EXAMS

The exams will cover the material assigned and discussed in class. The exams will include questions in multiple-choice, short answer and problem format. The final exam will be a combination of problem sets and discussion issues. Prior to each exam, we will discuss the format and the information that I anticipate each exam will cover.

ATTENDANCE POLICY

Attendance is very important to gaining an understanding of the material. More than two unexcused absences will negatively affect a student's grade.

MATERIALS AND PREPARATION

There will be a reading assignment and homework from the selected problems in the textbook for each class. The class will discuss many concepts in depth but we will cover only the highlights of other concepts so that you will be familiar with the terms if the issue arises in the future. Students are encouraged to participate in class discussions. Periodically, I will assign cumulative problem sets and research assignments which will be a reflection of what has been covered in class and will emphasize application of tax concepts to complex tax scenarios. Students should feel free to ask questions either during class or after class when they do not fully understand a concept.
