College Secures Noted Educator For Fall Session

Dr. Walter Miller To Teach Civilization Courses

FROM COLUMBIA, MO.

Will Offer Latin and Greek Tutorials

Dr. Walter Miller, of Columbia, Mo., one of the nation's foremost educators, has come to Southwestern as a visiting professor for the first semester of this session. He is professor emeritus at the University of Missouri and will teach modern civilization and tutorial courses in Greek and Latin.

In his two courses of Modern Civilization, Dr. Miller will try to relate and stabilize the varied branches of the social sciences in two of their many aspects—the practical and the intellectual. The purpose of the first of these, dealing with **Our Institutional Heritage from the Past**, is to present the various solutions of constitutional, political, economic, and social problems in the past and the light they throw upon these same questions confronting the world today. The second course, entitled, **Our Intellectual Heritage from the Past**, will treat of our indebtedness to the ancient world in the fields of literature, philosophy, science, and art.

In addition to these regular courses, Prof. Miller will give two tutorial courses—one on Private and Public Life of the Ancient Greeks, and the other, Roman Religion and Mythology.

Prof. Miller's educational and teaching career has been long and impressive. For many years he had studied and taught in schools and universities abroad as well as here in America. In the year 1886-1887 he was an instructor of Greek and acting as assistant professor of Greek at the University of Missouri after which time he taught at Stanford University for several years as a professor of classical philology. The next twenty-eight years of his life, from 1905-1933, he entered a new capacity as associate editor of the *Classical Journal*, an outstanding literary publication, and from 1933-1935 served as its editor-in-chief and business manager.

In addition to his teaching and business activities, he is a Presbyterian and a member of Phi Beta Kappa, Alpha Zeta Pi, Phi Mu Alpha, and Eta Sigma Phi organizations.

Lecture Series To Be Delivered

Dr. Walter Miller Will Give Illustrated Lectures On Greece and Rome

Beginning on Tuesday evening, September 20, at 7:45, Dr. Walter Miller, A.M., Litt.D., LL.D., visiting professor from Columbia, Missouri, will deliver a series of 18 illustrated lectures. These lectures will be open to the public without charge.

Dr. Miller's subjects will be "Rome—The Eternal City", "Changing Rome—Mussolini's Rome", "The City of the Violet Crown", "The Parthenon—the One Perfect Creation of Man's Hands", "Changing Athens—the Work of the American School", "Olympia and the Olympic Games", "Delphi and the Pythian Circle", "Corinth—the Excavations of the American School", "The Isles of Greece", "Crete and the Minoan Civilization", "Mycenae and Tiryns—the Minoan Civilization in Greece Proper", "Sicily, the Garden of the Mediterranean", "Syracuse, Athens Rival in the West", "From Nazareth to Bethlehem", "Jerusalem and the Temple", "Galilee", "Greece and the Greeks Today", and "How I Became a Captain in the Greek Army".

These lectures will be given in Room 101, Science Building.

The Southwestern student body extends its sympathy to Virginia Ragsdale on the death of her mother.

Annual Tea Is Held For Women Students

Women's Undergraduate Society To Entertain Today In Palmer Hall Cloister

The Women's Undergraduate Society will entertain with a tea this afternoon from 4 until 6 in the cloister of Palmer Hall. All women students of Southwestern are invited. The guests are urged to wear identification cards pinned to their dresses.

The officers of the organization will receive the guests. Betsy Fowler, president, will be gowned in aqua blue taffeta with rosettes of the same material on the skirt and a cluster of rose colored flowers at the waist. Erin Gary, vice-president, will wear turquoise crepe with a bolero of white embroidered swiss. Jane Bray, secretary, will help receive in green taffeta.

Also receiving the guests will be Mrs. C. L. Townsend, Dean of Women, who will be attired in a simple model of black chiffon.

Presiding at the refreshment table, in the center of the cloister, will be Mrs. Charles E. Diehl, and Mrs. A. Theodore Johnson. The table will be attractively decorated with a large bowl of early fall flowers.

The purpose of the Women's Undergraduate Society is to promote inter-class competition among the women students in all lines, especially in athletics. Its membership includes all the women students of Southwestern, each class being organized separately.

New Dietician Is Secured

Mrs. George Webster Announces Plans For the Year

"With the same spirit of friendship that prevails at Yale, Princeton, and Vassar, and with cooperation, we can have not as good a dining hall, but a better one," said Mrs. George Webster, the new dietician of Neely Hall. For the past year Mrs. Webster has travelled through Louisiana, Arkansas, and Missouri doing personnel work for the Welcome Wagon Service. She has visited many of the leading college and universities of the United States and has made an intensive study of dietetic. Mrs. Webster was previously connected for three years with Fortune's Tea Room.

One of the many innovations which she plans to bring about are Sunday night suppers for both town and dormitory students. These suppers will be served Swedish smorgasbord or buffet style and, it is expected, will be successful social affairs with a large attendance of students and their dates. Nominal fees will be charged.

PERFUMES HIDDEN 1,000 YEARS

NEW YORK.—In the cornerstone of the Cosmetics Building at the New York World's Fair 1939 there have been deposited the rarest perfumes of today, the newest and most effective toilet accessories, the whole valued at thousands of dollars. When the Fair closes, the cornerstone is to be transported to the mountains of Arizona, near Tucson, and placed under a gigantic monolith bearing a bronze tablet stating that the contents of the cornerstone are not to be disturbed until April 30, 2929, a thousand years after the inauguration of the Fair. Then the bells of that year will learn what her sisters of 1939 used to make themselves beautiful.

Councils Arrange Rushing Schedule

Freshman Regulations Are To Be Enforced

At a meeting Wednesday afternoon in Palmer Hall, the Men's Panhellenic Council, headed by Steve Frazier, president, decided that fraternity rushing shall take place four nights next week, Monday through Thursday, from 7:30 until 12 o'clock and two afternoons, Tuesday and Thursday, from 2 until 6 p.m. Drawing for dates with rushees will be held tomorrow afternoon at 1:30 o'clock.

Fraternity rushing will end Thursday midnight, and there will be a quiet period until pledging which will take place at 4 o'clock in the Science building.

The council also passed several resolutions regarding freshmen regulations. Freshmen are required to wear freshmen caps; they must enter Palmer Hall by the front door; they must not step on the grass; they must avoid engaging upper classmen in conversation.

Representatives of the fraternities who attended the meeting were: P. S. Weaver and George Griesbeck, Kappa Alpha; Billy Kelly and Hylton Neill, Kappa Sigma; H. R. Holcomb and John McGrady, Sigma Alpha Epsilon; Ewing Carruthers and Tom Mobley, Alpha Tau Omega; Sam Mays, Sigma Nu; Val Huber and Levon Self, Pi Kappa Alpha.

The Women's Panhellenic Council met Wednesday night and discussed plans for sorority rushing, making regulations for freshmen women.

Sorority rush teas will be held Tuesday, from 2 until 5 o'clock; Wednesday from 4 until 6:30; and Thursday from 3 until 4 o'clock. The five sororities will hold open houses at these times, with visiting hours of each rushee to be arranged later. Friday will be a quiet period and rushees will receive bids at 7 o'clock Saturday night in Palmer Hall. Pledging will be held by sororities in their chapter houses, followed by open houses to which all men students are invited.

The council passed four resolutions regarding freshmen. All freshmen women must have baby caps by Monday, to be worn throughout the week; they must wear placards on their backs with their names in two-inch letters; they must not walk on the grass; and they must speak to all upperclassmen and freshmen.

Betty Wells, president of the Panhellenic Council, presided over the meeting. Other representatives were Betsy Fowler and Catherine Hollinger, Alpha Omicron Pi; Marjorie DeVal and Mary Katherine McGuire, Tri-Delta; Jane Bray and Priscilla Shewmaker, Kappa Delta; Margaret Jones, Chi Omega; and Dorothy Steuwer and Lillie Roberts Walker of Zeta Tau Alpha.

Health Note: The American Youth Commission, after a survey of students in 56 colleges and universities, reports that more than a third of students entering colleges are infected with tuberculosis.

PROFS. STORN AND BASSETT RETURN FROM EUROPE, MEXICO

"The prosperity of Mexico City, the extensive building program, and the general development of business is surprising," says Prof. Martin W. Storn, professor of romance languages. He has recently returned to Memphis after spending the summer in Mexico City with his family.

Prof. Storn attended the summer session at the National University of Mexico where he attended lectures on Spanish and Mexican literature, which he says will be in line with the survey courses which he will teach in Spanish this session. "It was an excellent summer, with weather as pleasant as possible," he reports. While not busy with his work, Prof. Storn attended many concerts and plays in several languages, and made side trips in the vicinity of Mexico City. "Everywhere the creation of beautiful things, buildings, statues, parks and fountains, is unique and outstanding. Despite all rumors and warnings, we found Mexico City quite calm," he said.

Prof. Henry J. Bassett, professor of Latin, has returned from his fifth trip to Europe. Sailing from New York

New Additions To Faculty

DR. SIEFKIN
—Courtesy The Press-Scimitar.

DR. PAULSEN

Dr. Gear Returns To College Post

Will Represent Southwestern, Acquaint Synods With School's Work

Prof. Felix B. Gear, associate professor of Bible, has returned to the campus this fall after a year's absence. He has been relieved of his work in the class room for the purpose of presenting the cause of Southwestern to the people of the four synods, which own and control the college. These synods are: Alabama, Louisiana, Mississippi, and Tennessee.

His work will consist of filling pulpit engagements, attending Synod and Presbytery meetings in the interest of Southwestern, in conducting Bible classes whenever desired, and in addressing various religious groups such as men's, women's, and young peoples' organizations and conferences, with the view of acquainting the constituency of the college more intimately with the character and work of Southwestern.

Prof. Gear taught Bible at Southwestern from 1934-37 and was at Harvard last year writing his thesis for the Ph.D. degree. He received his A.B. from Davis-Elkins and his B.D. from Union Theological Seminary, Richmond, Va., where he graduated maxima cum laude. He also studied at Princeton Theological Seminary, and did graduate work at the University of Edinburgh in 1929-30 and 1933.

MYSTIFYING AIRPLANE

NEW YORK.—Visitors entering the Aviation Building at the New York World's Fair 1939 will become instantly aware of a low, persistent droning, the familiar but undisturbing sound of a plane in the distant sky. The sound will carry their eyes to a towering, curving wall more than 200 feet away where, high in the curve will be seen a transport plane as if in flight, its propellers whirling, its illusion of flight dramatically augmented by the projection of moving clouds against the background.

Christian Union Retreat Is Held

Discussion Of Campus Problems; Plans For Coming Year Are Made

"The purpose of the Christian Union is to help realize the ideals of Southwestern—genuineness and excellence," said Dr. Chas. E. Diehl, president of the college, in concluding the keynote address at the opening of the Christian Union Cabinet retreat last Monday night at six o'clock in the Bell Room of Neely Hall.

The retreat, an annual affair, is held for discussion of campus problems and making plans for the religious groups on the campus. Each member of the Christian Union Cabinet and other campus leaders were assigned topics for discussion. At the afternoon session plans were made by the officers of the Bible Class, the Ministerial Club, and the Y. W. C. A. for the coming year.

Dr. R. T. L. Liston, professor of Bible, conducted the periods of morning meditation on Tuesday and Wednesday emphasizing the importance of the work for the coming year and the part which each one had in the task.

Dr. S. E. Howie, pastor of the Westminster Presbyterian Church and former director of public relations at Southwestern, gave the concluding address.

Officers of the Christian Union Cabinet who planned the retreat are George Jackson, president; Bruce Crill, vice-president; and Harriet Pond, secretary.

Others who attended were George Humphrey, Allen Craft, Betsy Fowler, Betty Wells, Marian Dickson, Marjorie DeVal, Mary Louise Hughes, Bob Montgomery, Henry Mobley, president of the student body; Billy Kelly, president of the Student Service Club; William McBurney, editor of the *Southwestern*; John Young, John McGrady, Warren Prewitt, president of the Honor Council, Shepherd Tate, and Herbert Bingham.

PEP LEAGUE GIVES RADIO PROGRAM

Will Promote College Spirit, Attendance at Games

The newly organized Pep League presented a Southwestern football program Friday night at 8 o'clock. Talks were made by Orley Nettles, captain of the football team, and by Gaylon Smith, alternate captain. Several college yells were led by Bland Cannon and Warren Prewitt, cheerleaders. The WMPS staff orchestra assisted with the program.

The Pep League, sponsored by the Student Service Club, was organized to promote college football, attendance at games, and a closer relationship between football and the student body. In announcing plans for the season, Billy Kelly, president of the Service Club, said that alumni, Memphis business men, and organizations on the campus will be urged to send telegrams to the games. He also said that a number of red jerseys with black lettering have been ordered. It is the plan of the League to have every member of the student body wear these shirts to the football games and "those who do not will be ostracised", Kelly said.

3 New Members Increase Faculty For Fall Term

Paulsen, Siefkin, Miller Begin Teaching Here

PAULSEN IN EXILE

Siefkin Returns From Study At Princeton

With the addition of Dr. Wolfgang Paulsen, Dr. Charles G. Siefkin, and Dr. Walter Miller, visiting professor for the first semester, the faculty of Southwestern has been increased to a total of 39.

Prof. Paulsen of London, England, will teach courses in German and French, succeeding Prof. Alexander Boeker, who has returned to Germany. Prof. Paulsen studied widely at German and other universities on the continent and received his doctor's degree in German and European history at the University of Berne in Switzerland. For the past four years he has been teaching at the Universities of Durham and London.

Prof. and Mrs. Paulsen are in exile from Germany for political reasons and cannot return as long as the Nazi regime lasts. They have only been in this country for a few weeks and notice particularly the heat. Mrs. Paulsen is struck with the friendliness of Memphis since "in London everyone is so cold and reserved." She also says that the reason why she came to America was "to buy a pair of American silk hose."

They made the crossing on the New Amsterdam, the latest trans-Atlantic liner, and spent some time in New York City. Prof. Paulsen is quite pleased with the facilities of Southwestern and is looking forward to a pleasant school session.

Prof. Charles Siefkin is not, strictly speaking, a new professor on the campus, since he taught at Southwestern from 1933-1936. For the past two years he has been at Princeton working on his Ph.D. degree and has returned as assistant professor of political science and public speaking.

Prof. Siefkin received his B.A. at Oxford University, majoring in economics and political science. He has travelled extensively in Germany, Italy, Austria, France, Spain, and north Africa. He is a member of Phi Beta Kappa and Sigma Nu social fraternity, of the British Royal Economic Society, the Order of Artus and of Omicron Delta Kappa.

Women Students Make High Grades

Chi Omegas Lead All Groups With An Average of 2.60; K. S. Heads Men

Fraternity and sorority scholastic averages for the second semester of the 1937-38 school year were announced this week by the office. Chi Omega again led the women's groups with an average of 2.60 and will retain the Zeta Tau Alpha Scholarship cup. Kappa Sigma led the men's organizations with an average of 2.09. In general, the all college average was slightly lower than last year.

The following were the group averages:

Kappa Sigma	2.09
Sigma Alpha Epsilon	2.08
Sigma Nu	2.06
Pi Kappa Alpha	1.93
Alpha Tau Omega	1.91
Kappa Alpha	1.86
All Fraternity Average	2.02
All Fraternity Pledges' Average	1.55
Non Fraternity Men's Average	2.03
All Men's Average	1.91
Chi Omega	2.60
Independents	2.38
Kappa Delta	2.36
Alpha Omicron Pi	2.30
Delta Delta Delta	2.25
Zeta Tau Alpha	2.07
All Sorority Average	2.41
All Sorority Pledges' Average	1.16
All Women's Average	2.24
All College Average	2.03

To The Freshman

After the ordeals of orientation and registration, the freshman is now taking a deep breath and a glance around before the plunge into the year's activities. Make this survey carefully. Note the many opportunities for extra-curricular activities—the band, the choir, debating, literary and dramatic organizations, the staff of the paper and the annual, and others. Then, choose carefully from the wide assortment.

The fraternity or sorority with which you may affiliate will urge your participation in many of these activities to increase the prestige of the group. This should be unnecessary. The new student should realize that those who receive the most from college life, who come to understand, to the fullest possible extent, the ideals of Southwestern, are those who enter wholeheartedly into not only their studies, but also into these extra-curricular activities.

Because you are new on the campus and still unacquainted with your surroundings is no reason why you should not take part. No organization is so crowded that it cannot use new and "fresh" talent. Take the initiative, for, trite as it may be, it is nevertheless true that the frosh of today are the campus leaders of tomorrow.

The Matter Of Honor

For the benefit of freshmen and new students, the Honor System as it exists at Southwestern is an institution. It is accepted as such and abided by. It is the supreme governing factor among the students and its authority is recognized. After new students have heard a thorough oral explanation and have been handed a summary of the working principles of the system, there can be no excuse for a loose moral conscience on the campus.

When you enter Southwestern, one of the first things you are given is a pledge that you will uphold the Honor System. This promise should be regarded as a most serious and binding one.

The system as it now functions ranks with the best in the nation, because every student respects the confidence that is entrusted to them and strives to see that it is successfully met.

If you do not merit this confidence, you no longer deserve to be a member of the student body and this is rigidly carried out. Make no mistake, the Honor System is not merely a Jack-o-lantern, but a revered tradition of Southwestern backed by a council which will have no qualms in expelling the guilty when they are discovered, as past records show. If you are not a person of honor, you do not fit into the educational program of the College.

Frosh Discipline

The re-appearance of Freshman caps marks an important step in the resurrection of the college spirit which lagged behind last year. After a year's reaction from freshman hazing and an attempt to create a college spirit merely by polite relations, Southwestern reaches a middle course—frosh discipline, not hazing, under a Disciplinary Council, not a Sanhedrin. We feel that the step is a wise one, that mild disciplining will "breed more esprit de corps in one night than three weeks of polite relations between frosh and upperclassmen."

The extinction of hazing is undoubtedly a forward step intellectually. Yet, the complete removal of freshman discipline took a noticeable toll on Southwestern last year at football games and other college activities. Whether the compromise to be tried this year will prove successful remains to be seen. We do not advocate a return to the barbarous hazing that existed in years past. We merely hope that the day may not come when college spirit will disappear entirely under the hands of those who too vigorously wish to promote it further.

Miscellany from Other Colleges

Dr. Clarence C. Clark of New York University appeared on the first educational television broadcast ever sent over the airwaves.

To complete all of the courses offered by the University of Illinois would take one individual at least 150 years.

Alabama Polytechnic Institute sororities recently staged a Go-to-Church contest.

Jim, an Ohio Wesleyan University employee, has been caretaker of the college swimming pool for 20 years.

"College Bred, or the Four Year Loaf" was the title of this year's campus musical at Wesleyan University.

The Kappa Kappa Gamma sorority soft ball team defeated the Sigma Chi fraternity team at the University of New Mexico.

"Not to Bedazzle" is the title of a new book of poetry on college life written by Vance Ludwig, Miami University student.

Students of Lincoln Memorial University have organized an "Association for the Advancement of Arms" with the slogan, "More Killing and Less Mangling."

John Fletcher College students were dismissed from classes recently to spend a day destroying the dandelions on the campus.

Lynx Chat

Now that the grass has grown over the holes so carefully dug by some students last year for others to stumble into, the students are cordially invited to loll around (in couples) so that his column will have something to gossip about. Therefore our motto this year will be "People who live in glass houses should dress in the basement." In other words, may the worst never fail to happen. Having stated our policy, off we go on a gala opening spree . . .

Gerry Allen wears a long face these days. That Bratton must be some guy. She told a certain young man way back last July that she was dated up until school started. She has a date for the Sewanee game, too—see? . . .

'Tis rumored that Thrace Ramsey from Blytheville and Curtis Miles from Keiser will set many a freshette's heart a-flutter this year. . . . The love bug bit a certain SAE pretty hard. . . . C. Hollinger, possessor of his pin, speaking in riddles, says, "This is not an SAE pin, but an SAE's pin." We don't understand either. P.S. He gets only one date a week, so we hear. . . . In case there are a few who don't know what all Memphis knows—here goes: Blondie Bray plus orchids has been seen at the roof with the star of the Overton Park Operetta—Alexander Gray. . . . Said Jane to an admirer, "Please do not break. Alex and I wish to be together as long as possible, for he leaves soon." At least that's the way the story goes as told by ear-witnesses. . . . What strange attraction has Helena, Arkansas, for Susan O'Brien, Toni Noce, Harriette Hollis, and Frances Ackers? . . . We hear that Polk Agee (better known as "Bunny" to his friends) will have his one and only Dot Lee Waller here this year where he can keep his eye on her. . . . The woman-hater, Ed Martin, has fallen for Jeanne Reeves, a freshette, already.

With so many new "campus cuties" waiting to take over the field of romance, "yours truly" feels that it is only fitting to pay tribute to some of our most gallant and enduring romancers. . . . Heading the list are Steve and Margaret who are "too, too devoted". Honors also go to Elizabeth and Jim who seem to have taken a new lease on love. . . . This Ricker-Wallace affair may be more serious than we think. We hear "Kick" has entered business school! . . . From all reports "Droop" won't be too sad when a certain pair of underwear (B.V.D.) hies off to school. . . . Could a certain Westpointer have anything to do with Frances Manire's decision to go to school in New York? . . . Our dashing young president seems to have fared badly this summer. Too many blondes was his trouble. Remember the old saying, Henry: "You can't have your cake and eat it, too." . . . Glimpsed "Kite Morton", graduated but not forgotten, with Letty Brooks the other night. . . . Alice Hagler and Sam Hill found moonlight picnics lots of fun this summer. . . . Daytona Beach was very popular with Breytspraak, McKay, Ann Potts, Marjorie and Louise Jennings, Elizabeth and John Ricker all there at one time or another and all having a whirl. . . . Carolyn Carroll is moving to Jackson, Tenn. Looking at it philosophically we should say, "Our loss is their gain". . . . Speaking of moving: Charles Blackburn is planning to take up his abode in Nashville. Oh, woe is Mary!

College Health Survey Shows High Rates Of Deficiencies

WASHINGTON, D. C.— (ACP) — Startling deficiencies in the health programs maintained by U. S. colleges and universities were revealed here last week in a survey report issued by the American Youth Commission.

The survey of 4,716 students in 35 colleges conducted by Dr. H. S. Diehl of the University of Minnesota and Dr. C. E. Shepard of Stanford University revealed the following facts:

Approximately 30 per cent are under standard weight by 10 per cent or more and more than 5 per cent are overweight by 15 per cent or more.

Eleven per cent of entering students have uncorrected or poorly corrected visual errors.

One-third of all entering students are infected with tuberculosis, but the incidence of syphilis is but three-tenths of 1 per cent.

A small per cent of the colleges are properly protected against epidemics, and a small proportion make regular inspection of student rooming houses.

Exactly 165 U. S. colleges and universities had artists on the program of a recent folk festival program in Washington, D. C.

Band Gets New Uniforms

Professor Tutthill Calls for Players in Membership Shortage

"Everyone on the campus who can blow a horn should join the band", says Prof. Burnet C. Tutthill, director of music. "This year there is a pressing need for more cornets and clarinets", he continues. With the new uniforms, the band has been practicing daily and shows promise, despite lack of members. The new uniforms, secured by the Athletic Association, are of military cut with Sam Brown belts and caps, in contrast to the former Cossack costumes.

Freshmen who have already enrolled for the band this year are Drury Fish, Ned Hermann, Herman Crowder, William Anderson, and John Arnault.

Book Reviews

OUR TOWN, by Thornton Wilder.

"It is the life of any town, of any human from the cradle to the grave", John Anderson in the Journal American says about "Our Town", a play by Thornton Wilder. It depicts the life of a New Hampshire village with its humor, picturesqueness and pathos set against a background of centuries of time, social history, and religious ideas. Everyone who has seen Our Town will want to read it in book form; those who do not have an opportunity to see it will find a moving story with overtones of great beauty and understanding.

JOURNEYS BETWEEN WARS, by John Dos Passos.

For those to whom Travel is the height of happiness the book by John Dos Passos will be very interesting. Alone among U. S. writers John Dos Passos has taken as his subject the whole U. S. A. and attempted to organize its chaotic, high-pressure life into an understandable artistic pattern.

NEW ORLEANS CITY GUIDE, by American Guide Series.

A boon to visitors on a one night stand or residents of a long standing, here is the perfect guide book of New Orleans. It tells everything there is to know about the city, what to do, what to see, where to go, and what happened there. It describes and gives the history of every section and covers the nearby country side in a series of automobile tours. It's a veritable encyclopedia of valuable information in an attractive form with nearly one hundred illustrations and a large color map. Just the thing to take along to the Loyola game.

LAND OF THE FREE, by Archibald MacLeish.

Here is a combination of pictures and poetry presented in a totally new way. On the right side of the page appear pictures taken from the Resettlement Administration—of places such as small towns, prairie land, rivers, forests (for the background), or of people, faces of farmers, shackers, migrants, negroes, children, all reflecting a great part of the American people (these for the foreground). On the left hand page Mr. MacLeish's new poem provides a sound track to accompany the picture. The underlying theme has to do with liberty in America—land of the free. The original idea was to write some sort of text to which the photographs might serve as commentary. However, so great was their power and vividness that the order was reversed. The result: a book of photographs, illustrated by a poem; picture and sound track woven together by a theme of mounting intensity closing on a memorable note.

Flower Note: Columbia University, early in May, had in bloom on its campus 30,000 irises of 50 varieties.

REPORTER BRINGS BACK TALES AFTER VIEWING NEW STUDENTS

After stewing over the idea of starting to school in scorching weather, we have something new to protest over in the sudden coolness which finds us unprepared in the way of fall clothes. But taking everything as philosophically as possible, we lounged around the campus Wednesday and Thursday meeting freshmen.

Celeste Taylor, who has just returned from Europe, was getting oriented in company with Lucille Tobey, Kitty Bright Tipton, Cary Eckert, and Joye Fourmy were most always together, as were Jeanne Reeves, Elizabeth Greer, and Mary Jane Maxwell.

In the dormitory we have met Irene Rhea and Nena Williams, both from Arkansas and, incidentally, roommates. Loyd Talley, we hear, is a Chi Omega transfer from Ole Miss. Marjorie Moorhead, after following in sister Meredith's footsteps and winning the reporter's prize at the Press Convention here last spring, has come to join Meredith and brother Billy.

Instead of making the same, and

now stale, mistake of taking new professors for freshmen, we reversed the process, and took Freshmen Baker and Bradford for professors.

We will not call names this time, but we can't help mentioning the freshette who left chapel Wednesday morning with one of the hymn books under her arm and then nearly trembled herself to fragments for fear some one would accuse her of kleptomania. And then the freshman who, with traditional greenness, searched frantically all over the campus for his laundry. Finally it was found—by his door—neatly wrapped and marked with his name. Said he, as the light dawned, "Well, no wonder I couldn't find it. They went and wrapped it up."

Night Classes To Begin On Monday

College Extension Division Plan New Courses, Expects Larger Enrollment

The Southwestern extension course night classes will open Monday, September 19. The enrollment up to date is very promising, says Miss Annie Beth Gary, registrar, and plans are being made to accommodate a larger group than last session. Courses being offered this year include intensive business training in addition to the regular classes in economics, English, Spanish, French, and German.

Though these classes have been held for the past several years, this is the first time the college has offered such a complete course in business training. With the aid of a group of Memphis men, headed by P. K. Siedman, the faculty prepared these additional courses to meet the need that exists in Memphis and the surrounding territory for thorough, intensive, and well-taught courses in those subjects that will train proficient accountants and business men.

The curriculum consists of four year courses requiring attendance on Monday and Thursday nights from 7 to 10:30 with sixty semester hours necessary for Southwestern's certificate in accounting, or in business. Regular college students may attend these classes, but they are primarily intended for those who have completed high school and have no college credit.

Members of the faculty of the extension division are Prof. Ralph C. Hon, economics; Prof. Charles G. Siefkin, public speaking; Prof. C. P. Lee, English; Prof. W. R. Junkin, accounting; Prof. M. E. Porter, Spanish or French; and Prof. Wolfgang Paulsen, German or French.

Dr. Charles E. Diehl heads the administrative officers, with Prof. Robert S. Pond as acting director of the Extension Division and Dean A. Theodore Johnson, Prof. D. M. Amacker, and P. K. Siedman on the board.

IN MEMORIAM

THOMAS HENRY TUTWILER 1866-1938

Southwestern has suffered an irreparable loss in the death, on September 3, 1938, of Mr. T. H. Tutwiler, Director, member of the Executive Committee, and Treasurer of Southwestern for the past ten years.

Mr. Tutwiler was interested in and identified with Southwestern long before he became officially connected with the college. He was one of the many farseeing, public-spirited citizens who from the first saw the need of having in Memphis an outstanding liberal arts college, and who labored faithfully to bring Southwestern to Memphis. He gave liberally of his money, his time, his influence, and his personal service in every campaign during the past eighteen years. When in 1928, upon the nomination of the Executive Committee, he was elected as a director by the Synod of Tennessee, which position he has held continuously since that time, he gave himself to the work of the college with renewed and increasing devotion. The progress and development of Southwestern became his ruling passion, which was strong even to his death.

Mr. Tutwiler's prominent position, his well known integrity of character, his recognized business ability, coupled with his retirement in 1930 as the active president of the Memphis Power and Light Company, which enabled him to give a large part of his time to the interests of the college, made it possible for him to render a very unusual service. He was a man of strong convictions, and he had the courage of his convictions. He was an alert, keen business man, but always fair and courteous and kind. He stood for economy, but he was never small or mean, nor did he have any patience with underhand methods.

He believed in sound Christian education, and in the things for which Southwestern stands—genuineness and excellence. He looked forward hopefully to that day when the Presbyterian Church, to which he was devoted and in which he was a deacon, would recognize the value to itself and to this section of this college which he loved, and would provide adequately for its well merited support.

We deeply sympathize with his loved ones, and we want them to know that we are sharers with them in his loss. Adopted by the Board of Directors of Southwestern at its annual meeting on Tuesday, September 6, 1938.

Progress Note: An Alfred University scientist is working to develop a stingless bee. He has already produced a bee so gentle he has a hive of them in his dining room.

Band Leader

HERMAN WALDMAN

—Courtesy The Press-Scimitar.

opened September 10 for dinner and supper dancing nightly on the Starlight Roof Garden of Hotel Claridge.

Waldman has, in his nine years of baton waving, played many engagements in the South. A few of them are the Gunter Hotel in San Antonio, the Rice Hotel in Houston, and the Baker as well as the Adolphus Hotels in Dallas. He has also played at the Cosmopolitan Hotel in Denver, the Meadowbrook Hotel in St. Louis and other leading locations.

His vocalists who provide the songs and the entertainment are Dale Evans, Gene Harvey, Frank Manaco and Barney Dodd.

Torch Selects 5 Senior Women

Wells, Beasley, Pond, Fowler, Bray Are Honored By Society

Five senior women, Betty Wells, Rachel Beasley, Harriet Pond, Betsy Fowler, and Jane Bray, were tapped by Torch Society at a service held during the last week of the 1937-38 school year. The society is an honorary organization formed to recognize women students who have attained a high standard of leadership on the campus, and to bring together the most well-rounded, representative women on the campus.

Members are required to be in the upper fifty percent of the school in scholarship rating. Offices are awarded according to the highest number of activity points. For the coming year Betty Wells will be president, Rachel Beasley vice-president, and Harriet Pond secretary-treasurer.

Betty Wells, president, is a member of the Christian Union Cabinet, president of the Women's Panhellenic Council, president of Chi Omega sorority, treasurer of the Y. W. C. A., secretary-treasurer of the Honor Council, a member of Alpha Theta Phi, honorary scholastic fraternity, and of S. T. A. B., intersorority group.

Rachel Beasley, vice-president, is president of the Women's Athletic Association and of the non-sorority group, secretary-treasurer of Alpha Theta Phi, a member of the Elections Commission and of Y. W. C. A.

Harriet Pond, secretary-treasurer, is also the secretary of the Christian Union Cabinet, vice-president of the Y. W. C. A., and a member of Chi Omega sorority.

Jane Bray is the vice-president of the Women's Panhellenic Council, president of Kappa Delta sorority, a member of the Y. W. C. A. and vice-president of the Women's Undergraduate Society.

Betsy Fowler is secretary of the Women's Panhellenic Council, president of the Y. W. C. A., president of the Women's Undergraduate Society, and of Alpha Omicron Pi sorority, a member of the Student Council, and of the Spanish Club.

Plans for the erection of 12 (count 'em) new dormitories are being discussed by Texas A & M College authorities.

CAMPUS GREEKS PREPARE TO LURE UNSUSPECTING FROSH

"If freshmen come, can rushing be far behind", is an old and time-tested axiom, and the arrival of those beaming faces finds the campus Greeks scurrying about, putting the final touches on the fraternity and sorority houses before the rush begins.

The Tri-Delt's seem to head the list by virtue of the most results. A newly redecorated powder room set off by a blue sofa and a rose dressing table is the main feature. The living room displays a new rug. The Chi O.'s and A. O. Pi's have new slip covers for their sofas and their floors, done over during the summer, are all ready for those fall house dances. The Kappa Delta and Zeta houses show the result of much "elbow grease" and like the others, have been cleaned, polished, and scrubbed till they shine. It looks as though the little freshettes will be properly impressed by the sorority row.

Now to the men! The old saying that "every house needs a woman's touch" is quite unnecessary on this campus, for all the boys have worked

hard and their houses are really gleaming. The K.A.'s have a new hardwood floor and a newly-installed bathroom. Besides having waxed and painted extensively, they now display an original oil portrait of General Lee above the mantelpiece. On each side of the fireplace are crossed Civil War muskets. The S.A.E.'s and Sigma Nu's have bent their manly backs this summer and the houses show results. The S.A.E.'s especially have outdone themselves because sometime soon the Grand National Chapter at Evanston, Ill., will present them with a picture of the founders of Tennessee Zeta.

As everyone has watched with interest the progress of the A.T.O. and Pi K.A. houses all summer, it is useless to say that they are both nearing completion and will complete the fraternity row. Last but not least, we mention the Kappa Sigma house which has been freshly painted within and newly terraced without. Additional shrubs have been planted and a rock garden adds much to the general appearance.

Who's Who on the Campus

President of the Student Body—Henry Mobley.
Vice-president—John McGrady.
Secretary-treasurer—Marjorie De-Vall.
Junior Class—J. P. Cavender.
Sophomore Class—Bernard Lockridge.
President of Omicron Delta Kappa—Sam Hill.
Christian Union—George Jackson.
Honor Council—Warren Prewitt.
Men's Panhellenic Council—Steve Frazier.
Women's Panhellenic Council—Betty Wells.
Alpha Theta Phi—Thomas McLe-more.
Women's Undergraduate Society—Betsy Fowler.
Student Service Club—William Kelly.
Editor of the Lynx—Frank Campbell.
Editor of the Sou'wester—William McBurney.
Editor of the Journal—George Jackson.

Football Captain—Orley Nettles.
Alternate Captain—Gaylon Smith.
Y.W.C.A. President—Betsy Fowler.
President of Men's Bible Class—George Humphrey.
President of Torch—Betty Wells.
President of Women's Athletic Association—Rachel Beasley.
President of Episcopal Club—Shepherd Tate.
President of Ministerial Club—Bruce Crill.
Business Manager of Sou'wester—Charles Freeburg.
Business Manager of Lynx—Shepherd Tate.
Vice-President of Senior Class—H. R. Holcomb.
Secretary of Senior Class—Jane Bray.
Vice-President of Junior Class—Charles Perry.
Secretary of Junior Class—Jo Meux.
Vice-President of Sophomore Class—Joe Sarafian.
Secretary of Sophomore Class—Mary Elizabeth Harsh.
Elections Commission—Herbert Bingham.

WORLD'S LONGEST MOVING STAIRS

NEW YORK.—The two longest moving stairways ever built are to convey visitors fifty feet above the ground to the entrance to the giant Perisphere of the New York World's Fair 1939. Within this 18-story steel-ribbed sphere they will find two "magic carpets"—great rings seemingly unsupported in space—slowly revolving in opposite directions one above the other. From the "carpets" they will look down upon a model "City of Tomorrow" and its environs, viewing it from noon to night in all its beauty of color, its lights and its changing shadows.

How-to-Succeed Note: Dale Carnegie, friend winner and people influencer, says you can influence college professors "the same way as any other person. The laws work for them, too. Try thinking of their best points, then honestly but subtly compliment them. I don't however, advocate bringing an apple."

Musical Library Granted College

Electric Automatic Phonograph To Be Installed In New Band House Wing

With the completion of the addition which is being built to the Band house and the installation of a new electric automatic phonograph, Southwestern students will have access to the world's outstanding music from an extensive library of records given to the college by the Carnegie Corporation of New York.

The library consist of 953 records, 50 musical scores, and 104 volumes on musical subjects, and together with the phonograph is valued at from \$2500 to \$3000. Southwestern applied for the gift four years ago and this summer Dr. Charles E. Diehl and Prof. Burnet C. Tuthill were notified of the grant.

Student librarians will be in charge of the library, issuing records and operating the machine. At certain hours, to be specified later, the library will be open to all students who wish to hear and study the music in which they are interested.

For several years the Southwestern record library has been growing steadily and at present contains over 300 records which were bought or are from Prof. Tuthill's private collection. These records have been selected in view of the grant, so there are few duplications. The entire collection totals over 1300.

Since it has been developed, the Carnegie collection, selected by noted musical educators and musicians, has been constantly revised, and producing companies have cooperated so that it includes special advance pressings of new recordings that have not yet reached the market.

Prof. Tuthill announces that he is now making plans for evening concerts of records to be selected from the library.

SAE's Give Party For New Freshmen

Dinner and Dance Mark Close Of Summer Rush Season

The Southwestern chapter of Sigma Alpha Epsilon fraternity and the Memphis member of the University of Tennessee chapter were joint hosts at a dinner and roof party Tuesday night, which marked the close of the summer rush season at Southwestern and inaugurated a week of fraternity parties at the University. Quiet season began Tuesday midnight to continue during freshman matriculation and until the opening of the official college rush season next week. Freshmen entering the two schools this fall were honored guests.

The Sigma Alpha Epsilon lodge presented an attractive setting for the stag dinner party which began at 7 o'clock. The lighted fraternity pin hung in the alcove at one end of the living room. Purple and gold were featured in the table decorations with purple asters and marigolds as a centerpiece.

H. R. Holcomb, president of the Southwestern chapter, was assisted in receiving by the other officers: Frank Campbell, vice-president; Newton Jones, treasurer; and Dan Carruthers, warden.

Marital Note: The director of the Chicago Association for Child Study and Parent Education approves college "date bureaus" for a new reason: They help promote wholesome social contacts and are an agency for reducing the number of divorces in the U. S.

Lynx Complete Third Week Of Steady Practice

Will Make Debut Against Union In Jackson

SMITH IN BACKFIELD

Squad Reported In Good Shape Despite Injuries

With three weeks of practice under their heat-shrunken belts, Coach Ed Kubale's bounding Lynx Cats are whipping into first-class shape for the gruelling pigskin drive that lies ahead.

Injuries to key men, among them Rex Wilson and Ikey Orenstein, have bothered Kubale but little in his plans for the season's opener against Union University next Friday night. Wilson, Orenstein, and Clois Neal, the squad's three quarterbacks, have all been ailing during the three weeks of practice but all should be in form for the Bulldog encounter.

Captain Orley Nettles and "Red" Bergfeld seem to have clinched the starting end assignments with Tony Canzoneri, Virgil Cox, Harold Jones, and Skinny Roth sure to see plenty of action throughout the season.

At the tackles Oney Ellis and Doyle Fuller seem to be holding sway over Charlie Gardner and Bob Porter. In the guard slots, there is a merry battle with John Proctor Knott, "Ape" Cavender, "Doc" Dabbs, O'Neal Williams, and Frank Morgan fighting it out. According to Kubale, the guards are not developing as fast as the rest of the team.

At center, the Lynx have elongated "Hawk" Self (once christened Levon) and the hard-hitting Harry Morris.

In the backfield, the celebrated Gaylon Smith continues to bull his way over and under and through the frosh and the scrubs. Smith, who last Fall confined most of his activities to packing the pigskin, will be called on for much of the passing and some of the punting this year. Bernard Lockridge will be counted on to shoulder most of the punting burden, but Smith and his heavy brogans will be around when needed.

Lynx 1938 Schedule

September 23—Union*	Jackson, Tenn.
September 30—Sewanee*	Memphis
October 8—Centenary	Memphis
October 14—Chattanooga*	Chattanooga
October 22—Birmingham-Southern	Memphis
October 28—Loyola*	New Orleans
November 4—Murray Teachers	Murray, Ky.
November 12—Millsaps	Memphis
November 19—Mississippi State	Memphis

*Night game.

Frosh Eleven Will Play Four Games

Goodman Junior College First; Ole Miss, State Teachers And Union Bullpups

Four games have been scheduled for Southwestern's Bobcat eleven, announced Thursday. The yearlings open the season next Friday against Goodman Junior College and tackle the Ole Miss, State Teachers, and Union frosh in later games.

High has 21 men to pick from in choosing a starting line-up against the Junior College men. The squad has been shaping up and toughening up against the varsity in daily scrimmages and shows promise of rounding into tiptop form for the game.

Listed on the frosh roster are: Peek, Underwood, Andrews, Conn, Waller, Ellison, Goodrich, Reed, Laird, Williams, Hoard, Rutherford, Heaton, Anderson, Cast, Willey, Bailey, Hamilton.

RAINBOW COLORS AT FAIR

NEW YORK.—The main transverse thoroughfare of the New York World's Fair 1939, sweeping in a long, wide arc across its northern part, is called Rainbow Avenue. Its name comes from the unique color and lighting scheme. Buildings on the right of the Theme Center will, by day, be blue. The color will merge into purple toward the Central Mall, where it will swing into red. Toward the left, red will turn to orange and on the far left yellow is to predominate. Colored floodlights are to carry out the same color scheme at night.

WINFREY RETURNS

Will Rhea Winfrey, out with a broken leg last season, will handle the fullback post this year with Ed French giving him strong support. Winfrey will be used mostly as a blocking back but can be depended on for flashy aerials and long-distance kicking when in need.

INTRAMURAL BOARD MEETS

The Southwestern Intramural Board will meet in Coach Paul Hug's office Wednesday afternoon at 1:30, when the program and rules for this season will be drawn up. Intramural managers from each fraternity and the non-fraternity group with Coach Hug comprise the Board.

EPICURES AT NEW YORK FAIR

NEW YORK.—The bill of fare available at the New York World's Fair 1939 will provide the visitors with a veritable gastronomic trip around the globe. A score of foreign nations intend including restaurants in their national pavilions. France, for instance, will offer to the gourmet a canard nantais a l'orange; Belgium is to specialize in Flemish and Walloon dishes, with delicacies cooked in fig leaves; Cuba will have arroz con pollo; Mexico, tamales, frijoles and baked pig; Rumania, a wide range of game; Russia, blinis and kasha; Brazil, colorful assemblies of tropical vegetables. Did anyone call the waiter?

TREASURED 5,000 YEARS FROM NOW

NEW YORK.—Five thousand years from now, archeologists will be able to dig deeply into the grounds of the New York World's Fair 1939 and unearth a metal cylinder 7 feet in length and discover within it a "cross-section" of today. Scientists are busy now in assembling the varied contents of this receptacle, to include microscopic books, records of scientific engineering, industrial, social, religious and philosophical achievements. Motion picture film will tell people of the 70th century—if they find the capsule—how those of the 20th looked, dressed and behaved.

PAPER TRY-OUTS

Students interested in working on the Sou'wester come to the paper office Monday afternoon for assignments.

THIRTY MILLION "HOT DOGS"

NEW YORK.—Thirty million frankfurters and hamburgers will be eaten next year at the New York World's Fair 1939 at the 70 to 80 stands to be erected in the Fair grounds. That number of frankfurters and hamburgers, if strung into a rope, would reach across the Atlantic from New York to London. The meat in them would fill 187 refrigerated freight cars.

This Fall You Will Eat 90 Lunches

Ever stop to figure how much time and money three months of lunches represent? Plenty! Well, suppose there were a place with (1) moderate prices, (2) snappy service, (3) delicious food, (4) plenty of parking space! You'd clip minutes off each lunch hour, save money, too. Wouldn't you? Ever heard of
