two other public officials have added their comments or math of Dr. Martin Luther King, Jr.

G.O.P. National Chairman Ray Bliss made this comment in pert "Dr. Martin Luther King, Jr., was one of the great leaders of our time , 1 . Even though he died as the result of a violent and penseless crime, he leaves behind him his abharrence for all violence and a remembered conviction that lasting benefits to mention come only through nonviolent progress."

Gov. Ronald Reagan of California made this domment: Whatever your opinion of Martin Luther King-whether you espreved or disapproved—our nation died a little, too. It started dying and his murder began with our first acceptance of compromise with the laws of the land. That compromise ranges from our indifference when some would apply the law unequally to these today, black or white."

We were with Gev. Reagan that law should always be ap-plied equality to all Americans—black and white—and at all times. We were blive based application and protection of law if there is to be justice and peace.

Federal Reserve Ups Rates To New High

WASHINGTON - (UPI) - The administration pleaded with new urgency for a tax increase April 19. William McChesney Martin, the Federal Reserve Board Chairman, said the United States was in its worst fiscal crisis since the depths of the "de-" pression

est level since the summer preceding the 1929 stock market crash.

Martin told the American Society of Newspaper Editors (AS-NE) that if the board is forced to continue correcting inflation with tight money, it would bring the economy to a "grinding halt." He said the nation was "in the midst of the worst financial crisis we've had since 1931."

UNDERSCORES NEED

The Texas White House said the Board's action underscored the "urgency" of passing the tax bill. Presidential press secretary George Christian said it proved that "tighter money has become inevitable as our only present de-fense against inflation."

The tax bill has been stalled in Congress mainly because of the opposition of Chairman Wilbur Mills D-Ark., of the House Ways and home in Kensett, Ark., refused to comment.

He said such a deficit was "intolerable as is the U.S. deficit in the international balance of payments. "Both have to be corrected over the next few years or the United States is going to face either all uncontrollable receasion or an uncontrollable inflation," he told the editors.

Your professional beautician knows the answer....

Why does some hair break off when combing?

Your hair is precious and delicate ... and none of us like to see It break off for any reason. Scientists tell us that excessive use of hot combs and over-processing of hair with chemicals often are major causes of brittleness resulting in hair breakage. But hair that is naturally curly and tangles easily frequently brunks off in everyday combing. Notice how irritated your scalp becomes when you comb in contrast to the way your beautician does?

Your professional beautician knows that curly hair mats and tangles so easily that it should be softaned before combing. Otherwise, unnecessary irritation to the acalp and damage the shaft and ends of the hair occurs. To achieve this needed softening and a temporary relaxing effect that prevents breakage on all human hair (including wigs), most beauticiana rehr on Clairol[®] Hair-So-New[®] spray-on creme rinse.
