Board Sprucing Up Owen Site

The Memphis Board of Education has appropriated \$12,870 to cover the cost of painting the interior and exterior of the administration building located on the site fermerly occupied by Owen Junior College. This figure includes labor, and material.

An additional \$1,755 was appropriated to pay the cost of installing plywood over the existing hardwood floor of the gym located in the administration building. Both figures represent low bids.

Girl's Rape Cry Called A Hoax

A 14-year-old girl's complaint that she was raped by several boys in a shed near Douglas High School has been called a hoax.

The girl had been quoted as saying the boys grabbed her and forced her into the shed located in a park near the school. She

Melvin Conley, principal of Douglass High, said the time the was during the lunch hour. He said the manner in which she described the act was impossible.

The girl's mother had been quoted as saying she arrived at the school and heard her daughter screaming from the shed. She also was quoted as saying she saw boys running from the shed.

Mr. Conley said the girl's mother does not have a car and did not appear at the school to pick up her daughter. He said she knew nothing of her daughter's complaint until later in the day.

Principal Conley said nine students, including the girl who made the complaint, were suspended. Several of them have been readmitted to their classes, he said.

E T. M. M. HOWARD AND IN. BARRY ARE BACK APTER NO MONTHS ON AN RICAN SAFARI

A letter came last week from my riend Helen Howard letting me now that her husband and son, The Internationally known Dr. T. R. M. Howard and theor 13 year son, Barry are back in Chicago after more than two months on and African Safari and I Quete my good friend and fellow Scribe, Theresa Fambro Hooks, Woman's Editor of the Chicago Defender: whose story was to the point: Heavy laden with high powered rifles and shotguns, Dr. T. R. M. Howard and his 13-yearold son. Barrett, arrived at O'-Hare Airport on Labor Day, The father-son duo were returning from a nine-week luxury hunting safari

in the jungles of Africa.

Thirty days were spent in the jungles of Berla Mozambique (a Belgium possession on Africa's East Coast), along the Zambesi River and then on to game reserves in Nairobi and Tanzania. From there the hunting duo (complete with safari guide and native camp aides) went up to Ethiopia where they were guests of the assistant minister of the Interior for a total of 21 days.

Dr. Howard almost came home with a lesser amount of trophies than Barry, who is just entering his freshman year at Harvard-St George School in Chicago this September. The elder Howard bagged 21 trophies: Barry is boasting of a grand total of 20.

Their massive collection includes large bull elephants, leopards, pebras, water cape buffalos, hippos, sables, impalas, water hogs, hartebeasts (Barry says, "That's a real ugly animal") and water bucks. They got a lion apiece in Ethiopia.

MRS, HOWARD (Helen) has

eyes on the leopards for a jacket, coerce either her husband or son but so far she hasn't been able to give them up. They are planning for rear head mounts, full mounts, wall hangings, rugs, footstools ashtrays, and whatever else one does with animal skins.

in the luxury building of Lake ty young bride is the daughter of Meadows' 631 Building, but they Mr. and Mrs. Cooper of Rochester returned to a massive 10-room home on the corner of 83rd and Mrs. Phillips E. Brooks, Sr. Wabash Avenue, in Chatham Park.

"We never planned to buy a home in Chicago, but there just wasn't any more room in either our apartment or in Ted's office (on 63rd. Street) for his mounts, Mrs. Howard said "The huge recreation room on the lower level really sold Ted on this house. He knew he was planning on the hunting safari, so he decided to nouse hunt, too."

All of the animals were sent directly from Africa to Chicago to taxidermist, and everything should be ready by March or April of next year. It's a long process for mounting and so forth.

A movie film was made of their hunting experiences and the tentative title is "My Son and I—Afri-can Safari, 1968." But, still photographs of them with their "kills" are already being admired by their friends.

But, don't you believe this fa-ther-and-son due were "roughing it". They traveled with a guide and a complete native camp craw (cook included). They traveled either via plane or jeep; had natives to carry their rifles and guns until they were ready for the "kill:" had three hot meals per day and stayed either for the camps or safari clubs; and always there was hot and cold running water.

When they left Chicago they stopped off in the Catskill Mountains of New York where Mrs. Howard's brother Edward F. Boyd, has a country estate, and then to Lisbon, Spain for a couple of more days. Enroute home they visited Rome and London and then went directly to O'Hare. We'll betcha that Barry's quite a popular lad st Howard-St. George.

Gov. Maddox And Wallace

ATLANTA, Gq. - (SNS) -

Although Gov. Lester Maddox has hinted on several occasions that his preference for president is former Gov. George Wallace, but somehow we did not believe Gov. Maddax would actually and openly support a third party effort.

We thought he was more concerned about unifying the country rather than dividing it. The position of racism taken by Mr. Wallace cannot help in any way to bring about better understanding between the members of the two major racial groups: It can only bring about further tension and division between the races.

The Wallace candidacy is aimed at preventing either of the major nominees from receiving a majority of the electoral votes, thereby throwing the election of president into the U. S. House of Representatives.

At this point it would be the Wallace plan to try to do same bargaining with the nominees of the two major political parties. Nominee Richard Nixon, to his credit, has publicly stated he would do no bargaining with Wallace.

Some of the white Democrat political observers have suggested Wallace has a good chance of carrying Georgia, Alabama, Mississippi, and Louisiana. This may be true, but we be-lieve the power of the Negro vote is sufficient in these states to prove that this if there could be gotten a bi-partisan decision to unite our racial support on the strongest nominee in these

Anyway, this is certainly an idea to which our political aders might give some serious thought.

That choice of words recalled "Nixon's remark in his address accepting the Republican Nomination at Miami Beach, Fla.; "Let's win this one for Ike!" Former President Dwight D. Eisenhower was gravely ill at the time with his seventh heart attack.

Texas will be a major battleground in November and Johnson took note of that. The polls indicate that Humphrey is far behind. The Gallup poll Sunday showed Humphrey trailing Nixon winning 19 per cent and 7 per cent of the voters undecided. A New York Times survey gave Nixon 30 states with 346 electoral votes: Wallace eight states with 77 electoral votes and Humphrey six states with 42 electoral votes.

The bathroom has been with us so long that not many remember the days before it moved into the house. Even those who do remember have lived with one-or, more likely, two-beths, for so long that they take bathroomes in the house for granted.

We all applaud the mechanical efficiency of the modern bath but that should not end our concern it. Satisfactory bathroom design today is no longer merely a question of locating fivtures in the chosen space in some workable

Whether we're building or remodeling a house, the baths deserve our attention. Careful thought should be given to the type of fixtures to be used, to whether the bath's location is logical in terms of the over-all house plan, whether the bath should be compartmented and whether cleaning and upkeep

When it comes to decor, only we and our families can choose the appearance we wan -- and the possibilities are endless. Ceramic tile, for example, today comes in thousands of shapes, sizes, colors and patterns and offers unlimited design opportunities. Fixtures come in a great variety of colors and shapes. So do accessories

Carefully planned storage, as everywhere in the house, is iportant. So are arrangements for special equipment your family may want sunlamps, exercise machines or eve saunas. If children or elderly persons are to use the bath, we probably should have a lock that can be opened from the outside with

a key when an emergency arises. To get the most beautiful and serviceable bath possibly requires knowledgeable decisions on our part and close collaboration with contractor and architect.
