e-mail: gramm@rhodes.edu
Office Hours: TuTh 1:00-2:00 W 10:00-11:00
Feel free to call or email at anytime (except an hour before assignments are due)

Text: Wooldridge, Jeffrey M., *Introductory Econometrics: A Modern Approach*, South-Western College Publishing, 2003

Major Topics: I'd like to cover the first nine chapters of Wooldridge, which will give you a thorough understanding of regression analysis with cross-sectional data. Time permitting we'll cover limited dependent variable models and panel data.

Exams:

Exam #1	Thursday, September 30 th	(25%)
Exam #2	Thursday, November 11 th	(25%)
Final	Monday, December 13 th 1:00pm	(25%)

The two midterm exams will be part take home and part in class.
The final will be in class.

Homework: Applied problem sets analyzing data with STATA will be given over the course of the semester. Each assignment will generally be due one week from when it is assigned. Discussion between students about homework is permissible and encouraged. Homework is worth 25% of the final grade and is due at the beginning of class. Ten percentage points per day will be deducted for lateness. You are allowed and encouraged to work together on assignments. You may not use homework or exams assigned in previous semesters and doing so will be deemed a violation of the honor code.

Attendance Policy: While I do not require attendance, I do expect you to come to class on time and forbid you from leaving early without notifying me in advance.

Academic Dishonesty: Any evidence of academic dishonesty may result in your failure of this course.
