

Virtual Reality Escape Room

Mac Busby, Andrew Craig, Henry Kemp, Benjamin Wade

Presentation Outline

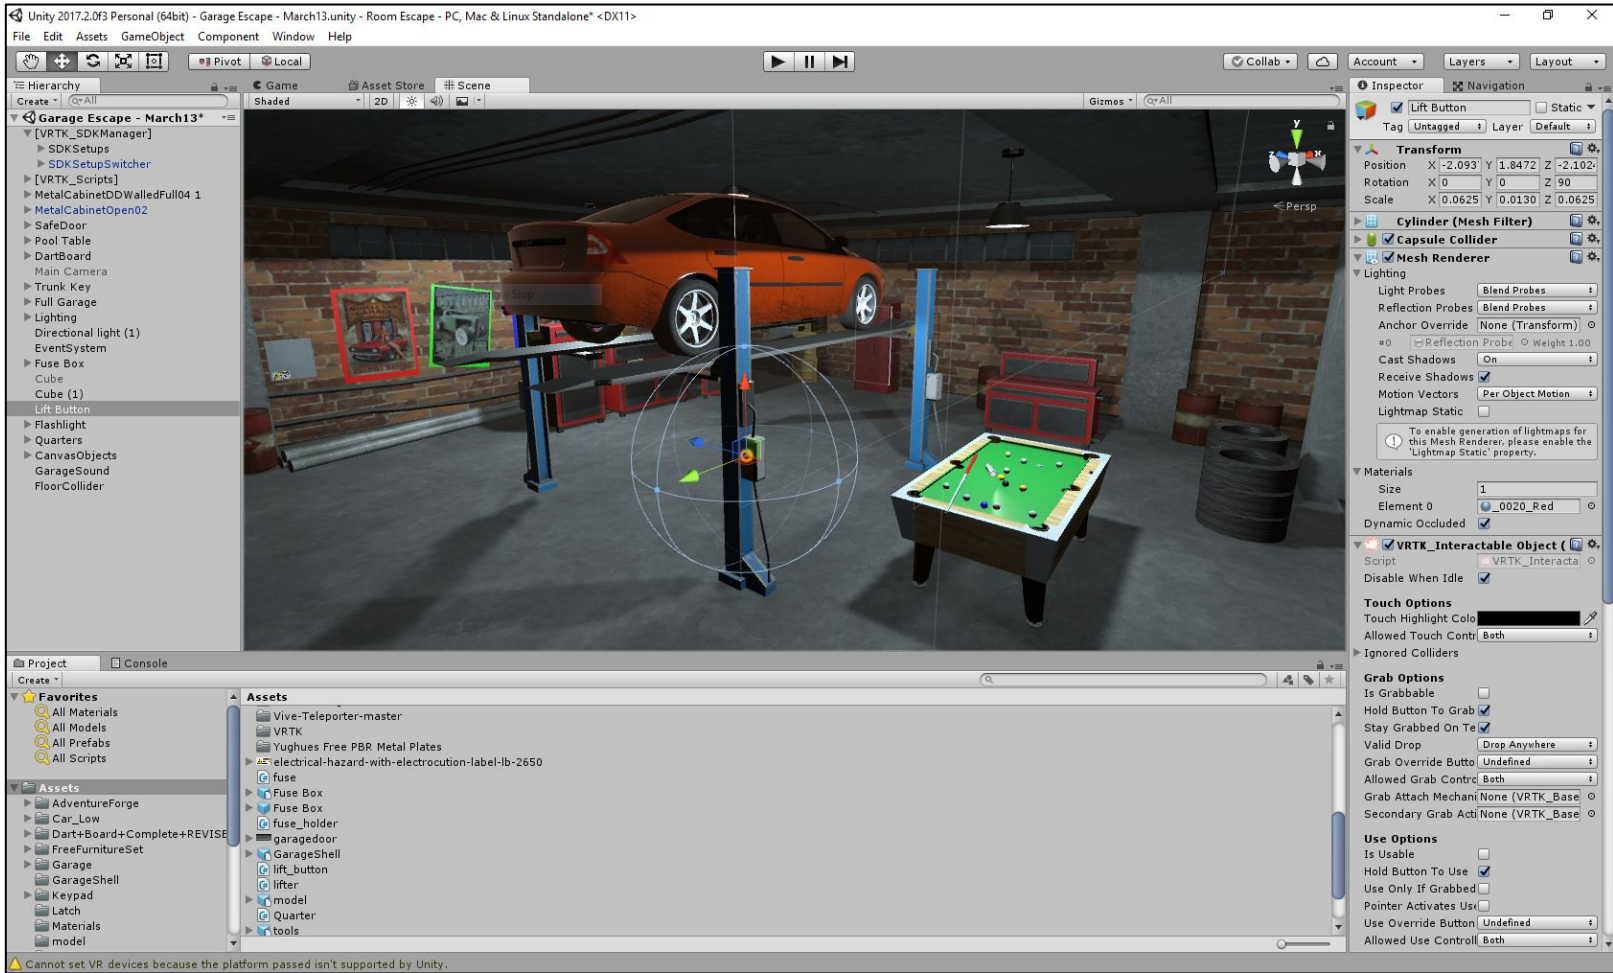

- Virtual Reality background
- Room escape games today
- Overview of our game
- Bugs that needed to be fixed
- New additions
- Project Timeline
- Challenges we faced

Virtual Reality and Unity

- Working in the Virtual Reality lab in Briggs
- Using Unity3D and the HTC Vive

Cannot set VR devices because the platform passed isn't supported by Unity.

Escape Rooms Today

- Big market; started with online computer games and evolved into real-life scenarios
 - Physical adventure game in which players solve a series of puzzles using clues and hints in a given time period
 - First started in 2007 in Japan, quickly expanded to over 2,800 locations worldwide as of July 2015
 - Very popular among highly stressed students and overworked professionals
 - Very few VR rooms exist; we purchased one in early 2017 to test of only 4 or 5 options on Steam
- 

Project Background

- Project began in Fall 2016 as a project for the class: “Computer Graphics, HCI, and Virtual Reality”
- Aimed to create an escape room game in virtual reality
- Took the unfinished project and moved to complete it through our senior seminar
- Looking at a user’s sense of presence and immersion inside a virtual environment

Outline

- Trapped in a garage with a pool table, a car, and a workbench with cabinets
- All interactable

Outline

- Need to turn on the power to open the garage door, activate electrical items around the room, and escape

Outline

- Find fuses; put them in the fusebox in a specific order
- Puzzles throughout the room provide clues to players about fuse order, safe code, etc.

Features That Needed to be Fixed

- Major Issues
 - Teleportation
 - Physics of opening and closing doors
 - Picking up/putting down small objects
- Minor Issues
 - Interactable objects could fall through the floor
 - Cosmetic detailing

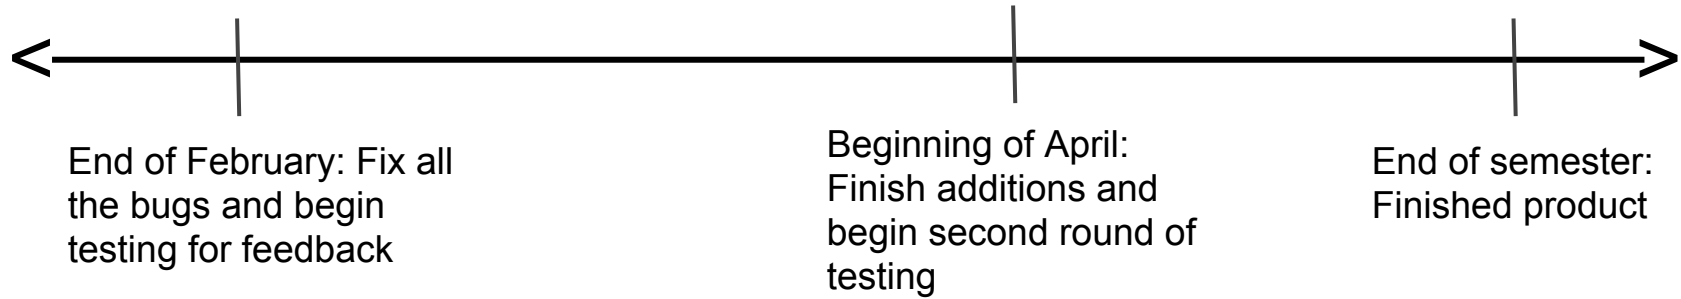

Features We Added

- Darkness/Flashlight
- Safe w/ keypad
- Locks and keys
- Dart board
- Car lift
- More items for users to interact with
- More puzzles/challenges

Timeline Goals

Starting Over

Challenges

- Project was deleted and not backed up properly
- Large scale project with small group that couldn't always work together
- Importing new objects into the room
- Technology can be difficult to work with
