delay the trial until '69.

The Senate trial is expected to be
held in the fall of this year, but the Supreme Court's decision

Face Lifting Ordered By W. A. For NATO Defense Organization

By R. G. WILFORD

Washington — The Defense Department proposed a major restructuring of the North Atlantic Treaty Organization for the first time in its 20-year history, and President Johnson said today that it would be considered by NATO at its meeting in Paris.

The defense department did not indicate what specific proposals it would make, but the plan was based on the assumption that the United States would be asked to shoulder a larger burden of the defense costs in the NATO countries.

"The United States is already bearing a great deal of the burden of defense in Europe," Mr. Johnson said. "There is, therefore, a question of whether the United States should continue to bear the burden of a large proportion of the defense costs in NATO countries while the other countries contribute only a small share of the costs.

"If the United States is asked to continue to bear a large proportion of the defense costs in NATO countries, then the United States must also be willing to contribute a larger share of the defense costs in NATO countries.

"It is important that the United States be able to continue to bear the burden of defense in Europe, but it is also important that the United States be able to continue to bear the burden of defense in the United States.
