College also depends on the Faculty to provide leadership not only in academic development for the College but also in the overall governance of the institution. In the section of this bulletin titled "The Educational Program", the members of each academic department are named with year of appointment, area specialties, and additional educational background information.

The College is justifiably proud of the accomplishments of its Faculty. In particular, the Clarence Day Award for Outstanding Teaching, the Dean's Award for Research and Creative Activity, and the Charles E. Diehl Society Award for Service are given to those individuals judged as deserving of special recognition. Award winners have been as follows:

ENDOWMENTS, AWARDS, AND MEMORIALS

PROFESSORSHIPS AND FACULTY FELLOWSHIPS

The Connie Abston Chair in Literature was created in 1998 by trustee Dunbar Abston, Jr. in honor of his wife. Dr. Michael Leslie, Professor of English, holds the chair.

The Winton M. Blount Chair in Social Sciences was provided by the estate of Winton M. Blount, Chair of Rhodes' Board of Trustees 1988-92. Mr. Blount was a former U.S. Postmaster General and founder of Blount, Inc., an international construction firm based in Montgomery, Alabama. Dr. Susan Kus, Associate Professor in Anthropology and Sociology is the first holder.

The L. Palmer Brown Chair of Interdisciplinary Humanities supports a professorship in the interdisciplinary course, "The Search for Values in the Light of Western History and Religion." COLLEGE SPONSORED LECTURE SERIES

The academic life of Rhodes is enhanced considerably by annual sponsored programs which make it possible for authorities in various fields of study to come to the College and to participate in a variety of events with faculty and students.

THE FRANK M. GILLILAND SYMPOSIUM

The Frank M. Gilliland Symposium was established in 1984 by Tandy Gilliland and by Jim and Lucia Gilliland. The Symposium is presented in memory of Frank M. Gilliland, a prominent Memphis lawyer and active community citizen committed to the understanding of social and ethical issues confronting America. It brings to Rhodes well-known speakers in the fields of history, international studies, and English to address social and moral issues of importance to American society.

THE LILLIAN AND MORRIE MOSS ENDOWMENT FOR THE VISUAL ARTS

Established in 1984, the Moss Endowment brings to the College each year guest lecturers and visiting scholars in the fields of art, art history, and criticism for the benefit of Rhodes students and the Memphis community. This series has attracted national attention for its roster of speakers selected from the world's leading experts in the fields of art and art history.

THE PEYTON NALLE RHODES PHYSICS LECTURE SERIES

Annually since 1984, the Peyton N. Rhodes Physics Lecture Series has brought to the campus and community experts in the physical sciences and astronomy. Endowed by friends of the former physics professor, president and namesake of the College, the lecture series has acquainted students, faculty, and friends with new developments and changing interpretations of the physical world.

JAMES F. RUFFIN LECTURE IN THE FINE ARTS

Established in 2001, the James F. Ruffin Lecture in the Fine Arts brings to campus speakers and symposia focused on the visual arts. The lectures are funded by a 1999 bequest from the late James F. Ruffin, founder and operator of Ruffin's Import and Interiors.

THE SPRINGFIELD MUSIC LECTURES

The Springfield Music Lectures were established in 1991 by a bequest from the late John Murry Springfield, '51. Each year an outstanding musicologist, researcher, music historian or music theorist presents both formal and informal lectures that foster an increased appreciation of music as an academic discipline. These lectures are open to the public as well as to the Rhodes community.
