BOOKER T. WASHINGTON HIGH WINS BLUES BOWL GAME HERE

W. C. Handy, 5 Bands, Elk Units—All Add To Spectacle

With the most spectacular build-up in the history of the annual Dixie Meet, the renowned Memphis blues bowl game was lit up Monday night at the Cotton Bowl. The evening was capped by the attendance of Governor A. C. McRae, who presided over the ceremonies. The game was highlighted by the presence of W. C. Handy, a native of nearby Clarksdale, Mississippi, who is considered the father of the blues. He was accompanied by five bands and an Elk unit, making for a grand spectacle.

The game was played on the field at the Cotton Bowl, and the crowd was estimated at over 25,000 people. The game was a thrilling spectacle, with the crowd cheering and singing along with the music. The Governor's appearance added to the excitement, and the play was of the highest caliber. W. C. Handy's contribution was particularly impressive, as he performed several of his classic songs.

The game ended with the presentation of the Governor's Cup to Booker T. Washington High School, who came out on top with a score of 31-17. The school was justly proud of its victory, and there was a tremendous amount of spirit and energy on the field.

The evening was not just about the game, however. The Governor also met with a group of students before the game, and there was a reception for him at the Cotton Bowl.

The Governor's Cup is a testament to the high standards of sportsmanship and excellence that are upheld at Booker T. Washington High School, and the school can justifiably be proud of its students and their accomplishments.

The game was a resounding success, and it was clear that the Governor's presence added a significant amount of drama and excitement to the proceedings. The Governor's Cup is a symbol of the school's ongoing commitment to excellence, and the students and faculty can justifiably be proud of their achievement.

Fatigue, A Beauty Threat

By HELEN JAMISON

All tired women ought to know how to work. Some are weary because they have no special aim in life, feel useless, or are lonely. Others are so tired because they work too hard, get up too early, or stay up too late. You can't be lazy if you're tired. Relaxation is necessary.

There are no tricks of chronology in the world. All women are tired at some point in their lives. The only thing that's left is to be BLESSED with endurable fatigue. Why don't we call them "tired" instead of "fatigue"? It's more pleasant.

Having its reputation some 30 years ago as a "normal school" to take care of the pressing need for Negro teachers of the time, Tennessee A. and J. State University has witnessed sufficient growth over this period of time.

The institute has advanced much more than the basic for the improvement of education in the South. As a result, the administration of the college has seen that the institution is ready for larger and more complicated undertakings.

According to Dr. Walter B. Duncan, President, the Board of Directors has given its approval for the purchase and development of the College of William and Mary, a private college located in Williamsburg, Virginia.

The move is expected to bring about a tremendous increase in the enrollment and the facilities of the college. It is hoped that the college will become a national institution as well as a state college.

EX-CAPSIDE AIR SHOT DOWN IN GANDANSE STYLE—Following the gangland shooting of his wife, Mrs. June Runell of Chicago, Illinois, last month, Chicago mobster Al Capone was shot down by a gangland hitman.

On September 19th, Capone was shot multiple times while seated in his car. The hitman, using a .45 caliber automatic pistol, fired several shots before fleeing the scene.

Capone, who was过错ly wounded in the attack, was rushed to the hospital where he underwent emergency surgery. He is currently in critical condition and is undergoing intensive care.

The attack is believed to be a response to Capone's recent decisions in the gangland war, which has resulted in the deaths of several of his associates.

VICTORS OF GANGLAND SHOOTING—Al Capone's relatives and friends are pictured here at the hospital where he is recovering from his injuries. His family is hopeful that he will make a full recovery.

The attack on Capone has sent shockwaves through the Chicago mob, as it marks the first time a high-ranking member of the organization has been the target of a hitman.

Capone is being treated by a team of top surgeons, who are working around the clock to save his life.

The incident has sparked a wave of fear and paranoia among the mob figures, as they realize that anyone could be a target in their violent world.

Capone's relatives have called for the appointment of a new FBI director and the cracking down of organized crime in the United States.
Report Of Police On Stork Club Branded As 'Whitewash'

NEW YORK—The police report exonerating the Stork Club of any wrongdoing in the Josephine Baker incident due out this week by Thurgood Marshall, special counsel of the National Association for the Advancement of Colored People, as "inaccurate and shameless whitewash of the long established and well known discriminatory policies of the Stork Club."

At a press conference, Mr. and Mrs. John Robert Briscoe, Mrs. Helen Johnson, and Mrs. Charles Johnson, who were the only blacks to be permitted to enter the Stork Club during the Josephine Baker incident, urged a thorough investigation of the incident. They also asked that the Stork Club be investigated by the New York State Police for potential violation of anti-discrimination laws.

SAINTS GIVE LESSON IN PROGRESS
Meeting in Memphis for its 44th annual Convention, the
General Convention of the Methodist Episcopal Church
said that the Negro Christian should not be limited to

Absence of leaders.-The General Convention of the
Methodist Episcopal Church, which held its 44th annual
Session in Memphis, said that the Negro Church should
not be limited to the status quo. It recommended that the
Negro Church should "move on" toward progress and not
"settle for less than Jesus."

Justice Should Be Done
The shooting of an unarmed Negro, accused of a
murder by two policemen, was fully investigated by
the city officials. The inquest and the complaint
were made by the Negroes. In the next few days
more reports were made. In Memphis, the
insurance company said that the Negro was
not guilty in the shooting. The Negro was
freed by the Negroes. It was a
tragedy in the process of preparing the
Negro to be a free and equal citizen of the
world.

Cooperation Between North And South
North and South are natural political allies, and
there is nothing for them to fear from the
United States. The North and South can be
united in a single, just and moral minority, without
the intervention of a third party. The
number of people who go to war is
limited by the number of people who
vote for it. It is a mistake to think
that this will happen in the future.

Executive Order First issued by President Roosevelt, which
was intended to change the world, was
issued on November 15, 1933. This order, which
provided for the appointment of a
commission to investigate the conditions
under which contracts were made, was
a step in the right direction. But, it
is not enough. More must be done.

Fuller Job Opportunities
President Truman issued a new executive order
which is likely to be as important as
the previous one. This order, which
provides for the appointment of
commissioners to investigate the
conditions under which contracts
were made, is a step in the right
direction. But, it is not enough.

The President and Employment
Discrimination in employment has long existed as
one of America's greatest wrongs and a blot on the
principles of a democracy. Until this practice is fully
abolished, America will always have trouble solving the
rest of the world's problems. This order, which
provides for the appointment of a
commission to investigate the conditions
under which contracts were made, is a
step in the right direction. But, it
is not enough.

The morning of the 20th is the day upon which
the government contracts to the line when it comes to
agreeing to a contract. This order, which
provides for the appointment of a
commission to investigate the conditions
under which contracts were made, is a
step in the right direction. But, it
is not enough.
